ABELS (American), postage stamps.

L a c e (popular), spirits.

He got royally blind, showed a liking for lace.—Bird o' Freedom.

Laced (old cant), sugared, as laced coffee.

Laced mutton, used by Shak-speare (Two Gentlemen of Verona). Vide MUTTON.

Lacing (popular), a beating.

Ladder (common), "can't see a hole in a ladder," said of one who is intoxicated.

Ladies' grog (common), hot, strong, sweet, and plenty of it (Dickens).

Ladies' Mile (society), Rotten Row.

Ladle, to (theatrical), to speak the text in a pedantic and pretentious manner, i.e., to "ladle it out."

Lad of wax (thieves), shoemaker.

Ladroneship (nautical), literally a pirate, but it is the usual epithet applied by the Chinese to a man-of-war (Admiral Smyth).

Lady (old cant), a misshapen woman.

Lady-bird (common), a specially nice or dainty kept mistress. (Popular), a wanton or lewd girl.

Lady-caller (American), explained by quotation.

A lady-caller is a cultivated and presentable woman nicely dressed, who takes a salary for distributing cards for fashionable folk, and, as we presume from the accomplishments demanded of her, even occasionally makes actual calls instead of the lady who employs her, and who, by a social fiction, is supposed to be calling.—St. James's Gazette.

Lady-fender (popular), a lazy woman who gives herself airs. Chiefly used by servants in reference to a mistress who likes to sit by the fireside doing nothing.
Lady Green—Lagniappe.

Lady Green (prison), the prison chaplain.

Lag (thieves), a prisoner, convict. Vide To Lag.

Asking . . . what improvement there was in the grub at Brixton; was there going to be a war with Russia? If so, was it likely they would want the lag for soldiers.—Evening News.

An old lag, one who has been through penal servitude.

To start, I, a confirmed old lag myself, think I may say that there isn't a prison in London that I haven't seen the inside of.—Greenwood: Dick Temple.

(Westminster School), a fag.

Every morning the lag junior prepares and brings to hall the "list," which is the rota of duties for the day.—Everyday Life in Our Public Schools.

Lage (old cant), wash water, thin drink. Probably from the Gaelic and Irish lag, weak, feeble.

I bowse no lage, but a whole gage
Of this I bowse to you.
—Brome: A Jovial Crew.

This term is still used by the low class of actors. It is curious to note that laigue, in old French argot, signifies water, from the Spanish agua, with the article prefixed. But there is no evidence that the English term is from the French laigue.

Lager (American). In German lager means a resting-place, a camp; from the root legen, lay a place. Hence a warehouse where goods lie, a stock or deposit. Lager bier in Germany is stock beer, as one says stock ale in Anglo-Saxon. It was in America that the word lager was most incorrectly applied, for the first time about 1847, in Philadelphia, to German beer, to distinguish it from American and English malt drinks. All German beer is not lager, any more than all English beer is Indian pale ale or "bitter."

Und is mein sabre sharp and true?
Und is mein war-horse goot?
To get one quart of lager bier,
I'd shill a sea of bloat !
—Ballads of Hans Breitmann.

Lage, to (old cant), to wash. Vide LAGE.

Lagger (thieves), a sailor. Possibly from his way of walking. Also one who gives evidence; an informer. Vide To Lag.

Lagging (thieves), a term of imprisonment or hard labour. Vide To Lag.

Now the whole of the difference between passing a comfortable lagging and a hard lagging, is to give no trouble to the officer. I always make it a rule—don't trouble me and I'll not trouble you.—Evening News.

Lagniappe (Creole American), a trifling commission or discount.

All New Orleans grocers give to every purchaser a lagniappe. If child or servant buys five cents' worth, lagniappe is expected and given rigidly, as though so nominated in the bond. It may be sugar, or spices, or candy. If the purchaser demand quartee (two and a half cents' worth) rice and quartee beans, two lagniappe are given. There are groceries in the French quarter where the chief business of the supplemental small boy is the rolling of
brown paper sheets into cornucopias, and
the filling of these horns of plenty with
*lagniappe.*—American Newspaper.

This system is getting general
now in London for grocers to
give presents to all purchasers.
The higher the purchase the
greater the present. The prac-
tice is usual in France, and
probably in most countries.

**Lags** (American), layers of leaves
of tobacco. Dutch *laag*, a lay,
a row layer.

**Lag, to** (thieves), formerly to
transport or cause to be trans-
ported; now to send to penal
servitude or to prison.

They'll ask no questions after him, fear
they should be obliged to prosecute, and
so get him *agged.*—*Dickens: Oliver
Twist.*

A day or two after Bill returns alone.
The girl asks him where her sweetheart is.
"He's *agged," says Bill.—*Sims: How
the Poor Live.*

To *lag*, which, it is conjectured,
originally came from "*lagging,"
or tying the prisoners together,
is curiously allied to *logan*, the
right of the lord to take goods
cast up on the shore of his
manor. Also goods *tied* to a
buoy and then sunk in the sea.
In gypsy and Hindu *lagor* or
*lugarna* has the same meaning.
Compare the French cant word
"*fagot,*** for a convict, i.e., tied
up like a bundle of sticks.
Hotten suggests the derivation
from the old Norse *lagda*, laid,
laid by the leg. To *lag*, which
formerly had also the meaning
of to steal, seems to be con-
nected in the sense with the
German *lajern*, to lay, to put
away.

(Old cant), to *lag*, to void
urine. A *lagging gage*, a cham-
ber-pot. The expression is still
common among showmen and
strolling actors. *Vide Lage.*

**Laid in lavender. Vide
Lavender.***

**Laid out** (American), also Eng-
lish, but more extensively ap-
plied in "the States." Beaten,
flattened out.

Mr. M.—is horizontally *laid out.*
Nevertheless, the war taxes must go.—
*Boston Herald.*

**Laker.** Although applied as a
term of derision to Wordsworth,
Southey, and their famous
friends, because they lived in
the Lake country, the word had
been in use from time imme-
 morial in Yorkshire and Lanca-
shire, in another sense, with
reference to players. The dic-
tionaries give "*Lake*, to play,
to sport," hence *laker*, or de-
risively, "*lazy laker.*" *Lake*, a
north-country word for play, is
from Danish *lege*, to play.

One of the delicate pleasan-
tries invented at the expense of
the players in the last century,
runs as follows. When the
drum announced their advent
in the rural districts of York-
shire, the farmers’ dames were
wont to say—"Get the shirts
off the hedge, wench, for here
comes the *lakers.*"

In the year 1750, Gentleman
Holman, a famous actor and author, and the recipient of high honours from his Alma Mater at Oxford, was fulfilling an engagement at Leeds. He had dressed at his hotel for Beverley, in "The Gamester," and was attired in his court suit, with powdered hair and bag, chapeau bras, diamond buckles, &c. On his way to the theatre, in a sedan chair, the porters were stopped on Leeds Bridge, and overhauled by a gang of roughs of the period, who demanded to know who was inside. On being informed that the gentleman in court dress was a play-actor, the ringleader said to his friends—"Oh! it's nobbut a laker; chuck him in t' river, lads." Before they could carry out this laudable intention, the laker stepped out, confronted them with his rapier, which he slipped into them, right and left, sending the ruffians howling in every direction.

La-li-loong (pidgin-English), a thief, thieves.

The barber complained he had been called a la-li-loong, the pidgin-English for a thief.—Celestial Empire, 1876.

Just then he savvy la-li-loong,
Same tief-man muchee bad,
Hab wantchee kill one forigna'
An' catchee ålo had.

—Wang-ti.

Läl-shraub (Anglo-Indian). English-Hindu, läl-shraub, red wine. The name for claret in India. In English gypsy, lål or lulli-moll.

Lamb, lam, to (popular). Vide To LAMM.

Lambs (common), the roughs at an election employed to create a disturbance and break up the meetings held by and in favour of an opposing candidate. Also roughs of any kind.

The bold Bendy, who until the past year or two was notorious as the foremost "bully boy" amongst the lambs of Nottingham.—J. Greenwood: Low-Life Decks.

Lame duck. Vide DUCK.

Lammie Todd (tailors), a phrase used by tailors, meaning "I would if I could."

Lamm, to (popular) to beat, strike.

From the Icelandic hlemma, to
beat, bruise; Anglo-Saxon *lama*, Irish *lamb*, old Norse *lamr*, Hotten deriving it from the old Norse *lam*, hand. *Lam* is originally to strike with the hand. Compare *smack*, to slap, and Irish *smac*, the palm of the hand. This word is old English, and is now used only by slang-talking people.

Dauber, to beat, swindle, *lamme*—*Cotgrave*.

De vellers ash *lam* de Romans dill dey roon mit noses plue.
—Charles G. Leland: Breitmann *Ballads*.

But forty-nine more were wanted, and I was getting mad,
For I hadn't done what I wanted, which was, I'll now expound,
To *lam* the ball to a certain and distant part of the ground.
—Bird o' Freedom.

*Lamm* it on, lay it on, hit hard.

**Lammy** (thieves), a blanket. An allusion to lamb and wool.

**Lamp country** (military), walking out at night without money in one's pockets. (Thieves), to be *landed*, explained by quotation.

When I fell this time I had between four and five quid found on me, but they gave it me back, so I was *landed* (was all right).—Horsey: *Jottings from Jail*.

**Land-grabber** (common), farmer who rents a farm from which another has been evicted.

Oh, those dreadful Irish! Fiendish affair reported in *Banner*. The Coercion Bill must be pressed on at all hazards.—Funny *Folks*.

**Landlubber** (nautical), a useless long-shorer; a vagrant stroller. Applied by sailors to the mass of landsmen, especially those without employment (Admiral Smyth).

**Landsharks** (nautical), crimps, pettifogging attorneys, shop-mongers and the *canaille* in-
festing the slums of seaport towns (Admiral Smyth). Also lawyers.

**Land, to** (common), to hit, to place a blow, to fall.

And he landed the P. P. to rights, and he dodged his redoubtable digits,
And Grimthorpe cried, Go for him, G. G. I
—*Punch*.

To Mitchellise him till he couldn’t hit half an ounce, or land within half a mile of a haystack.—*Punch*.

No hand e’er had fingers like those;
But the way she has got of just clenching the lot,
And landing me hot on the nose!
—*Song: Poor Mr. Coppit*.

**Lane, Harriet** (military), preserved or tinned meat. A modern epithet on a ration now much used in campaigns, and obviously derived from the unfortunate girl Harriet Lane, who was murdered by Wainwright, and put by in a box with chloride of lime, which preserved instead of destroying the body.

**Lane, red** (popular), the throat.

**Lane, the** (legal). Chancery Lane is always spoken of by lawyers as *The Lane*. (Theatrical), a colloquial abbreviation among the employés of Drury Lane for the theatre. **Lap ears** (American University), students of a religious turn of mind are so called; also donkeys.

**Lapland** (popular), the society of women, an expression derived from the female sex being called “cats.”

**Lapper** (popular), a rare lapper, a hard drinker. (Thieves), drink.

**Laprogh** (tinker), a goose or duck; a bird of any kind.

**Lap, to** (common), to drink. (American), this word still retains many old meanings among American thieves and gamblers, or has taken new ones, such as to pick up, to take, steal, wipe out, put out of sight, drink, and
buttermilk, which, like lap, is also a term for gin. A "lap-tea" is where there are so many guests that girls sit in one another's laps, or in those of the men, or where it is done for pleasure. A "lap-ride," where the same thing is done in a vehicle. "To lap a girl." "Do you let George lap you?" "No, we only sit sideways as yet." To lap the gutter, vide Gutter.

**Lardy-da, lah-de-dah** (common), a word borrowed from the refrain of a song which was popular some twenty years ago. Applied to a fop or dandy. **Lardy-dardy toffs** (popular), effeminate swells.

**Large blue kind, the** (American). This very eccentric expression, signifying magnitude and intensity, seems to have been suggested by blue bottle flies, which are larger and more disliked than any others. **Large order.** Vide ORDER.

**Largo, largey, largo** (g soft like j) (pidgin), much, great, magnanimous, loud. Expresses magnitude or extent of all kinds.

**Lark rig.** Vide Rig.

**Larks** (American thieves), boys who steal newspapers from doorsteps.

"Boy, why don't your father take a newspaper," said a man to a small lark, whom he had just found larking his morning Tribune. "He generally does," was the reply, "but this mornin' he sent me to take one wherever I could snap it."—Tribune.

**Larky subaltern's coach, the** (military), a carriage which used to be attached nightly to a goods train, starting from the Nine Elms Station at 2.30 A.M. for Aldershot, put on for the convenience of military officers who had from various causes got benighted in London, and missed the ordinary train. Larky, as used here, is probably from the phrase, "up with the lark."

**L a r n-p i d g i n** (pidgin), learn-pigeon; an apprentice, a boy admitted by favour of the upper servants to a house that he may learn English and domestic duties.
**Larrikin** (common), a rough, a wild fellow.

And yonder yelling fools contrive
To lend some truth to Mammon's text.
The latest *larrikin* alive,
With babbling tongue and brow perplex'd,
Can help do that. —*Punch*.

Imported from Australia, where it is sometimes abbreviated to *lary*.

In your article on "Our *Larrikins*" of June 2nd, you invite an explanation of the origin of this Colonial synonym for "rough." If the common account be correct, it arose out of a misunderstanding. An Irishman, on being brought up for unruly behaviour before an Australian magistrate, excused himself by saying that he was only "larkin." Any one familiar with the peculiarities of the Irish brogue will easily realise how the two-syllabled participle was mistaken for a three-syllabled noun.—*Celt* in the *Spectator*.

**Lascar** (Anglo-Indian), originally meaning a soldier, "lashkari."
It has now become a generally used term for a Malay sailor.
In the French army the term is applied to a bold, devil-may-care fellow.

**Lashool** (tinker), nice. Irish, "lachool."

**Lass, to** (American, Western), to catch with the lasso, lariat, or reata.

Francis: *Saddle and Moccasin*.

**Last of the Barons** (legal), a nickname given to the "Baron of Exchequer" last appointed, since afterwards the Court of Exchequer was done away with, and merged in that of Queen's Bench, and no more barons would therefore be appointed.

**Last run of shad**, the (American). To say that a man looks as if he had come in the last run of shad, is equivalent to declaring that he has a very thin, wretched, forlorn, or "played-out" appearance. To be "in the last of pea-time," signifies a hard-up and poverty-stricken condition.

**Latchpan** (popular), the lower lip.

**Late-play** (Westminster School), a half-holiday, or holiday beginning at noon.

Most people are tired of waiting for the Beaver, who was put down as certain to win one of the early spring handicaps, but so far has been in lavender.—Bird o' Freedom.

(Common), laid in lavender, put away, pawned, or left in lodging for debt. From the practice of placing lavender in drawers in which clothes are kept.

Lawful time (Winchester College), at the end of "log-time," or preparation on a "remedy" or holiday, the prefect on duty calls out lawful time, as an announcement that all may leave study.

Lawn, the (sporting), Ascot Lawn.

Lay (thieves and roughs), particular business, line of work, pursuit, enterprise.

Kept a leaving shop—a sort of unlicensed pawnbroker's, you know... that was his lay for years.—J. Greenwood: Dick Temple.

A dodge, swindle.

To a constable he told the misadventure of the day,
But the man in blue responded, "It's a very common lay,
Did she talk about a child, sir?" Said the innocent, "She did.
"I thought so," said the officer—"but, bless you, that's her kid!"

—Sporting Times.

Alas, that writer kept it, too,
Reminded me of debts long due,

Then lodged me safe in Holloway
The victim of a heartless lay.

—Bird o' Freedom.

On the lay, at work.

Dodger! Charley! It's time you were on the lay.—Dickens: Oliver Twist.

In America (north-east coast), a lay is a share in a venture.

Is a layin by for him.

The glasses clinked merrily, and Mr. Bill beamed with happiness.—New York Star.

Lay over, to (American), to defeat, excel, surpass. Probably derived from wrestling.

"In scolding a blue jay can lay over anything human or divine."—Mark Twain: A Tramp Abroad.

Lay them down, to (thieves), to play cards.

(Thieves), lead, or friendly lead, a collection made for one "in trouble."

I was landed without them getting me a lead (collection). —Horsley: Jottings from Jail.

Lead or leader (Australian mining slang), a vein of gold.
The leader is the vein or deposit of gold in an Australian gold mine: said always to run north and south, which if it be true is a phenomenon of magnetism. In size, form, and value, the precious metal within a certain area will present great diversities. Sometimes the leader from which the gold is presumably discharged could be identified if it were not that specimens of an entirely opposite character embedded in greenstone, sometimes combined both with greenstone and quartz, sometimes with quartz alone. Often it is as fine as flour, again it will range from "colours" to nuggets of several ounces. It may be worth only £2, 18s. per ounce: it may and does assay £3, 18s. and £4.—Queenslander.

Leading juvenile (theatrical), the expression explains itself. Corresponds to the jeune premier of the French.

Hamlet is the "lead," Laertes the leading juvenile, and Horatio, though an excellent pal, is known as the walking gentleman.—Globe.

Leafless tree (old cant), the gallows.
Oh! there never was life like the robber's —so
Jolly, and bold, and free;
And its end—why, a cheer from the crowd below,
And a leap from a leafless tree!
—Lord Lytton: Paul Clifford.

Lean (printers), this is a metaphor used to indicate solid or bad paying work in contradistinction to "fat" or good work.

Leanaway (slangy Australian), one who is tipsy. The meta-
phor is of course from the drunkard's reeling.

Leap the book (common), a false marriage, or one which is illegal.

Leary (popular and thieves), wide-awake, knowing, wary. Leary-bloke, a knowing or artful man.

But mummery and slummery
You must keep in your mind,
For every day, mind what I say,
Fresh fakements you will find.
But stick to this while you can crawl,
To stand till you're obliged to fall;
And when you're wide-awake to all,
You'll be a leary man.
—The Leary Man.

On that sad book his shame and loss he leared.
—Spenser.

Leary cum Fitz (theatrical), a vulgar, impudent minor theatre actor, is usually described as a regular Leary cum Fitz.

Leather (American thieves), a pocket-book.

He burst out into a grin, when the magistrate, who was up to his little game, suddenly asked him if he remembered how a certain elderly gentleman had been robbed of his pocket-book while going on board a steam ferry-boat. "Don't I just remember," he cried, "how we 'lifted' the old bloke's 'leather.'"—American Newspaper.

(Football), the leather, the football.

Leather-head (Canadian), a swindler.

Now the Senator is only a leather-head, who made his pile by such and such a swindle, and the parson is a gospel-shark, or devil-dodger.—Phillips-Wolley: Trotttings of a Tenderfoot.

Leather-hunting (cricket), this term is sometimes used to mean fielding. A leather-hunting game is one in which there is much fielding to be done.

Leather-necks (naval), a term for soldiers; from their leather stock, which to a sailor, with his neck free of any hindrance, must appear such an uncomfortable appliance.

Leathers (popular), the ears, otherwise "lugs."

Leather, to (popular), to beat.

Leaving shop (thieves and others), an unlicensed pawn-broker's establishment.

Led captain, a fashionable sponger or "swell," who by artifice ingratiates himself into the favours of the master of the house, and lives at his table (Hotten).

Leer (old cant), a print, a newspaper; old English lere, to learn.

Leet jury (popular), explained by quotation.

The meddlesome fellows who had caused the disagreeable exposure were called a leet jury, whose business it was to pounce on evil-doers whenever they thought fit, once in the course of every month.—J. Greenwood: Seven Curses of London.

Left forepart (tailors), the wife.

Left-handed wife (common), a mistress. Left, or sinister, is in all languages applied to that
which is doubtful or bad. In gypsy bongo means left-handed, crooked, or evil. Compare the French "mariage de la main gauche."

The writer has heard "Look out, or you'll get leled," said by one young girl to another within a few steps of Regent Street. It is from the third person indicative present, leda; first person, iara, I take. This use of the third person for all the others is usual in posh an' posh (half and half), or corrupted Romany, and it occurs in Hindustani.

Length (theatrical), an arbitrary division of a part into so many components, after this fashion. Hamlet is thirty-seven lengths, and seventeen lines. Each length is forty-two lines.

Actors do not learn their parts, they "study" them, and they measure each part by lengths.—Globe.

(Thieves), six months' imprisonment.

Let her flicker (American), said of any doubtful issue, the simile being that of a flame flickering in a draught of air, when it is doubtful whether it will be blown out or not. It may be remarked that in American slang there is more metaphor than in that of any other country.

"Well, Uncle, how do you stand on the question of prohibition?" he called to an old darkey on the market yesterday.

"Say, boss," slowly answered the old man, "does dat probishun hev anythin' to do wid watermillyons?"

"Oh, no."

"Doan' take any off or put any on?"

"No."

"Den I'll stay home on 'leckshun day an' let 'er flicker."

Let her up! Let 'er up! (American), stop there, be quiet for an instant, hear what I have to say. This agrees exactly with the Dutch Let 'er op! Let 'er op wat ik se zeg! "Mark what I say to ye."

Let his marbles go with the monkey, to (American), an eccentric phrase derived from a story of a boy whose marbles were carried off by a monkey.

But my sanguinary hearers—let 'em try it. Dey'll find dat Yankee Doodle ain't
Let in, to (society), to cause to lose money by not very upright means; it is a common expression in society. To let in a friend is a low trick, and means to deceive, defraud, trick them.

It is their friends and acquaintances who are let in by them.—Saturday Review.

(American), to attack, beat, abuse.

"I let in to the coot about east, I can tell yer," remarked Jake. "I gave him my opinion of himself, and threw in a character, gratis, of all his relations, all the way down to his aunt's sisters."—Fireplug Moses.

Let it slide (American, of English origin), leave it to chance, leave it alone, do without it. The metaphor is of course that of watching a thing slip without attempting to save it.

Let on, to (English and American), to appear to know or to show any acquaintance with a subject with which one may be quite familiar.

Now, if I wanted to be one of those ponderous scientific people, and let on to prove what had occurred in the remote past, by what had occurred in a given time in the recent past, or what will occur in the far future by what has occurred in late years, what an opportunity is here! Geology never had such a chance, nor such exact data to argue from.—Mark Twain.

Also to admit, as, he never let on he knew me.

Letter perfect (theatrical), knowing one's part perfectly.

Let the band play (American), equivalent to calling out for anything to begin, to start anything up, commence. A common cry to an orator to begin, or an exhortation to a speaker, actor, or any other person to let himself out, or make an effort (C. Leland Harrison's MS. Collection of Americanisms).

In England it is common to say, when anything reaches a climax, "Then the band played."

Tableaux, and the band played.—Bird & Freedom.

Letting down, or out, tucks (American), a phrase referring to making preparations, for example, in a building, with a view to future alterations. It is borrowed from the custom of making the trousers of rapidly growing boys or the dresses of girls with tucks, so that they may be let out or lengthened.

In England, let down easily, means not taking advantage, or being lenient with one in difficulty.

Letty (thieves), a bed; from the Italian letto. Used in the form "latty" by strolling actors, with whom the term originated.

depression in the money-market, thus causing money to become "tighter" and loans more difficult to obtain.

Let up on, to (American), to cease, to pause, rest, give over for a time.

You can't be mum—you cannot sing,
You cannot always smile,
You must let up on everything,
From time to time awhile.
—A Poem: Susan of Poughkeepsie.

Levanter (common), a card-sharper, or defaulting gambler, who makes himself scarce. Vide To LEVANT.

No prelusive murmurs had run before this wild levanter of change.—De Quincy.

Levant, to (common), to go to the Levant, that is, to run away from one's creditors, to abscond; to throw or run a levant, to play or stake and leave without paying in case of loss.

Never mind that, man (having no money to stake), run a levant... but be circumspect about the man.—Fielding: Tom Jones.

To levant, run a levant, originated in a pun on the words leave (provincial levé), and Levant. Compare with the French "faire voile en Levant," to purloin or steal, and the Italian "andare in Levante, venire di Levante," to carry away, steal, which are respectively from a play on levere and levare, to raise, lift. These phrases belong to the numerous class of jocular expressions coined in the same way with allusions to some locality, as to be off to Bedfordshire or Land of Nod, to feel sleepy; to go to Peckham, feel hungry, formerly Hungarian; those in bad circumstances are made to live in Queer Street, &c. In French we meet with punning phrases of the same class, "aller à Niort (nier)," to deny, the name of this town being suggested to the pedlars (who so much contributed to argot language) by the frequency of their visits to Niort, formerly famous for its fairs. "Aller à Versailles (verser)," to be upset; "aller à Cachan (se cacher)," to conceal oneself; "aller à Rouen (ruine)," to be ruined, a bankrupt; "voyager en Cornouaille (être cornard)," to be made a cuckold (same metaphor in Italian); "envoyer à Mortagne (mort)," to kill; "aller à Patras (ad patres)," to die, &c. In Italian, "andar in Picardia, a Longone, a Fuligno," to be hanged, &c.

Level best (American), when a man does the best he can, plainly, squarely, and fairly, not extravagantly, but by his average ability.

Let this be put upon his grave,
He done his level best.
—Newspaper Poems.

Saying this he drew a wallet from the inner of his vest,
And gave the tramp a dollar which it was his level best.
—The Ballad of Charity.

Level-headed (American), a man of plain, practical common-
sense is said to be level-headed. The phrase has become universal within a few years.

**Levite** (clerical), a term sometimes used by beneficed divines of humble brethren whom they hire. The origin is to be found in the story of Micah and the young man of Bethlehem-Judah in Judges xvii. 7-13.

**Levy** (Liverpool), a shilling. A term taken in all probability from the American levy, i.e., an abbreviation of elevenpenny bit, also commonly called a shilling. Hotten suggests that it is derived from levy, a term used among labourers for a sum of money advanced to a workman before he has earned it. There is a very great number of American terms current in Liverpool owing to its intimate commercial relations with New York.

**Libb, libbege** (old cant), a bed. “Mill the cull to his long libb,” kill the man. From the Irish *Leaba*.

**Liberties** (Eton), an immunity from all fagging for the first ten days.

**Liberty** (Eton School), the first six Oppidans, and the first six Oppidans in Fifth Form, who work with Sixth Form under the Head Master. (Nautical), liberty-man, a man on leave; liberty-ticket, a pass.

**Library-cads** (Winchester College), two juniors who have to keep the library in order, that they may set off other fagging.

**Lib, to** (thieves), to sleep.

**Lick and a promise** (popular), a wash of an imperfect nature. “I’ll just give my face a *lick* and *a promise,*” i.e., will do it more thoroughly later on. Also in general use to signify a cheap temporary remedy and repair for anything. Miss Baker in her “Glossary of Northamptonshire Words” erroneously claimed this as a provincialism.

**Licker** (popular), “that’s a *licker* to me,” that “licks” me, is above my reach, beyond my conception.

**Lickety split** (American). This means headlong, or at full speed. It also implies sometimes go fast by exertion. There is an old English expression “to put in big licks,” to do one’s best, also to lick, to beat, which probably gives the origin of this expression.

*Lickety split* is synonymous with the equally elegant phrase “full chisel.” He went *lickety split* down hill. *Lickety cut* and *lickety liner* are also used.—Bartlett: Dictionary of Americanisms.

**Lick into fits, to** (common), to give a good thrashing.

**Lickspittle** (common), a parasite, a cringing fellow. The French *lèche-bottes*.
Lie low, to (American), to keep to one’s bed.

Lie off, to (turf), to make a waiting race by keeping some distance in rear of the other horses. A jockey is said to “lie out of his ground” when he pushes the lying off tactics to excess, and gets so far behind that he has little or no chance of making up the lost ground.

Lifer (thieves), a man sentenced to penal servitude for life.

They know what a clever lad he is; he’ll be a lifer. They’ll make the Artful nothing less than a lifer. Charles Dickens: Oliver Twist.

Miss would make it up with the comic villain if she could, but his comicality is too much for her, so he probably gets “a lifer.”—Referee.

Till recently there was a distinction between being sentenced to penal servitude for life and for natural life. Good conduct might cause the release after some twenty-four years of a person sentenced for life, e.g., Constance Kent. The writer has had under him in prison a man who had endured a life sentence, got out, and got in again.

Lift (football players), a kick at football.

Lifter (old cant), a thief. Used by Shakespeare in “Troilus and Cressida.” The word survives in shop-lifter, one who steals from a shop, but does not apply to one who steals in a shop by false weight and measure, and adulterated goods. Also a crutch.

Lift, to (thieves), to steal.

At one time I had a very pleasant companion whose speciality was stealing cattle. He was a Newcastle man, and had done three “laggings” for lifting cattle.—Evening News.

This should be naturally understood in the sense of taking off, removing, just as in French slang soulever, to raise, to lift, means to steal; but the Rev. A. Smythe Palmer’s “Folk Etymology” says, “It has nothing to do with lift, raise, but is (like graf-t for graff), an incorrect form of lif, cognate with Gothic hlifjan, Latin clepere, Greek klepeinent, to steal. Klepto-mania is a mania for lifting.”

And so when a man wold bryng them to thryft,
They wyll hym rob, and fro his good hym lift.

—The Hye Way to the Spyttel Hous.

A lift or lifter is an old word for a thief or shop-lifter; it now means a thief.

Is he so young a man and so old a lifter?—Shakespeare: Troilus and Cressida.

Women are more subtile . . . than the cunningest foyst, nip, lift.—Greene: Theves falling out.

(Sport), to lift in a walking race is to lift your knees unduly into a run or shamble, to break into an unfair walk or trot.

Light (popular), though a popular slang term to a certain ex-
tent, it is specially used by printers, being usually applied to credit at a public-house. While a man can obtain this, he is safe from having his light put out.

Light bob (military), light infantry soldier.

Light feeder (thieves), a silver spoon.

Light frigate (old cant), a woman of loose morals.

Lightmans (old cant), night.

Or else he sweares by the lightmans
To put our stamps in the Harmans.

Light-master (printers). This term is applied to the man who acts as a "go-between" between the landlord of the house of call and the workmen that avail themselves of it. He is generally one of the workmen of a large establishment, and introduces new clients, and arranges matters, and gives the landlord the "tip" in case the indebted one should be leaving his situation, and thus probably avoiding payment.

Lightning (common), a name for gin.

The man holds out a tin mug in his dirt-begrimed hand. According to his views, this is the first step of hospitality. She sniffs cautiously.

"Don't like its smell."

"It's lightning."

VOL. II.

The child takes a gulp of the raw spirit, chokes, coughs, and bursts into angry sobs.—Savage London.

A flash of lightning, a glass of gin.

Lightning changers, shifters (American), women thieves who can in a minute, by adroit and ingenious manipulation, change their dress in a most extraordinary manner. The process is fully described in the following extract from the Chicago Tribune:

She was arrayed in the garments of a lightning change artist, and could, without the removal of an article, change her dress into four distinct styles. When arrested she wore a black cashmere dress, a tight-fitting bodice of the same colour and material, and a hat with a wide brim. A swift displacement of hooks, eyes, and buttons, a deft adjustment of unseen fastenings here and there, a crushing squeeze of the hat, and the woman stood with a brown woollen dress with cored front bodice, and a neat little turban upon her head. Another set of manipulations and the dress was transformed into a gown, the turban gave place to a coif, a chaplet fell from the girdle, and the woman stood arrayed as a brown nun. Once more a tug of the skirt, a yank at the coif and waist, a flash of the hands, everywhere at once, and the nun was transformed into a young lady of aspiring fashion, in bright-coloured alpaca and the original wide-brimmed hat.

There is also a dress worn by women of this class in Paris, consisting of all the garments in one, so made that in a few seconds the whole may be slipped off, and the wearer be left in cuerpo.

Lights or top-lights (popular), the eyes.
Like bricks (popular), quickly, with energy.

Charley Dix, cut his sticks, like bricks. —Punch.

This morning did my laundress bring
My shirt back in a stew,
Says she, "If I wash this again,
I shall wash it into two."
"Into two!" I cried, "you don't mean that?
Go, wash away like bricks,
For you'll be doing me a service
If you'll wash it into six."
—Popular Song.

Like one o'clock (popular), rapidly. "She tipped off her twopen'orth like one o'clock."

Lily Benjamin (popular), a long white coat, such as worn by umpires at cricket.

Lim (university), from Dr. Limeon of King's; an evangelically-minded student, a "piman." (American), a funny fellow or clown.

Limb, an angry epithet applied to an ill-tempered child or woman. An abbreviation of limb of the devil.

"Now listen, you young limb," whispered Sikes, drawing a dark lantern from his pocket, and throwing the glare full on Oliver's face, "I'm a going to push you through there." —Dickens: Oliver Twist.

A young or obscure lawyer is vulgarly called a limb of the law, or a limb of Satan. The word, according to Halliwell's "Archaic Dictionary," generally seems to imply deterioration; a limb was even held to signify a determined sensualist. A man overmuch addicted to a thing was ancienly said to be a limb for it.

Limburger, the real (American), used grotesquely in many ways, especially to anything actually or genuinely German. The Limburg cheese has a strong smell, which is intolerable to those who are not accustomed to it, for which reason it is sometimes called "knock me down at forty rods."

Lime basket (popular), as dry as a lime basket, very thirsty.

Mr. Chitling wound up his observations by stating that he had not touched a drop of anything for forty-two mortal long hard-working days; and that "he wished he might be busted if he warn't as dry as a lime basket."—Charles Dickens.

Lime juicer (nautical), a nickname given by Americans to English vessels and seamen on account of the compulsory practice of serving out lime juice as an anti-scorbutic.

Without stopping the coach-horses or his own, Billy scrambled upon the vehicle with his post-bags, and relieved the driver of the lines.—H. L. Williams: *In the Wild West*.

**Lines**, on (printers), an expression used by compositors to intimate that the companionship is in full swing. Mostly used to indicate the resumption of business after "cutting the *line." A reference to the fact that their earnings depend on the number of lines composed.

List, on the (popular), in disfavour. An abbreviation of the well-known "on the black list." It was introduced in a popular opera, "The Mikado," and since that time has been very general.

Listening backwards (common), or as in Ireland, "walking backwards." Those who do these things are regarded as having the "evil eye," and also the misuse of any faculty or talent.

Listening and walking backwards is considered unlucky in Ireland, and children are cautioned carefully to avoid both, on the ground that God has given them faculties to be rightly used, and not contrary to the manner for which these were designed. I have often seen the children of the peasantry severely reprimanded, and not unfrequently punished, for breaches of the direct natural law of the sense of hearing and the order of motion.—Notes and Queries.

Little ben (thieves), a waistcoat.

Little church round the corner (American), a slang term for a drinking-place.

Little end of the horn (American), an expression first made popular in the Jack Downing Letters. Bartlett defines "coming out at the little end of the horn" as being said when a ridiculously small effect has been produced after great effort and much boasting. It would be more correct to define it as failing or coming to loss, grief, or poverty in any way. Probably derived from old drinking customs. He who missed at guessing riddles was obliged to drink from the little end or tip of the horn while the victor drank from the brim. The horn seems in popular parlance to be connected with evil, contrary to old folk-lore, which made it a symbol of abundance and a protection against evil. "In a horn" is a refusal, or a qualification of falsehood. Horns denote a cuckold, and hornswoggle means mere nonsense or humbug.

Little England (West Indian), Barbados. The inhabitants of this island rightly or wrongly are credited with egregious self-complacency and esteem. The following is the incident which
led to this sobriquet being given to the miniature island in the Caribbean Sea, which to tell the truth is intensely British in everything compared to the other islands. Charles II. was in exile; he had lost his throne, and there seemed little chance of his ever recovering it. The plucky Brins, who were royalist to the backbone, then sent a humble address to the exiled king, "bidding him be of good cheer and stout of heart, reminding him in his exile that all was not lost, for, although all the world might be against him, Barbados was ever at his back." In consequence of this grandiloquent assurance the island has ever since been satirically called Little England.

Little go (Cambridge University), a public examination held early in the course, "which," says Lyell, "from it being less strict or less important in its consequences than the final one, has received this appellation."

... whether a regular attendance on the lecture of the college would secure me a qualification against my first public examination; which is here called the little go.—The Etonian.

Also called at Oxford "smalls."

You must be prepared with your list of books, your Testament for responses (by undergraduates called little go or "smalls"), and also your certificate of matriculation.—Collegians' Guide.

Little Hell, explained by quotation.

There are few worse places in London than certain parts of Cow Cross, especially that part of it anciently known as Jack Ketch's Warren, or Little Hell, as the inhabitants more commonly designate it, on account of the number of subjects it produced for the operations of the common hangman.—Greenwood: Seven Curses of London.

Little man (Eton), a footman.

He called the footman (or little man, as was the generic term for this class of domestic at my tutor's), and bade him reach down the obnoxious placard. To hear in this case was, unfortunately, not to obey. Little man visited the roof, reconnoitred the position, felt his own weakness, and, coming down, confessed to the tutor that he "dursna do it!"—Sketchy Memoirs of Eton.

Little off, a (American, also English), slightly incorrect or erroneous, insane, poor, reserved. From a term used by dealers in diamonds, "off-colour."

Your reply to "three Tribune subscribers" in this morning's Tribune in regard to private secretaries of United States Senators is a little off.—Chicago Tribune.

After that he was always a little off, as he had no money left, or friends to help him. He was a queer fellow, that old man, and he had a gait in walking I shall never forget.—Chicago Tribune.

(Common), little off colour, unwell, slightly intoxicated.

Little side (Rugby), a term applied to all games at Rugby organised from a "house" standard, e.g., little side football.

Little snakesman (thieves), a young thief who is passed through an aperture to let in the others.
Live (American), not only alive, but also intelligent, vigorous, and progressive. "A live Yankee." In the Western newspapers "a live man" seems to generally signify one who is vigorous and intelligent but uneducated, in accordance with a popular belief that an individual who has never been to school, or at least who has had only the simplest education, must naturally be far better qualified for positions requiring culture and knowledge than any other. The writer has before him a number of one of the most widely circulated journals in America, in which it is editorially asserted that to fill diplomatic appointments in Europe, what is required is not a man who "knows French," or who has been to college, or moved in society, but a "live practical man," plainly indicating that in the mind of the editor in question there is a direct antagonism between education and capacity to fill responsible offices. Of late live, extended from America to England, has begun to signify excellence, even in inanimate objects.

So Maria and me goes to a big 'ouse in a fried fish and whelk-stall sort o' neighbourhood. We goes up ever so many stairs till we gets into a enormous attic at the top, when you 'as to pass mysterious like through a big curting. The attic had all its walls covered with noosepapers in foreign languages, and proclamations was stuck up with big borders, as reminded me of the big posters of "a wholesale grocery store will open on Saturday night.

A real live glass milk-jug and a splendid pair of plated tongs given to every lady that buys one pound of our two-shilling Bohea."—Fun: Murtle Visiting.

Livener (military), an early morning drink.

Liverpool tailor (tailors), one who sits with his hat and coat on, ready for the road.

Live to the door, to (popular), to live up to one's means. A variant is, to live up to the knocker (which see).

Living gale (nautical), a fearful storm.

Liza (popular), generally used in the injunction, "Outside, Liza!" that is, be off, addressed to any person.

Loaded for bears (American). This expression signifies that a man is slightly intoxicated, enough to feel ready to confront danger. Equivalents for it are, a little shot, soothed, a little set up.

Loaded to the gunwales (American), intoxicated, full.

Sis said she was afraid you'd come home and make it lively for 'em, but Sis' beau said he guessed you wouldn't come home and make any trouble, as he saw you at a sample-room loaded to the gunwales. What did he mean?—St. Paul Globe.

Load on (American). A man who walks unsteadily, owing to intoxication, is said to have a load on, "to be loaded," "to
have a turkey on his back," i.e.,
to have more than he can carry.
Also "He walks like he was
 carrying a pig, and a darned
discontented one at that." Also
English.

Load up, to (American), a term
peculiar to the Stock Exchange,
meaning to obtain or accumu-
late.

The few men who make money in Wall
Street speculation sell when the crowd
is clamouring to buy, as they have been
the last week, and the many who lose
always rush in on such occasions to load
up to the extent of their ‘ability.—Stock
Report.

Loafer (military), a soldier em-
ployed on the staff, or in any
capacity that takes him from
his regular "sentry-go" duty.
Vide Outfitter.

(American), originally a pil-
fering vagabond; now applied
to idlers and hangers-about of
every description. The term
is now recognised and in com-
mon use in England. There
have been many suggestions as
to the origin of this now familiar
word. Bartlett declares, rather
boldly, that it came into the
United States "probably from
Mexico or Texas, and derives
it from the Spanish gallofero, or
gallofo, a vagabond." But this
would imply the first Mexican
war, at least, as the date of its
advent. The word loafer, how-
ever, was common in New Eng-
land and Philadelphia in 1834,
1835, but it was generally ap-
plied by boys to "pilfering."

They would say in jest, "Where
did you loaf that?" Loafer,
merely as a drunken, thieving
bummer, succeeded this.

At this time all the sketches
of the genus loafer represented
him as a petty pilferer, one who
 carried a gimlet and tube with
him to steal whisky from the
barrels, and who was popularly
regarded as a lazy sponger of
food and garments. In the first
year of the New York Herald,
and in the sketches of J. C. Neal
as well as in other "life pictures"
of the time, the loafer is always a
pilfering bummer of the lowest
class. It was several years be-
fore the word was extended to
mean a flaneur of any kind
whatever. Bartlett says that
"the origin of this word is alto-
gether uncertain. Two etymo-
logies have been suggested for
it; namely, the German laufer,
a runner (compare the Dutch
leeglooper and landlooper, a va-
grant), and the Spanish gallofero,
abbreviated gallofe, whence the
Italian gaglofo (?), a wandering
mendicant, a vagabond. The
Spanish gallofa means what was
given to the galloferos, alms,
vegetables, &c." It may here be
observed that laufer in German
thieves' slang is the abbreviate
of landianfer, which means ex-
actly and precisely a tramp or
loafer in its later American sense.
As regards the Dutch, there is
in its low slang the word loeven,
from loeven, to go (guan), to
stroll about; but with the
sense of going astray or out

of the course. Compare (says Tertrlinck) with loewen, op zee van
den koers of wijken, op side sturen
(to go aside out of the course—
to luff). Loever is pronounced
almost like loafer, and meaning
the same, that is, one who idly
strolls here and there, allows
but little room for doubt as to
its New York derivation. In
old English cant loaver was the
same with loure, to steal, as
well as money. It would seem
as if it had kept an unnoticed
place in English slang, and then
in America been influenced by
or combined with the Dutch
loever, or loafer, j being synony-
mous with v.

Loaf, to, an Americanism which
has become a recognised word,
to idle about.

Shoeblacks are compelled to a great deal
of unavoidable loafing; but certainly this
one loafed rather energetically, for he was
hot and frantic in his play.—H. Kingsley:
Ravenshoe.

(American University), to bor-
row anything, generally without
any intention of returning it.

Loaver (popular), money. From
the gypsy louwer, specie, or
coin.

Lob (thieves), a till; properly
something heavy. Lob-sneak-
ing, stealing the contents of
tills. To pinch a lob has the
same signification. Lob-crawler,
a thief who crawls into a shop,
and behind the counter, to rifle
the till.

Poor old Tim, the lob-crawler, fell from
Racker and got pinched.—Horsley: Jot-
tings from Jail.

Also a box, snuff-box. (Pugii-
listic), the head. Properly a
large lump.

Lobber or looper (American),
run, curdled, coagulated, run
together. A New York term,
from the Dutch loopen, to run;
hy heft de loop, he has a loose-
ness; een loopend water, run-
ning water. Bartlett says very
correctly that the proper term
is loppered.

Loblolly boy, a derisive term for
a surgeon's mate in the navy.
Loblolly is water-gruel, or spoon
meat.

Lobster(popular). Sailors dressed
in blue were vulgarly called raw
lobsters in the first five decades
of the present century, and sol-
diers were called boiled lobsters
from the colour of their coats.
Soldiers were sometimes and
are still called crabs. The name
of lobster has been in later times
transferred to the policeman.

Lobster-box (popular), a barrack.

Lobster, to (Winchester College),
to weep, which makes the eyes
and face red.

Lock (jailors), "on the lock,"
attending to prisoners. (Old
cant), a receiver of stolen goods.

That woman they spoke to is a lock,
alias receiver and buyer of stolen goods.
—Hitchin: A True Discovery, &c.
Abbreviated from “lock all fast,” which had the same meaning. The lock, the magazine or warehouse whither the thieves carry stolen goods. Lock, also chance, means of livelihood. “He stood a queer lock,” he stood an indifferent chance. “What lock do you cut?” how do you get your livelihood? In this sense it seems to be the same word as lurk, which has the same meaning. It must be remembered that in many canting dictionaries distortions of words constantly occur.

Lockees (Westminster School), lock-house.

Locker (old cant), explained by quotation.

I am a locker, I leave goods at a house and borrow money on them, pretending that they are made in London.—Hitchin: A True Discovery, &c.

Vide Lock.

Lock, stock, and barrel (American). Bartlett says of this phrase that it means the whole, a figurative expression borrowed from sportsmen and having reference to a gun. Sometimes we hear horse, foot, and artillery used in the same phrase. It is also very commonly used to say that anything has been so renewed that nothing of the original is left, from the story of a fine gun which had belonged to General Washington or some other great man, and of which certain portions were new, such as the lock, stock, barrel, and ramrod. Also used in reference to a knife which had a new blade, and then a new handle, and again a new blade, and so on for many restorations, but which “was still the same old knife.”

Lock-ups (Harrow School), detention in study.

Loco-foco (American). Bartlett defines this, as “1. A self-igniting match (or cigar); 2. the name by which the Democratic party was (till within a few years) extensively distinguished throughout the United States.” He also gives the history of the match, and how its name came to be applied to the Democrats, all of which the writer can confirm from memory. It is very doubtful, however, whether the matches took their name from “locomotive.” The wild flash which the first matches made when “snapped off” was greatly admired. They were sold in combs of about twenty matches in the piece, 144 matches costing 12½ cents (6d.). This was in 1834, 1835. Boys regarded them as a kind of fireworks. The writer was the first to introduce them to his school, and to a large rural neighbourhood, where they excited as much astonishment as they now do among savages. He has always been under the impression since early boyhood that the name is
derived from a barbarous combination of *loco*, the Spanish for "mad," and *foco* (i.e. *fuego*), "fire," literally wild-fire. Marck, the inventor or patentee, had in all probability the German word *irlicht*, as well as the English "wild-fire," to guide him in the name.

**Locomotive** (American), a drink made of half of the yolk of an egg, a tablespoonful of honey, a dash of curacao, a flavouring of cloves, all whisked thoroughly together in a quarter of a pint of hot Burgundy. A winter drink.

**Locomotive tailor** (tailors), one who travels by train.

**Loddomy, Luddemy ker** (gypsy), a lodging-house; *lodder*, to lodge; *baro* loddomy ker, a hotel, i.e., a great lodging-house; loddomen- gro, a lodger; loddomengro rye, a landlord.

**Loge** (old cant), a watch; from the French *horloge*.

**Logie** (theatrical), an ornament made from zinc. So called from one David Logie, who invented it. At one period these ornaments were made as large as saucers, and were in great vogue in transformation scenes, and halls of enchantment, in which they dazzled and delighted the eyes of the rising generation.

**Log-rolling** (American), explained as follows by the *Cornhill Maga-

zine*: "Log-rolling is a somewhat rare term in England, but is well understood at Washington. When a backwoodsman cuts down trees, his neighbours help him to roll them away, and in return he helps them with their trees; so in Congress, when members support a bill, not because they are interested therein, but simply to gain the help of its promoters for some scheme of their own, their action is called *log-rolling.* A *log-rolling* in America, where neighbours meet to bring logs together to build a house, is generally made the occasion of a frolic.

**Logy** (American), dull, slow, awkward; "he's a regular logy." Also loggy, i.e., like a log. It would seem also to be derived from the Dutch *log*, heavy, slow, unwieldy. *Een log verstand*, a dull wit (Jewel).

John Clossen was a real logy,
Heavy, bungling, dull old fogy,
Yet he had his startlin' flashes,
Now and then like flames from ashes,
And it made the people stare
To think that embers still were there.
—Sunday Courier.

**Loll** (American), a favourite child, the mother's darling.

**Loller** (American), usually applied to a lively, sportive damsel, or "bit of muslin."

Oh, if she is a loller,
I would like to be her loll!
And if she is a scholar,
Let me turn into a schol
Or whate'er she scholarises
Or whate'er she tries to do,
Or what kind of game arises,
So she'd only put me through!
—A Song: Poor Jones.

Lolly (pugilistic), the head.

Lone ducks, lone doves, quiet mice. Women who hire their apartments, where they receive gentlemen visitors, or who go with them to houses of assignation. A woman without a souteneur, one who tries as much as possible to evade observation, and to keep up a respectable appearance. This class of women has increased incredibly within a very few years in London, as in all the larger American cities.

Long (University), explained by quotation.
"Last Long?" "Hem! last protracted vacation."—Charles Reade: Hard Cash.

Long bow. Vide Draw.

Long ear (American University), a sober, religiously-minded student. The reverse is called a short ear.

Long-faced one (army), a horse.

Long feathers (army), straw. In French argot plume de Beauce. La Beauce, formerly a province, is renowned for its wheat, and consequently straw.

Long firm (common), an association of swindlers who pretend to be a solvent firm of traders. It is called bande noire by the French.

The Austrian Consul-General in London having informed the Vienna Chamber of Commerce that Austrian merchants have repeatedly incurred heavy loss by giving credit to long firms in England, the Chamber has issued a notice warning traders of the risk of opening accounts with foreign customers, without first obtaining satisfactory information respecting their position.—Standard.

The police reports give us occasional glimpses of what are called long firms, but glimpses which are for the most part deceptive. They show us small bands of disreputable people taking premises in busy quarters, starting sham businesses, and obtaining goods from manufacturers for which they never intend to pay, and which they dispose of as quickly as possible at any price they will fetch. The reports go on to show us how this kind of thing lasts until one or other of the victimised manufacturers sets the police upon the track of the swindlers, who are invariably hunted up and arrested, when the business collapses.—Thor Fredur: Shady Places.

Long-ghost (common), a tall, thin person.

Long-haired chum (tailors), a young woman, a young lady friend.

Long-knife (American), a white man, so called from the swords which the first settlers wore. The term came from the Algonkin Indians. In Chippeway to this day the term for a white man is chee-nokomon, i.e., great or long-knife. The writer once knew a very refined and beautiful young lady, a Miss Foster, of Philadelphia, and also an old Indian whose name meant "He who changes his position while sitting," but who was termed
Martin "for short." Martin usually smoked a very handsome *poaugun*, or pipe mounted with silver, but one day he appeared with a miserable affair, made of freestone, not worth a sixpence. On the writer's asking him what he had done with the fine calumet, he replied, "I sold it yesterday to the *chee-môkomon ikweh*,"—to the "long-knife woman." The "long-knife woman" referred to was Miss Foster.

**Long-oats** (army), fork or handle of a broom used to belabour a horse with.

**Long paper** (Winchester College), paper for writing tasks on.

**Longs and shorts** (gambling cheats), cards contrived for cheating.

**Long-shore butcher** (nautical), a coastguardman.

**Long shots** (turf), to take the long shots is to back a horse which is not in popular favour at the moment, and against which the bookmakers therefore give a larger rate of odds. It is in fact a form of speculating for the rise.

Button Park and Bonnie Lassie, at 33 to 1, each, seem fairly well backed; but the outsiders that smack of business amongst the long-shot division are Ten Broeck and Althorp.—Bird o' Freedom.

How oft at morn we've laughed to scorn
A long shot's chance to win;
How oft at eve we've had to grieve
O'er our departed tin.
We've had the tip, and let it slip,
What's done we can't retract,
And we have to pay on the settling day,
O'er the winner we might have backed.
—Sporting Times.

**Long-tailed one** (thieves), a bank note for a large amount.

**Long tails** (sporting), pheasants, greyhounds.

**Long ton** (miners), twenty-one hundredweight. In the coal trade they usually reckon twenty-one tons as twenty.

**Lonsdale's nine-pins** (political), the nine boroughs for which Lord Lonsdale used to send up members to St. Stephen's. A repartee connected with them is attributed to Burke.

**Loo** (common), for the good of the loo, for the benefit of the company or the community.

**Loocher** (Anglo-Indian), a low and especially a lascivious blackguard. Hind. *luchcha*, a lecher; the being one, *luchchi pana*. In English gypsy *luchipen* or *lutchipen*, lustfulness,
Loo'd, looed (English and American), beaten or defeated. "A term borrowed from the game called 'loo'" (Bartlett). In a list of imaginary last words attributed to notorious Southern characters, Bella Boyd, a celebrated fast woman and female spy, was represented as saying, "I'm looed." In provincial English, looed means supplanted.

Looking-glass, ancient slang for a chamber utensil, derived from the usual examination made by medical men, for diagnosing the probable ailments of their patients. In Ireland the necessary article is often, if not commonly, called a "Twiss," because the portrait of that once noted politician appeared as an ornament at the bottom, produced for ready sale by a satirical and patriotic earthenware manufacturer in Co. Raine to perpetuate the name and fame of Mr. Twiss, for having slandered the women of Ireland by a baseless accusation of unchastity. The accusation was denied, but the penalty remained, by the operation of the principle sarcastically recommended by Douglas Jerrold in all cases of doubt: if you do not know the rights of a thing, believe the worst.

Looking on (turf), one of the many terms which imply that a horse is not intended to do his best in a race.

Look nine ways for Sundays, to (nautical), to squint.

Look-see pidgin (pidgin), mere sham, hypocrisy. "This is all look-see pidgin" (Anglo-Chinese newspaper), religious humbug.

My tink he cat he makee chin-chin Fo,
My tinkee puss-cat be Joss-pidgin-man

My wish dat cat be dam—wit' ev'ly-ting!
For illo wor' be bad, an' all be bad,
An' ev'ly side hab pizen—cats an' tlap's,
My no can do make thust one man no more.

—The Cat.

Lop, horse (army), puddings of suet without plums.

Loppers, lobbes, loppus (American). The writer has never seen this word in print, but he has often heard it in Pennsylvania. An awkward, shambling fellow, a hobble-de-hoy. Dutch lobbes, a clownish fellow, also a shaggy dog. This is nearly allied to the English lob, a lubber or clown.

Lord (popular), a hump-backed man.

That a deformed person is a lord... after a painful investigation of the rolls and records under the reign of Richard the Third, or "Richard Crouchback," as he is more usually designated in the chronicles... we do not find that that monarch conferred any such lordships as here pretended, upon any subject or subjects, on a simple plea of conformity in that respect to the "royal nature."—C. Lamb: Essays of Elia.

She invariably wound up at night with a mad fighting fit, during which my lord, vulgar slang for hunchback, was always thrashed unmercifully.—Standard.

Probably thus called in ridicule from the self-importance and air of complacency supposed to be generally assumed by hunchbacks. Wright suggests the Greek lôrdos, bent forwards, and Smythe A. Palmer the old English lord, lordain, lurden, or lourden, heavy, clumsy, sluggard. French lourdaud, old French lorde, Low Latin lurdua.

Lord Mayor (burglars), a large crowbar or jemmy, used for breaking open safes.

Numerous are the names given to crowbars. There is "the Lord Mayor," "the Alderman," "the Common Councilman," and so on. These are principally used for breaking into safes.—Tit Bits.

Lords (Winchester College), the first eleven are thus called.

Lose the combination, to (American), to miss the meaning or point of anything. One often hears such an expression in conversation as "Hold on there. I've missed the combination."

"Did you see the butchers' parade?" asked the snake-editor of a casual caller yesterday afternoon.

"Yes."

"See that man throwing sausages at the crowd?"

"Yes."

"Well, I never sausage a thing before." "Ha! ha! Pretty good. I'll surprise my wife with that when I get home."

When the casual caller arrived at home he said to his wife:

"My dear, in the butchers' parade today there was a man throwing sausages to the spectators."

"Was there?"

"Yes; and I never saw anything like that done before."

"Neither did I."

He waited five minutes for his wife to laugh, and then went out to wonder how he lost the combination.—Pittsburg Chronicle.

The "snake-editor" mentioned in this anecdote is supposed to be the writer specially employed on a newspaper, to
invent or discover wonderful "yarns" of snakes, mosquitoes, enormous pumpkins, extraordinary instances of instinct in animals, and similar marvels. He is "the big gooseberry man" of the English provincial press.

Lost and gone poetry (American). The wailing, feeble-minded rhyming over "lost Edens and buried Lenores," 'imaginary griefs and sham sorrows, so characteristic of all beginners in poetry, has not escaped the notice of American newspaper wits, who often turn it into ridicule.

Lotion (popular), a drink. "What's your lotion?" what are you drinking?

Loud (common), flashy, "pronounced," extravagant, whether in manners or colours, dress or demeanour. Originally English, it has been very much extended in America.

A much more loquacious, ostentatious, much louder style. — Carlyle: Life of Sterling.

Husband—"Why Wagnerian?"
Wife—"Because it's so loud."—Detroit Free Press.

Love is here the antithesis of money. "To play for love (of the game) and not for money." French, "pour l'amour de l'art," "gratis pro Deo."

Love apples, explained by quotation.

Love apples, the latest name which the dynamiters have given to their bombs, affords another illustration of the love of conspirators for euphemistic terms.—St. James' Gazette.

Tomatoes were generally called love apples in Australia about sixty years ago. In France pommes d'amour. It may be remarked, en passant, that the terms love apples and pommes
d'amour are mistranslations of Italian pomi del mori or Moors' apples, mala Æthiopica.

Low-down (common), out of sorts, out of money, and out of luck; also mean, underhand.

That's just the way; a person does a low-down thing, and then he don't want to take no consequences of it.—The Adventures of Huckleberry Finn.

Lowie (Scotch thieves), money; a form of lour, or the common gypsy lowy.

A good deal of talk afterwards took place about the lowie, which he believed signified money.—Scottish Newspaper.

Low in the lay (thieves), in want of money, "hard up."

—Lytton: Paul Clifford.

Saxon gelamp, it happened; and so to lump would be 'to take what may chance'" (A. Smythe Palmer). (Thieves), to lump the lighter, to be transported. In this case to lump signifies to load. (Turf), to put weight on.

The wicket was unsatisfactory, and the batsmen complained that it was lumpy.—Evening News.

Lunan. Hotten declares that this is gypsy for a girl. It is common in canting, but the writer has never been able to determine that it is Romany. Probably from the Swedish or Danish luns, a slatternly girl.

Lung-box (popular), mouth.

My tar, if you don't close your lung-box I shall run you in.—Brighton Beach Loafer.

Lunka (Anglo-Indian), a strong cheroot from the Bengal Presidency, so called from being made from tobacco grown in the islands, the local term for which is lanka of the Godavery Delta (Anglo-Indian Glossary). They are becoming known in London.

Lunkhead (American), a horse of inferior breed and appearance.
Our new Minister to France is studying the art of politeness and elegance of diction prior to his advent into Parisian society. He calls our worthy Secretary of State (Mr. Fish) a "fossilised lunkhead." The term lunkhead is usually applied by sporting men to a very sorry style of horse, but never, we believe, to a horse mackerel.—New York Herald.

From the Swedish lunk, a very slow, heavy horse.

Lunk-headed (American), idiotic, senseless.

We shall go armed, and the lunk-headed, overgrown calf had better keep out of our sight if he values his miserable, worthless life.—Estelline (Dakota) Bell.

Luny (popular), a lunatic. "Go along, you luny," is a common phrase.

Combining business with pleasure, he chartered a horse and trap, and drove the luny to the asylum, intending to wind up with a pleasant drive on his own account. On the road, however, the luny saw in the master's pocket the order for admission to the asylum, and he quietly abstracted it. When they arrived he got down from the trap, and told the officials that he had brought them an inmate, a very quiet man, whose only madness was an idea that he was the master of a suburban workhouse.

The master vehemently protested that the other man was the lunatic, and that he himself was really the master of the workhouse. "I told you so," said the lunatic pityingly; "but this will settle the matter; here is the order for his admission." The unlucky master was violently removed, and the lunatic got up in the trap, and drove away.—Ross: Variety Paper.

Lur, loure (gypsy), to rob; booty, plunder. This word passed into canting at a very early period.

For all the Rome coves are budged a beake,
And the quire (queer) coves tippe the loure.
—S. Rowlands, 1610.

That "Rome coves" means gypsies here, as well as "good men," is apparent enough. Stealing linen from hedges, &c., has always been regarded as a speciality of the Romany.

Loure is still commonly used among gypsies. "Do you pen mandy'd loure tute?"—"Do you think I'd rob you?"

Lurk (tramps and others), a swindle; specially applied to obtaining money by a false begging petition. An occupation.

Then says Pudding-faced Ned, with a grin on his phiz,
"It's no one but horses and asses that work;
Now Larry's got his fancy, Jerry's got his,
And so I've got mine, and it's cadging's my lurk."
—J. Greenwood: A Night in a Workhouse.

Formerly lurch.

The tapster having many of these lurches fell to decay.—Peel's Jest.

(Tinker), eye. This word, in the sense of looking about, observing where work may be got, or anything stolen, &c., possibly suggested the old canting word lurk, which was used for every kind of "lay," trick, swindle, or "game." To keenly observe forms the first part of the education of a young thief, and to this his eyesight was regularly trained by observing mingled objects thrown up together, &c.
—an exercise which might be
with great advantage applied in all schools to develop quickness of perception.

**Lush** (Eton), dainty. Shakespeare uses *lush* with the meaning of luxury. It is a provincial term for rich, succulent. (Common), drink; more especially drink to excess. Applied equally to beer, wine, or spirits.

I boast not such *lush*, but whoever his glass
Does not like, I'll be hanged if I press him.
—*Lytton: Paul Clifford*.

Though it once was our game when the chucking time came,
'Tis a fact that I freely allow,
When in search of a *lush* to the "Spoofs" we would rush,
But the sharps do the "rushing" just now.
—*Sporting Times*.

Suggested to be from *lush*, full of juice, traced by Wright to *luscious, lushious, luxurious*. Drink seems, in most languages, to be synonymous with "juice." Thus in Scotland whisky is called the "barley bree," or juice of the barley. The French have "*jus de la teille*" for wine, and the slang term "*jus d'échalas*." French sailors call rum of the best quality "*jus de botte premier brin." But more probably from the gypsy *lush* or *losher*; to drink; or German *löschen*.

**Lush-crib** (popular and thieves), a public-house or tavern.

**Lushington** (popular), a low, drunken fellow, a sot. Up to recent date, there was, or may be now, a tap-room in a certain hostelry, in the immediate vicinity of Drury Lane Theatre, famous for being a favourite haunt of Edmund Kean. Here that ill-starred genius and his parasites were wont to turn night into day, in making their followers free of "the City of Lushington." Other times, other manners.

**Lush, to** (common), to drink, or drink to excess. *Vide Lush.*

... piece of double Glo'ster; and to wind up all, some of the richest sort you ever lushed.—*Dickens: Oliver Twist.*

**Lushy or lushey** (popular), intoxicated.

It was half-past four when I got to Somerstown, and then I was so uncommon lushey that I couldn't find the place where the latch-key went in.—*Dickens: Pickwick Papers.*

Lyo (Anglo-Chinese), come hither (Hotten).

AB (American), a harlot. Possibly from the canting Mab, “a hackney coach,” which is common to all who will pay for a passage in it. So the French call a hôtel de joie an omnibus. In the north of England a mab is a loose, slatternly girl.

Mabbed up (old cant), dressed carelessly, as a slattern.

Macaroni (thieves), pony (Du Cange Anglicus). Formerly a swell, fop. “The Italians are extremely fond of a dish they call macaroni, . . . and as they consider this as the sumnum bonum of all good eating, so they figuratively call everything they think elegant and uncommon macaroni. Our young travellers, who generally catch the follies of the countries they visit, judged that the title of macaroni was very applicable to a clever fellow; and accordingly to distinguish themselves as such, they instituted a club under this denomination, the members of which were supposed to be the standard of taste. The infection at St. James’s was soon caught in the city, and we have now macaronies of every denomination” (Pocket-book, 1773).

Mace (thieves), to give it on the mace, or strike the mace, to obtain goods on credit without any intention of paying for them; to sponge an acquaintance, beg or borrow money. Formerly mace griefs were men who wittingly bought and sold stolen fish. Several Yiddish words may have contributed to this term, such as wasser or meser, a betrayer, hence “mass-stapler,” which see; mës-chomet, a blackguard. Also moser or mëser, a cheat; mës, money, hence to make money. Man at the mace, explained by quotation.

The following people used to go in there: toy-getters (watch-stealers), magsmen (confidence-trick men), men at the mace (sham loan offices), &c.—Horsley: Jottings from Jail.
To mace, to cheat, swindle in any way.

Maceman, macer (thieves), a man who conducts a sham loan office, a welsher, swindler. Vide Mace.

Mackarel, mackawl (old cant), a bawd. French maquereau, maquerelle.

Made his Jack (American), got what he aimed at, attained his point, got into office, or became somebody of consequence. Old English, “Jock with the bush.” “This phrase,” says Wright, “occurs in Barclay’s ‘Eclogues,’ 1570, and seems to mean a Jack-in-office.” Dutch, een groot Hans, a great Jack or person, “a swashing blade;” German, prabhans, a “swell.”

Madza (thieves and costermongers), half; from the Italian mezza, used as in madza saltee, a halfpenny; madza poona, half a sovereign, &c. Also medza, in low theatrical slang; medza beargered, half drunk.

Mafoo (pidgin), horse-boy, groom. “Talkee mafoo to come chop-chop.” (Mandarin), mah, a horse; mah-tung, a stirrup.

Mag (thieves and popular), a halfpenny; in ancient cant a “make.”

You has not a heart for the general distress—
You cares not a mag if our party should fall,
And if Scarlet Jem were not good at a press,
By Goles, it would soon be all up with us all!

—Lytton: Paul Clifford.
If he don't keep such a business as the present as close as possible, it can't be worth a mag to him.—Dickens: Bleak House.

In society "not a mag" is equivalent to "not a sou."

And the staff, going and downing it on Indian Ocean and Atlantic, are still broke to a man and a mag.—Sporting Times.

—Wolcot (P. Pindar).

Maggots (popular), whims, fancies. Hence "maggotty," fanciful, fidgety. It was once a popular belief that small maggots were generated in the human brain, so that the fretting of these insects produced odd fancies and foolish notions. Hence probably the origin which may perhaps also be traced to the fact that crazy sheep have a worm in the brain.

Magistrands. Vide Bejant.

Magistrate (Scotch slang), a herring.

Magpie (popular and thieves), sixpence.

I'm at low-water-mark myself—only one bob and a magpie.—Dickens: Oliver Twist.

Also the black and white circles in a target.

Magsman (common slang), the magsman is at the very head of the profession of roguery. He is the great man, the Magnus Apollo among thieves and swindlers, or what the French call de la haute plébe. He is a first-class confidence man who selects his victims in the street, in the smoking-rooms of hotels, in stylish bars.

"Magsmen are wonderful actors. Their work is done in broad daylight without any stage-accessories, and often a look, a wink, a slip of the tongue, would betray their con-federacy. They are very often men of superior education. Those who work the tidal trains and boats are often faultlessly dressed and highly accomplished" (Hotten).

He has not the slightest sympathy with evil-doers, and fifty guineas would not tempt him to permit on his premises the hilarious celebration of bold Toby Crickitt's release over a bowl of punch, by a select circle of admiring magsmen.—Greenwood: In Strange Company.

Probably from the Yiddish machas or magas (to which mann may be arbitrarily added), meaning a great swell, a great man or highly honoured lord; or from to mag, to talk persuasively. It is curious to note that meg, in French cant, which Victor Hugo derives from magnus, means master, head of a gang (more probably from Italian cant, maggio, lord). It may be these words have a common origin, or this is mere coincidence. Compare old cant dab, head of a gang, and French dab, same meaning; the latter
probably from *dam*, low Latin for lord.

**Mag**, to (thieves), to talk, to talk persuasively; a provincialism meaning to chatter. In the quotation *mag* signifies talk. Probably from “magpie.”

Oh! if you have any mag in you we’ll draw it out.—Madame *L’Arblos*: Diary.

**Mahmy** (up-country Australian), the white commander of a troop of native police.

The troopers were, of course, delighted at the prospect of a collision with their countrymen, and an unusual degree of activity prevailed in the camp, so much so that next morning before sunrise, while Stone and his guest were getting through their hasty breakfast, the corporal of the troop made his appearance at the door, and stiffening himself into an erect military attitude saluted gravely, reporting at the same time, “Every sing all righ, mahmy.”—*A. C. Grant*.

**Mahogany** (society), table; to have one’s feet under another man’s *mahogany*, to sit at his table, be supported on other than one’s own resources (Hotten). Vide *Amputate Your Timber*.

(Popular), *mahogany* flat, a bug.

**Maiden** (turf), a horse which has never won a race open to the public. Therefore the winning of one or more matches does not disqualify a horse from being entered as a *maiden* for subsequent events.

**Maidstone jailer** (rhyming slang), a tailor.

**Mails** (Stock Exchange), Mexican Railway ordinary stock.

**Mailyas, maillhas** (tinker), fingers. Gaelic, *meirloch*, stealers, as “pickers and stealers,” hands. Possibly the real origin of “maulies,” influenced by “maul.”

**Make** (old cant), a penny or half-penny. (General), to be “on the make,” to be always intent on the main chance, seeking to make money. It generally implies unscrupulousness and cleverness.

The English doctors can earn their living in their own country. They haven’t gone to Germany on the make.—*Referee*.

While the word is unquestionably derived from the English *make*, as “to make money,” it is worth pointing out its resemblance to the Yiddish *makir*, one who knows, who is intelligent, in anything. No-
thing is more remarkable in slang than the manner in which words mutually form and help one another into currency. It is said also of one who asks too high a price for his goods. "On the make" is of American origin; a make is a successful swindle.

Make a bolt of it, to (common), to run away.

And he has been suspected, detected, has made a bolt of it, and has been discovered and brought to justice.—The Graphic.

Makee (pidgin), to make, do, cause, effect. "Supposy you makee buy-lo!" It is in pidgin generally prefixed to verbs to make them active, e.g., "I makee stlike dat too-muchee bad boy."

Make hay (vide HAY), to put in disorder, to mix in utter confusion. The expression explains itself.

Some of the warders, full of the irrepressible spirits of Old Erin (we do not mean whisky) had made hay with the drugs in the infirmary, with the result that liniments were taken as medicines, blisters applied in lieu of linseed plasters, and in one instance laudanum administered instead of black draught.—Funny Folks.

Hay-bag is an old word for a noise, riot, mess.

Make no bones, to (popular), to make no bones about doing anything, is to do it without demur or difficulty. Of very ancient origin, Erasmus in his Paraphrase (1548) using it—"He made no manier bones ne stickynge but went in haunde to offre vp his onely sone Isaac in sacrifice" (Luke, 1. 15). Its derivation is obscure unless it be an allusion to the habit of some people, in eating fish and small birds, to eat bones and all.

Make, to (popular and thieves), to appropriate to one's personal use; to make clocks, to steal watches.

Making clocks was too risky, and guyin' warn't no catch after I fell in the river at 'Ampcon, with a countryman as could swim like a bloomin' duck a throttlin' me. —Sporting Times.

(Freemasons), to initiate.

Make tracks, to (American), to decamp, to run away; in allusion to one who leaves traces
behind him, without intending to do so.

He was one of those unpleasant people who keep firearms on the premises, and handy for use. We made tracks, as you may suppose, and quickly too. The other two got clear off. As for myself, a snap-shot caught me in the calf of the leg as I tumbled anyhow over the garden wall, and thus put an end to my "crib-cracking" for one while.—Thor Fredur: Sketches in Shady Places.

Make-up (theatrical), materials used for making up the face, hands, &c. Soap and water, cold cream, pomatum, or vaseline, pearl powder, Indian ink, rouge, vermilion, blanc de perle, rose water, crépe hair, spirit gum, wigs, and grease paint of every description. The latter, though a recent discovery in Europe, has been known and used in China for ages. The use of it was first introduced here by the distinguished actor, Hermann Vezin, who, before it became an article of commerce, manufactured it for his own use.

A little girl at the back of the dress circle cried:
"See, ma, he's been kissing the maid, and her make-up's come off on his face!"
—Bird o' Freedom.

This term also refers to the personal appearance assumed by an actor impersonating a character.

Mr.—— took the part of the aged diplomatist, Sir Henry Craven. His make-up was admirable, and his acting worthy of all praise.—Sporting Times.

It has the general sense of appearance produced by dress, habits, &c.

Perhaps he owed this freedom from the sort of professional make-up which penetrates skin, tones, and gestures.—G. Eliot: Daniel Deronda.

Five times did we make a pitch in the wind and the deadly-cold sleet, playing over three times.—Greenwood: In Strange Company.

Making a song (thieves), explained by quotation.

Only a purse, with four shillings and a railway ticket in it. What makes me remember the ticket? Why, when I got home—I was still staying at the lodging-house in George Street—a pal told me of a lark he had seen at the market; some poor chap had lost all his money and his return railway ticket, and was making a song (telling everybody) about it.—J. Greenwood: Gaol Birds at Large.

Making up the log (tailors), putting down the wages. In the stock trade it is taking the number of garments cut, and in some cases where they pay "day work," if the quantity does not come up to the specified number of garments, the deficiency is deducted per ratio from the men's wages.

Greenwood: Dick Temple.*

**Man-handle, to** (thieves), to use a person roughly, as to take him prisoner, to turn him out of a room, or give him a beating (Hotten). Properly, *to man-handle* is a nautical term, meaning to move by force of men, without levers or tackles.

**Man-trap** (common), patches of cow dung in the fields. Also a widow. This old term, still used habitually among American thieves, recalls the bright boy in the New York school who, on being asked the meaning and derivation of the word "virgin," replied, "*vir,* a man; *gin,* a trap; *virgin,* a man-trap."

Marooning (nautical), explained by quotation.

In the good old times when punishments were heroic, when floggings were everyday occurrences and keel haulings frequent, marooning was a well-known term. It consisted of putting a refractory seaman ashore on a desert island and leaving him there to wait for the next ship, which very often never arrived.—Globe.

Admiral Smyth says marooning was a custom among former pirates, of putting an offender on shore on some desolate cape or island, with a gun, a few shot, a flask of powder, and a bottle of water. The French marron (English "maroon") was an epithet applied to runaway negroes, or to an animal which has become wild, as "un cochon marron," from the Spanish cimarron, wild.

Married on the carpet and the banns up the chimney (popular), living as man and wife, though not married.

The word is used by Shakespeare in a phrase hitherto unexplained by his numerous critics and commentators. Mark Antony, speaking of the assassination of Caesar, says that he was "marr'd" with traitors—i.e., likened with traitors—as if he himself had been a traitor.

To be on the mash, to be making love to; to go on the mash, to go about in search of amourettes; to mash, to make love to.

To make an irresistible impression on girls, to make a girl in love with one.

My name it is Bertie, the little pet page, At court I'm considered the go, My carriage and grace, my angelic face, Quite mashes the ladies, you know. —Bertie the Masher.
About the year 1860 mash was a word found only in theatrical parlance in the United States. When an actress or any girl on the stage smiled at or ogled a friend in the audience, she was said to mash him, and "mashing" was always punishable by a fine deducted from the wages of the offender. It occurred to the writer that it must have been derived from the gypsy mash (masher-ava), to allure, to entice. This was suggested to Mr. Palmer, a well-known impresario, who said that the conjecture was not only correct, but that he could confirm it, for the term had originated with the C—— family, who were all comic actors and actresses, of Romany stock, who spoke gypsy familiarly among themselves.

It is also used for "anyway," or "anyhow," and very often in an indeterminate manner.

Within our leafy mia-mia then we crept, And ere a man could fifty count we slept. —Keighley Goodchild: On the Tramp.

Mickey (American), a common word for an Irishman, the same as Paddy.

Micky (up-country Australian), a term for a wild bull, said to have originated in Gippsland, Victoria. Probably from the association of bulls with Mickeys or Irishmen. Micky, by the way, has nothing in common with Michael, as generally supposed, but is derived from mike, which see.

Miesli, misli (tinker), to go, to come, to send. The origin of “mizzle,” begone. It is not generally, or in fact at all, known how extensively Shelta is understood among vagrants even in London. It has probably been the medium by which many Celtic words have passed into English. Misli means in Shelta not only to go, but to transfer by going or transit, hence to send, and also to send a message or write. E.g., “Misli to my bewer,” write to my woman, or wife; “My deal is

Miller (old cant), a murderer, housebreaker. (Common), to drown the miller, is, according to Bartlett, to put too much water in the flour in making bread, which he says is "doubtless an English expression." At all events, he adds, that "putting the miller's eye out" is a phrase used when too much liquid is put to a dry or powdery substance. As water-mills are far more common in the United States than wind-mills, Mr. Bartlett might easily have found an apter illustration for the saying than that which he has adopted, and left both England and the baker out of the question. The water is said to "drown the miller" when the mill-wheels are rendered useless for work in flood time by superabundance of the fluid. The saying was exemplified by the American miller, whose wife in his opinion was a great poetess—who, seeing that the useful mill-stream had become a raging, useless torrent, looked up to it, her eye in a fine frenzy rolling, and exclaimed—

"This here water
Comes down much faster than it ought ter!"

A gentleman had mixed his toddy, when a teetotaller sitting beside him said, in a deep voice:

"There's death in that glass!"
"What did you say?" replied the other.
"There's death in that glass!" repeated the cold-water man, in a still more sepulchral tone.

The gentleman looked at his toddy inquiringly, ladled some out, sipped it slowly to taste it better, and at length said:

"You're right—you're right. I believe
I have drowned the miller; and at once proceeded to strengthen his liquor.—Scraps.

To give one the miller, to engage a person in conversation till a sufficient number of persons have gathered together to set upon the victim with stones, dirt, garbage, &c., Vide To MILL. Generally to hoot at, to handle roughly, to ill-treat.

The special correspondent of the Evening News appears to have been brutally maltreated at Exeter. Future generations of correspondents will do well to reflect upon his "two lovely black eyes," and to pause ere working up ultra-sensational matter about this city, whose inhabitants are of the rough and ready order. Upon one occasion they did not spare their bishop—the present Bishop of London—who fairly "got the miller" whilst addressing a meeting at the Victoria Hall.—Bird o' Freedom.

Mill-lay (thieves), burglary. Vide To MILL A KEN.

Mill-mil (Australian bush slang), see. Mill-mil is a blackfellow's word that the whites have incorporated into their slang, principally in the pidgin-English in which the whites carry on their conversation with the blacks.

"Here, Mahmy," said one to his chief "here that been cut him head off. You mil-mil blood."

I shuddered. There, now that it was pointed out to me, on the very stone I had sat down on when stripping to search for the body, the blood-stains were plain. They spattered the dead leaves and stained the grass stalks.—A. C. Grant: Bush Life in Queensland.

Of this class are the ape-like animals who, in burlesquing the strongly marked peculiarities of eminent artists, hold them up to derision and contempt.

"In the country of the blind, the one-eyed man is king," and amongst mimics, the monkey is legitimate monarch.

Mind your eye (popular), take care.

Mind your p's and q's (popular), observe the details of etiquette. Of mind your p's and q's Mr. Edward Fitzgerald, in the Australian Printers' Keepsake, writes, "This advice has a most distinct smack of its origin and extraction, and is now in general use in society which is probably unaware of the source of its obligation. Most unmistakably it originated in the pardonable confusion with which a beginner is likely to treat 'characters' so much alike as p and q, when first making their acquaintance in a reversed form. It is a near relation of 'to speak by the card,' to which it has a preferential claim on those who endeavour to fulfill the ceremonial law of politeness—etiquette."

Mingo (Harvard University), a chamber-pot. An amusing story in this connection is told of Harvard. "Many years ago, some students wishing to make a present to their tutor, Mr. Flynt, called on him, informed him of their intention, and requested him to select a gift which would be acceptable to him. He replied that he was a single man, that he already had a well-filled library, and in reality wanted nothing. The students, not at all satisfied with this answer, determined to present him with a silver chamber-pot. One was accordingly made of the appropriate dimensions and inscribed with these words:

"Mingere cum bombis
Res est saluberrima lumbis."

On the morning of Commencement Day this was borne in procession, in a morocco case, and presented to the tutor. Tradition does not say with what feelings he received it, but it remained for many years at a room in Quincy, where he was accustomed to spend his Saturdays and Sundays, and finally disappeared about the beginning of the Revolutionary War. It is supposed to have been carried to England.
Minor (Harvard University), a water-closet. This term is peculiar to Harvard and is of classical derivation, from minor, smaller, "house" being understood.

Minor-clergy (popular), young chimney-sweeps.

Mint (old cant), gold. Also a sanctuary in Southwark for those who fled from their creditors. Hence "minters," the inhabitants there.

Misapplication. If the essence of slang be the misuse of words, some of the terms in circulation amongst many journalists, chiefly American, are slang of the most brilliant type. The following amusing "Proscription," which appeared in the Chicago Post, instances a few of the more glaring examples:

"Hereafter every reporter in this office shall be personally decapitated, and shall lose his situation who shall be guilty of the use of any of the following barbarisms of language:—Postmortemed, for dissected; suicided, infanticed, accidentated; indignated, for got mad; disremembered, disrecollect, disforbid, &c.; abputed, for washed himself, herself, or itself, as the case may be; sporn, for spared; spondulix, for ducats; catastrophed, scrumpitous, recepted, planted, or funerated, for buried. And any editor, reporter, correspondent, scribe, or dead-beat shall, as an additional penalty, be put on half pay who shall write 'on last evening,' 'on this morning,' 'on yesterday,' or 'on ten o'clock this forenoon.'"

Miss Baxter (American), a person occasionally referred to in New England in reference to those who are "too previous," or too prompt in love-making, &c.

Miss one's figure, to (common), to miss a chance, to make a mistake.

Miss the tip, to (circus), to fall short of an order, suggestion, intention, or object. This is used generally in slang, but in exhibitions it has a special application to the performer not
understanding or catching the tip or word which indicates that he must act.

Mistura God help 'em (medical), the title of an omnium gatherum of medicines, generally the collected dregs of several bottles, said to have been given as a last resource on the off-chance of some one of the many drugs having a beneficial (!) effect. From a story that a certain man who had a valuable mare apparently dying, gave her all the old odds and ends of medicine in his garret, labelled "Fiat mistura, God help and cure her!" The mare recovered, but, "singular to relate," every disease for which the medicines were intended came out on her one after the other!

Mitten (American), to give the mitten, to dismiss as a lover. Hotten confines the word to Canada. In Germany a discarded suitor is said to get a basket.

Possibly from the old custom of throwing the glove down as a sign of defiance, or derisively bestowing a mitten instead of a glove as a keepsake. M. E. Cobham Brewer, in Notes and Queries, suggests the Latin mittere, to send about your business. There is an obsolete adjective mittent, sending forth. Webster gives the phrase as colloquial English.

Mittens (pugilistic), boxing-gloves.

Mivies (popular), landladies.

A lot of old mivies gone queer with the greens.

—Punch.

Mizzler or rum mizzler (popular), one clever at effecting an escape, or getting out of a difficulty. Vide To Mizzle.

Mizzle, to (common), to go away, decamp, vanish.

"Come, come," the Saint answer'd, "you very well know,
The young man's no more his than your own to bestow—
Touch one button of his if you dare, Nick—
no! no!
Cut your stick, sir,—come, mizzle! be off with you! go!"
The Devil grew hot—"If I do I'll be shot!
An' you come to that, Cuthbert, I'll tell you what's what.
He has asked us to dine here, and go we will not!"

—Ingoldsby Legends.

From the Shelta or tinkers' dialect (Celtic), miesli, mislain, to go. In the same tongue needy mizzler, a tramp.
"To mizzle—synonymous with drizzle—thick, fine, persistent downfall of moisture from a foggy sky. About George IV., and afterwards William IV., the vulgar punsters of the time indulged themselves in the punning witticisms that pleased the unfastidious public of the time: ‘First they reigned, and then they mizzled.’ The point of the joke consisted in the double meaning of the word mizzle, which signifies to disappear silently, to vanish. Thomas Hood used the word in the same sense."

And then one mizzling Michael night,  
The lout he mizzled too.  
—Laughter from Year to Year.

(Popular), a young woman, a corruption of mab.

**Mobs** (thieves), companions.

**Mobsman** (thieves), pickpocket.

Getting obsolete.

My cousin’s a fence, with a crib in the Mint;  
My sister goes out with a mobsman so smart.  
—J. Greenwood: A Night in a Workhouse.

**Mockered** (common), dirtied, defiled. Hotten defines this as “holey, marked unpleasantly.” It is the gypsy makkado, often pronounced mookerdo, or mockered, meaning smeared, defiled, dirtied, spotted, and sometimes “painted.”

**Mods**, short for Moderations, the intermediate examination at Oxford.

**Mofussil** (Anglo-Indian), the provinces, or the country stations and districts as distinguished from the Presidency, or the rural localities of a district as contradistinguished from the Sudder or chief station. The word (Hind. from Arab.) mu-fassal, means properly “separate,” and hence provincial (Anglo-Indian Glossary).

**Moging** (tailors), telling an untruth.

**Moisten.** Vide Chaffer.

**Moke**, the costermonger’s name for a donkey, first given in anger or contempt, or as an objuration to urge the animal to go on; but now more commonly used in affection for the useful beast. “It originally signified a pig, from the Gaelic muc, but has long ceased to have the
objectionable meaning among the class who use it." Another derivation is from Swedish moka, quarrelsome, obstinate, sullen. Also moeka, dung; both terms of abuse.

What the horse is to the predatory Arab, the donkey is to the costermonger—his all-in-all. The "coster" would sooner sell his wife in Smithfield, if the law would permit, than "swap" his moke at the cattle market.—Diprose: London Life.

Moko, a name given by sportsmen to pheasants killed by mistake during September, before the pheasant-shooting season comes in. They pull out their tails, and roundly assert that they are no pheasants at all; but mokos (Hotten). Moko is probably from "mock," or a humorous corruption of macaw.

At the head of the letter the following was written across the page: "Poison the moll."—Greenwood: Seven Curses of London.

A female companion, wife, or mistress.

The party congratulated him that his moll would be in good hands.—Evening News.

This word, from its resemblance to the nickname for Mary, is assumed to be the same. Compare with "poll," "polled up." It has been suggested that it owes its form to the gypsy Hindu mal, which means a female friend or ally.

Moll-sack, a reticule.

Molled (popular), in company with a woman.

Moll-hook (thieves), a female pickpocket.

Moll-rowing. Hotten says that this means "out on the spree in company with so-called 'gay women,' in allusion to the amatory serenadings of the London cats." It may be derived, and probably was, from Moll, and row, a noise. There appears to have been also, nearly a century ago, a very noted woman named Moll Roe, who is often alluded to in the "fast" literature of the time, and who formed the subject of a song; but whether this was not a pseudonym borrowed from the term, we are not informed.

Or whistle Moll Roe to a pig.
—Irish Song.

Moll-slavery (old cant), maid-servant.

Monarch (popular and thieves), a man's signature or name. Literally the king, number one. Evidently a term suggested by exalted ideas of one's self-importance. This explanation is supported by the Italian cant term monarco, signifying I, myself, which has given the French monarque, same meaning. Also montagna, mia madre.

Mondayish (popular), disinclined for work, Monday being a day for amusement among workmen. (Clerical), used up, tired. A phrase that has its origin in the clergyman's supposed state of fatigue on Monday, after the work of Sunday.

Moniker, monacher (popular, thieves, and tinker), a man's signature or name. A corruption of "monarch," which see.

When the "box-man" reached out the tools, the new comer seized a pick-axe, which was immediately claimed by another man. The new arrival quietly said, "There's my moniker upon it." —Evening News.

Monk (printers). Mr. Edward Fitzgerald, in "The Australian Printers' Keepsake," writes:—

"Sometimes a monk is the object of solicitude, an unsightly blackness caused by furniture showing, or undistributed ink. It is a saying manifestly originating with the venerable Caxton himself, and evidently alluding to the unwelcome intrusion of the gentlemen of the Scriptorium, near which portion of Westminster Abbey Caxton commenced his English labours." Monk is also applied to a proof which is too black, and "friar" when it is too light or grey.
From the respective colours of their garments. *Vide Friar.*

Later on 400 to 500 was accepted, and finally seven *monkeys.*—*Sporting Times.*

(Common), to get one's *monkey* up, to rouse his anger. Hotten says “a man is said to have the *monkey* up, or the *monkey* on his back, when he is out of temper.” Probably in allusion originally to the evil spirit which was supposed to be always present with a man. A variant in some parts is “to stroke the black dog down.” *Monkey*-board, the step behind an omnibus on which the conductor stands. (Legal), *monkey* with a long tail, a mortgage. (Popular), a short jacket, a hod for mortar or bricks.

‘Pon me sowl, I was sick, sore, and tired of goin' up and down the lather wid that ould *monkey* on me shoulder.—*T. Browne*: *Gilligan's on the Street.*

(Nautical), the vessel in which a mess receives its allowance of grog. Sucking the *monkey*, explained by quotation.

Also drinking generally, or abstracting liquor from a cask by sucking with a straw.

Her late lamented was only a low customs' officer, who had been bowled out sucking the *monkey.*—*Sporting Times.*

**Monkey catcher** (West Indian).

Amongst the Jamaican negroes this signifies a cute, shrewd, and level-headed individual—one not too scrupulous in his methods, and who adds a spice of cunning to his cleverness. If a piece of work, or any matter requires special care and attention in its execution, they say, “Softly catch *monkey,*” meaning, take care, exercise tact, don't go blundering, that matter requires finesse and judgment to carry it through. Looked at in any light, the phrase is a curious one. In the first place, it is a good illustration of a certain rough and elementary shrewdness in the negro character; and further, is an example of the hold which the memory of African life still retains upon them, inasmuch as there are no monkeys indigenous to Jamaica, and the phrase is most likely of African origin.
Monkey on one's back, to get a (popular), to get out of temper.

Monkeys (printers), another expression used by pressmen to denote a compositor by way of retaliation for calling them "pigs."

A dirge sans ashes and an urn?
—N. B. Hathed: Anglo-Indian Glossary.

Moon (thieves), a month or month's imprisonment.

They ask the reeler if I was known, and he said no, so I was sent to Maidstone Street (prison) for two moon.—Horsley: Jottings from Jail.

Moonack (West Indian), probably of African origin. A mythical animal known to negroes only. To meet it, is to be doomed to madness or some lingering disease.

Moon-curser (old cant), a linkboy or one that under colour of lighting people robs them. Also termed a "glim-jack."

Mooney (nautical), not quite intoxicated, but sufficiently so to be unfit for duty.

Moonlight (American University), to make a rush for moonlight is to attempt to get the prize for elocution.

Moonlight flitting (common), leaving a house by night to avoid paying the rent. Vide Fly-by-night.

Moonlighters (common), men in Ireland who carry out sentences of secret societies against individuals and perform their work of violence by night.

The road on either side is bounded with a low wall composed of ragged little slabs of stone, loosely laid and loopholed to an extent that would delight the heart of an Irish moonlighter.—J. Greenwood: Tag, Rag, & Co.

Moon-rakers (nautical), sails above the sky-sails.

Moonshee (Anglo-Indian), a secretary, a reader, an interpreter, a
writer. It is commonly applied by Europeans specifically to a native teacher of languages, i.e., Arabic, Persian, and Urdu.

Its authenticity was fully proved by a Persian moonshee, who translated.—Mill: History.

Moonshine (common), deception, nonsense, humbug. (Old), gilded moonshine, sham bills of exchange.

Moonshiner (American), a smuggler, illicit distiller.

As both brothers had now escaped to the mountains, which are filled with moonshees, it was thought that the Burrows had made good their escape.—Chicago Inter Ocean.

Moonshiny (common), deceptive.

The National publishes an extraordinary, and, of course, a very moonshiny summary of General Boulanger’s programme as confided by the deputy for the Nord to a friend on Sunday night.—Sporting Times.

Moose-face (American thieves), a rich, ugly-faced man.

Mop (common), an habitual drunkard. From an obvious metaphor. On the mop, continually drinking. It may be interesting to remark that mop in its proper sense is from old French mappe, Latin mappa, a napkin. "Some suppose mop to be of Celtic origin, as we have Welsh mopha and mop, Irish maipal; but it is probable that these are from the English" (Skeat). It may be added that there are a great many Celtic words which have Aryan roots, and, of course, a resemblance to Saxon or English.

Moper (popular), a deserter. From mope, a spiritless person.

Mopped the floor (American), a common slang phrase, signifying that one man has thrashed another so completely as to have taken him like a broom or a mop, and swept or cleaned the floor with him. In speaking of Charles A. Dana, of the New York Sun, who is noted for the severity and savageness of his attacks, an admiring Western editor wrote, "Uncle Dana proceeded to mop the floor with his opponent."

When Smith came on to fight, he took him by the heels, and mopped the stage with him until 'twas clean. —Brand New Ballads.

At last the crisis came, when one fine day, for some imagined fault, the boarder said unto the waiter, that unless he stirred a little quicker, he would bung his eye, and take him by the legs, instanterly, and wipe the floor with him.—Est Modus in Rebus.

Moppy (common), tipsy. From "to mop" or "mop up," which see. Some of the numerous synonyms are, "slewed, queer, tosticated, so so, been in the sun, muggy, murky, muzzy, fresh, glorious, bright in the eye, dull in the eye, overtaken, muzzy, fresh, blown over, done over, lusty, tight, foggy, fogy, swipey, lumpy, obfuscated, goggy, ploughed, bosky, buffy, in liquor, far gone, sewed up, mooney, half seas over, disguised; drunk as an
emperor, as a wheel-barrow, as David's sow, as a fish, as a lord, as a piper, as a fiddler," and the old expression "has a drop in his eye." "Boozy" and "hoodman" are now much in vogue among "mashers." The writer has seen a collection of nearly 300 synonyms for drunkenness, mostly American.

**Mops** (provincial). Statute fairs or "statties" are held, where servants seek to be hired. After the statute fair, a second is held for the benefit of those not engaged. This is called a mop, as it mops or wipes up the refuse of the statute fair, carrying away the dregs of the servants left.

There is hardly a clergyman or a schoolmaster in the Northern and Midland Counties who is not able to make out the strongest of cases against mops, "roasts," and "statties"—fairs or quasi-fairs, which were formerly very useful for the opportunities they afforded to farmers and housewives for annually hiring labourers and domestic servants.—*Daily Telegraph*.

**Mop up, to** (nautical), a metaphor, to drink or empty a glass. Also to whisk up, as wiping up with a mop.

The fourth I hooked but lost, and by that time the rest of the capricious tribe simultaneously ceased rising, and refused to be tempted. Had I been there earlier, I might possibly have mopped up the entire row.—*Sir Henry Pottinger: Trout Fishing*.

**Mopusses** (popular), cash, coin, money.

He that has the mopusses
May buy diamonds and topazes.

—*Punch*.

Possibly a corruption of "mops," grimaces, faces. Compare with French slang faces, for coin. This is, of course, mere conjecture.

**Mora** (Anglo-Indian), a stool. In common use among the English in India.

**Moral** (popular). "That's a moral," equivalent to "that's a certainty." Short for a moral certainty.

They must come a cropper soon,
They muttered—that's a moral.
—*Punch*.

**Morfydite** (American), a maritime pronunciation for hermaphrodite, generally applied to the so-called hermaphrodite brig, a vessel between a brig and a schooner.

**Morris, to** (old cant), to hang dangling in the air, to be hanged. (Theatrical), to make oneself scarce. Alluding in both senses to the quick motions of the legs in the morris (or Moorish) dance. Also used by tailors with a like signification.

**Mort** (canting), a woman. The same in old gypsy. Hindu, mahar, a wife, woman. It is not improbable that the French word motte (*pud. mul.*), which has long been common in England for a woman, and that which the French word expresses, has caused the gypsies to add the t. The gypsies
very commonly use *minj* for a woman. Tissot, in his work on Hungary, innocently mentions that *gali minj* (English-gypsy *kalo minj*) means a dark girl! This derivation is more probable than that from the Welsh *modryb*, a matron; and *morryun*, a virgin, given by C. J. Ribton Turner in his “History of Vagrants and Vagrancy” (1887).

**Mortar-board** (University), the square cap forming part of the academical dress of all members of the university. Said to be a corruption of the French *mortier* cap worn by Presidents of Courts.

“And as your skill,” resumed Mr. Tozer, “has been exercised in defence of my person . . . I will overlook your offence in assuming that portion of the academical attire, to which you gave the offensive epithet of *mortar-board.*”—*Bede: Verdant Green.*

It may seem strange that an educated gentleman prefers to wander in the streets of Oxford in the evening, clad in horsey “checks” or bookmaker’s stripes, in preference to the tattered gown and battered *mortar-board*, constituting the costume of an undergraduate.—*Bird o’ Freedom.*

**Also mortar.**

Some of them wore a *mortar* on their heads.—*Fuller: Pisgah.*

’Mos (printers), an abridgment of the word “animosity,” very often used by printers. “To show no *mos,*” is to express no grudge against a companion.

**Moses**, a man that for a consideration declares himself to be the father of another man’s child. Grose says, “A man is said to stand *Moses* when he has another man’s bastard child fathered upon him, and he is obliged by the parish to maintain it.” This may be connected with a phrase given by Cotgrave, “Holie *Moses,* whose ordinarie counterfeit having on either side of the head an eminence or luster, arising somewhat in the forme of a horne, hath imboldened a prophan author to stile cuckolds *parents de Moyse*” (Hall). The *Moses* of Michael Angelo has decided horns, probably based on the head of Jupiter Ammon.

**Mosh, to** (thieves), dining at an eating-house, and leaving without paying. Also doing the *mosh* on the quiet. A corruption of “*mooch,*” which see.

**Moshkeneer, to** (common), to pawn an article for more than it is worth. There are watches and articles of jewellery made for the special purpose of swindling, and which appear to be of solid gold or silver, but which are only covered with thin rolled metal. Probably from the Yiddish or German-Hebrew *mos,* money, and *kenner,* one who knows, one who is “fly,” as in the word *kenner-fetzer,* a thieves’ butcher. The word *moss,* it may be observed, has in slang taken a wide range, and is quite applicable not only to money or
gold coin, but also to any kind of valuables.

**Mosque** (old cant), a church.

**Moss-backs** (American), old fogies, "fossils," men behind the times. People who are "groovy," and slow to learn or advance.

The Dodo didn't exsight as much curiosity as might have been expected; but when I cum to look into the matter, I found a dozen or more county offshells with moss on their backs an inch an' a half long, and they had sorter pronted the populace (out of jealousy) to look koldly upon my great livin' kuriosity.—*Detroit Free Press: Letter by Professor Brown Whyte*.

**Mot** (general), a harlot. Turner ("History of Vagrants and Vagrancy") says, "*Mot huys* is a brothel in Dutch, but *mot* is not a word of Dutch origin." It is, however, an old Dutch slang word, whatever its origin may be. In the "*Wordenboek van Bargoensh,*" *mot* is given as *hoer.* "*Te mot gaen.*" *Motkasse* is the true Dutch slang for a brothel.

**Mot-cart** (popular), a mattress. *Vide Mot.*

**Mother Shawney** (theatrical), a rude offshoot of the Mary Anne. An institution to compel a new member of a company to pay his footing. It was the custom for the novice to be served with a formal notice, usually written in a feigned hand, and running after this fashion:

"Whereas it has come to our knowledge that Joseph Greenhorn is an aspirant to Thespian honours, it is our good will and pleasure that the said Greenhorn shall provide on Saturday next, at the hour of nine, for the delectation of his brethren, my children, in their respective dressing-rooms at the Theatre Royal, Slumstone in the Mud, one bottle of brandy, one of whisky, one of gin, two dozens of soda, and a gallon of beer. Whereupon the boys shall drink said Greenhorn's jolly good health, and wish him luck in all his undertakings, present, and to come. The said Greenhorn is warned, that disobedience to our commands will be attended with pains and penalties of the most stringent character. Given under our hand and seal at our Palace of Slumstone.

(Signed)
Robin Goodfellow,
Hon. Secretary.
Shawney x Mother,
Her Mark."

If the neophyte failed to obey this mysterious mandate, the following week he received a more peremptory one, the week after one more imperative still. If he still remained obdurate, he would find his dressing-case rifled and upset, his properties destroyed, his wardrobe ransacked, the sleeves of his dress coat cut and tied in knots, his hat smashed, his
boots filled with filth, &c. Of course, he met with an abundance of affected sympathy; and, of course, no one ever knew who perpetrated these playful practical jokes. Puck, or Robin Goodfellow, was ubiquitous. There was nothing for it but to grin and bear, and pay.

This institution flourished for a considerable period, until a quarter of a century ago, when, one night at Liverpool, a young actor, who afterwards attained considerable celebrity, refused to obey Mother Shawney's behests, and catching Robin Goodfellow in flagrante delicto (i.e., tampering with his dressing-case and wardrobe), gave the tricksy sprite a sound licking, and intimated that the dose would be repeated, if necessary. It never was necessary. From that time this charming institution frizzled away until it died out altogether, and Mother Shawney rests in peace in the lumber-closet of antiquity.

Mouchey (popular), a Jew.

Mouch, on the (common), strolling about in quest of amusement; at Oxford, strolling about to watch the girls. For other meaning vide To Mooch.

Mud-lark, a phrase applied to those who wade or paddle in the slush left on the shores of tidal rivers that run through great towns, in search of articles of little but still of some mercantile value, brought down by the drains and common sewers. The word is metaphorical, derived from the flocks of birds that sometimes come down to the shore on a similar errand in search of nutriment, and the fragments of waste food that sometimes reward them. A conveyor; other meaning explained by quotation.

He . . . became what is called a mudlark; that is, a plunderer of the ships' cargoes that unload in the Thames.—Mrs. Edgeworth: Lame Jervis.

Except for professional mud-plungers—beggars whose harvest-time is when they can wade in the middle of the road, and in the pouring rain, with an agonising display of saturated rags, and mire-sodden naked feet—wet weather is unfavourable.
—J. Greenwood: In Strange Company.

at the Agricultural College, Cirencester.

**Muffin** (Canadian), explained by quotation. In reference to **muffins** lying warm and close.

If any young lady, not previously engaged, of course, found favour in your sight, you were at liberty then and there to constitute her your **muffin**, which, being interpreted, signified that by entering into such an arrangement, you might walk, ride, or drive tête-à-tête with her; that you had the entree of her parents’ house, those parents at the same time-keeping obligingly in the background; that at balls, no ill-natured remarks were made by even the most virulent old maids when you danced every dance together, . . . the usual English winding up of such an extensive flirtation was by no means a necessity.—**Once a Week.**

**Muffin-cap** (popular), a flat cap similar to those of charity-boys.

**Muffin face.** *Vide Mudding Face*

**Muffin-worry**, an old lady’s tea-party (Hotten).

**Mufflers** (pugilistic), the old vernacular for boxing-gloves, the “mittens.” They are supposed to have been invented by Jack Broughton. The *Daily Advertiser*, in February 1747, announced that “Mr. Broughton proposed, with proper assistance, to open an academy at his house in the Haymarket . . . and, in order that persons of quality and distinction might not be debarred from entering into a course of those lectures, they will be given with the utmost tenderness and regard to the delicacy of the frame and constitution of the pupil; for which reason **mufflers** are provided that will effectually secure them from the inconvenience of black eyes, broken jaws, and bloody noses.”

—**Punch.**

**Mug** (general), mouth, face.

His **mug** wore a confident smile, which some might esteem a bit bounceable; These big ‘uns are apt to be cocky, but even a Titan is trounceable. —**Punch.**

It has been suggested that **mug** is from the old form **munkh** or **mugh** of the gypsy **mut** or **mooe** (mouth and face), but it probably originated in an ordinary slang simile. Another suggested derivation is from the Scottish **murg**, French **morgue**, a solemn, sour face; Languedoc **murga**, a snout. Formerly mugs or jugs were made which exhi-
Mug—Mugs.

bited distortions of the human face, but there is no evidence to show that the term mug arose from this circumstance, or vice versa. Mug, a simpleton, a person easily imposed upon. Also a "jug," formerly a "mouth." In French, cruche, bête comme un pot.

Any man who is mug enough to take a two-guinea watch to the Derby, does so at his own risk.—The Globe.

It might have been the jug—I know I was the mug.
That's why I seldom talk about it now. —Sporting Times.

That man must be a madrill dunce,
What wise men term a mug. —Punch.

In turf parlance there is but little difference between the mug and the "juggins," except that the former is rather the more hopeless case of the two, the "juggins" being almost invariably a neophyte who may in time develop into a sharp, or, at any rate, into a being reasonably able to take care of himself on the turf; while the true mug seldom, if ever, emerges from mughood. Also a stupid financier who finds money for rotten speculations, and is not infrequently swindled by the knave who has led him into a fool's paradise.

Muggins (popular), one easily taken in, a simpleton. Variant of "mug," as "juggins" of "jug."

Must ha' thought me a muggins, old man, To ask such a question of 'Arry—as though grubbing short was his plan. —Punch.

Muggy (popular), half-intoxicated. Vide To Mug, to get tipsy.

Mug-hunter (thieves), one of a wretched horde (chiefly of women) who infest the streets at night to pick up and rob those who are made foolish (mugs) by their drunkenness.

Mugs (American), roughs and thieves.

"See 'em," said the man at my side; "there's mugs for you—look at 'em."
"Mugs?" said I. "What are mugs?"
"Hard characters," said he. "These are thieves from the First Ward, the fellows that rob immigrants, steal cotton from the bales, go through the trunks that stray down by the riverside, and empty pockets on the ferries and excursion boats."—Philadelphia Press.

Mugging (Winchester and other schools), staying and studying indoors. Vide To Mug.

Mugging hall (Winchester College), the hall where boys "mug," that is, prepare their lessons and exercises. Vide To Mug.
Mugster—Mull.

Mug, to (Winchester College), to work hard. From early English mug, to sit over in a discontented way, as of a boy sitting over his books. Also to rub oil well into a bat.

In one corner of school some one may be discovered mugging, i.e., oiling his own or prefect’s bat.—Everyday Life in our Public Schools.

(Popular and thieves), to strike in the face, to thrash, to swindle, that is, make a fool of one. Vide Mug. To mug oneself, to get tipsy. In this sense it is derivable from mug, a drinking vessel, in the same way as the French gobeloter, to indulge in drink, from gobelot. An ale-house was formerly termed a mug-house. Again, it may be due to a metaphor, as of one in a mug, provincial for mist. Compare with its synonyms, “in a haze,” and “foggy,” “muzzy,” for intoxicated.

(Common), to criticise keenly, to examine in a minute and teasing manner. Possibly from slang mug for face, in which case to mug would nearly correspond in one of its applications with the French devisager.

Mug up, to (theatrical), to paint one’s face, or dress specially to impersonation. From the slang mug, for face. (Army), to work hard or “cram” for an examination. Vide To Mug.

Mugwump (American), explained by quotation. “Mugwump is an Indian word, and means a captain, or leader, or notable person. From this genuine original meaning it was an easy transition to the signifying a man who thought himself of consequence; and during the last contest for the Presidentship the name had a political meaning attached to it, by its application, in derision, to those members of the Republican party who, rejecting Mr. Blaine, declared that they would vote for his Democratic opponent, Mr. Cleveland, the late President. Such is the explanation, doubtless correct, given by Mr. Brander Matthews of New York. The name is now generally applied to those who profess to study the interests of their country before those of their party” (Cornhill Magazine).

Mull (common), failure. (Obsolete English), rubbish; to make a mull of it, to spoil it, to bungle, fail through awkwardness. Vide Mullock.

In seats, p’r’aps, her crew have the pull o’er their rivals;
But what if the pullers make mulls?
—Funny Folks.

This buzzing busy B.,
Starts maudlin “Leagues,” that end in mulls,
And, pure fiddle-de-dee!—Punch.
Mulligrubs—Mummer.

Mulligrubs (popular), colic. From provincial English mull, to rub, squeeze, rub about; and grub.

Peakyish you feel, don't you, now, with a touch of the mulligrubs in the colly-wobbles.—C. Bede: Verdant Green.

Also low spirits.

Mulligrubs (mining slang), rubbish. From obsolete English mull, dirt, rubbish. Mull is literally the moraine, the heaps of earth and other rubbish accumulated by glaciers; from this it is applied to the refuse of mines, the heaps of earthy rubbish which remain after crushing, washing, and the other processes have been gone through. It also means type in bad condition, in Australian printers' slang. The metaphor here is from the mining refuse.

The Boss had got a set on him to set The mull of the whole establishment. —The Australian Printers' Keepsake: The Legend of Lonely Gully.

(Anglo-Indian), a nickname applied to members of the Madras Presidency service, as Bengali people are called "Quihis," and Bombayans, "Ducks."

It is ane darke Londe, and ther dwelten ye Cimberians whereof speketh Homerous Poeta in his Odessa, and to this Daye thei clepen Tenebrosi or ye Benighted floike. Bot thei clepen themselves mullis (mulli), from Mulligatweene where is ane of thei godys from wher thei ben ysprong.—Anglo-Indian Glossary: Lately Discovered MS. of Sir John Maundevile.

Mulle kerteever (coster-mongers), corruption of molto cattivo, which see.

Mumble mumper (theatrical), an old, sulky, inarticulate, unintelligible actor.

Mum-glass (common). "A cant word for the monument in Fish Street, near London Bridge, in commemoration of the dreadful fire in 1666, which consumed the greatest part of the city" (Dyche and Pardon's English Dictionary).

Mummer (theatrical). This term, which properly signified a miner, buffoon, is now used in the slangy and deprecatory sense of strolling or inferior actor.

Stage slang is a thing of art, just as turf slang is. Every one knows what "the ghost walking" means, and there are a dozen and more phrases peculiar to "the" profession in England. Over here the same thing exists among the "cabotins," which word corresponds exactly with the English mummers.—Bird o' Freedom.

According to the best authorities, mummer is described as "low buffoonery" (Nuttall), or, "a low contemptible amusement, buffoonery, farcical show; hypocritical disguise, and parade, to delude vulgar minds" (Ogilvie and Webster).

The mummer of foreign strollers.—Fenton.

The same authorities describe a mummer as one who masks himself, and makes diversion in disguise, literally a "guiser," one of those village bumpkins who from time immemorial have gone from house to house, at Christmas and other festi-
vals, spouting scraps of the old mysteries handed down by oral tradition. A guiser is described by Mitchell as "a person in disguise, a mummer," and by Ogilvie as "a person in disguise, a mummer who goes about at Christmas."

The term mummer is also frequently applied derisively to a certain class of players. The application of the word in this relation is directly to be attributed to the feud between the equestrians and the actors.

About half a century ago certain players from the minor theatres were engaged by Ducrow to act at Astley's in the "Battle of Waterloo," "Mazeppa," and pieces of a similar character. These gentlemen gave themselves great airs when the equestrians came "twixt the wind and their nobility," and were regarded by the horse-riders as highly objectionable interlopers. As a natural consequence, when the equestrians were compelled to officiate as supers for the glorification of the vainglorious players, considerable friction occurred, and much ill-blood ensued. The players affected to look down upon the equestrians with contempt, and had the good taste to dub them "mountebanks, horse dung, and sawdust gentry." The equestrians, nothing loth, responded to the compliment by christening the actors "cackling coves and — mummers."

Recently, certain journalists, irritated, doubtless, at the social distinction accorded to eminent actors and actresses, have sought to degrade them in public estimation by stigmatising the entire fraternity, from the highest to the lowest, as mummers. It is indisputable, that from the time of the master upwards there have been so-called actors, and popular ones too, who are, and have been, neither more nor less than buffoons.

I'm a lady, that's straight, and I'm only out late

'Cause it's late when the May Meetings close.

None the less, I'm a bit wideawake, sir—

And you can't make too free with a lady like me,

Though you are a bit muzzy to-night!

—*Sporting Times.*

**My** (pidgin), I, me, mine. Sometimes we or ours.

**Myall** (up-country Australian), one of the wild blacks in the North of Australia. The name **Myall** is generally applied to those Northern tribes who in physique and ferocity are far more formidable to the white man than the feeble natives of the southern colonies. Many of them probably have a considerable mixture of the Papuan blood, a much more powerful and warlike strain.

The blackfellow now put his feet together and jumped about, imitating the action of a hobbled horse, upon which light at once dawned on the Englishman, who provided the delighted **Myall** with the articles in question.—*A. C. Grant.*

**Mycetal duffer** (theatrical), a "howling" or great duffer, so called after "a genus of the largest-sized monkeys of America, commonly called the howlers, from the loud sounds of their voices" (Nuttall).

**My-deal**, correctly mo-dide, myself, I, us. In gypsy, my-kokero, myself, is often used for I, and in old canting men said "my watch," for me. "That is benefit to our watch," that is very good for us. "The same system," says Turner, "prevails in the North Country cant at the present day, 'my nabs,'
myself; 'his nabs,' himself." This word, probably derived from nab (old cant), or nob, meaning head, is in theatrical slang "nibs." Mo-diele occurs in the following verse (Shelta or tinker):—

"Cosson kailyah corrum me morro sari,
Me gual ogaly ach mir,
Rabet mănent trasha morroch
Me tu soste mo-diele."—

"Coming from Galway tired and weary

Little gee-gee, little donkey, newly made to-day!
Sassidges, oh, sassidges! oh, beef and pork and German!
Pussy, mi-aow! doggy, bow-wow! and beautiful sassidges, oh!"

—G. Horncastle: Sassidges, oh!

AB (old cant), the head, in modern slang "nob." Explained by quotation.

There were particularly two parties, viz., those who wore hats fiercely cocked and those who preferred the nab or trencher hat, with the brim flapping over the eyes.—Fielding: Jonathan Wild.

Nabcheat (old cant). Vide Chete.

Nab-girder (old cant), a bridle.

Nab, to (old English), now used in a slangy sense, properly to take, seize. In thieves' lingo, to receive or take in stolen goods. It is possible that as the "fences" or receivers were once generally Jews, the word in this sense is derived from the Yiddish nepp. (French thieves use the word nep for a rascally Jew, a receiver, or dealer in sham jewellery.) Nepp-handel is cheating by having false or inferior wares, a trade or place in which the goods are all "dickey." Vide Rust.

Nag drag (thieves), explained by quotation.

Detective-Sergeant Garner, I Division, stated that when the prisoners were removed to the cells, he went into the passage and heard them calling to one another. Hill said, "This will be a nag drag." Mr. Chance: "What is that?" Witness explained that it was a slang term for three months' imprisonment.—Daily Telegraph.
Nag, to (popular), to scold or reprove, or “keep at” any one continuously. Nagging implies annoying or vexing one all the time, a “following-up” more than anything else. Probably from the Swedish nagg, to prick, i.e., to spur or goad, as in the gypsy chiv, chivvy.

She’s always, nag, nag, nagging,
And keeping up the game,
No matter where we go to,
She always is the same.
—Ballad by G. Horncastle: Are You Coming.

My mother-in-law has come to stay
For ever.
It’s ten to one she goes away
For ever.
She’s always on the N.A.G.
And makes a perfect show of me,
I’ll chuck her out, I will, you see!
For ever!
—Ballad by C. Williams: For Ever.

Naggy is provincial English for irritable.

Na-hop (pidgin), i.e., “no-hab” or “no have.” This is given as meaning “without,” i.e., “deprived of,” or “wanting,” in the Chinese-English or Pidgin Vocabulary, according to the idea that not to have is (to be) without. “One piecee man no-hop dolla’ dat man so bad inisy as no-hop lifey”—“He who is without money is as miserable as if he were dead.”

Nailer, nailing (common), terms expressing excellence in any way; a nailer at football, riding, &c., a nailing shot. It is said of a handsome, clever, or fashionable lady that she is a nailer. Still, she had some difficulty in getting rid of the attentions of Theodore, who is evidently a nailer when the going is a bit soft.—Sporting Times.

(Winchester College), to detect, perceive, catch, secure. “To nail a man” is to go and tell him to “sweat” or fag for some prefect; also to “watch out” or field at cricket, and to keep in balls at football, that is, to throw the ball back when it goes beyond a certain line. The nail is a nail planted in the
middle of the wainscoting under "aut disci" in "school," under which any one nailed or detected telling a falsehood was placed for punishment. (Printers), to nail or "brass nail," any one is to "backbite." "No nail" would be an expression of apology, or "I am sorry, but it is true."

Namo (costermongers), girl; back slang for woman.

Nammus (thieves and costermongers), look out, beware. "If a stranger should advance, the cry is given, nammus," and all signs of gambling are out of sight instanter. Also be off, let us be off. Said to be a corruption of Spanish vamos, let us be off, which has given vamos, which see.

Nancy Dawson (popular), a name for a molly, an effeminate youth, apathetic, &c. A recent sketch of the characteristics of the mashers of the present day, which appeared in a leading magazine, represents two of the fraternity, who are very intimate, as always calling one another by girls' names.

I'll tell you of a fellow who's a very heavy swell, Who fancies he's the idol of each fashionable belle, And they call him Nancy Dawson, And isn't he a caution! Oh, Mr. Nancy Dawson, what a tricky man you are! Oh, Nancy Dawson, can't you do the la-di-dar?—Ballad: Nancy Dawson.

The original Nancy Dawson was a noted prostitute, on whom there is a song still current among sailors. Proverbially a finicky, effeminate man is called a Miss Nancy.

This is a corruption of the Italian niente parlare.

From the phrase “that’s nuts to one,” i.e., a great treat, a thing one is partial to. Nut has here the sense of a dainty morsel, from nut, a sweetbread, or the lump of fat called the Pope’s eye; the nut of a leg of mutton (noix in French, same meaning, hence la noix, the best part, dainty morsel).

The upper crust of Nassau has, as a rule, very little sense of humour, therefore...
jokes have been voted ill-bred. Venture on one before a Conch lady and she will make a painstaking and conscientious mental effort to discover whether she ought to laugh or not. If her inner consciousness answers this question in the affirmative, she will venture on a smile; if she is in doubt she will probably compromise the matter by exclaiming, Oh my! This is a favourite expression with them on all occasions. If they hear a friend has bought a new dress, or is going to be married, they exclaim, Oh my! or if the friend has died, or had his house burnt down, they exclaim, Oh my! all the same. —St. James's Gazette.

A proper degree of this organ furnishes the possessor with a reasonable foresight of consequences, and a tendency to avoid their evils. Witness an example, on the part of ladies, who choose female servants as ugly as Old Scratch—bless the matrons' wisdom—I don't blame them for their prudence, as a charming domestic is apt to be mistaken for the mistress, and the error not found out until the fat's in the fire.—Stump Oration.

One-horse (American), anything small or comparatively unimportant. A one-horse bank, a one-horse town, a one-horse insurance company, a one-horse candidate, are depreciatory epithets that are thoroughly understood. When it was said by an opponent that General Grant was a one-horse candidate for the Presidency of the United
One-horse—Onion.

States, the New York Herald declared, on the contrary, "that he was a 'whole team' and a big dog under the waggon."

He returned rather out of breath, just as the captain was giving the signal for departure. "A one-horse little place, I guess," said a companion. "Well, no," said the explorer frankly; "I guess not. I stole a pair of socks in the market. I was tried, convicted, and publicly whipped in twenty minutes. I call it an uncommonly smart little place."—Daily News.

One nitch (printers), a vulgarism applied to infants of the male sex.

One of the Lord's own (American society), a dandy; one who is eminent as regards form, style, and chic. Also a "daisy, a stunner, or first-classer" (MS. Americanisms by C. Leland Harrison).

One out of it (tailors). This phrase signifies, "I don't care to be mixed up in it," "I will have nothing to do with the business."

Oner (pronounced wunner), an emphatic rendering of the word "one"—as of a person supereminent, or greatly distinguished for strength, agility, or prowess of any kind. A heavy blow is also called a oner; "one for his nob," or a "oner for his nob," are pugilistic elegancies of speech that have survived pugilism itself, in popular usage.

I gave him a oner on the nose.—Punch. The watcher is generally hanging about, and he'll "down" you with a oner in the back or side (he won't hit you in the face, for fear of spoiling it).—Greenwood: Seven Curses of London.

Also a blow, a shilling. Hence perhaps the slang term "blow" for shilling.

One side to his mouth (sporting), is said of a horse that only feels the bit on one side of his mouth. The horse has then a right-handed or left-handed mouth.

One under your arm (tailors), getting in an extra job.

One who makes the eagle squeal (American), said of any grasping, avaricious, or mean man, that when he gets hold of a coin squeezes it so closely that the eagle impressed on it utters a scream or squeal. The expression has been in use for at least forty years. To make the eagle squeal is also used in a very different meaning when applied to anything which provokes national indignation (MS. Americanisms by C. Leland Harrison).

On his lines (printers), an alternative expression for "on the piece," or work paid for according to scale, and not by weekly wages or "'stab."

On his uppers (tailors), in very reduced circumstances.

Onion (popular), the head. Vide Off His Onion.
Onions (thieves), watch seals.

When his ticker I set a-going.
With his onions, chain, and key.
—W. Maginn: Vidocq's Slang Song.

On it (American). This eccentric expression meant originally that a man was decidedly engaged in anything. It implied determination. "I'm on it," I understand it. It came into very general use about 1860.

On the batter (popular), a bout of low debauchery, riotous living, principally said of a street walker. "It is of Anglo-Irish origin, and signifies on the street, on the road; from the Irish word batter, a road (originally a road for cattle, from bo, a cow), in some parts of Ireland pronounced batter, as in the place names Batterstown, Greenbatter, Stonybatter, Booterstown" (A. Smythe Palmer).

As for the word batter, that in English purporteth a lane bearing to an highway, I take it for a mere Irish word that crept unawares into the English.—Stanbury: Description of Ireland.

On the booze. Vide Booze.

On the burst, bust. Vide Bust.

On the cross. Vide Cross.

On the dead (American), gratis, free. Probably derived from "dead head" (which see).
So we followed him into the chamber as soon as these words were said,
To get those beautiful presents all gratis and on the dead.
—Song.

On the dead quiet (common), in secret. A variant is "on the strictest Q. T."
"Why did you sacrifice your beard?" asked a young man yesterday of a friend whose honeymoon was barely over.
"On the dead quiet I'll tell you," replied the Benedict.—Sporting Times.

On the fly (popular and thieves), getting one's living by thieving or other dishonest practices. Also out drinking.

On the forty-ninth ballot (American). When an election is repeated many times before a candidate can be elected, it may be prolonged until it equals that of a Pennsylvania senator which required forty-nine ballottings. Hence the expression as applied to a very long contest of any kind.

Miss Jennie, mindful of her Texas nativity, "went for" a hickory club and the "serpent" at the same time, tucking her skirts in genuine Amazonian style and attacking by echelon. In spite of his repeated efforts to fasten his fangs in the brave girl she got away with him on the forty-ninth ballot and left the field with the slimy varmint dragging behind her triumphant car. His snakeship was the proprietor of sixteen rattles, which makes him nineteen years of age—a regular octogenarian in the reptile kingdom.—Dallas News.

On the ground-floor (American). Those who are the very first in any scheme to make money, or the original "promoters" of a speculation, are said to be on the ground-floor. It is a common trick to take investors in by assuring them that they are
among the first and will have the best chance.

So in Amsterdam Herr Ganef paddled out his Glory bonds;
And to all he slyly whispered, "I will let you in de first.
On de ground-floor—sell out quickly—for you know de ding may burst."
—Rise and Fall of Gloryville.

On the half-shell (American), a very peculiar phrase, derived from an oyster thus served. It is applied to anything prepared and ready for use. When Page's picture of Venus, naked and standing in a shell, was exhibited in New York, the "boys" described it as a girl on the half-shell. Also a part of, or by retail, by half-dozens.

I don't intend this essay for laffing in the jump, but for laffing on the half-shell.
—Josh Billings on Laughing.

On the job. Vide Job, on the.

On the lay (thieves). Vide Lay. On the lay conveys the same metaphor as lying in ambush, or lying in wait.

On the ledge (popular), in a predicament, or in danger or trouble.

And now my mother's made a vow,
If he don't take the pledge,
The next time that he gets run in,
She'll leave him on the ledge.

On the loose (popular), free, at liberty, out of prison.

I'd rather have 'arf a bellyfull on the loose, than roast meat and baked taters all day long in the steel (prison).—Greenwood: In Strange Company.

Also applied to any one engaged in a course of immoral indulgence, in drink or dissipation of any kind.

On the make. Vide Make.

On the nod (common), speaking to everybody, and claiming or making acquaintances by mere impudence.

I've found out a secret to live without work,
Which has proved a good fortune to me,
I am now on the nod, and I find that it pays.
For I tap every one that I see.

(Theatrical), getting trust—particularly at public-houses. Also applies to passing in at theatres.

(Turf), to bet on the nod is to bet on credit, each party to the wager merely registering it in their books, and settling on the following Monday. So called in contradistinction to ready-money betting, where the backer hands over his cash to the bookmaker at the time of making the bet, and if a winner, receives payment immediately after the race.

Since the suppression of the piquets there has been a good deal of betting on the nod, and there is hardly a penciller who has not a few thousands of dead money on his head.—Bird o' Freedom.

Also silent bidding at auctions.

On the nose (thieves), watching.
Vide Nose.
On the pounce (common). If, as is thought, a word or phrase becomes legitimatised when it has once been used in Parliament, then on the pounce, meaning to be on the lookout for attacking, is no longer slang, as appears by the following extract from the report of the proceedings in the House on September 13-14, 1887.

"I shall not resume my seat," he shouted in tones of passion, waving his arms the while. "You, Mr. Speaker, have been on the pounce for me ever since I rose, and I claim my right to speak. I have not transgressed your ruling. You have been on the pounce waiting for me all the evening, and I again claim my right to speak."—Standard.

On the prigging lay (thieves), out on a thieving expedition, picking pockets, &c.

As from ken to ken I was going,
Doing a bit on the prigging lay,
Who should I meet but a jolly blown.
—W. Maginn: Vidocq's Slang Song.

On the road (theatrical), explained by quotation.

Companies in the provinces are on the road, another relic of the past.—Globe.

On the scent (showmen and circus), on the road, travelling about.

On the shallow (beggars), going about half-naked to excite compassion. Apparently from shallé, a husk, as of anything husked or stripped. Provincial English, shalligo, scanty, applied to dress.

On the sharp (American thieves). A man who is familiar with all the mysteries of gambling and not to be taken in is said to be on the sharp.

On the shelf (old), transported.

On the slate (printers), waiting for something to turn up.

On the square (popular), of masonic origin, and borrowed from the symbolism of operative masonry. To "act on the square," is to act honourably; the square is one of the most important working tools, perfection of detail and accuracy being impossible without it. Hence the metaphor which has now passed into universal acceptance as synonymous with probity, truth, and honour, or more probably used in contrast to "on the cross," or "crook," the reverse of straightforward.

On the stairs (tailors), the usual answer when a job is called for.

On the strict Q.T. (common), on the quiet; a phrase much in favour with the flirting servant girls when they meet their soldiers round the corner, or the cook treats Robert to the traditional cold mutton.

On the swing (American), going, acting, or being employed well enough but only temporarily. Thus a "swing-station" is one where a man only rests, or has
a short swing of rest—not "a full swing," till the horses are changed. Probably through New York, from a Dutch phrase. *Jemand op den schoopetten* means to put any one on the swing, that is, to employ him temporarily, with the understanding that he may be summarily dismissed at any time. *Vide To Scoop.* It may here be observed that to *scup* for "to swing" is common in New York (Bartlett).

**On the tiles** (common), out all night carousing. Alluding to cats.

**On the win** (American), winning or making money. This form of expression is now applied to an endless number of verbal nouns, *e.g.*, "on the walk," "on the borrow," "on the preach," "on the steal," &c.

The coffee ring were *on the win.* They confidently expected to see coffee selling at sixty cents.—*Detroit Free Press.*

**On toast** (American), anything nicely served. Hence a man who is served out, or at one's mercy. Probably the metaphor is from the way small birds, such as snipe, quail, larks, &c., are eaten on toast, trussed and spitted. To have an adversary on toast, therefore, means to have him, as it were, trussed and spitted at one's mercy.

**Oodles** (American), plenty. "Plenty of money" (Bartlett). Possibly from "out deal;" German *austheilen*, to deal out.

**Oof** (common), the most recent slang term for money. A word brought into vogue by the *Sporting Times*, and now very common.

They quickly sought a neighbouring bar—They had not far to search—
And there she told him that her pa
Was pastor of a church.
He knew not that the game was spoof,
Or he had held aloof.
"I love but thee—dost need a proof?"
And echo answered "Oof!"

—*Sporting Times.*

O Goschen, mighty king of oof.
—*Funny Folks.*

Said to be of Yiddish or Hebrew origin, but a punning joke on the French *œuf*, with reference to the goose with the golden eggs, may have contributed to the term, the more so as mention of the "oof bird" (which see) is often made. The word *œuf* seems always to have tickled the fancy of Englishmen.

Said one young 'Arry to the other young Arry, "Wot blooming fools these Frenchmen are! Why, they atcheley call eggs money." "'Ow's that?" says the other.
"'Why," says the first, "they call a hegg 'day's oof.'"—*Scraps.*

**Oof bird** (common), funds, source from which comes the money. *Vide Oof.* It is sometimes said of a man who marries a wealthy lady that he has found the oof 'bird, or the oof bird has come to him.

"Good evening, mein herr," said the lady in white,
To the Johnny who seemingly looked rather tight,
For the oof bird was somewhat remote on that night,  
And his fingers with diamonds were gaily bedight.  
And the Johnny divined as he looked at that night,  
She was German.                          —Sporting Times.

The "oof bird on the job" means that money is plentiful.  
(Cashiers and clerks), "to make the oof bird walk," to make the money circulate.

Oofless (common), poor, without money. Vide Oof.

He was loyal, did his painting in a hue that shouldn't fade,  
At the Jubilee she must of course rejoice;  
Still the peelers couldn't sanction every playful escapade,  
And he found himself compelled to make a choice  
'Twixt a month's incarceration and pecuniary amends.

Being oofless 'twas a case of lock and key.  
He found it most convenient on returning to his friends,  
To say he paid a visit to the sea.  
—Bird o' Freedom.

Ooftisch (common), a variation of "oof," money (which see).

If my ooftisch disappears before my screw has fallen due,  
He's the boy who lets me have a bit;  
Of the Johnnies I'm acquainted with he's numbered 'mongst the few  
Who'll help me in the matter of a writ.  
To whom it is I want to trust my golden watch and chain,  
My diamond ring, and wifey's silver plate;  
My demands, however frequent, our relations do not strain,  
For he charges me, for love, a heavy rate—Does my uncle.  
—Bird o' Freedom.

Open the occurrence, to (police), to make an entry in the books at a police-station of a new case.

Opening his mouth too wide (Stock Exchange), is said of one who gets excited, and in consequence bids for large amounts of stock which is adjudged to him.

Opera buffer (theatrical), one who performs in "opera bouffe."

Opposite tacks (nautical), cross purposes.

Optic (pugilistic), eye.

Casting my optics on the bruizers an' gluttons of the past.—Punch.

You will see to what I refer if you will cast your "optic over the enclosed cutting."—Sporting Times.

Orchid (Stock Exchange), explained by quotation.

A young sprig of nobility, who was admitted to the House as the unauthorised clerk of a dealer in the American market, was once heard to tell a friend that when he was in the House he felt like an "orchid in a turnip-field." It is almost needless to say that he very shortly had cause to regret his speech, as ever afterwards he and his friends were known as orchids. . . . By degrees an orchid has become the nickname for any member who has a "handle" to his name.—Atkin: House Scraps.

Order (common), a large, big order, a great, difficult, or arduous undertaking.

For a three-year-old to beat Oberon at even weights at first seems a "large order."—Sporting Times.

Orders (theatrical), free admissions. Although the system of
indiscriminately giving orders has been at various times therein of half the theatres in London and the country, yet many good plays which at first were failures have been nursed into great successes by judiciously “papering the house.” Managers, however, frequently throw good money after bad, and bolster up bad pieces night after night by filling the house with “dead heads.” It is astonishing with what shameless effrontery people of all classes, from the peerage downwards, levy blackmail upon managers by demanding free admissions.

During the Italian Opera, and the performances of certain Italian tragedians ten years ago, it was the custom on the “off” nights to send out orders to impecunious members of the aristocracy, and others, to admit three persons free, with the object of inducing a fourth person to pay for admission. It was rarely, however, that the fourth person did pay. A certain manager who was perpetually pestered by cadgers of this description, upon receiving a letter from a soda-water merchant requesting an order, sent an answer to this effect: “Sir,—

In reply to your solicitation for an order, I beg to order a dozen of soda-water, and one of seltzer, for which my servant will pay you on delivery, less five per cent. for cash.” Upon receiving a modest request from the head of an “alarming sacrifice” firm for fifty or a hundred orders for the ladies and gentlemen of his establishment, the same manager replied by enclosing an order for two to the gallery, with the addenda that on this occasion evening dress was indispensable, and that the ticket was inadmissible after half-past seven.

Once upon a time one or two disreputable theatres managed to keep their doors open by flooding the house with paper on what is called the overflow and plunder system. E.g., the unsuspecting auditor has an order for the pit; he goes there, and finds the pit crammed to suffocation by people who have not paid. Upon payment of sixpence he goes to the upper boxes, they are also crowded; sixpence more takes him to the dress circle. Before he can obtain a seat he is bled of another sixpence for his greatcoat, another for his umbrella, and another for a programme. The performances in these places were as disreputable as the management, and, as a rule, would disgrace a show at a country fair.

(Eton), explained by quotation.

While we were in early school our beds had to be made and our rooms tidied; after that the orders, i.e., rolls, butter, and milk had to be served round.—Brinsley Richards: Seven Years at Eton.

Order your name to (Winchester College), an unpleasant intima-
Organ, carrying the (military), carrying pack or valise at defaulter’s or marching order drill. The dead weight is compared to that carried by an Italian organ-grinder. (Printers), a man that lends out money to his fellow-workmen at an exorbitant weekly interest. Any one applying to him for a loan would be said to be “playing on the organ.”

Organ-pipes (trade), explained by quotation.

... to find that the dress-improver is really banished at last. A little artificial fulness is still introduced into the back of dress-skirts by means of folds of starched muslin, “their mission being to gloss over the reactionary moment, and avert a distressing sense of suddenness.” We are much mistaken if there is not the making of a great diplomatist of the old school in the author of this happy periphrasis for the arrangement known in the trade as organ-pipes.—Globe,

Or out goes the gas (popular), a threat to put an end to whatever is going on.

More drink and less talk, or out goes the gas,

Be stopping your blethering ways.

—Broadside.

O. T. (printers). These initials are used largely by printers and stand for “overtime,” i.e., work beyond the ordinary amount of hours calculated as a day’s work.

Otta, otter (Anglo-Indian), flour.

Otter (costermongers), eight-pence. Italian otto.

Out (popular), a dram-glass.

Out-and-out (popular), excellent, beyond measure, true, surpassing, thorough; in the quotation it means quite a man, just like a man.

“Won’t he growl at all, when he hears a fiddle playing! And don’t he hate other dogs as ain’t of his breed!” “Oh, no! He’s an out-and-out Christian.”—Dickens: Oliver Twist.

Out-and-outer (society), first-class.

Pretty Polly Pouter

prairie, whilst the entire outfit made for the best cover it could find.—O'Reilly: Fifty Years on the Trail.

Outfitter (military), a term used by officers of the Royal Artillery for one who is not fond of change from home to foreign service or from regimental to staff employment, and who is always getting an "outfit" for the purpose.

Out for an airing (turf), said of a horse that is backward or of a horse not meant to win.

Out here (Australian). An Australian, no matter if he and his parents and grandparents have been born in Australia, and have never left Australia, and own not a sixpence outside of Australia, always speaks of the British Isles as "home," and of Australia as out here. Making the voyage to England is "coming or going home," and the voyage to Australia coming or going "out."

That is my Nellie—she's out here and Mrs. Cupid Foote: We came to Melbourne late last year, I could not bear the thought Of snow, and sleet, and slush, and rain, and yellow London fogs, An English winter I maintain is only fit for frogs. —D. B. W. Sladen: The Squire's Brother.

Out of collar. Vide Collar.

Out of kilter. Vide Kilter.

Out of register (printers). An inebriated person that could not walk straight, but "wobbly," is thus termed, from the fact that pages out of register in printing a sheet would be "out of the square," "out of truth."

Out of sorts (printers), a term used when any letter runs "short" or is deficient, and hence the common figurative expression meaning melancholy, annoyed, or slightly indisposed.

Outs (printers), an omission of a part of the copy composed is said to be an "out." The meaning is obvious.

Outside old-river (pidgin), the Yang-tse-kiang. Cantonese, Ngor-kong-lo.

 Outsider (turf), a horse which does not stand high in the public estimation, and is therefore noted in the betting "outside" the circle of "favourites." There is also a human species of outsider, viz., any person whose liabilities to the bookmakers cause the inside of the ring to be too hot for him, and who if he goes racing at all is obliged to remain "outside" the sanctuaries of the solvent.

Out, two or three (popular), when a quartern of gin or spirit is divided into two or three glasses.

Over at the knees (stable), said of a horse weak in the knees.

minded the animal, and reported that it was in very poor condition, and over at the knees.—Globe.

Overdraw the badger. Vide BADGER.

Over goes the show (popular), a sudden change of resolution, an upset of any kind physical or moral, a catastrophe. Simile from the upsetting a Punch and Judy schwassel-box, or blowing over an exhibition-tent.

It's all very well to say you won't Go wrong again—but oh! When a pretty little widow winks at you, Why—over goes the show! I formed a resolution once I'd never swear in vain, If I felt a good swear coming on, I bolted it again. I was so good I kept it up For quite a week or so; Then I sat down on a piece of glass, And—over went the show!—Ballad.

Overland-man (colonial), a man driving a flock of sheep, or mob of horses or cattle, overland. The term has another signification, which is the really slang one, a man looking for work in the bush, and who manages to arrive at a station (sheep) about sundown, or after working hours, where he obtains a night's lodgings and rations, and goes on in the morning, doing the same again at sundown. This man is also called a "sun-downer."

Overland trout (American cow-boys), bacon.

Over one (common), to come over one, to try to intimidate or compel.

Overplush, thus explained by the Globe:—"Is it right to give the overplush, or is it not? Probably most people would answer that question by asking another, and inquiring, in the first place, what is overplush? Well, according to the testimony of a Midland Boniface, it is the 'long pull'—not the long pull so largely and honourably associated with after-dinner oratory; not the long pull which is indissolubly connected with the strong pull and the pull all together; but a wholly different pull, namely, the publican's. It is not given to everybody to know everything, or even very much, about the business of the beer-seller; but those who do know something about it will tell you that, in the drawing of beer, there is both a long pull and a short pull, nearly allied to those characteristic pulls on which the precise proportion of froth to liquor so much depends, and which Mr. Arthur Roberts is in the habit of illustrating nightly in his rôle of innkeeper of the time of Napoleon. Now, about the short pull there can be no question. Beer-drinkers, and, indeed, other stern moralists, will tell you that it is quite indefensible. You have no business to give short measure—unless you are a teetotaller in disguise; and even then
Overplush—Padding.

it is not strictly equitable. For his twopence or threehalfpence a man should have his twopence-worth or his threehalfpence-worth. But can the long pull be supported? Ought a publican to give the overplush? The legal representative of an official receiver says it seems strange that an innkeeper should sell beer at a loss—supplying more of it than he is paid for. But the particular innkeeper under discussion replied that he had adopted this policy by way of attracting custom. He proposed to win the public by giving over-measure, and then, the public gained, to give only full measure. And surely it is permissible to grant overplush, if thereby one can generate an overplush in the exchequer."

Overrate it (theatrical), to overdo one's part.

Overs (bank), the odd money remaining after the accounts are made up.

Overshot (popular), intoxicated.

Overtaken (popular), intoxicated.

He was temperate also in his drinking, . . . but I never spake with the man that saw him overtaken.—Hacket: Life of Williams.

Over the left (common), explained by quotation.

At this inquiry Mr. Martin looked with a countenance of excessive surprise at his two friends, and then each gentleman pointed with his right thumb over his left shoulder. This action, imperfectly described in words by the very feeble term of over the left . . . its expression is one of light and playful sarcasm.—Dickens: Pickwick Papers.

Overtos box (Winchester), a box like a cupboard to hold books, &c.

Owl (American), "drunk as a biled owl," very favourite simile for intoxication.

Wanted, a man who can go to Mexico on Government business without getting drunker'n a biled owl. Address State Department, Washington, D. C.—St. Louis Globe-Democrat.

Paddy's hurricane (nautical), up and down the mast, i.e., no wind at all.

Pad the hoof, to (thieves and tramps), to walk, to tramp. It would be more correct to say, "to hoof the pad," i.e., to tramp on the pad or road. French, fendre l'ergot. Literally to split the spur (of birds).

In bus or brougham, city merchants roll to aviás snug,
While city arabs pad the hoof, to where a "shoddy" rug,
In some cold gloomy casual ward, will cover them to-night,
Well! such is life in London now, but say—is it quite right?
—J. A. Hardwicke: London Bridge.

Pad, to stand (street), to beg with a piece of paper on the breast bearing the words "I am starving." Literally to stand on the pad, obsolete English for footpath, road.

Paint a town red, to (American), explained by quotation.

To paint a town red is, I ought to explain, a Western expression, and signifies the height of reckless debauch; and when a cowboy, having drunk his fill of whisky, has let daylight with revolver shots through the hats of those who have ventured to differ from him, and has smashed all the glasses in the drinking saloon with his stock whip, and gallopped with a wild whoop down the principal street to the danger and consternation of the inhabitants, he may fairly be said to have done his part towards painting the town red.—Cumberland: The Queen's Highway.

Also to paint the town.

One of these chaps from Texas came in there to paint the town, and got his tank full.—F. Francis: Saddle and Moccasin.

Paint, to (popular), to drink, alluding to a red nose caused by over-indulgence.

The muse is dry,
And Pegasus does thirst for Hippocrene,
And fain would paint—imbibe the vulgar call—
Or hot, or cold, or long, or short.
—Kingsley: Two Years Ago.

Pair off, to (American). In order to avoid the trouble of voting a man will agree with some one of the opposite that neither shall vote. Then both will pair off with as many others as they can induce to do the same. It is said that in a Western town this was carried to such an extent that at an election not a single vote was "deposited."

The vast majority of strong-minded women wouldn't care so much about voting if they could only get a chance to pair off.—New Haven News.

Pair, to (parliamentary), formerly to pair off, to go in couples; my pair, my companion.
Pal (gypsy), brother, friend. Till within fifty years this word existed among English gypsies as prala, which is the common Romany form all over the Continent, derived directly from the Hindu and Sanskrit brat. The accent of a word is called pal of a lav, i.e., its brother; pala! oh, brother!

"Mat, hav akai! ma pūr ajā;
Sār 'shan tu, kūstro, puro pāl!"—
"Mat, come here! don't turn away!
How are you, good old friend?"—E. H. Palmer.

Palekro, brotherly. "The geero kaired mandy sar palekro, as tacho you'd kam"—"The man treated me brotherly, as well as you'd wish."

The term has become general. In society it means a great friend of either sex. When used with regard to a man as being a great pal of a lady, it means more than mere friendship. The lower classes and thieves use it with the sense of companion, friend, comrade, accomplice.

Ned was a wide-awake villain. It was not the first time he had been "in trouble," and he was properly alive to the advantage of having a trustworthy pal at liberty.—The Little Ragamuffins.

A prisoner inscribed in one of his library books, "Good-bye, Lucy dear, I'm parted from you for seven year—Alf. Jones." Beneath this a sour sceptic who subsequently used the book added—

"If Lucy dear is like most gals
She'll give few sighs or moans,
VOL. II.

But soon will find among your pals
Another Alfred Jones."

Panel-crib (American). The New York Slang Dictionary gives the following explanation:—“Panel-crib, a place especially fitted up for the robbery of gentlemen, who are enticed thereto by women who make it their business to pick up strangers. Panel-cribs are sometimes called badger-cribs, shake-downs, touch-cribs, and are variously fitted for the admission of those who are in the secret, but which defy the scrutiny of the uninitiated. Sometimes the casing of the door is made to swing on well-oiled hinges which are not discoverable in the room, while the door itself appears to be hung in the usual manner, and well secured by bolts and lock. At other times the entrance is
effected by means of what appears to be an ordinary wardrobe, the back of which revolves like a turnstile on pivots. When the victim is ready the thief enters, and picking the pocket-book out of the pocket, abstracts the money, and supplying its place with a small roll of paper, returns the book to its place. He then withdraws, and coming to the door raps and demands admission, calling the woman by the name of wife. The frightened victim dresises himself in a hurry, feels his pocket-book in its proper place, and escapes through another door, congratulating himself on his happy deliverance. A panel-crib was formerly termed a panel-house. Hence the word panel for a prostitute, an inmate of such an establishment; abbreviated from panel-girl. Compare with panel-thief, which see.

You know the whole of the *pastry* crowd.
Their tricks are trite, their graces old,
And they never will go home when they're told.

**Patrico** or **pater cave** (old cant), a vagabond, a degraded friar, monk, or priest, afterwards in Protestant times called a *hedgeparson,* who associated with tramps or thieves, and gave his services to them for a fee in mock marriages. It was customary, according to Grose, on these occasions for the man to stand on one side of the carcase of a dead beast and the woman on the other, and on shaking hands they were hidden by the priest to live together till death did them part, meaning apparently that they were parted by death as soon as the ceremony was ended. This was an old gypsy-Hindu custom.

But alas! 'tis my fear that the false *patricoes*

And it settles up talk, my dear Charlie,
like 'ot hoyster sauce with biled cod.
—*Punch.*

You've got the *patter* all right, Billy,
but you've on'y got it in the rough. . . .
You'll have to put it in perliter language, Billy.—*J. Greenwood: Under the Blue Blanket.*

To *patter* flash, i.e., to talk cant, is old canting.

*I pattered* in flash like a covey knowing.
—*W. Maginn.*
It has been derived from *paternoster*. It is the old gypsy *pat*, or *patterava*; Hindu *bat*, which means slang or secret language. It is possibly allied in Romany to *pat-serava*, corrupt *patter*, to trust or confide in, hence to speak secretly.

The true origin of the word *patter* occurred to the writer in a strange way. "It was in Brighton, when at a corner I saw a tramp with a few ferns in a basket.

"'Shelkin galopas!' I casually said in the curious Celtic dialect known as Shelta. *Shelkin galopas* means 'selling ferns.'

"'That one word,' replied the tramp gravely, 'indicates that you, sir, are a gentleman who knows the world. Indeed, your knowledge of it is more than unusual—it is unique.'

"I at once saw that the tramp had been educated. I asked him if there were any gypsies in town.

"'I have just seen old Lee, the tinker,' he replied. 'And if you will come with me you may see him.'

'We went along to a small public, and entering found old Lee. He had known me of yore. Once, three years before, I had promised to give him a treat. It took the form of rum-hot sweet with a bit o' lemon, if you please. Then contrary to our express compact that the treat was not to exceed drinks, the needy knife-grinder asked for sixpence. And I replied—'

'I give thee sixpence! I will see thee damned first.'

"On seeing me again he burst out into Romany—*he treated*; the tramp spoke to me in Shelta. The landlord glanced at me unfavourably. I asked for a private room. Drinks and cigars were provided. Mr. Lee had three hot rums, the tramp three whiskies. The tramp was a pale man and seemed to grow sober as Lee got drunk.

"'I don't think,' he remarked, 'that the gypsies are of Hindoo origin. I rather think that they come from the Jāṅgāḷa, the hill tribes.'

("'Heyday!' I thought, "He doesn't call them jungle men, but uses the vernacular.")"

"'For I always observed,' he resumed, 'that while the Hindos only talk Hindustani, the Jāṅgāḷas use that and have the *Bat* among themselves.'

"'Great Dictionary!' I cried, 'why, that's Hindoo slang for slang itself. *Bat* or *pat*, and *patter*, are Romany for the *jib*.'

"'That's true!' exclaimed Lee, 'But *patter* is cantin' now.'

"'Lee,' I answered, 'your great-great-great-grandfather used *patter* for talk. It was old Romany. Then your people dropped it when it got blown. *Patter's the law.* And turning to the tramp, I added—'With your permission I will incorporate that observation of yours into the next paper which I propose to read before the Oriental Society. Don't you
think that the gypsies came from the Dom?'

"'I used to see a great many of the Domes when I was a soldier in India. I always thought they were real gypsies.'

'People sometimes ask me, 'How did you learn gypsy?' Well, for every word learned, 'bang went a saxpence' for rum or beer."

Patter is, however, very old English for to mutter.

Ever he pattered on their names fast.

—How the Ploughman Learned his Paternoster.

Pawnee, Pāni (Anglo-Indian and gypsy). In the latter also parny, water. Pay dirt (American). When the soil of a place afforded indication of gold in sufficient quantities to render mining profitable, it is called pay dirt. The term probably came from the Chinese diggers. The first story in which it occurs is one of a Chinaman who, having been employed to dig a grave, and finding pay dirt or gold while so employed,
"pre-empted" the ground, and was shot for so doing. The prefix *pay* is to be found in several pidgin-English words.

As their eyes remarked the symptoms, thus their tongues responsive spoke:

"In this undiscovered section there is *pay dirt,* sure as smoke."

— *The Rise and Fall of Gloryville.*

**Pec** (Eton), money; from the Latin *pecunia.*

**Peck** (popular), food. *Peck* and *booze,* food and drink; *peckish,*
hungry; a good pecker, a good appetite. Peck-alley, the gullet. A holiday at Peckham, having nothing to eat. Peck is probably derived from the action of a hungry bird pecking at seed, and from its beak, which it has to open for the purpose. (Old cant), pek, meat (Harman). Ruff-pek, bacon. Pek or pekker means in gypsy to roast or bake, and is commonly applied to roast meat. It is found in all gypsy dialects. Mr. Turner derives pek from pecus, cattle (“Vagrants and Vagrancy,” p. 474).

Peck-alley (common), the throat.

Pedlar’s French and St. Giles’ Greek. The English common-alty, not understanding the secret jargon of tramps and beggars, different from what was called “flash,” or ordinary vulgar slang, were accustomed to call it either “French” or “Greek,” which two languages were equally unintelligible to them. The “cant” words of tramps, pedlars, and beggars were thus designated as “French,” and the Gaelic words spoken to a large extent by the Irish, who in the seventeenth and eighteenth centuries, and up to the third decade of the nineteenth, inhabited the rookeries of St. Giles’, London, through which New Oxford Street has been driven, was designated as “Greek.” Shakspeare speaks of the phrase duc-da-me, used in the sport, called Tom Tiddler’s ground, as a Greek invocation to catch fools into a circle. There was a district in the slums of Westminster, inhabited chiefly by the disreputable classes, who spoke in a cant unknown to the other and less vulgar inhabitants of the metropolis, known as “Petty France.”

Pedlar’s news (Scotch popular), stale news.

Pedlar’s pony (American), a walking-stick.

Peel eggs with, to (common), to stand on ceremony. “He’s not one you would stand to peel eggs with,” i.e., stand on ceremony with.
Peeler (general), a policeman; derived from Sir Robert Peel, who first started the metropolitan police in the place of the Bow Street runners.

Bobby too open to the furtive "tip"? How can the world malign in such a manner? Although self-offered to the Peeler's grip, "Tis plain a "Copper" will not take a "Tanner."

—Punch.

Some years ago policemen were still called "Bobby Peelers." Vide Bobby.

Peel, to (common), to strip, take off, expose, or show.

Peepers (common), the eyes.

The next question was how long they should wait to let the inmates close their peepers. —Reads: Never too Late to Mend.

Peeping Tom (old cant), still in use.

A man who is mighty particular in peering, peaking, and prying about, especially to perceive maids undressing or undrest, when they, poor innocents, deem themselves unseen.—The Comical Critick.

The term is derived from Peeping Tom of Coventry, who was struck blind for thus offending.

So Peeping Thomas lost his sight.
The world cries out, "It served him right,
For looking at my Lady G."
But oh, if every soul of us,
Who've done the same were punished thus,
How many blind men there'd be! —Ballad of Peeping Tom.

Peg out a claim, to (Australian), properly to mark out for one's possession. The miner who wishes to claim a certain piece of ground had to mark it out with pegs; so has the free selector (q.v.) when taking up land. Therefore to peg out one's claim means to mark out for one's possession, and is used figuratively in ordinary conversation, as well as technically.
She is haunted by viscounts and barons,  
With aristocratical names,  
Fitzgerald, Fitzjames, and Fitzclarence,  
All anxious to peg out their claims  
On her heart, and her hand, and her portion  
Their broken estates to renew,  
Long emaciate with the extortion  
Of lawyer, and broker, and Jew.  

*Peg out, to* (common), to die.

sable, and is sent from one man to another, each telling him that some one else has it in his possession. The joke ends by his being sent to some master, who gets him out of his difficulties. The derivation is πέμπων προτερων, that is, "send the fool further." A kindred joke, perpetrated on a raw recruit in the French army, is to send him on a fool’s errand after the "clef du champ de manœuvres," or "le parapluie de l’escouade.”

*Pen* (colonial), a threepenny piece.

*Penang lawyer* (Anglo-Indian), the name of a handsome walking-stick from Penang and Salampore. “The name is popularly thought to have originated in a jocular supposition that lawsuits in Penang were decided by the lex bocalinum (club-law). "Mr. Featherly," inquired Bobby from across the table, "are you in the book business?" "I? No; I'm in the dry-goods business. You know that very well, Bobby." "Yes; but ma and pa were talking last night about your having your little periodicals, and I thought perhaps that you had made a change."—New York Times.

Perks (common), perquisites.
To first-class passengers I speak
In accents soft and bland,
To second-class, though quite polite,
No nonsense will I stand;
But the third-class I'm down upon,
I treat them just like Turks.
The reason is, you understand,
From them I get no perks.
—T. Russell: The Railway Guard.

Pernicated dude (Canadian), a dandy who assumes a highly swaggering manner.

Pernickety (American), fastidious, mean, and over-particular.

Detective-sergeant now produced a quantity of property found on the prisoners, including a persuading plate used for the purpose of forcing safes.—Daily News.

Ein poitchen (dialect, Pestche').

Pete Jenkins (circus), a character introduced in the ring as one
who has friends in the audience. Sometimes it is an imaginary old aunt from the country, who is delighted at recognising her long lost nephew, yet horrified at seeing him risking his life by his daring feats on horseback. Peter assures her that there is no danger, and finally persuades her to take a ride. She, of course, tumbles off, and “makes business,” to the delight of all lookers-on. Anon some apparent rustic greets him, inquires if the circus-business pays, and is also persuaded into the ring. The original Pete Jenkins, a small man with a large nose, was in Dan Rice's troop, or “Great Show,” in America about 1855. Pete Jenkins now means a variation on the clown.

Peter (thieves), a parcel.

So while I was looking about I piped a little peter (parcel).—Horsley: Jottings from Jail.

A cash-box.

Peter-claimer (thieves), one who steals boxes, portmanteaus, bundles.

Peter Collins (theatrical), a gentleman never to be found.

In towns there are generally young aspirants who want to act, who apply at the theatre, and are told to call in the afternoon. If he does he is sent in search of Peter Collins, “that's the man to give him a job,” by one of the stage men, or any one who knows the game, and “will you take this up to him,” a sack with something heavy in it, counterweights, and an old pantomime mask generally. So the youth is sent from the roof to the cellar, and, finally, is generally let down a trap and left to get out as best he can.

The same trick is practised at circuses, but the password is the “green-handled rake,” which the youth is requested to ask for. He is generally settled with a pill of horse-dung when they have had enough of him.

Peter out, to (American), a California mining expression meaning to give out, be exhausted, or come to an end. (English provincial), “to go through St. Peter's needle,” to be beaten, or incur loss. Hence perhaps the expression.

Peter Funk (American). In New York city for nearly a century all kinds of petty humbug, deceit, and sham, especially in business, has been characterised by a mythical character named Peter Funk. Bartlett ingeniously conjectures that this was a fictitious name given in at the mock-auction shops, where
Peter is employed as a by-bidder to run up prices and swindle the ignorant. But there is much in the term "to funk out," or to disappear mysteriously, and in the associations with funk, a stench, or a smoke, which suggest humbug and foul dealing. Peter Funk is very fully described in an amusing old American novel called "The Perils of Pearl Street."

Peter Rugg (American). "He'll get home as soon as Peter Rugg." "He's like Peter Rugg, the missing man." "He brings weather like Peter Rugg." The writer has often heard these and similar sayings in his youth, in Massachusetts. They are founded on the following legend. About the end of the seventeenth century one Peter Rugg and his daughter left Roxbury in a chaise to get to their home in Boston. A friend remarked that a storm was coming up which would prevent his getting home. To which Peter Rugg replied with a dire oath, "I will get home to night or may I never get home." For a hundred years whenever a storm was coming it was always preceded by Peter Rugg in his old chaise, asking the way to his house. He was always in great distress, seeming to be bewildered. At last one day when his house had just been sold by auction and passed into the hands of a stranger and was no longer legally his home, Peter Rugg drove up, and then disappeared. His penance was at an end.

—Punch.
Piccadilly crawl, a languid walk much affected about ten years ago.

Pickers (popular), a very old term for hands.

Picker-up (Stock Exchange), a man who tries to get members to make a wrong price, and then deals with them.

Pick flies off it, to (tailors), to find fault with it.

Picking out robins' eyes (tailors), to side stitch a black cloth or fine material.

Picking-up (popular), explained by quotation.

There, it seems, the girls of the working class go out picking-up, just as the boys go out "mashing." They go by twos or threes, each little party of the same sex; the girls looking in the shop windows and giggling, the boys sauntering along, cigarette in mouth and hands in pocket. Presently the latter jostle up against the former. They apologise. No apology, they are told, is needed. "Going to market?" asks the lad. "Yes," is the reply. "May we come along?" "Very well." Thus is the ice speedily and satisfactorily broken!—Globe.

Pickle jar (popular), a coachman in yellow livery.

Pick-me-up (popular), a stimulating draught before dinner, or after a debauch.

Picture, not in the (turf), not placed.

Pie (printers). Almost technical. Different kinds of type mixed up together, either through accident, as when a forme not tightened enough falls to pieces when being carried away, or through negligence. German and French printers use respectively the expressions, zwiebelfleisch, literally fish with onions; and pâté, or pie, "faire du pâté," to distribute such mixed up type.

Bacon was a highly educated man, and an expert linguist; yet the foreign in the folio may be summarised as a mass of pie. Thus "Dictisima," "vemchie, vencha, que non te vnde, que non te perreche." These are copied from the quartos. Then we have the French: "il fait for chando, Ie man voi a le Court la grand affaires."—Standard.

"We've had an accident, sir," said Old Pleasure, the foreman, "the whole of 'Bits of Turf' has fallen into pie."

"Pick it up," said the great man, "and head it 'Musings at the Cheshire Cheese.'"—Bird o' Freedom.

(Booksmellers), the miscellaneous collection of books which have been pulled out of the alphabet during the day, and have to be replaced at night. It is always the last job of the day to put the pie away.

Piece (common). Hotten says that this is "a contemptuous term for a woman—a strumpet." It occurs in Elizabethan writers in this sense. It is now generally heard in such phrases as "she is a nice piece," "a good piece."
Piece brokers (thieves), explained by quotation.

As he comes along, bringing your new suit home, he would think it no sin to call at that repository for stolen goods, the piece broker's, and sell there a strip of your unused cloth for a shilling.—Greenwood: Seven Curses of London.

Piece of calico (American), a girl or woman. "The calico," or "the muslin," women in general.

Piece of pudding (popular), a piece of luck, or a welcome change.

Piece of thick (popular slang), a piece of Cavendish, or pressed cake tobacco.

Never again!

I got a clay and piece of thick,
Thought I'd do a clever trick,
But crikey, didn't I feel sick,
Never again!
—Ballad (Francis & Day).

Pieces (thieves), money.
'Réve d'Or should be the mare to go.
Unless you boldly strike for Freedom,
Concerning pieces thus to show
The heartless bookies that you need 'em.
—Bird o' Freedom.

The flash terms for pieces are:
"brown, copper, blow," a penny;

Pieman (streets), he who is tossing at pitch and toss.

Pie, to put into the (auction). At book sales, to put into a large lot, to be sold at the end.

Pie (thieves and popular), a policeman or detective. (Trade), sometimes cold pig, but more, often the former. A term by which goods returned from any cause are known.

Pigeon (common), a dupe whose fate it is to be "plucked" by blacklegs and others. The French use pigeon in the same sense. In Spanish cant palomo, pigeon, is a gullible person.

Pigeon, blue. Vide Blue Pigeon.

Pigeon holes (Winchester College), small studies. (Printers), matter widely and badly spaced. This is a recognised expression amongst compositors and readers, owing to the amount of white between the words, likened to a nest of pigeon holes.

Pig, pork (tailors), garments spoiled, cut wrong, not the right material, or any error which precludes the possibility of alteration.
Pigs (Cambridge University), members of St. John's College are called pigs.

The Johnians are always known by the name of pigs; they put up a new organ the other day, which was immediately christened "Baconi Novum Organum."—Westminster Review.

(Printers), a term of contempt applied by compositors to pressmen. When pressmen entered the composing-room they would be received with grunts. A compositor would not dare to do this out of his own particular department. So "Savage's Dictionary," 1841, says.

Pig's ear, pig's lug (tailors), a name given to a lappel collar or flap too heavy for the size of garment.

Pig's foot (American thieves), a jimmy, or thieves' short crowbar, cloven at one end like a pig's foot.

Pig-sticker (army), sabre.

Pig-sty (printers), a press-room is thus somewhat inclemently described.

Pig's whistle (American), according to Bartlett, who gives it as a synonym for an instant, "In less than a pig's whistle." As there exists an old English equivalent for this in "less than a pig's whisper," and as there is a well-known old tavern sign called the "Pig and Whistle," it is easy to see how one term might be derived from another. It seems to be a fact and not a mere philological guess, that "pig and whistle" was originally *pigen weskæl*! Hail to the Virgin! an amusing instance of bathos.

Pigtails (Stock Exchange), Chartered Bank of India, Australia, and China.

Pike (American), a name applied in California to the migratory poor whites, said to have originated, according to Bartlett, from the supposition that they came from Pike County, Missouri. "The true pike," says Mr. Fraahoff, "is the wandering gypsy-like Southern poor white who lives in a waggon." As the term pike and pikey have been used for at least a century in England, and probably much longer, for a gypsy or a tramp, the term is evidently enough not derived from "Pike County, Missouri." (Thieves), turnpike.

Pikers (Australian), wild cattle which cannot be got out of the bush. From English slang to pike, to run away.

Pike it, to (popular and thieves), to run away. From taking to the pike or turnpike road, as applied to a discontented person, "if you don't like it you can pike it."

Pikey (popular), a tramp or gypsy.
Pile, now used in England.

In the course of conversation it was very remarkable to notice the variety of occupations which a rich American has filled before he has "made his pile." He may have been a bootblack, a messenger boy, the editor of a newspaper, the captain of a ferry-boat, a lawyer, or a murderer, but somehow he has "done the trick."—Pall Mall Gazette.

To have made his pile, is generally supposed to be a term of California origin referring to a pile of gold dust, or to have come from the gambling tables, meaning a quantity of heaped-up gold. Bartlett has, however, indicated that the term seems to be the revival of an old one used by Dr. Franklin in his "Poor Richard's Almanac" for April 1741, where he says—

Rash mortal, ere you take a wife, Contrive your pile to last for life.

**Piler** is obsolete English for one who accumulates money, and this supports the above derivation (also the French amasser, to hoard).

"In Dutch peyl, a certain mark, as a water-mark; boven de peyl, above the set mark; peyler, one that sounds the deep, hence peylood, a sounding lead, and peyloot, a pilot. Hence a man who had made his pile would be one who had attained his determined mark or limit, certainly a much more definite expression than that of a mere heap. It is true that about twenty-five years ago an Indian tribe in the West, when the Government offered them an indemnity for certain losses, in their ignorance of the art of counting, could only keep repeating, 'Want heap money—heap big.' At last one of the chiefs set an arrow in the ground and stipulated that there should be as much specie given as would quite cover it. It is curious that the word pronounced pile in Dutch should—apropos of this story—mean both a set mark and an arrow, and also in English, a heap" (Chas. G. Leland: Notes).

**Pile in, to** (American), a common form of invitation to take part in anything, as a meal, or to come into a house, make one of a party in a vehicle or a dance, &c.

They gave us a friendly hail, and whether they fancied we looked hungry or not, kindly asked us to sit down with them and pile in, which being interpreted signifies "Pitch in and eat."—M. Roberts: The Western Avernus.

To pile out means to come forth.

**Pile of mags** (conjuring), a pile of "faked" coins, or of coins so distributed as to move freely one above the other. This is a very old term, which must have been long in the profession, as the mags are generally gold, real or apparent; and in the so-called Gypsy Vocabulary of Bampfylde Moore Carew (but which has hardly a gypsy word in it), meg is a guinea. The ancient cant form of the word was make. Also make, a halfpenny;
“Brummagen macks,” counterfeit halfpence, according to Dekker.

Pile on the agony, to. Vide Agony.

Pile on, to (American), applied to excess or intensity in any form.

“In acting you should go and see Our friend pile on the agony.”

Pill (common), a doctor; pill-driver, an itinerant apothecary.

Pimp, to (University), to do little, mean, petty actions, to curry favour.

Pinchbeck villas (journalistic), small cheap houses, mostly in the suburbs of cities, bearing pretentious names, such as “The Oaks,” “The Gables,” &c.

Our correspondent in Paris informs us that “there is a growing tendency to dub even the pinchbeck villas which are springing up all round the metropolis with the pretentious title of château.”—Daily Telegraph.

Pinch-board (American thieves or gambling), a swindling roulette-table.

There’s the pinch-board. That’s dead crooked. A sucker sees the wheel and the numbers all straight enough, and the little arrow in the middle. The owner tells him his chances are two to one if he bets on the odd or even numbers, and twelve to one if he puts his money on any one of the twelve. That’s all muck. The owner has a brass tube running from the arrow to the edge of the board. There’s a rod run through that, and a button on to the end of it. His capper stands next to the button, and by pressing his leg against it he can make the arrow stop (or point to) where he wants it. Sometimes the crowd think that the man that’s working the wheel is playing them, and they tell him to stand away from the table. He says, “Certainly, gentlemen; anything to oblige!” and steps back a foot or two; but the capper he’s there just the same, and nobody suspects him, ’cause he keeps losin’ his money just like the rest of ’em.—Confidence Crooks: Philadelphia Press.

It may be remarked that the roulette-tables, spin-boards, dice, teetotums, in short, all the games seen at fairs and races, are swindles. The rifles for firing at a mark for prizes cheat by having false sights or curves in the barrels. The writer at one of these places once succeeded in hitting the mark many times by aiming six inches below it.
Pinch, to (thieves), to arrest, to steal.

Pink (common), the height of perfection. Used by Shakspeare in this sense. (American cadet), being reported for some infraction of the regulations. “He’s got a hefty skin of a pink for that jollification,” i.e., “He’s got a severe report against him.”

Pinked (tailors), beautifully and carefully made.

Pinked between the lacings, a very old term, from pinked, stabbed, still current among criminals and detectives in New York. It signifies convicted by reason of perjury. Also when an honest man is convicted of a false charge by treacherous advantage being taken of some weak point. To question a witness (as is very commonly done by unscrupulous counsel) as to all the sins of all his past life, which have no reference to the case whatever, is to pink him between the lacings.

Pinked or skinned, to get (American cadet), to get reported.

Pinker (pugilistic), a blow that draws the claret or blood.

Pinky (American), an old New York term for the little finger, from the provincial English pinky, very small. A common term in New York, especially among small children, who, when making a bargain with each other, are accustomed to confirm it by interlocking the little finger of each other’s right hands, and repeating the following:

Pinky, pinky, bow-bell,
Whoever tells a lie,
Will sink down to the bad place,
And never rise up again.

(Bartlett.)

Pinnel (thieves), corruption of penal servitude.

Pinners-up (tramps), the sellers of wall-songs, that is, songs printed on small sheets and pinned on a canvas stretched on a wall for display.

Pins (common), legs.

Pinto (American cowboys), a pie-bald horse. From the Spanish pinto, painted or coloured (MS. Americanisms by C. Leland Harrison).

Pints round (tailors), an expression used in places where there are a number of cutters employed and one drops his shears on the floor. Then the cry comes as from one man, pints round, and means that the unfortunate individual will have to pay for a pint of ale for every man in the shop. It is said that it was customary to enforce this rule, but it is not so now.
Pipeclaying—it over (tailors), hiding the faults.

Pipe-laying (American), making arrangements to procure fraudulent votes. It is said to have been first used about 1835, in connection with a plot to import voters to New York from Philadelphia. Extensive works in connection with laying croton water-pipes were then in progress, and thence the phrase acquired its accepted significance. The Whig leaders were actually indicted for the alleged attempt at fraud, but were acquitted by the jury by whom they were tried. (Police), taking measures for the detection of a suspected criminal.

But I'm not a "particular" robber;
I smug any snowy I see on the hedge,
And I ain't above daisies and clobber.
—The Referee.

Also to follow and spy. (Popular), to talk.

"You see," said the barber, "we help one another here, and I have fetched you out this last two nights so as to get you alongside this y'ree chum, who has got fourteen stretch and his ticket. Now then, pipe away, red 'un."—Evening News.

Pip, to (card-players), to take the trick from your opponent.

Pirates (London street), omnibuses in which extravagant prices are charged for fare.

Did Mr. Shillibeer, when he started the London omnibus on its prosperous career of useful activity, ever foresee a time when a bold bad 'bus, called a pirate, would invade the streets?—Daily Telegraph.

Pit (thieves), explained by quotation.

I had developed a special aptitude for "buzzing" (pocket-picking) from the pit or inside breast coat pocket.—Tit-Bits.

Pitch (circus, strolling players, itinerants, &c.), a place suitable for a performance of any kind, sale of goods, &c. In certain towns, some sixteen years ago, actors could not work without getting permission from the mayor or justice of the peace, else they were liable to imprisonment as rogues and vagabonds.

Showmen are agreed that there is no better pitch in the world than London.—Daily Telegraph.
A performance.

His "fakements" or "properties" were costly and tasteful, and, in short, the entire pitch was a complete triumph.—Daily Telegraph.

Doing a pitch, doing business.

Being at Plymouth fair, and doing a good business, there stood among the crowd a youth who bought a great many lots of me, so that when I had done my pitch, and got down from the stage . . —Hindley: Life and Adventures of a Cheap Jack.

To "queer the pitch," to spoil the pitch, or performance, a theatrical and circus phrase, meaning to stop, spoil a performance in any way.

He was never "loose in ponging," nor did he ever "miss his tip." His equestrianism was emphatically "bono," and there was nothing to "queer his pitch."—Daily Telegraph.

Used also figuratively, to mar, spoil one's plans, business.

When my pitch you endeavoured to queer,

Wasn't friendly at all, so I look for a share

In her merry ten thousand a year.

—Sporting Times.

Pitch-pat's the way (popular), trot along, go on, don't stop!

Wire in and go ahead, like fashionable Fred,

Pitch-pat's the way and sharp's about the word.

—Ballad: Fashionable Fred.
Pit riser (theatrical), a burst of powerful acting which evokes an enthusiastic acclamation from the pit. Derived from the well-known anecdote of Edmund Kean.

On returning home, after his first appearance at Drury Lane, while describing his triumph to his wife, Mrs. Kean interrupted him by inquiring what Lord Essex thought of the little man's Shylock?

"Damn Lord Essex! The pit rose at me!" replied Kean.

Pittsburg grip (American), explained by quotation.

The Pittsburg grip, a throat disorder that troubled singers in the smoky city for years, has disappeared with the introduction of natural gas.—American Humorist.

Plain statement (tailors), an indifferent meal, or an easy, simple, and straightforward garment to make.

Plank, to (American and old English), to pay down money. "To plank the pewter." In old cant, both shillings and Spanish dollars were called boards.

Now then, ye noble sportsmen, if you can find anything to beat him for a shop, plank down your spondulicks.—Sporting Times.

To plank it down, to lay money on a horse.

This is a better bloomin' game, I give you my word, than plankin' it down to Kempton!—Sporting Times.

Plant (thieves and various), a preconcerted swindle, robbery, or burglary, in which sense the term explains itself as being a metaphor taken from planting cuttings or seeds in a garden.

"What have you got to say for yourself, you withered old fence, eh?" "I was away on a plant."—Dickens: Oliver Twist.

Hence any dishonest trick, dodge, device.

"He should have tried mustachios, and a pair of military trousers." "So he did, and they warn't of no more use than the other plant."—Dickens: Oliver Twist.

"Have they got the requisite coin—you know what I mean—the money?" inquired Mr. Lagers. "It isn't a plant?"—J. Greenwood: Dick Temple.

You have really no idea
What an artful bird it is,
Fly to trap and up to biz,
Twigs a plant in half a minute.

—Punch.

A plant, a decoy, one who keeps watch for burglars to warn them. In this sense it
literally means one planted there, like the French plante, orderly in waiting. Also hidden money or valuables; to spring a plant, to unearth such a hidden hoard.

Plant, to (thieves and various), to mark a person out for robbery or a swindle. It is curious to note that the French have jardinier for a confederate in a confidence trick swindle, whose duty is to prepare the victim, foster and nurse him as a gardener would a plant. Also to conceal, hide. In this sense common in Australia.

Why, they stuck up Wilson's station there, and murdered the man and woman in the kitchen; they then planted inside the house, and waited until Wilson came home at night with his stockman; then they rushed out and knocked old Wilson on the head, and drove a spear through the man's side.—A. C. Grant: Bush Life in Queensland.

Not being able to send my gold down to the escort office for security, I was forced to content myself with planting it, which I did just inside my tent.—Australian Story.

To plant the job, to arrange and prepare, generally in reference to a robbery.

It was not found necessary to plant the job by squaring the servants beforehand, nor to invent any elaborate ruse, for it was considered that the more natural the mode of attack the better would be the chances of success.—Daily Telegraph.

(Coiners), to plant, to pass spurious coin, intrusted to them by the "dandy master," or manufacturer of base sovereigns and half sovereigns. A bottle of spirits is the ordinary purchase, and the smasher receives it and seven and sixpence as a commission.

It is a two-handed job, and two women, generally an old and a young one, manage it. The former carries the base coin, and the latter plants it.—J. Greenwood: Rag, Tag, & Co.

Also plant the sour.

Although the tradesman on whom "her poor old man" had tried to "plant the sour" had sent for a constable, Mr. Maloney in the interim had contrived to put down his throat such evidence of his being a "regular hand" as he happened to have about him.—J. Greenwood: Rag, Tag, & Co.

(Football), when a football is kicked against a person he is said to be planted. Is used more specially with reference to a hit in the face. The blow itself is called a planter.

Plasterer (sporting), explained in the following extract.

Worse, if it be possible, than this desolater of hares is the "masher" or "chappie" of modern England who prides himself on quick shooting, and cuts down his birds before they are well on the wing. Mr. Bromley-Davenport calls him the plasterer—one who thinks nothing of the lives and eyes of the men who sur-
round him on all sides, and blows his peacock to a pulp before the bird is seven feet in the air.—Daily Telegraph.

**Plaster, to** (popular), to flatter.

He'd go out and get as drunk as a fiddler, and then he'd come rowlin' home and begin *plasterin'* myself over, calling me his colleen jhas and lovin' me the same as if we'd been married only fifteen minutes. — *T. Browne: My Husband's Toddy.*

**Plate it, to** (London), to walk.

*Vide PLATES OF MEAT.*

An adipose gentleman *plates it* on to the stage, and chirrups the soul-stirring anthem, "You shan't wipe your nose on the flag."—Sporting Times.

**Plates of meat** (popular), the feet.

As I walk along my beat,
You can hear my *plates of meat.*
— *Music Hall Song.*

They recognise their favourite comedian, and anticipate his lines by numerous gags, and inquiries having reference to "what cheer" he is enjoying, and how his *plates o' meat* are.—Sporting Times.

**Platform** (common). "The word *platform*, when used for the programme of a political party, is often classed as an Americanism, but it is really a revival of a use of the word that was very common in English literature in the sixteenth and seventeenth centuries, though less common, perhaps, as a noun than as a verb, meaning to lay down principles. For instance, Milton, in his 'Reason of Church Government,' says that some 'do not think it for the ease of their inconsequent opinions to grant that church discipline is platformed in the Bible, but that it is left to the discretion of men'" (Cornhill Magazine). It is used as a noun in Cromwell's letters.

A standpoint in an argument, a statement of opinion.

Mrs. Anthony presented the following *platform*, which was unanimously adopted, "That the present claim for manhood suffrage sugar-coated with the words equal, impartial, universal, &c., is a fraud so long as woman is not permitted to share in the said suffrage."—Report of the Great Woman's Demonstration, New York, 1867.

Pastor Chignel has set aside Dr. Barham's Liturgy and has taken the most advanced *platform* known to modern Unitarianism."—Nonconformist.

**Platter** (common), broken crockery.

**Play board** (Punch and Judy), the stage.

**Play booty, to** (theatrical), to play badly, and with malice prepense, for the purpose of flooring a play, or a player.

**Play dark, to** (popular), to conceal one's true character.

"Look here," said Smithers, wiping the mess from his mouth, "you've been *playing dark*, and I'm out of training, and—."—Moonshine.

**Play for, to** (American), to deal with generally, with an idea of deceiving. *Vide JAY.*

**Play Hell and Tommy, to**. This expression is thought to be a corruption of "Hal and Tommy,"
the allusion being to Henry VIII. and his unscrupulous minister, Thomas Cromwell, who seized and rifled the religious houses, and turned out their occupants to starve. This is, however, a very doubtful derivation. In some parts of England it is very common for an angry man to threaten another that he will play Hell and Tommy with him.

Playing it low down (American), an expression signifying that a man has been too unprincipled, mean, or rapacious in an act.

I ain't over particular, but this I do say, that interducin' a feller to your sister, and availin' himself of the opportunity while you're a kissin' her to stock the cards, is a playin' it mighty low down.—Newspaper Story.

Playing the sovereign (American). Office-seekers who, shortly before an election, put on shabby clothes, drink whisky, and shake hands with everybody, and make themselves generally agreeable to all of inferior social position whom it is to their interest to conciliate, are said to be playing the sovereign, the object being to secure their good graces and obtain their votes. Probably derived from the common phrase the "sovereign people."

Play old gooseberry, to (popular), to do a person a mischief, to "kick up a row," to behave in a violently inimical manner. Vide Gooseberry.

Please the pigs! (common), if you are willing, if all goes well—a form of assent providing no obstacle crops up. Edwards says the phrase, ludicrous as it is in its present shape, had its origin in a deep religious feeling. It was formerly "please the pyx." The pyx was the box which contained the consecrated wafer, and was held in the greatest veneration as the symbol of the Almighty. The phrase therefore, "If it please the pyx," was equivalent to "If it shall please God," or, in modern form, "D.V.," i.e., Deo Volente, or, God being willing. This derivation is, however, much more ingenious than probable.

Plebe (American cadet), a new cadet; a military synonym for the freshman of the universities.

Plebs (Westminster school), a tradesman's son. From the Latin plebs, populace.

Pledge (Winchester College), to give away. "Pledge me" means after you.

Ploughed (common), drunk.

Plough, to (university). A man is ploughed when he fails in an examination. Probably this word was suggested by the harrowed feelings of the candidate.

Well, the "gooseberry pie" is really too deep for me; but ploughed is the new Oxfordish for "plucked."—C. Reade: Hard Cash.
**Pluck—Plum.**

**Pluck, to** (common), an Oxford term now in general use, to reject a candidate for examination. "When the degrees are conferred," says Cuthbert Bede, "the name of each person is read out before he is presented to the Vice-Chancellor. The proctor then walks once up and down the room, so that any person who objects to the degree being granted may signify the same by pulling or plucking the proctor's robes."

Printer's devil—Proper.

Printer's devil (printers), a printer's boy. Moxon, 1683, attributes this term to the fact that the boys used to "black and bedaub themselves," whence the workmen jocosely called them "Devils." The real origin, it is believed, was that Aldus Manutius, the Venetian printer, had a negro boy, and in those days printing was ignorantly supposed to be a "black art," hence the term.

Passing for the nonce the itinerant "paper boy," the "errand boy," and the printer's devil, which last genus garçon machinery is fast driving from his stool, come we to the Arabs of the town.—J. Diprose: London Life.

An Australian would describe Harcourt, Childers, Labouchere, Conybeare & Co., as Gladstone's own proper crowd; Lord Carrington, the Duke of Sutherland, Mr. Christopher Sykes, &c., as being the Prince of Wales's proper crowd; and would talk of Lord Wolseley's proper crowd as Englishmen talk of his "gang," or apply the term to the Browning Society, &c.

Prop, to (pugilistic), to strike.

His whole person put in Chancery, sung, bruised, fibbed, propped, fiddled, slogged, and otherwise ill-treated.—C. Bede: Verdant Green.

Pross, to (theatrical), to sponge. Doubtless derived from the Roman prass. The actors, however, affect to derive this detestable word from a line in Otway's play of "Venice Preserved," in which that "dashing, gay, bold-faced villain" Pierre says, "The clock has struck, and I may lose my proselyte." The wealthy proselyte of dogma is always under the thumb of the proselytiser, who invariably makes his pupil "shell out" for the good of the cause. Similarly, the lowest class of players have, from time immemorial, been accustomed to sponge upon their proselytes, to bleed them in money or malt. The handsome but infamous "Scum" Goodman, the actor, the amant de coeur of the notorious Barbara Castlemaine, bled that lubricious lady almost as freely as the illustrious Jack Churchill, or as she herself bled that anointed scoundrel, old Rowley, who in his turn bled the nation. There is a restaurant, not a hundred miles from a certain fashionable theatre in the Strand, known to the initiated as "Prossers' Avenue." At certain times of the day this place...
is infested by impecunious loafers, consisting of the outcasts of all professions—actors, journalists, disbanded soldiers, unfrocked parsons, and broken-down adventurers of every description, all of whom make it their business to *pross* for anything, from a fiver down to a glass of gin or beer. The attentions of these enterprising gentry are not restricted to their own immediate circle; they are superior to vulgar prejudice, and will *pross* anything from anybody, more especially from "the stranger at their gates."

This term is common among workmen and others. Are you one for a *pross*? Will you stand a drink?

But now I've grown to man's estate, for work I've never cared,
I've *pressed* my meals from off my pals, oftimes I've badly fared.

**Puckah** (Anglo-Indian). The word is applied in various ways; *puckah* in Hindostani means properly red brick. So a *pucka* house is a red brick house, and in opposition to a "kutcha" house, one built of earth, it is a good, comfortable house. Hence the meaning of good, best, attached to the word. A *pucka* spin is a young lady who is not engaged, a *pucka* officer is a senior officer; should an officer in command go on leave, his deputy is not *puckah.*

But I believe that marrying
An "acting" man is a fudge;
And do not fancy anything
Below a *pucka* judge.

—†*Cheen: Lays of Ind.*

To “pull up,” to cease, to refrain. These phrases are constantly used by lady novelists, though not by any writer of high or deserved repute.

That Lord Hartington’s speech outdid the utmost expectations of his friends, in regard to its matter and its fearless outspokenness, is everywhere acknowledged. Here and there it was delivered admirably, and with something of the large manner demanded by his great position. But, truth to say, this was not by any means maintained uniformly, and he frequently seemed only by an effort to pull himself together.—The World.

Putter up (thieves), a spy in the interest of burglars, whose business it is to collect and impart information to the gang with which he is connected as to the general condition and domestic arrangements of houses that may be most easily robbed, and that offer the greatest chances of plunder. The putters up are commonly men of glib tongues and agreeable manners, who endeavour to ingratiate themselves with the female servants. They seldom endanger their own necks by active participation in the burglaries they recommend, but are content to receive a portion of the booty, trusting to the validity of the well-known axiom of "honour among thieves" for the reward which they have earned. They are worse, but not very much worse, than the professional detectives who do similarly dirty work for people who are not burglars or criminals, but who do not scruple to employ such disreputable agents.

Put up, betrayal. Hotten limits this simply to inspecting or planning a robbery, or obtaining information in regard to projected theft. But this is very far from the true meaning of the word as used in both England and America. It is thus explained in the "New York Slang Dictionary": —

"Put up. This refers to information given to thieves by persons in the employment of parties to be robbed, such as servants, clerks, porters, &c., whereby the thief is facilitated in his operations. A job is said to be put up if the porter of a store should allow a 'fitter' to take an impression of the keys of the door of a safe; or when a clerk sent to the bank to make a deposit, or to draw money, allows himself to be thrown down and robbed, in order to have his pocket picked."

It may be observed that it is quite in this sense that Dickens uses the word in "Oliver Twist," and not at all in that of obtaining information.

Put-up jobs (burglars), explained by quotation.

From the Italian.

Quart-pot tea (Australian). The following passage is fully explanatory of this Irish phrase for tea.

"Quart-pot tea, as tea made in the bush is always called, is really the proper way to make it. A tin quart of water is set down by the fire, and when it is boiling hard a handful of tea is thrown in, and the pot instantly removed from the fire. Thus the tea is really made with boiling water, which brings out its full flavour, and it is drunk before it has time to draw too much."

**Quiff** (military), the small curl on a soldier's temple just showing under his glengarry or forage cap. Close cropped hair is one of the indispensable conditions of military smartness, but the curl used to be allowed, or in lieu of it a false curl which was gummed inside the forage cap so as to lie on the forehead. **Quint** (American cowboy), a whip (Spanish).

**Quisby** (popular). Hotten defines this as bankrupt. According to a song "sung with terrific success by Miss Kate Constance" it appears to have a slightly different meaning:—

When tars have been away on a voyage o'er the sea,
They're glad to get home again to have a jolly spree,
But when they kiss and cuddle you and won't let you be,
Don't it make you feel *quisby* in the morning?

**Quite too nice** (society), expression much used by the aesthetic female portion of society, meaning much the same as "awfully jolly," aesthetic conversation being largely composed of many adverbs and adjectives strung together. The Americans have many more or less strange nicknames, and one of the last invented has reached this country, only to be in various ways misapplied and misunderstood, we mean the euphonious word mugwump" (Cornhill Magazine).

He turned him round and right-about
All on the Irish shore,
Said he, "We'll give P-r-n-il a shake,
And make the Rads to roar,
My boy!
And make the Rads to roar!"

—Punch.

Rags (American), bank-bills. Before the war, when there was no uniform currency, the bills of the innumerable banks of the "wild cat," "blue pup," and "ee's dog" description often circulated at a discount of 50 or 60 per cent., and in a very dirty and tattered condition. These were familiarly called rags, a word still used now and then as a synonym for paper-money.

Oh, times are hard! folks say,
And very well too we know it;
And therefore the best way
Is while you're young to go it.
The banks are all clean broke,
Their rags are good for naught,
The specie's all bespoke,
So certainly we ought
To go it while we're young.
—Song of 1840.

There is not a single music-hall, from the vast "Alhambra" in Leicester Square, to the unaristocratic establishment in the neighbourhood of the Leather Lane, originally christened the "Raglan," but more popularly known as the "Rag," that I have not visited. And I am bound to confess that the same damning elements are discoverable in one and all.—Greenwood: Seven Curses of London.

Rag, to (American University). Hall quotes a correspondent of Union College as follows:

"To rag and 'ragging' you will find of very extensive application, they being employed primarily as expressive of what is called by the vulgar thieving and stealing, but in a more extended sense as meaning superiority. Raised bill (American), a bank-bill which has had the value raised or increased by pasting over it slips cut from other and worthless bills.

A couple of young men entered M. Levin & Co.'s saloon, Jefferson and Bardell Streets, called for drinks, and tendering what appeared to be a $20 bill in payment received the change and left. After they had gone the bill was found to be a clumsily-raised $20. The numbers of a Confederate $20 bill had been pasted over the figures in the corners, while a strip of paper stuck across the "X" on the back gave the bill the appearance of having been pasted together and partially concealed the fact that there was only a single "X."—Chicago Tribune.

Raise the wind, to (common), an almost recognised phrase. To procure money by borrowing, pawning, or otherwise.

In lieu of a calf! It was too bad by half! At a "nigger" so pitiful who would not laugh And turn up their noses at one who could find No decoy method of raising the wind? —Ingoldsby Legends.

and many tricks are played on
him by his companions in con-
sequence. Vide RAFE.

exhibited swallowing a sword.

morsel eaten after which one
is filled to repletion.

Ramp (common). This word,
when applied to swindling and
cheating, e.g., "rampage," thiev-
ing and taking in, is evidently
of a different origin from ramp,
to rage, rear up, and act with
violence. It is possibly in the
former sense allied to the Yid-
dish rame, aceiver or cheat;
Chaldaic ramons, deceit. Ramp,
to rage, occurs in several old
English writers, e.g., Jonson.
These, it is only fair to say, were mostly
rams, or swindles, got up to obtain the
gate-money, and generally interrupted by
circumstances arranged beforehand by
those who were going to "cut up" the
plunder.—George R. Sims: How the Poor
Live.

(Thieves), the hall mark on

and being recognised by constables as a
"welsher," ramper, or "ticket snatcher."
These are criminal trades, belonging es-
sentially to the racecourse.—Sporting Times.

Ramping (thieves), explained by
quotation.

George Stamper was charged, on re-
mand, with felony, technically known as
ramping, i.e., calling at the houses where
parcels had just been delivered from trades-
men to customers, and obtaining posses-
sion of them under various pretences.—
Standard.

(Sports), a swindle, a con-
spiracy.

The ramping of the Jubilee Plunger at
pigeon shooting at Brighton is still the
principal topic of conversation. Whether
Mr. —— will pay up and look pleasant,
or repudiate, or prosecute the different
parties for conspiracy is more than I can
say.—Sporting Times.

Rank outsider (common), a vulgar fellow, a cad. From a racing term applied to a horse outside the rank.

A rank outsider might possibly drop from the clouds—just at the bell—but it is hardly possible that Grandison, or Lourdes, or Florentine, or Stetchworth, or any other "ranker" can be the horse.—Sporting Times.

Ranks (printers). A compositor that has been promoted to the position of overseer or reader is said to return to the ranks again should he be reduced. Attributed by Savage, 1841, to the fact that compositors' frames are placed in ranks or rows. More probably from a military term.

Ran-tan (popular), to be on the ran-tan (originally American) is to "be on the big drunk," to be in a fit of drunkenness extending over several days, or it may be weeks, after a period of enforced abstinence. Possibly from provincial ranter, a large beer jug. The word appears in the works of Taylor, the Water-poet, in 1630. Also "ran-ran," frolic, drunkenness.

My second son's been made a Buff, and goes on the ran-ran.—Broadside Ballad.

On the ran-tan also means drunk.

D— me! I scorn to rap against any lady.—Fielding: Amelia.

Raspberry (coachmen), explained by quotation.

One gentleman I came across had a way of finding out the cussedness of this or that animal by a method that I found to be not entirely his own. The tongue is inserted in the left cheek and forced
through the lips, producing a peculiarly squishy noise that is extremely irritating. It is termed, I believe, a raspberry, and when not employed for the purpose of testing horseflesh, is regarded rather as an expression of contempt than of admiration.

—Sporting Times.

The allusion is to a grating noise like that produced by rasping.

Raspberry tart (American), a nice dainty girl.

Raspberry tart, with a little poke bonnet, And a great big bunch of thingamies upon it, With a pinafore dress that was just the thing, And a little pug dog at the end of a string. —Broadside Ballad.

Rats (popular), to "give a person green rats" is to backbite him.

"To be in the rats," to be suffering from drink; to have or see rats, the incipient stage of delirium tremens (see Zola's L'Assommoir). (Common), "to have rats in one's garret," to be soft-brained, silly, or idiotic.

"No, I haven't any rats in me garret, ur in me brain, aither, me foine lady," said the widow indignantly.—New York Mercury.

(American), "to have rats," to have wild or eccentric fancies; a synonym for "rams," or other animals seen by men with delirium tremens.

The word rat stands as an opprobrious epithet applied to persons suddenly changing their opinions. Hence the term "ratted," which has become so common in late years. Sir Robert Peel seems to have been the first noted person to whom the term rat was applied, and he brought the epithet upon himself by changing his opinions on Catholic Emancipation. Some of our Western editors use the word rats in a way unknown to M. Barrère. For example, if one editor takes a flippant view of what another regards as a grave question, the latter at once declares that "our contem-
Ratted (common), applied to a "rat," i.e., a turncoat.

As soon as he got round a double, I guyed away to Maiden, and touched for two wedge teapots, and took the rattler to Waterloo.—Horsley: Jottings from Jail.

(American), a neck-tie. It is a very curious coincidence that so far back as 1831 a comic writer spoke of a very great swell as one who

"Is on fashion leading-tattler, And his tie's a real rattler;"

and that recently in America cravats are made of rattlesnakes' skins.

Rattle, to give the (American thieves), to talk to a man so as to divert his attention, as, for instance, while robbing him. To confuse by talking.

Rawnie. This word, according to Hotten, is the gypsy for a young woman. It has, however,
no such meaning in Romany, where it is invariably applied to a lady. From the Hindustani ṛānee, a queen.

"Dui Romany chals were bitchadey pardel, Bitchadey parlo boro pānt.

Razor (American University), a pun.

Many of the members of this time-honoured institution, from whom we ought to expect better things, not only do their own shaving but actually make their own razors. But I must explain for the benefit of the uninitiated. A pun in the elegant college dialect is called a razor, while an attempt at a pun is styled a sick razor. The sick ones are by far the most numerous; however, once in a while you meet with one in quite respectable health.

—Yale Literary Magazine.

Reacher (pugilistic), a blow.

And our pugilistic hero felt his courage go to zero

**Religious** (Texas), quiet, good. It is amusing to hear a Texan ask when about to purchase a horse, "Is he *religious?" Generally a mustang is anything but that. It means, Is he free from vice? and as Texan horses are notorious for sulking and kicking, the inquiry seems a trifle superfluous.

**Remedy** (Winchester School), (quasi dies remissionis), on Tuesday or Thursday. If there was any reasonable excuse, prefect of hall used to go up to the doctor after chapel and asked if they might have a *remedy.* If this was granted the doctor gave him a ring (*remedy* ring), and there was a half-holiday; except that all who had not studied had to sit in hall from 9 to 11 A.M. Some as I know
Have parted with their ready rino.

Dr. Brewer suggests that it came from the German rinos, a nose, alluding to the Swedish nose-tax. Other suggested derivations are the Scottish rino and the Spanish riñón, meaning kidney; “tener cubierto el riñón” signifies to be wealthy. Again it may have been coined from the phrase, “to pay through the nose,” i.e., to pay a high price.

“Probably as a Yorkshire and Northern word from the Scandinavian or Danish-ren or reno, fine, brilliant, shining; a common synonym in every language for money, as the ‘shiners.’ In the Icelandic Skaldespraket, or poets’ language (a part of the Edda), the word Rhine (Rhenflooden) is, however, given as one of the twenty terms for gold, because the great treasure of the Nibelungen lies in it” (C. G. Leland: Notes).

Ring (American), a combination of financiers, manufacturers, or politicians, formed to advance their own interests, and very often to rob the public. Thus the object of the great whisky ring, a coalition of distillers, was to evade the revenue laws.

Rom (gypsy), a gypsy, one of the Romany race. The etymology of the word is uncertain. It would appear to have some affinity to the Hindu ram-na, of Sanskrit origin, "to roam."

These wanderers are now generally admitted to have come from Northern India, and probably a mixture of the Jat, Dom, and other wanderers who, being driven out of India, about the tenth century coalesced and went to the West.

The writer believes that the ancestors of the gypsies must be sought, so far as name at least is concerned, among the Dom, a very low caste in India. But in the north of India, in the hill country, there are the Domar or Dom allied to them who are not by any means so degraded. D and R are convertible in Indian tongues, and doi, a wooden spoon in Hindu, is roy in gypsy. The writer has met with a Hindoo who declared that he once belonged to a tribe of Indian gypsies who called themselves Rom. He said that in their peculiar language māro or mānro was bread. This is the word for bread in all gypsy dialects, but it is not found in any Indian tongue. Mr. Grierson, however, following the indication as to the Dom, discovered in India that among the Bihar Doms, māro means wheat.

"As mandy was perryin' pre the drom,
I dicked the patteran of a Rom,
Of a Romany chal as I did know

A fight occurred on the steamer between a negro rouster and the second mate.—American Newspaper.

Rovers, fish-hawks (American), women, often young and good-looking, who go about every and anywhere, into brokers' shops, law-offices, stores, universities, or wherever men may be met, soliciting subscriptions or contributions for charitable purposes. Many of them are really employed by churches, hospitals, &c., others are cheats, who have many ingenious devices to obtain money. One of these is to inquire if Mrs. — is at home (having previously ascertained the name of the occupant of the house), and send up a card. While in the drawing-room, as soon as the servant is gone, the rover steals a few cards from the receiver. Having interviewed the hostess, she goes to the ladies whose names and perhaps addresses are on the cards, and states that she was sent to them by the one from whom they were taken, and that she takes a special interest in the charity for which money is solicited. There are many men engaged also in this infamous business. Women also largely employ the "collection dodge" for purposes of intrigue, and to make the acquaintance of men. Even
when undertaken in good faith, "roving" has a demoralising effect on young ladies, as the soliciting money from "all sorts and conditions of men" always must. "When I first went about collecting for our charity," said a young lady, "I was ready to faint whenever anybody looked at me, but now I shouldn't be afraid to ask the Old Boy himself for a dollar, and not let him go till he paid it."

**Rowdy** (popular), cash, money. Probably a corruption of ruddy, a gold piece. Vide Ruddy.

The officer passes his hand over his body, and then proceeds to the next man. This is called rubbing down.

Ruffler (old cant), a mendicant who shammed the wounded soldier or maimed sailor, but who robbed on the highway when opportunity offered. Harman has the definition "outcast of serving-men who robs inferior beggars."

This signification survives in rum beak, justice of the peace; rumbo, good, and rum cull, manager of a theatre, used by actors and showmen, whose slang phraseology is mainly from the gypsy and Italian; also in rum-mizzler, one clever at effecting his escape.

The modern rum is a word of many meanings, generally implying something strange, queer, difficult, or out of the way.

"What a rum chap you are, Tom!" said Master Bales, highly amused.—Dickens: Oliver Twist.

He came not to luncheon, all said "it was rum of him!"
—Ingoldsby Legends.

A rider unequalled—a sportsman complete,
A rum one to follow, a bad one to beat.
—Whyte-Melville: Songs and Verses.

It has been said that this word, with its present signification, was first applied to Roman Catholic priests, and subsequently to other clergymen. Thus Swift spoke of a "rable of tenants and rusty old rums" (country Parsons). Swift simply uses the old gypsy cant term here, which meant "queer," hence odd.

Rum or rom, as a gypsy word, was applied not only to whatever concerned sport, the ring, and turf, but to what is "queer," and is still used commonly as such, e.g., a "regular Roman" (Borrow), or rum 'un, i.e., a Romany. There are other old instances proving that the word, as applied to rum, a liquor, was regarded as a gypsy word.

Rum beak (old cant), a synonym of "queer cuffin," a justice of the peace.

Rum bing (thieves), a full purse.
From the old canting rum, which see, and bong, a purse.

Run (common), the success of a play, according to the number of performances.

The penny "gaff" is usually a small place, and when a specially atrocious piece produces a corresponding run, the "house" is incapable of containing the vast number of boys and girls who nightly flock to see it. Scores would be turned away from the doors, and their halfpence wasted, were it not for the worthy proprietor's ingenuity.—Greenwood: *Seven Curses of London*.

The process of being rung or "ring-barked" consists in the bark being cut right through all round the tree a few feet above the ground, which is done to kill the large gum-trees which encumber and draw so much moisture from the pasturage. It is much practised in Australia.

Their road at first lay between paddy-docks interspersed with a few trees rung and mostly dead.—D. B. W. Sladen: *A Summer Christmas*.

Occasionally some unfortunate is pounced upon, rudely handled, and run in.—*Saturday Review*.

It's bad enough to get run in even of one's own free will;

But to get run in for some one else it makes me sick and ill.

And my boss'll get to know it, since the oof I cannot raise,

And I shall get the blooming chuck as well as fourteen days.

—*Sporting Times*.

This phrase is not recent, but it was seldom heard out of policemen's circles until the chorus of gendarmes in Offenbach's "Geneviève de Brabant" made it familiar to the public.

It may have been derived from the old Bow Street runners, the predecessors of modern constables. The process varies according to the offender. Some need the "policeman's grip," whereby the left hand of the prisoner, palm upwards, is grasped by the left of the constable, whose right passes under the upper part of the prisoner's arm, grasps his waistcoat, and being straightened, forms a lever which makes him helpless, and would even dislocate his shoulder or break his arm if he resisted. Then there is the "frogs' march" (which see). French policemen sometimes use a process by which even the strongest man is rendered quite helpless. The officer's left hand is fixed at arm's length from behind on the prisoner's coat-collar, while his right lifts him slightly by the seat of his trousers. The man, being thus placed out of the perpendicular, and almost on tip-toe, can then be forced on at a swift pace.

Run straight, to (society). This is one of the commonest expressions in society as applied to ladies, and it means that a lady is virtuous and faithful to her husband. It is borrowed from racing parlance, where a horse is talked of as running straight.

These foolish ones are content to do what is considered the smart thing, knowing as they do that many in our gossiping and scandal-mongering society will attribute to them the worst of motives, and class them with those who do not run straight.—Saturday Review.

Run the rule over (prison), to search a person for stolen property or contraband articles.

Thus a man runs a grocery, a shop, a bank, or a church; and if he be a mayor, or a very influential person in a community, he is said to run the town. "I am running Latin just now," said a schoolboy, meaning that he was studying it.

A desperado, cattle lifter.
Then, the rustlers had congregated there in force, the locality affording exceptional advantages for their chief occupation, namely, running off cattle and horses from either side of the frontier. Many a spot is pointed out as the scene of a sanguinary skirmish between these modern moccasins and the owners and their followers.—F. Francis: Saddle and Moccasin.

Said to be from the practice of putting into a sack and throwing into the Bosphorus certain members of the Sultan's harem; also generally supposed to be from the Spanish sacar, meaning to dismiss, and also to "bag," just as in English; but it originated in the old practice of giving a man a sack when sending him forth. Hence (St. Luke x. 4) Christ specifies that His disciples, by not taking a sack or scrip, should not consider themselves as dismissed, i.e., not make provision for themselves. The French have the corresponding expressions, "donner son sac à quelqu'un," "avoir son sac ;" formerly, "donner son sac et ses quilles." French workmen will say, "il a eu son sac avec une forte paire de brelettes." The Germans have the phrase, "to give the basket." The synonyms are, "to get the bag," the "empty," or the "bullet." "To give the sack" is so widely used as to be almost a recognised phrase.

He remembered in English schools and colleges the many epithets applied to those who, not content with doing their work, committed the heinous offence of being absorbed in it. For this purpose schools and colleges had invented phrases, semi-classical or wholly vernacular, such as sap, "smug," "swot," "bloke," and "mugster."—Daily News.

If a boy did anything more than the regular school-work for his own improvement, he was called a sap.—C. T. Buckland: Eton Fifty Years Ago.

Sap the tias (common), back-slang for pass the salt, used when the drink does not go round freely.

The French piocher is used in both senses.

These incentives to industry prevent the early years of a boy in college being entirely wasted; but those who, toward the end of their school time, at length begin to value and to practise studious habits, often think regretfully upon the advantages secured by those who sapped from the beginning.—Pascoe: Every-day Life in our Public Schools.

Saratoga walk (American), a fashionable “fad,” fully ex-
plained in the following elegant extract from an American newspaper:—

"The Saratoga walk is said to be the latest fashionable gait for women. One who describes it says that 'the first requisite is to throw your shoulders back, the chest forward, chin up, and stomach in, and then walk, wriggling head, limbs, body, and especially bustle. The aim is to secure a series of revolutions which shall be simultaneous but opposite. In simple brevity, if your head moves right your body must move to the left, and before your foot reaches ground you must describe a circle with the entire limb. The gait is practised in a night dress before the mirror. The part of the business most difficult to master is the proper position of the stomach.'"

Sausage (African coast). When a chief or other person becomes too bold, or powerful, or wicked, he is said in English negro slang to "get too much sass." The remedy for this is to make him drink "sass water."

According to news from the West Coast of Africa, there have been some human sacrifices in consequence of the death of a son of the King of Grand Jack. Selected victims were obliged to drink "sass water," a poisonous liquor, and were then pitched into the surf on the seashore. When the rollers dashed them ashore, men, women, and children cut at them with knives until they were dead. The chief of the tribe flies the British flag, and the captain of a trading vessel remonstrated with him in vain.—St. James's Gazette.

Scandal water, slang word for tea, dating from the hard-drinking days of a bygone generation, when it was fashionable to get drunk, when "drunk as a lord" was a proverbial expression, when a man was accounted the best in a convivial company who first fell senseless from his chair by excess of liquor, and "a three-bottle man" was considered a king of good fellows.

Who first shall rise to gang awa,
A coward cuckold loon is he;
Who first beside his chair shall fa',
He shall be king among us three.
—Robert Burns.

In the early morning, it being rather dark and the prospector and his niggers half asleep, Mr. Leo was “inspanned” as wheeler in mistake for the missing moke. The eight in front beat their record in the travelling line, and were glad to have the error rectified at dawn.—Sporting Times.

He went on the *scoop* that night.—*Topical Times*.

*Scoop, to* (American). It has become common of late to speak of any one who has been turned out of office, or been rejected, as *scooped*. Also "Jemand opden schop zetten" (schop here means "swing," as well as *scoop*), to take to one's self the liberty to cashier a servant or workman at any time, without being bound to employ him any longer. Scrag-end, explained by quotation.

There is a long and sinuous thoroughfare situate in the heart of London-in-the-East, the real name of which will not be here given, but which, probably because of the chronic impecuniosity of those who patronise it as a market-place, is popularly known as Scrag-end. It flourishes all the week through, but the time to see it at its busiest is Saturday night, when the glaring jets of gas have just been lit to illuminate the butchers' shops, and the countless costermongers have set their naphtha lamps blazing.—*J. Greenwood.*

People who have of late been playing at pugilism have their own organs, which are not only organs, but partisans also. Thus they, the players, don't want me to break a lance in their behalf; and yet I note that those who have taken upon themselves the rôle of advisers and directors of the toy pugilism which has so aroused Mr. Howell's wrath, have said never a word in defence of the queer thing about which they have for months been making so much vapour. Has the spirit of Bombastes affected the directors and controllers as well as the Lowther Arcade scrapers. — The Referee.

Technically the scratch is a line at the starting-point of a race, or the mark which is scratched or chalked on the ground in the middle of the "ring," hence the expression coming up to the scratch. Also toing the scratch, being ready at the post in time. The rules of the prize-ring require each man to have his toe on the scratch within eight seconds of "time" called on pain of losing the battle. He must walk to the scratch unaided. Sea cunny (Anglo-Indian), a steersman or quartermaster. Persian sukkuñi, from the Arabic sukkān, a helm.

Sea-grocer (nautical), the purser.

Seal, a religious slang term for a convert (Hotten). In the phraseology of Mormons, a wife.

Sealed (American), originally used by the Mormons to intimate that wives are appointed or united by eternal destiny to a man. A source of many slang phrases, and not a few unseemly puns and jokes.

A young Mormon wife, in a fit of absent-mindedness at the post-office, dropped herself into the box, and let the letter walk home, nor did she find out her mistake till the clerk asked her if she were double or single? "Young man," she replied, "don't you know that I'm sealed?"—Newspaper jokes.

"My wives, Mr. Ward," sed Yung. "Your servant, Marm's," sed I, as I sot down in a cheer which a gal brawt me.

"Besides these wives you see here, Mister Ward," sed Yung, "I hev eighty more in varis parts of this consecrated land which air sealed to me."

"Which?" sez I, gittin' up and starin' at him.

"Sealed, sir! sealed!"

"Wharebouts?" sez I.

"I sed, sir, that they was sealed." He spoke in a triggerdy voice.—Artemus Ward.

Scuttle—See.

Seas over, half. Vide HALF-SEAS OVer, to which may be added the following explanation:—

Dr. S. G. Green, in his life of William Wilberforce, the philanthropist, states that he (Wilberforce) would say, "I have often heard that sailors on a voyage will drink 'friends astern' till they are half-way over, then 'friends ahead.' Could this custom be the origin of the phrase? . . . Though the phrase is never used, I believe, to denote a person completely drunk, it originally implied semi-intoxication."—Notes and Queries.

Sea, to be at (common), to be lost, to know nothing about a matter; to be uninformed, uncertain.

Second-hand daylight (popular), the light of another world. Apparently a vulgar version of the light that never shines on sea or land. "I'll let daylight into you."

The other night she came with a candle in one hand and a sixpenny dagger in the other, and started on me in this style—'Where is the old kangaroo? Let me get at him, and I'll treat him to two-pennyworth of second-hand daylight?"—Music Hall Song: Why don't you be steady, Maria?

Second timer (prison), a man convicted and sentenced for the second time.

I have known hundreds of men who were second timers, who in a ten years' sentence had got twenty-seven months' remission, who were compelled to do the whole of this time in addition to what they got in the second sentence.—Evening News.

See, a (American), a sight. "She determined that the world.
should have an opportunity of seeing her three babes, or trins, or triplets, at twenty-five cents a see,” says an Illinois newspaper.

See a man, to (American), to go and have a drink at the bar.

Seedy (common), unwell. The metaphor refers to a plant run to seed, and consequently withering.

Would it not be better for you to receive part (perhaps all) of your money by a wise concealment? for however seedy Mr. Bagshot may be now, if he hath really played the frolic with you, you may believe he will play it with others. — Fielding: Jonathan Wild.

Little Flanagan here is a little seedy, as we say among us that practise the law. — Goldsmith.

Sei. Vide Soldi.

Selection (Australian), a kind of farm. The principle of free-selection is established in all the self-governing Australian colonies. The Government throws open such and such an area of the crown lands for free-selection and then any one is allowed to select or take up so much land, usually 320 or 640 acres, paying at the rate of a pound an acre, the payment being spread over a number of years, residence on the area selected for so many years, and certain improvements within a prescribed time being conditions attached. As these selections are generally taken up for farms, a selection has come to mean pretty much the same as a farm, though it has this technical meaning.

Here they can breed a sturdy family To help them farm more highly, as more mouths
Demand subsistence from the same selection,
And when they grow too many for its means
And have acquired a rife experience,
Send sons forth one by one to found fresh hives.

Selector, free (Australian), a farmer.

I venture to differ from my correspondent when, in telling me that “cooky” is Australian argot for a small farmer, he adds, “By-the-bye, you never hear the word ‘farmer’ over there; it is always selector or ‘squatter.’” But I beg to state that many scores of times at the Antipodes I have heard agriculturists whose holdings were small, spoken of, not as “cockies” but as “cockatoo farmers;” while to the term selector was generally prefixed the adjective “free.” — Illustrated London News.

Sell (common), disappointment, deception, practical joke.

Mr. Verdant Green having swallowed this, his friend was thereby enabled not only to use up old sells, but also to draw largely on his invention for new ones. — C. Bede: Verdant Green.

Sell a pup, to (common), to make a fool of one.

Sell, to (common), to deceive, swindle, play a practical joke upon a person. Said to be from a cheap Jack’s phrase, “sold again,” after selling his goods.
Send a man up Green River, to (American), i.e., to kill him. The phrase, on De Vere’s authority, had its origin in a once famous factory on Green River, where a superior kind of large knife was made, very popular among hunters and trappers. On the blade the words “Green River Works” were engraved, and hence the mountaineers, using the knife, to despatch an adversary, literally sent his blood up Green River.

Send-off notice (common), an obituary notice.

After the funeral Huggins behaved handsomely; he put the Scalper into deep mourning, and wrote a beautiful send-off notice saying what a loss the community had suffered in Scrimmy’s untimely end.—The Golden Butterfly.

Sensation (popular), a quartem of gin.

Sent down (University), rusticated, sent away for a certain lapse of time.

When “Billy” Wykeham gave to his colleges at Winchester and Oxford the motto, “Manners maketh man,” we wonder if he considered the publication of skits upon “dons” to be a breach of scholarly manners. The trustees of University traditions at Oxford have, however, no doubts upon the subject, and yesterday an undergraduate of New was sent down for irreverent jibes, published in an undergraduate paper for which he was held responsible.—Globe.

Sentry go (army), properly the cry made by the sentry nearest the guard-house when it is time for him to be relieved, and which reminds the sergeant or corporal to turn out the next relief. Sentry go has come to be accepted as the term for any kind of active military duty. A sentry go soldier is one who is always at duty, and in the lesser sense always at the most ordinary form of duty.

Sep (American cadet), a cadet who joins the academy in September.

Separates (prison), the first nine months of a sentence of penal servitude, which are passed in separate and solitary confinement in Fentonville or Millbank prisons before going to a convict prison.

Serang (Anglo-Indian), a native boatswain or chief of a Lascar crew, the skipper of a small native vessel. Persian sarhang, a commander or overseer.

Serene, all (popular), all right.

So far all serene; but this joker, I tell yer, runs slap off the track
When he says that my togs and my talk are “the fashion of sev’ral years back.”
—Punch.

She saw he needed friendly aid,
To grant it she was not afraid,
Thought she “It’s all serene!”
—Sporting Times.

Sergeant-major (butchers), an expression used by butchers in garrison towns to denote a large piece of mutton in the rib part. So called obviously from the white stripes like sergeants’ stripes.

Servante, the concealed shelf at the back of a conjuror's table.

He laid claim to have served both in Maidstone gaol and the prison of Wandsworth.—Greenwood: In Strange Company.

Se, sey (theatrical), yes. From the Italian si.

Sessions (popular), an exclamation of surprise.

Set about, to (popular), to chastise, beat, thrash.

This got to my father's ears. When I went home he set about me with a strap.—Horsley: Jottings from Jail.

Set 'em up, to (American), to treat with drinks.

They threaten to make him set 'em up every time he tumbles in hereafter.—T. Stevens: Around the World on a Bicycle.

Set her up again! also, set 'em up again! (American), try again, begin once more. An encouraging exhortation to any one. Taken from the game of ten-pins, where it is a cry to the boy when all the "men" are down.

Rip Sam! set her up again!
Set her up again, set her up again!
Rip Sam! set her up again!
We're all of the Choctaw tribe!

—Old Song.

Setter (old cant), a spy. (Thieves), a policeman in disguise or a man in the employ of the police (the French "indicateur") who points out the thief for others to arrest. (Costermongers and others), sevenpence; from Italian sette.

Set up (American), conceited. "You needn't be so set up about it," is a very common expression.

Seven pannyworth (thieves), seven years' penal servitude.

Sewed up (popular), vide SEWN UP.

Sewer (London), the Underground Railway.

The sewer, as it was called by the old school, would be sure to monopolise all traffic.—Graphic.

Sewn up (common), exhausted, or simply sewn. Sewn up is probably only one of slang's ingenious variations of "finished," "done," &c., also intoxicated.

He ... has twice had Sir Rumble Tumble ... up to his place, and took care to tell you that some of the party were pretty considerably sewn up too.—Thackeray: Shabby-Genteel Story.
(Popular), having no work to do, drunk.

Shabash! (Anglo-Indian), well done! bravo! From the Persian šāh-bāsh, rex fias, thou shalt become a king! The authors of the Anglo-Indian Glossary very happily and ingeniously illustrate this interjection with the following quotation.

"At pueri ludentes, rex eris, aunit, Si recte facies."

—Horace, Epist. I., i.

So boys in play cry out, "Thou shalt be king, If thou dost rightly!"

Used also in America.

Shack (West American), a hut.

It happened one Sunday afternoon that I, Scott, Davidson, Hank, and Mitchell were in one of the shacks or huts, and they were idly listening to me.—R. Morley: The Western Avernus.

In Canadian society the word is used for a house dwelling. In America a vagabond, provincial English. In Norfolk a mendicant is termed a shack-bag; to shack, or go at shack, to wander about.

Shad-belly (American), a Philadelphia term for a Quaker, in special reference to the dress worn by the Friends. The Quaker coat in its outline from the neck to the end of the skirt is cut in a curve exactly corresponding to that of the ventral line of a shad, whence the term.

Shadder, for shadow, a woman who watches prostitutes termed dress-women.

She's a dress-woman, that's what she is... one of them that they tog out that they may show off at their best and make the most of their faces... they can't trust 'em... you might tell that by the shadder.—J. Greenwood: Seven Curses of London.

Shade, to (thieves), to conceal, keep secret.

I felt 'alf inclined to dance, till I remembered as I must shade it from Jem, and the boys, or they'd be wanting their corner, and I didn't bloomin' well feel inclined to cut up my luck.—Sporting Times.

Shadkin (American), a marriage broker. From the Yiddish shad-chen, also called a "chasserem-schlupfer." "A chasserem-schlupfer is ahner der a Hochzich zamine brengt un Chusen und Kalle mocht" (D. H. L.).

The shadkin business has received a bad set-back in Brooklyn. A shadkin is a marriage broker. He is a very useful man. He finds out spinsters who have money and then he makes a bargain with some fellow who wants a wife with money and gets the couple introduced. Ten per cent. of the dowry goes to the shadkin when the others become kin.—American Paper.

Shadow (thieves), a first-class detective, one who possesses to a high degree the power of remembering the peculiar features and characteristics of persons, added to indomitable perseverance in following those whom he has spotted.
Shadow, to (popular), to dog a person.

The immediate cause of the present case was that for some months past the male defendant had shadowed him wherever he went.—Daily Telegraph.

Shady (common), dishonest, questionable, of doubtful propriety.

Although it may be shady when you wish to mash a lady,
To wink at her and simply whisper, "Tottie!"
—Bird o' Freedom.

A shady trick is a mean one or a contemptible one, from the want of ability displayed.

Shag, to (common), futuere.
From provincial shake, same meaning. "Lascivius, Anglice a schakere," nominale MS.

Shag back, to, to hesitate and hang back in the field before the enemy, or in a lesser degree, when hunting or riding a steeplechase, to crane at and refuse a fence. From a provincial term (Gloucestershire), to shag, to sink away.

Shah (popular), a great swell.
"Guessed it in once, old Ogsland!" went on Posh. "Perish me pink if it wasn't a bloomin' copper, all as blue as mould! And wasn't he a shah, neither!"
—Sporting Times.

Shake (popular), a prostitute.
Abbreviation of shakester (which see), or more probably from the provincial shake, futuere. In the north shakes means a bad character. (Printers), an expression used to describe a "slur" or "maekle" in a printed sheet, caused by uneven impression or "drag."

Shake a stick at, to (American), a very common expression, meaning "more than can be counted." Thus, "there are more people there than you can shake a stick at." Another meaning is "worthless," as for instance, "there was nothing there to eat, worth shaking a stick at." As regards the former, it has always seemed to the writer that it must have been of New York Dutch origin, and perhaps in its first form was "more than you can shake" or "hit with a stick." In Dutch schok (like stoot) is, according to Sewel, not only to shake but to hit. And it would be a very likely thing for a Dutchman endeavouring to say that there was more fruit or nuts on a tree than you could strike with a stick, to say, "more than you could strike at with a stick" and translate the word with "shake." Such an expression is too natural not to have occurred, and too quaint not to catch the American fancy for odd sayings. Thus "tie the dog loose," from some German's version of losbinden, "tar him mit fedders," for "tar and feather him," and "trow him mit ecks," pelt him with eggs, have all become "household words in the street."
Shake-lurk (old cant), a letter prepared for a vagabond stating that he has incurred a great loss, such as sickness or shipwreck. As it is a lying letter, it is probable that the term owes its origin to the Yiddish shakar, a falsehood. Also scheiker. But it is quite as possible that shake is the provincial "shack," a vagabond.

Shaker (popular), an omnibus, a shirt.

Shake, shakes (American), a fair shake, a good opportunity, offer, bargain or chance. Provincial English shakes, a bargain.

Shakes (common), no great shakes, not much, of a poor description, not up to much.

Will Douglas, no great shakes at metre, did write these lines.—T. Carlyle: Cromwell's Letters.

And though the acting was no great shakes, yet the singing was, and her last note took us and everybody else by surprise.—Punch.

"Well, he's no great shakes," returned the coal-whipper's wife, in relenting tones; "he's had a homin', as he calls it, and that always upsets him."—J. Greenwood: Tag, Rag, & Co.

"It is probable that shakes here is identical with the provincial word shake, to brag, which must be of ancient usage, as we find scheakare, or cracker, or booste maker, Iactator, philocompus,' in the Promptorium Parvulorum, about 1440. These words are near akin to Danish skogger, noisy, roaring (in skog-

ger-latter, roar of laughter, &c.), Icelandic skak, skakr, a noise. For the change of meaning from 'making a noise,' to 'boasting,' compare crack, old English crake, any loud noise, a boast, a brag (cf. 'a crack regiment,' one to boast of); brag, to make a loud noise (akin to bray, Latin fragor), to boast. Thus no great shakes would mean nothing to make a noise or brag about. Otherwise we may look for it in the provincial shakes, a bargain, comparing Danish skakke, to peddle, or huxter; Icelandic skakka, to balance. These latter words seem to be cognate with Anglo-Saxon sceacan; Icelandic skaka, to shake or wave (of the balance), just as weigh and wag are related" (A. Smythe Palmer). It has also been suggested that no great shakes may possibly be attributed to the expression to shake the elbow, i.e., to play at dice, thus, no great shakes, a bad throw.

Shakes, in a brace of (popular), in an instant. Also "in a couple of shakes." Supposed to be from a shake in music, but really from provincial English shake, a quick motion. Compare with the French "en deux temps," in an instant; literally in two motions, from a fencing term.

Now Dragon could kill a wolf in a brace of shakes.—Rende: Cloister and Hearth. I'll be back in a couple of shakes, So don't, dears, be quivering and trembling.

—Ingoldsby Legends: Babes in the Wood.
Shakester—Shallow.

Shakester, shickster (popular), a female. "Amongst costermongers this term is invariably applied to ladies or the wives of tradesmen, and females generally, of the classes immediately above them" (Hotten). In America a shakester is a lady, and shickster a woman. Derived from the German-Hebrew shigsel, shixen, shichale, a girl. In Yiddish vocabulary it is defined as a Christian girl.

Shakes, the (theatrical), a synonym for stage fright. No actor or actress, worthy of the name, ever goes on the stage for a new part, without suffering from this most terrible of all complaints. Most actors feel it more or less every night for a few moments previous to making their appearance before the public. The emotional temperament, and the tendency to hysteria, which are the distinguishing characteristics of all great artists render them peculiarly susceptible to the shakes.

Shake the ghost into one, to (popular), to frighten one.

Shake the red rag, to (tailors), to threaten or discharge. The red rag here probably means the tongue.

Shake, to (Australian popular), to steal. Originally imported by convicts into New South Wales, this word has passed into universal use among school-boys, bushmen, shepherds, &c. When "taking" is stealing, it is called shaking. When "taking" is only a breach of etiquette, it is called "jumping;" you would shake a person's watch, but you would only "jump" the seat which he had engaged in a railway carriage.

Shake up (American), to obtain, get, procure. As if one had got game by shaking up or beating the bushes or coverts.

I never saw such magnificent weather for drying clothes. They don't shake up any such climate as this in Italy.—Max Adler.

Shaking a cloth in the wind (nautical), slightly intoxicated, a drunken man being unsteady, like a sail that trembles in the wind.

Shallow (popular), a barrow used by costermongers.

And here they are after it—in vehicles for the greater part; in carts and "half-carts," and shallow and barrows.—J. Greenwood: Low-Life Deeps.

(Beggars), the shallow dodge, explained by quotation.

It may be here mentioned that the "shaller," or more properly shallow dodge, is for a beggar to make capital of his rags, and a disgusting condition of semi-nudity; to expose his shoulders, and his knees, and shirtless chest, pinched and blue with cold. A pouncing of the exposed parts with common powder blue is found to heighten the frost-bitten effect, and to excite the compassion of the charitable.—J. Greenwood: Seven Curses of London.
Shallow—Shank.

Shallow cove, shivering Jemmy (popular), a beggar of the male kind, very scantily clothed; "shallow mot" is the female. Also shallow bloke.

"What do you call a shallow bloke?"
"He is a cove that acts the turnpike sailor; pretends he has been shipwrecked and so on."—Temple Bar.

A beggar of this description is said to go on the shallows. This word is possibly connected with to shale, to shell, take the shell or coat off.

Shandy-gaff (common), a drink composed half of beer, half of ginger beer. Sometimes stout or other liquors are used instead of beer.

This functionary has a staff of natives under him for the purpose of serving out the beer, rum, soda water, and lemonade, the latter cooling drinks, which are always kept in ice, being very much used by some of the thirsty souls for the purpose of making shandy-gaff.—Brunlees Patterson: Life in the Ranks.

Shaney, shanny (popular), a fool. Probably from the expression shanny-pated, giddy-pated, i.e., with no more brains than a shanny, a small fish that lurks under stones and weeds.

And out ran every soul beside,
A shanny-pated crew.
—Bloomfield: The Hairy.

Or perhaps from the Yiddish scheina, meaning the same. Vide Sheeny.

Shanghai-ing (nautical), explained by quotation.

I fail to find the term Shanghai-ing in either slang or other dictionary, although, amongst sailors, it is a common word, denoting a common occurrence. Anglicised, it means, "Catching an unsuspecting landsman near a ship wanting hands; drugging and robbing him; shipping him as an A.B., and securing his first month's wages in advance." The authors of this villainy rely for security principally on the chance of death at sea, and then, should the improvised sailor succeed in reaching land safely, on his silence regarding the affair, owing to its apparent improbability and a desire to escape exposure.—Evening News.

(Australian), a shanghai is a boy's catapult. Small birds are not favourite quarry of the small Australian catapulter; like his rival, the larrikin, his special prey is the Chinaman. In the writer's memory, even the sons of high police officials found themselves in the dock charged with shanghai-ing Chinamen. Perhaps the instrument is so called in delicate allusion to those whom it is used to execute. (American), a dandy.

Shanks' mare, Shanks' pony, a popular saying meaning on foot.

This David Dunn was son of so poor a settler that there was no horse at home at his disposal; out West there is almost the same scorn for a person who goes even a little distance on foot as in Spain or Mexico or the Southern States before the great Civil War reduced the descendants of the cavaliers to the universal and proverbial Shanks' mare.—H. L. Williams: Buffalo Bill.

Shank, the (American), the balance, what remains; as, for example, one friend might say to another, "Suppose you come in and spend the Shank of the evening with me?" i.e., the lesser or later part.
The old Kentuckian who in the *shanks* of the evening was wont to maintain there was no such thing as bad Kentucky whisky, admitted with extreme reluctance, even in the early sermons and soda-water period of the day after, that it might be possible some Kentucky whisky was better than others.—*W. A. Paton: Down the Islands.*

*Shan't* play, I (Australian popular), I am annoyed, I don’t like it. A metaphor taken from children peevish over a game saying, *I shan’t play.* If a person is being chaffed, or if he finds a thing difficult, such as climbing up the soft ashes near the top of Vesuvius, he would say, *I shan’t play.*

*Shanty* (circus and showman), a public-house is always called by this name. Properly *shanty* is a mean dwelling-hut, temporary building or erection, said to be from Irish * sean,* old; and * tig,* a house (Webster). The word is, however, claimed to be of American origin, from Canadian French *chantier,* meaning the same. (*Nautical*), a song.

It was a tough pull, as the shark was over fifteen feet in length, until the mate suggested a *shanty,* or sea-song, a corruption of the French word *chanter,* which a fo’c’s’le Mario commenced, and the rest joined in vigorous chorus. So *Carcharias vulgaris,* as naturalists call the white shark, left his native element to the rousing strains of—

"Were you ever in Quebec,
Ho, la! ho, la!
Hoisting timber on the deck!
Ho, la! ho, la!
With a will now—Heave, oh!"

—*Detroit Free Press.*

A contributor to a London journal declares that this is not a true sailor’s word, but of literary origin, and only of late years.

*Shape* (American), "to travel on one’s *shape*" is to get on, or pay debts, or live or succeed by the virtue of prepossessing looks.

He has no more sense than a shad, you know,
Nor half the wit of an ape;
But he’ll get on while here below,
By travelling on his *shape.*

—*Ballad: Beautiful Billy.*

*Shaps* (American), leather leggings. Probably from *shap* (provincial English) tight-laced, shapely, fit, comely. *Shapes,* a tight-laced, jaunty girl.

A pair of *shaps* or leather overalls, with tags and fringes down the seams.—*Alex. Stavely Hill: From Home to Home.*

*Shark* (army), a recruit. (*Yale University*), reckless absence from college, or shirking of its duties. Applied both to the thing itself and to the person. (*Common*), a sharper, rogue, or cheat. "Commonly supposed to be a figurative use of the word *shark.* It is really a slightly disguised form of German *schurke,* a cheat or knave; Dutch *schurk,* a shark, rascal" (*Sewel*). The French "*requin de terre,*" for an attorney, seems, however, to support the figurative use of *shark,* the fish.

*Shark,* to (nautical), to purloin.

In the mess I was in, we took up our full whack of provisions, comprising three
tins of preserved Fanny Adams, a certain amount of flour, fat, and figs, which we had saved, and of course, salt horse, and salt pork; well that, and what we sharked. We were determined to have a grand flare-up, as regards our bread-baskets. —*Tit-Bits.*

**Sharp.** "A similar expression to 'two pun' ten,' used by assistants in shops to signify that a customer of suspected honesty is amongst them. The shop-man in this case would ask one of the assistants, in a voice loud enough to be generally heard, 'Has Mr. Sharp come in yet?'" (Hotten).

**Shave** (common), a narrow escape. Hotten has "a false alarm, a hoax, a sell. This term was much in vogue in the Crimea during the Russian campaign—that is, though much used by the military before then, the term did not, until that period, become known to the general public." Almost invariably heard as a close *shave.*

**Shaver** (popular), a very short jacket. A cunning fellow, one keen in making bargains, close-*shaving* being sharp dealing. A little, insignificant man.

And yet, wi' funny, queer Sir John, He was an unco' *shaver,*
For monie a day.
—*Burns: A Dream.*

Among all the characters which he bears in the world, no one has ever given him credit for being a cunning *shaver* (be it here observed in a parenthesis that I suppose the word *shaver* in this so common expression to have been corrupted from *shaveling,* the old contemptuous word for a priest).—*Southey: The Doctor.*

**Shebang** (American), a shanty, or small house of boards. No one has ever explained the origin of this term, but it may be noted that there are exactly seven board-surfaces in a shanty, the four upright sides, the two sides of the roof, and the floor.

Much did Aunt Fan disapprove of the plan; She turned up her dear little snub at "the man." She "could not believe it"—"could scarcely conceive it Was possible." What! such a place! and then leave it! —And all for a "shrimp" not as high as my hat! —

A little contemptible *shaver* like that! With a broad pancake face, and eyes buried in fat!

—*Ingoldsby Legends.*

In the latter meaning the word is possibly from the gypsy *shavie, chavy, or chavo,* a child or son. In old provincial English, however, a *shaving* is anything small, and *shaver* a small child.

**Shave, to** (drapery trade), to charge a customer for an article more than the marked price. When the master sees an opportunity of doing this he strokes his chin as a signal to his assistant (Hotten). Ladies are the chief customers at drapers', and this process is facetiously described as "*shaving* the ladies."

**Shaving through** (common), just escaping failure at an examination, or in anything.
and that the word shebang, in Hebrew, means seven.

For last night we had a tempest—while the mighty thunder rang,
Up there came a real guster, which blew down the whole shebang.
Shebang is a word from Hebrew, meaning seven sayeth Krupp,
And applied to any shanty where they play at seven-up.

—The Story of Mr. Scroper, Architect.

Shebang—Shekels.

Shed a tear, to (common), taking a glass of spirits. In the early part of the eighteenth century, in the days of Allan Ramsay, the Scottish poet, the phrase for a dram was a "bender," from the action of bending the elbow to raise the glass to the lips. The modern phrase applied to a drunkard, "he crooks his elbow," is synonymous. French "lever le coude." The Americans call a dram of alcohol a smile; and the question, "Will you smile?" signifies "Will you drink?"

Shee (Charterhouse), a plum-pudding or cake.

Sheen (Scotch), bad money. Probably alluding to the "glitter," or possibly from German schein, a bank-bill.

Sheeny (Yiddish and popular), a common and not very respectful word for a Jew, used principally in the slang of the Goyim or Gentiles, but also to be heard in jest among Jews. It is probably taken from scheina —"scheina jaudea lischkol"—a stupid fellow who does not know enough to ask or inquire. Schien, a policeman, and schiener, a house-thief, may have contributed to form this rather obscure word.

Benny is a smart boy. The lesson was bein' read to him about Joseph bein' sold by his brothers into bondage. When it was concluded the master asks, "Vat moral do we draw from this?" Benny didn't need to think for a minute. "Steer clear of sheenies," says he, "if you don't want to get sold." By my blessed gezundt, the boys's right.—Sporting Times.

Also used by thieves.

Took the daisies to a sheney, and done them for thirty blow.—Horsley: fottings from jail.

In America a pawnbroker is sometimes called a sheeney.

Sheepskin fiddle (theatrical), the big drum. Also used by soldiers.

Sheepskin fiddlers (army), drummers.

Sheep wash, to (Winchester College), to throw a man into the water.

Sheffield handicaps, well-known sprint races in which there is no scratch man, the real scratch man receiving an enormous start from an imaginary flyer. It is possible that originally the idea was that when each man was told his start, he would not know the exact distance he had to run, but the whole affair is shrouded in mystery.

Shekels (London), money, coin. Properly an ancient Jewish coin, in value about 2s. 6d.
When you've been racing, and raked in the shekels, and you come back to Romano's and order a "Noisette de Brabant," you get a mutton-chop with the bone taken out.—Sporting Times.

Shelf, on the (popular), in pawn. (Army), under arrest. French thieves use the expression, "sur la planche au pain," arrested and committed for trial.

Shell-back (nautical), a sailor; also "old shell."

Shell out, to (common), to pay, disburse; a metaphor, or out with one's shells or money, possibly alluding to the cowries or shells used in Southern Asia, on the coast of Guinea, and in the Philippine Islands.

Will you be kind enough, sir, to shell out for the price of a descent horse?—Miss Edgeworth: Love and Law.

Come, fork out, old Flint! . . . shell out, old fellow!—Waters: Recollections of a Detective.

Also used in America.

It may be imagined I had to shell out pretty freely. In all I reckon it cost me more than 25 dollars.—O'Reilly: Fifty Years on the Trail.

Shells, brown (popular), onions.

In these ways may the enormous demand for brown shells and "big 'uns" be to some extent accounted for; but as one contemplates men, women, and children busy among the heaps as ants on an anthill, and bearing off, with satisfaction beaming in their faces, onions enough to garnish steak or tripe through all the days in the year.—J. Greenwood: In Strange Company.

Shelving (printers), a man in writing his weekly bill is said to have shelved it if he does not fully charge up the work done by him—in contradistinction to "horsing," or charging in advance of work done.

Shenanigan (American), humbug, deceit.

Jim took his bill, two days' board, $2.62, and eyeing the puzzled landlord as though he suspected some shenanigan, he broke out: "I want to see them ar books!"—New York Mercury.

Bartlett says, "Foolery or nonsense when advanced to cover some scheme." This indicates, accurately, the beginning or commencing of something disgraceful. In Dutch this would be expressed by schen-aangaan, to begin anything disreputable. Schen is the root of both. Schenden and schende, violence and shame. This is only offered as a merely possible derivation of the word.

Shepherd, to (English and Australian popular), to watch, to play the spy on, to guard, to pay court to. The metaphor is obviously taken from shepherding sheep. Adversaries opposite each other at football are said to shepherd or watch each other. A man may shepherd a rich uncle or rich heiress, a detective shepherds a criminal whom he suspects of planning a felony. A man shepherds one of his own side at football by keeping off adversaries while he is running or kicking.
Sherbet (popular), a glass of any warm alcoholic liquor, as grog, &c. A misapplication.

Sherry-fug, to (Universities), to spend the afternoon indoors drinking sherry.

Shice, shicey, shicer (popular and theatrical), nothing, no good. Vide Shicer. (Thieves), counterfeit, specially counterfeit coin.

Shicer, shyster, the lowest and vilest kind of a man. The term is supposed to have been first used in England among the lowest order of Jews. It is said to be derived from the German scheisser (Lat. cacator), but may be influenced by the Yiddish sheiker, a lie, falsehood, or liar (Heb. shakar). "Sheiker we kisun," lies and falsehood. In New York the word shyster is specially applied to the lowest type of criminal lawyer—"a Tombs lawyer." (Diggings), a hole that yields nothing.

Shicksas (London), a certain class of the demi-monde. From the Jewish slang shicksel, a girl.

Shickster. Vide Shakester. Shikster crabs, ladies' shoes or boots.

Shikar (Anglo-Indian), shooting and hunting game. Shikaree, a native or European sportsman, or professional killer of game.

Shikerry (popular), shabby, bad, shaky, doubtful. Used in Australia. From provincial English shickle, fickle, doubtful.

Shillagalee (American), a low, tricky, sinister fellow. New York Dutch, schedoog, one that is squint-eyed, associated with scheelen, to want, all. Possibly Irish.

Shilling shocker (common), explained by quotation.

The shilling shocker is too much given to a beggarly setting forth of its title in plain, fat, black letters, on simple white paper. Even when it aspires to a picture cover, the illustration is generally done in black and white, which unwisely ignores the noble and still unsated thirst which consumes the consumers of those Belshazzar's feasts of the imagination. —Globe.

Shimmary Hall, St. Mary's Hall, Oxford.

Shindy. Most probably from the gypsy chindi, literally a cut, or cutting up, which is again confused with chinger, which has the same meaning and also signifies a quarrel. Shines, as applied to noisy deeds, mischief, rioting, &c., may be from the same root, a conjecture which is supported by the fact that it is always associated with cut, e.g., "He is cutting up shines."
Shine-nag (costers), a token of bankruptcy, or being "cracked up." "You'll ruin the shine-nag if you go on like that."

Shiner (popular), a sovereign; shiners, gold coins, money.
'Twas Isobar—this goodly tip—
And Epsomwards I hurried,
Expecting to recoup my trip
When safely home he'd scurried,
But when, at length, 'twas plain to see
That I had lost each shiner,
My jubilation struck a key
Comparatively minor.

—Sporting Times.

To let a lord of land want shiners, 'tis a shame.—Poote: The Minor.

(Tailors), a shiner, a boastful fellow.

Shinning around (American), explained by quotation.

"Fossicking about" is now used as a general term for what the Americans call shinning around, or what we should qualify as "ferreting about."—Illustrated London News.

To shine means also to walk.

Shinny on your own side! (provincial and American). Shinney is the game termed hockey in England, and the exclamation is a suggestion to a person to attend to his own personal interest in anything. Shinney is provincial English for hockey.

Shin out, to (popular), to pay up money. Probably from the phrase, "to break one's shins," to borrow money from him.

Shin-plaster (American), a term applied ever since the revolutionary war (1776) to depreciated currency.

The House Committee on Banking and Currency will to-morrow make a favourable report to the House upon the bill providing for the issue of $25,000,000 in fractional currency. The demand for these small notes for transmission through the mails has increased within the past year, and numerous petitions asking for a return to the convenient shin-plaster have been received during the present Congress.—New York World.

Also used in England for a cheque or bank-note.

Mr. gave—a cheque for a monkey . . . he was flourishing the shin-plaster in question at Sandown.—Sporting Times.
Shin-plaster—Shirking.

Bartlett tells the familiar tale as to the origin of the word, that after the old continental currency had become almost worthless, an old soldier used a quantity of it to make plasters for a wooden leg. It is, however, worth noting that the German and Dutch words schein or schyn, approach very nearly to sheen, shin, in the latter, and that they mean paper currency. A German proverb speaks of money as a plaster for every ill, and the peasants call a great price "a hot plaster." There is reason to believe that the phrase a shin-plaster will be found to be a translation from the German. The term is sometimes applied to "fractional currency," or notes of small value. Again it may be derived from the slang phrase "to break shins," to borrow money. The term skin-plaster is used in England. Sheen (which see), Scotch for bad money, is much older than the American Revolutionary War.

Shins (common), to break one's shins, to borrow money from one. A corresponding French phrase is, "Donner un coup de pied dans les jambes."

Shin-scaper (prison), explained by quotation.

The treadmill shin-scaper (arising, it may be assumed, on account of the operator's liability, if he is not careful, to get his shins scraped by the ever-revolving wheel).—J. Greenwood: Seven Curses of London.

Shin up a tree, to (common), to climb up a tree.

'Ship (printers), abbreviation for "companionship"—a body of compositors that work together and share alike all round, as regards the rate of pay per hour, a clicker being appointed to take charge and write the general bill.

Shipped (American University), expelled.

Ship, to (Shrewsbury school), to be unsuccessful in repeating lessons.

Shirking (Eton), explained by quotation.

Shirking was a marvellous invention. Fellows were allowed to boat on the river, but all the approaches to it were out of bounds; we might walk on the terrace of Windsor Castle, but it was unlawful to be caught in the streets of Windsor which led to the terrace. If, happening to be out of bounds, you saw a master approaching, you had to shirk, which was done by merely stepping into a shop. The master might see you, but he was supposed not to see you; the shirking was accepted as tantamount to a recognition that you knew you were breaking rules, and this was enough to disarm magisterial resentment. The absurdity of this system was, that to buy anything in the shops in High Street, where all the school tradesmen dwelt, we were obliged to go out of bounds.—Brinsley Richards: Seven Years at Eton.

Skeat derives the English word shirk from shark; but shirk, a slinking rascal, has a direct affinity with the German schürke both in sound and meaning.
Shirt—Shoe.

Shirt (turf), "to put one's shirt on a horse," to lose all one's money on a horse. The French say of a man in extremes, "il a vendu jusqu'à sa chemise."

"Now the word shirt," said the pedagogue, "is a common noun, and means an undergarment for men."

"And for horses, sir," put in a sharp youngsters.

"For horses? What do you mean?"

"Father says he is going to put his on Friar's Balsam for the Derby, sir!"

There was trouble in that class.—Bird o' Freedom.

(Common), to lose one's shirt, to lose one's temper. Also "to lose one's hair."

Shirt out, to have one's (used in England, but more in Australia), to be angry. Probably this expression has arisen from the shirt working out between the breeches and waistcoat during a struggle. To have one's shirt out, therefore, denotes excitement and thus anger. Another possible derivation is from the provincial sharty, to bustle about.

Shirty (common), angry. Used more in Australia and America.

Shivereen, a (Canadian), explained by quotation; a word imitated from the French charivari.

The second night of my stay in Chehailis we had a wedding celebrated according to local custom by a shivereen, which is a performance of the following description: When the fond bridegroom and his blushing bride have supped and gone to roost, their friends and well-wishers, mostly males, arrive from the neighbouring ranches, bringing with them guns, rifles, drums, horse-fiddles, and other musical instruments. With these they commence a lively serenade, firing volleys, and working the horse-fiddle, a big wooden box, with a very active stick inside, until the unhappy pair turn out and drink the healths of their untimely visitors. Should the husband turn rusty, his callers may possibly pull his roof off, pour water down his chimneys, or forcibly extract him in statu quo from his nuptial couch.—Phillips-Wolley: Trottings of a Tenderfoot.

Shoe-goose (Anglo-Indian), a term which shows how many Anglo-Indian words are manufactured. It is applied to the lynx, and is a corruption of the Persian siyah-gosh, literally "flock ear."

Shoe-leather (thieves), a thief's warning cry when he hears any one coming. French thieves, in a like circumstance, will say, "chou! chou!" or "agreesto."

Shoe-string (American). When a man bets a small sum and runs it up to a large amount, it is called a shoe-string.

Shoes, another pair of (popular), quite different.

We'll show 'em another pair of shoes than that, Pip, won't we?—Dickens: Great Expectations.

Said to be a corruption of the French chose; but that is improbable, as the French have a corresponding and kindred phrase, "c'est une autre paire de manches."

Shoe, to (popular), a variation of making one "pay his footing."
Shoful (costermongers and thieves), counterfeit, base coin, sham jewellery. A shoful, an impostor. "This cant term originated among the Jews, and is the Hebrew šáfūl (or šāphāl), low, base, vile, the word which David applied to himself when he danced before the ark (z Sam. vi. 22). Mayhew quotes shofuls, bad money, as a piece of costermongers' slang. It is curious to find the word once used by the King of Israel still living in the vocabulary of a London costermonger. Compare showful, showy" (Smythe-Palmer). (Popular), a hansom cab, i.e., in the shape of a shovel, the original appellation. It is said, however, that they were at first spitefully called shofuls, i.e., bad ones. Schoful appears in Dutch slang as sjofel, bad. The word is common all over Germany, Belgium, and Holland.

Shoful-pitcher (thieves), a passer of base coin. Vide SHOFUL.

Shoful-pitching. Vide SHOFUL—Pitcher.

Shoful-pullet (popular), a gay girl. Vide SHOFUL.

Shoke (Anglo-Indian), a hobby, a whim, a favourite pursuit. Arabic shank.

Shoon (thieves), a fool, a lout. Probably from the Hebrew. Vide SHEENEY.

A little holiday;
Don't talk to me about the shop!
Oh shoo the shop, I say!
—Song.

Miss Mabel Brown has jilted me, and that
is nothing new of her;
Oh shoo Miss Mabel Brown, I say! Miss Wilkins is worth two of her.
—Western News.

Shoot is a Lancashire term, to get rid of, reject, eliminate.

I'll gie ya fifteen shillin' apiece for those hundred cows, and ya'll let me shoot ten on 'em.—Peacock: Lonsdale Glossary.

The parallel phrase, to get shut of, is still used in Ireland and provincial English. In the Cleveland dialect, to get shot of. (Popular), a lot collected for sale.

Mr. — had a big show of useful harness and hack horses, and as they were all sound and good-looking in appearance, it is needless to state that the Midland dealer got rid of nearly the whole shoot, at prices ranging from a "score" to fifty guineas.—Sporting Life.

Shooter (old), the guard of a mail coach, from his being armed with a blunderbuss.

He had a word for the hostler about that grey mare, a nod for the shooter or guard.—Thackeray: Shabby-Genteel Story.

(Printers), short for shooting-stick, an implement used for tightening up the quoins of a forme.

Shooting-irons (American), firearms.
Shooting—Shoot.

The jurors—good, grandfatherly men—took a different view of the matter, and did not seem to think that it was any harm for an injured female to go about the streets with shooting-irons, ready to deal, probably, promiscuous destruction around her. —Daily Telegraph.

Shooting on the post (sport), to catch your opponents and win just before the tape.

Shoot off your mouth (American), to talk much, or talk in a boasting manner.

If he could kill Indians shooting of his mouth at them he'd soon clean them out all there is. —F. Francis: Saddle and Moccasin.

Shoot one's linen, to (common), to jerk one's sleeves in order to show the shirt wristbands.

And as for the garment I wear next my skin,
To be "shirty" with that after years would be sin,
I could once shoot my linen so spotlessly white,
But now I am thinking 'twere best out of sight.
—Song: Gone to Smash.

Shoot one's star, to (popular), to die.

Shoot, the (London Railway). Walworth Road Station, on the London, Chatham, and Dover Railway, is called, par excellence, the Shoot, because of the large number of passengers who alight there, thus relieving the enormously congested traffic from the city stations. This is especially noticeable at certain times of the evening when those engaged in the city are returning from business.

Shoot the cat, to (common), to vomit. (Army), the bugle-call (in infantry) for defaulters' drill, so called from the onomatopeic sound of the call which it is fancied follows the words "shoot the cat—shoot the cat." Nearly all bugle-calls have their synon-ymous words, as the dinner call, which runs "officers' wives have puddings and pies. Soldiers' wives have skill—ee!" and the second watch setting, or tattoo roll-call, which begins "Wiggins, Wiggins, Private Wiggins, come home to barracks," and so on to the end of a long tune.

Shoot the crow (American), explained by quotation.

An ancient sinner was recently charged with shooting the crow, i.e., obtaining alcoholic stimulant at public-houses, and making an artful retreat without paying for the cool, refreshing moisture. His method was charmingly simple. After strolling into a coffee-room, he would order a six of whisky. On the liquor being brought, he usually remarked, "The water in the bottles looks rather cloudy, waiter. Just fetch some fresh, if you please." Then, while the gentle garçon retired, the A. S. invariably drank the spirit with rapidity, and made tracks as speedily as possible. Fifteen days' "hard."—Fun.

From an allusion to crow-whisky, or the best kind.

Shoot the moon, to (common), to leave a house or lodgings by night, and generally removing the furniture without paying the landlord.

My uncle's got the broker's man,
My cousin's got a month;
My brother's joined a regiment,
The hard-up ninety-oneth.
My aunt she's gone to Colney Hatch,
To spend the afternoon,
And all our blessed family
To-night will shoot the moon.
—We are a Merry Family (Francis and Day).

Synonyms "move in the blind,
"go between the moon and the milkman," &c. In French, "déménager à la cloche de bois."
Vide Moon.

Shoot, to (Stock Exchange). "To make a man a close price in a stock without knowing if there would be a profit or loss on the bargain" (Atkin, "House Scraps").

Shop (general), a house, place, establishment, and club. The French use the word boutique as a disparaging term for any ill-managed house or establishment. "All over the shop" implies a general disturbance, confusion, or commotion of any kind; to talk shop, explained by quotation.

There was another symptom of a parallel feeling in the widespread censure involved in the common reproach that a man talks shop. What was talking shop? It meant talking of the interests of the work which they did, or the profession to which they belonged. But injustice lay in the word, and a snare in the thought. Too often it meant the exclusion from lively conversation and pleasant discussion of that which formed the dearest intellectual interest of a man's life.—Daily News.

A lay guest at a clerical dinner, hoping to ingrati ate himself with his neighbour, a well-known London parson, and beginning some rather unctuous talk, was met with the rebuke, "Sir, when I dine with Jack Ketch, I don't talk about hanging." (Army), the guard-room. The Royal Military Academy is termed the shop. (Turf), to get a shop, to secure first, second, or third place in a race.

"My boy," said an eminent bishop to his eldest son, "truth will always triumph in the long run; for this reason let your guiding principle in life be Veracity." "I don't think your tip will quite win, pa," said the boy; "but I shall certainly back it for a shop."—Referee.

(Theatrical), explained by quotation.

Sometimes one may meet in the Strand an actor who has been out of a shop—all engagements being called shops, as well as the play-houses—a long time, who having run through, or run in to Attenborough, his ordinary wardrobe, will be wearing his "props" to keep up an appearance.—Globe.

The plan is to distinguish between the two classes of shoppers.—Daily Telegraph.
Shoppy—Short-hairs.

Shoppy (common), to be shoppy, to talk of nothing but about one's calling or profession, or on sporting subjects.

When golfers get together their talk is more unutterably shoppy than even that of hunters, cricketers, or racing men.—Daily Telegraph.

Shop, to (army), to put under arrest in the guard-room.

If we enter the army, joining the light infantry, we will become a "light bob," and our first contravention of military law will ensure our being shoppy.—Morning Advertiser.

(Royal Military Academy), to put under arrest. (Pugilistic), to punish a man severely, knock him "all over the shop." (Trade), to discharge a shopman. (Thieves), to send to prison.

She looks up in his face. "Jim," says she timidly, and cowering close to him the while; "if you was took and shoppy, like him in the long boots, I'd go to quod with you, if they'd give me leave—I'd go to death with you."—Whyte-Melville: M or N.

Shop-walker (trade), a kind of foreman who walks about the shop.

—Fun Almanac.

"Well, perhaps."
"Any talk of giving the cashier a vacation so as to slyly examine his books?"
"Not that I have heard of."
"Then you must have confidence in him?"
"I—I think so. That is, I presume so. That is—I'm the cashier myself."—Wall Street News.

Short ear (American University), a rowdy.

Shorter (thieves), a rogue who clips and files coin. From a crown-piece a shorter could gain 5d. Chemical means are also resorted to.

Short-hairs, silk stockings (American), the names of two branches of the Democratic party in the Western States. They appear to have been first
used, or at least to have first come before the public, at the Democratic State Convention, held in Springfield, Illinois, August 26, 1886.

They did not resign, as had been hoped by the short-hairs, but desired to retain control of the fall campaign, and until December, when their terms expire. This was a disappointment, but their opponents got satisfaction by preventing the reelection of any of them. The silk stockings, as they are freely called, made an attempt in the committee meeting when the election of members at large took place to crowd out the Cook County short-hairs altogether by a motion that only four members at large be elected.—Chicago Tribune.

The short-hairs appear to be discontented with the administration, while the silk stockings approve of it.

Short of a sheet, to be (Australian), the Australian equivalent of a tile loose.

Shorts, the (Stock Exchange), said of brokers who are minus stocks which they have contracted to deliver.

Shot (popular), reckoning. From Danish skat, Anglo-Saxon scot. Hence scot-free. Old French (escot), écot.

There's more of 'em, waiter—three more jolly blue boys, give it a name, my Britons; I'll pay the shot.—J. Greenwood: Dick Temple.

(Old cant), explained by quotation.

The "Charley" winked at the robberies committed by nocturnal footpads on drunken wayfarers, he black-mailed the unfortunate female night-prowlers, and especially did he lend aid and countenance to the resurrection-men or body-snatchers, who often found the watchman's box convenient as a temporary receptacle for the shot, or corpse, which they had just disinterred.—Daily Telegraph.

(Turf), to be shot is to make a disadvantageous bet which is instantly accepted.

Then a plucky fielder, who does not perform in London every day, offered "nine monkeys," and was instantly shot by the very dealer who had backed.—Bird o' Freedom.

Shouting. Vide To SHOUT.

It is the custom in the colonies, or, at all events, in the parts I have visited, to "stand" drinks most profusely at the village or township bars. They call it shouting.—Blackwood's Magazine.

Shout, to (Australian), to treat, to frank; shouter, one who treats.
Give me the wealth I have squandered in
shouting,
Scattered in sixpences, paid by the
pound,
Ladled out glibly, no grudging or doubting,
Never a thought of the use to be found.

He had felt bound, according to custom, to shout for them all. I said, "But why
do you give in to the practice?" He re-
plied, "It is not for the drink that we care, but for the expression of friendly feeling."—C. T.: Impressions of Australia
(Blackwood’s Magazine).

To shout, perhaps, gets this meaning as being equivalent to giving the order. I shout, therefore, I call out the order. The custom of shouting is universal in Australia. No one ever voluntarily drinks alone.
He shouts his friend and his friend shouts him back, or each one of a company in turn shouts.
If there is no one else to shout to, the customer generally invites the barman to take a drink. This custom is one of the curses of Australia. A publican knows that, however many there are in a party which enters his house, there will be the same number of "shouts all round."

Shove (thieves), to pass bad
money; "showing the queer," passing counterfeit coin. In all probability a combination of the gypsy chiv, with the English shove, as chiv comes much nearer to putting, or placing, or disposing of, than shove, i.e., to merely push. "Chivving wafro lovvo" (Lavengro), passing bad money.

Shovel (nautical), an opprobrious term applied to a marine engineer who knows little or nothing about his work.

Show (theatrical and common), any performance or entertainment. In the quotation refer-
ence is made to a cricket match.

And have I "been bored or been weary"?
Oh, gracious me, no!
There is plenty of go
About these broad-chested and cheery
Young fellows come up for the show.
—Bird & Freedom.

"Many words of stage slang can be traced to Shakspeare’s
days and Shakspeare’s plays.
The word show, to begin with, meaning the performance and the play indifferently, is to be found in the tragedy of young
Pyramus and his love Thisbe
in the comedy of the ‘Mid-
summer Night’s Dream’:

'The actors are at hand, and by their
show
You shall know all that you are like
to know.'"
—Globe.

Used in such phrases as boss
the show, run the show, to direct,
manage.

We determined to run the show our-

selves, or, in theatrical parlance, by "com-
monwealth."—Tit-Bitts.

Over goes the show, explained by quotation.

It’s all very well to say you won’t
Take another of ‘em on, but oh!
When a pretty little widow winks at you,
Why, over goes the show.
—Music Hall Song.
Show—Shroffing.

(American), a chance, an opportunity, a turn.

Flanigan hesitated for a second; then he saw he had no show, and with an oath he let his rifle drop.—Century Illustrated Magazine.

It is often heard in the form, "give a fellow a show." "My friends," said a Baptist preacher, "if ever the devil has anything to say for himself, you ought to give him a show." It has become one of the commonest of slang words in Australia. The expression probably comes from giving a person a chance of showing his cards, which, for example, he cannot do at écarté if his opponent shows the king, and only requires one point. Australians talk of giving a man a show, not having a blessed show, a mortal show. He hadn't a show, he was altogether outmatched.

Show-box (theatrical), the theatre.

Showing a front (army), a term used when short notice of a parade is given, and a soldier has to turn out without proper time to prepare himself by cleaning up his accoutrements and kit.

Show Sunday, the Sunday in Commemoration week at Oxford. On this day most of the University and their friends used to be seen in the Broad Walk of Christ Church, but of late years, owing to the influx of town's people, very few of the University are seen there. (Studios), the Sunday before pictures are sent in for the Academy Exhibition, when studios are visited by the artists' friends.

Shrieking sisterhood, the (journalistic), an opprobrious term applied to women who take the lead in matters of reform connected with their sex. This phrase is of American origin.

Shroff (Anglo-Oriental), a money-changer, a money-broker or agent, a banker. Arabic sarraf. Shroffage, a money-broker's commission. To shroff is to assort money, pick out uncurrent coins and determine the agio or discount on them. Hence it has come in Oriental-English to mean sifting, choosing, or valuing men, horses, or anything whatever.

"Shroffing schools are common in Canton, where teachers of the art keep bad dollars for the purpose of exercising their pupils, and several works on the subject have been published there with numerous illustrations of dollars and other foreign coins, the methods of scooping out silver and filling up with copper or lead, comparisons between genuine and counterfeit money, &c." (Giles' Glossary of References, Anglo-Indian Glossary.)

Shroffing dollars (Anglo-Indian), sorting dollars, selecting them.
Among settlers in China, shroffing means seducing.

**Shucks** (American), "don't amount to shucks," it is less than nothing. *Shucks*! an exclamation signifying nonsense or expressive of refusal. In America *shucks* are the husks or shells of nuts and Indian corn. It is an old provincial word for shell or husk. The pods of peas are still called pea-*shucks*, and being worthless have given rise to the slang phrase. The Confederate "blue-backs" or bank notes were also called *shucks*, probably for a twofold reason, because they soon became worthless through the failure of the Southern cause and from the circumstance of money being sometimes designated as dust, pelf, filthy lucre, &c.

**Shulwaurs** (Anglo-Indian), trousers or drawers, the same as pyjamas, long drawers or Mogul-breeches. From the Arabic *shurwa*, which has spread widely, though greatly changed, through many languages.

**Shunter** (Stock Exchange), explained by quotation.

One who buys or sells stocks on the chance of undoing his business, on one of the provincial Stock Exchanges, at a profit.—*Atkin: House Scraps*.

**Shunt,** to (popular) to move, turn aside. From the railway term. To *shunt* any one, to get rid of him.

He started in life as a welsher. Not a respectable welsher, one who snatches your brief when you present it for payment, or punches you in the jaw and tells you to *shunt.*—*Sporting Times.*

**Shut up!** a vulgar but very common phrase used as a forcible request to another to keep silent or quiet. French slang has the expression "ferme ta botte." The Greeks said, "Keep an ox on your tongue." *Shut up,* also exhausted, done for; "that shut him up," that entirely stopped his speech or action.

**Shut up your face** (American), be silent. Also, "cork up your whisky-bottle."

**Shy of the blues** (thieves), explained by quotation.

I happened to know that in criminal circles to describe a person as being shy of the blues, is equivalent to saying that he has particular reasons for keeping out of the way of the police.—*J. Greenwood: Tag, Rag, & Co.*

**Shyster** (American), a louting, swindling attorney, or a low fellow who pretends to be an attorney—though possibly he had here no connection with the law except to sweep out an attorney's office, or run an errand, or who hangs about police offices, or courts of justice, to cheat prisoners or suitors on pretence of sending them legal assistance. Derivation uncertain, but probably from the German *scheisser* (cacator), allied
to scheuen, to avoid, to be in fear of, and scheusslich, abominable.

When a man is thrown into prison a shyster leech gets access to him, and extorts from him his last cent under the pretence of obtaining his liberation.—New York Tribune.

Shysters are a set of turkey-buzzards whose touch is pollution and whose breath is pestilence.—New York in Slices.

There is more deep-hued and earnest ingenuity in three hairs of the Counsellor’s Londonderry beard than in the Pompadour mop-heads of all the dude skysters of the day. The Counsellor knows a dollar when he sees it, and no dollar ever coined had intelligence enough to get out of the way of that astute practitioner.—San Francisco News-Letter.

Sick (Australian popular), without trumps. In playing a nap, if the player’s trumps are exhausted, he will say sick, and if he have a hand full of trumps, and challenges the board, to see if any one has any left, he will ask “All sick!”

Sick market (Stock Exchange), a sick market is one in which sales of stock are difficult to place. As a rule this is usually the result of hazardous and reckless speculation.

Side (common), a man is said to put side on when he gives himself airs, swaggers, or assumes unusual dignity. This expression is now much in vogue in England and America. It seems at first sight to be a metaphor either taken from the habit of dogs when they are given things to carry, when they invariably put their side out in a curve, like a horse when buckjumping, or from a billiard term meaning making a ball revolve on a perpendicular axis by striking it on the side, or again from a ship that shows its side when sailing fast with a side wind; but in reality side is old provincial English. Bailey gives it as a north-country term, meaning long, steep, proud.

The young men of the present day, who think it is the right thing to put on a lot of side.—Saturday Review.

(Cambridge University). At the larger colleges there are several college-tutors amongst whom the students are apportioned. Those attached to each are called his side.

A longer discourse he will perhaps have to listen to with the rest of his side.—Westminster Review.

Side degrees are test degrees by lecturers. (Thieves), used in the cant language of the Northern towns as an affirmative. Probably abbreviated from the phrase, “I side with you.”

Side-board, stick-up (common), a collar.

Side-show (American). Where there is a large exhibition, as, for instance, a “mammoth circus,” or Barnum’s “Great
Menagerie," there are generally established about and near it a number of trumpery little cheap exhibitions of fat men, tattooed young women, the human fish or dancing dogs, generally charging a dime or fivepence admission. These are called side-shows, but the term is extended in popular slang to signify anything not in the expected order of things.

The supper at the party was good, but on temperance principles, and I was beginning to feel doleful after my fried oysters, and terrapin, and chicken-salad, and soft-shell crabs, when Enos came up and whispered softly, "Now you've seen the Great Moral Circus, suppose you step into the side-show." The side-show was in the back dining-room, where he had a bottle of fine old brandy.—Philadelphia Newspaper.

Side-wheeler (American), a paddle steamer.

Another Indian had turned and was getting a bee line on us when Frank took a sight at him in return.—O'Reilly: Fifty Years on the Trail.

Sil (thieves), a spurious bank-note, especially one drawn on the Bank of Elegance or Bank of Engraving, to avoid the consequences of a more accurate imitation of the genuine note. Much used by welshers and confidence-trick men. In all probability Sil was originally a forged document used by a "silver beggar" (which see), and abbreviated from silver.

Silk, to take (law), to be made a Queen's Counsel.

Sillikin (popular), a silly person.

I don't know where I came from, And I don't know where I'm going, They think I am a sillikin But I am rather knowing.

This term is used by Australian thieves.

I tell every girl I meet that "my heart is thine alone." And they all believe it! What a lot of little sillies? But I'm no silly-billy.—Broadside: I Say, Cabby.

Silly season (journalistic), the period when there are no parliamentary debates to 'report, or any interesting events. Newspapers to fill up their columns are then compelled to insert "silly" matter.

Silver beggar (beggars), a beggar who travels through the country with letters containing false statements of losses by fire, shipwrecks, accidents. Forged documents are exhibited with signatures of magistrates and clergymen. Accompanying these are sham subscription-books. The former in beggar parlance is termed a "sham," whilst the latter is denominated a "delicate" (Hotten). Formerly a pickpocket was termed a silly cheat, corrupted from silver (siller) cheat.

Q
Silvers (Stock Exchange), India-rubber, Gutta-Percha, and Telegraph Works Company Shares.

Sim, in clerical talk, a follower of the late Rev. Charles Simeon, a well-known Cambridge evangelical clergyman, died 1836.

Simkin (Anglo-Indian). Formerly, when Anglo-Indian slang was more prevalent than now-a-days, champagne was called simkin, probably in imitation of the native way of pronouncing the word.

Simpson, water, as applied to its mixture with milk for adulteration.

These authorities know best the average quantity of Simpson—the technical term in dairydom for water—used by unscrupulous cow-keepers to debase their milk.

Hence the parish pump has been called Mrs. Simpson.

Sink, to (tailors), to fall down the sink, to take to drinking and forsake work.

Sipper (popular), gravy.

Sir-ree! (American), generally heard as "Yes—sir-ree!" A low expression which is said to have originated in this anecdote. A grim, taciturn individual came to a tavern, and was asked if he wanted something to eat? He replied, "No, sir!" "Will you have anything to drink?" "No—sir-ree!" "Perhaps," suggested the complaisant landlord, "the gentleman would like a lady companion?" To which the reply, with a glad smile, was, "Yes—sir-ree—bob!"

'Siver (thieves), explained by quotation.

"'Neddie, from City Road, smuggled for attempt up the Grove, expected a sixer," means that a misguided Edward has been apprehended while promenading outside Whiteley's, and investigating the contents of ladies' pockets, and is reconciling himself to an absence from his oriental home for half a year.—Horsley: Jottings from Jail.

Size, to (American), to size a man up means to understand him, to perceive or understand what he is, or to mentally take his size, which is a common American equivalent for his whole bodily and mental condition.

I'm a clerk at the Palmer House and sized you up the minute you spoke to me. If you show your face again in the house
I'll see that you are kicked out of the door
the highest style of the art. Ta-ta! —
A Bunko-Steerer Taken In.

Also a West Indian expression.

We landed at a quay of well-formed masonry, in the presence of a crowd of blacks who evidently took stock of us, sizing us, no doubt, with the design of engaging us in pecuniary transactions more or less connected with fruit.—W. A. Paton: Down the Islands.

(Cambridge University), to send for extra victuals in Hall; e.g., an undergraduate will size for a tankard of Buttery ale, instead of the small beer or "swipes" that is placed on the table.

Skedaddle (common), of American origin, to run away, to be scattered in rout.

He raises such a rumpus,
"He's a run puss out and out,"
That the other cats skedaddle,
Quite dismayed they're put to rout.
—Detroit Free Press.

"The Scotch apply the word to milk spilt over the pail in carrying it. During the late American war the New York papers said the Southern forces were skedaddled by the Federals. Saxon scedan, to pour out" (Dr. Brewer). In addition to this it may be suggested that skedaddle in English provincial dialects means to go quickly but unsteadily. Sket, quickly, and daddle, to walk irregularly or unsteadily (Wright). Though this may not be the true origin of the word it corresponds to the definition of retreating rapidly yet in a confused irregular manner. Sket corresponds with sket (which see), to go quickly or run. Dutch schieten; Anglo-Saxon scadan. School-boys generally derive the word from Greek σκεδασμός, to put to flight, or the substantive σκεδασμός.

Skeet (American, New York and Philadelphia), to dart, run along rapidly. "Now then, skeet!" From the Dutch schiet, schielen, to dart, cast, shoot, throw. Hence probably a skit, a flippant sarcasm, i.e., a shot. The word is sometimes confused in Philadelphia with skeet, the local vulgar pronunciation of skate.

Skeezicks, skeesicks (American). Bartlett defines this as a mean, contemptible fellow. The writer has always understood it to rather mean a fidgety, fussy little fellow. Both may be right. In Cornwall, skeeze means to frisk about. Skicer is "a lamb which kills itself by excess of activity" (Wright).

Sket (thieves), a skeleton key or pick-lock. From provincial sket, a latch, bolt, &c.

Skew (Harrow), a dunce or ignoramus. Probably from provincial skew, one-sided (for aukew), awry, irregular, as skew-brained, odd, fanciful, idiotic; to skew is to fail in construing a lesson. (Old cant), a cup, porringer. Probably old French escuille.

—Negro Minstrel Song.

Skied (artists), said of a picture which is hung on the upper line at the Exhibition of the Royal Academy.

Had a similar course of conduct been pursued with respect to the disposition of pictures in the actual Salon, many loathsome daubs that disgrace the "line" there would have been sternly skied, or, still better, peremptorily rejected. —Daily Telegraph.

"The Three Graces," now well placed, had been previously skied. But didn't this show that Sir Joshua's work ranked uncommonly high in the opinion of the former hangers.—Punch.

It was at the "colonel" that Mr. B——, in sporting parlance, skinned the lamb to the extent of some £1000. — *Saturday Review.*

Also a game at cards; a corruption of *lanaquenete.*

**Skin, to (Yale University),** to obtain a knowledge of a lesson by hearing it read by another. Also to borrow another's ideas and present them as one's own, to plagiarise, to become possessed of information in an examination or recitation by unfair or secret means. Such persons skin. To skin a head, to read a lesson over just before going into class. (Common), to pull off a jersey, to pull off one's bed-clothes. More used at colleges and universities.

**Skin your own skunks (American).** This highly expressive phrase is applied to any man when he is exhorted to do his own dirty or difficult work without involving another in it.

As a last proof of the absence of characteristic individuality in Mr. L.'s style, we take a sentence from a story of two Indians who were by the ears. "To which Marten replied that Moose might skin his own skunks, and fish for his own minnows,
and also paddle his own canoe to the devil if it so pleased him”—all of these being approved Indian sayings of high and racy antiquity.—Review of the Algonquin Legends of New England, 1884.

Skip a cog (American), to make a mistake in planning machinery, metaphorically to commit any error by want of foresight.

A Virginia preacher who believes in prayer met a bear in the woods the other day, and instead of putting his remedy into effect he jumped from a bluff into Cheat River and swam half a mile. He had never tried prayers for bear, and was a little afraid they'd skip a cog somewhere.—American Newspaper.

Skip out, to (American). This means, like "light out," to escape. It is probably only a variation of that word. To jump, to evade, to dodge. Both skip and jump occur in the following extract.

A woman who keeps a boarding-house on Larned Street called at police headquarters yesterday to complain that a gentleman boarder had skipped her house, leaving a bill unpaid... A man who'll jump a board bill and a marriage engagement, too, is an outlaw who should be locked up.—Detroit Free Press.

It is sometimes said when a man dies that he has skipped out.

Skipper (old cant), a barn.

Now let each triper
Make a retreat into the skipper.
—Broome: Jovial Crew.

Hottendorf derives this from Welsh ysgubor, pronounced seybor or scibor, a barn. (Strolling performers, &c.), to skipper it, to sleep in the open air, or in a rough way. Skipper, properly master of a small vessel, is often used to designate a chief or manager, or captain of a ship.

Skipper-birds, keyhole-whistlers (beggars), beggars who have their night's lodging in a barn or outhouse. Vide Skipper.

Skip the gutter, common phrase. In old cant, a skip-kennel was a lackey or servant. Skip the gutter seems to be only an expression equivalent to "Houp la!" or "Over she goes!"

Skip the gutter, tra la la! Tottie, do you love me?

If you like me, tell me so—do not let me linger;

—The Breitmann Ballads.

Skunk, used by all English-speaking people but originally American. Properly an animal nearly allied to the weasel on the one hand and to the otter on the other, which secretes an extremely fetid liquor as a means of defence. Figuratively a paltry, mean wretch, a contemptible creature.

From a term in use among low singers at the East End, by which they denote a certain style of note in chaffinches (Hotten), (Army), to simulate drunkenness. A watch chain.

Fullied for a clock and slang.—Horsley: Jottings from Jail.

(Prison), the slang. Leg-irons worn by convicts as a special punishment inflicted by the superior authority of one of the Board of Directors, and for one of two offences, an assault upon a prison officer or an attempt to escape. The irons consist of a chain weighing from 7 to 8 lbs., attached to ankle basils, which are rivetted on to the leg; the chain is some three feet in length, and is carried between the legs, being suspended from a leather waist-belt. The noise the chain makes in walking is evidently the origin of the expression slang. These irons may be carried, according to sentence, from three to six months. They are worn with a parti-coloured dress, alternate stripes of yellow and drab for an escape, of yellow and black for an assault, and the dress is continued for a longer period after the chain is removed. These chains are never taken off day or night, when once rivetted. (Costermongers), counterfeit weights and measures. A slang quart is a pint and a half.

There are not half so many slangs as there was eighteen months ago.—Matthew: London Labour and London Poor.

Out on the slang, going about with a hawker’s license. Of gypsy origin.

Matty’s got his slangs . . . now a slang means, among divers things, a hawker’s license.—Charles G. Leland: The English Gypsies.

The term slang, as connected with any kind of theatrical performance or show, is of gypsy origin. The gypsies modified the Hindu swangia (w easily passes to l, e.g., very, London swells, vewy; children, velly) into the English slang. One thing is certain, it has always been regarded as a gypsy word and used as one of them. It may be remarked that while many of the words such as “multee kerteever,” “fake,” &c., are to be found in common slang, they are used “on the slangs,” or among showmen, with special application, and a large proportion of them actually originated in shows whence they passed to
common slang. The word, in the sense of language or lingo, has been hitherto used to mean "argot," "vulgar language," "abuse." It is clear that in the sense of argot it is gypsy, the slang language originally meaning the language of the slangs, or shows, just as "langage de l'argot" meant the language of the brotherhood termed "argot," being afterwards shortened into argot and generalised. But slang, as "abuse" or "vulgar language," is of an Anglo-Saxon and Scandinavian source, and while there appears to be every reason to believe that the word slang, as tradition asserts, is of gypsy origin, there is also ground to believe that it has drawn something from another source. "Slang or vulgar language," according to Skeat (Etymological Dictionary), "is from the Norwegian sløng, a slinging, a device, a burden of a song: Sløngja, to sling; slønja kiefen, to slang, abuse (literally to sling the jaw); sløn-jenam, a slang (i.e., an abusive name); sløng-jerord, an insulting word; all from slønja, to slang." This is all, however, based on the assumption that slang means nothing but abuse, or "the slings and arrows" of vituperation, while it has never at any time meant that, or even "vulgar language," so much as what in Hindu is called bhât, a tongue used for purposes of concealment. A man may be abused to the utmost, and in vulgar language at that, without a word of slang being employed; while on the other hand, one might translate the New Testament into Romany, which is the very slang of slangs, or Shelta, or even canting itself, with the utmost propriety. Yet it is very probable that while slang, in the sense of bhât, or jargon, is of gypsy origin, it owes something in the meaning of "abuse" to a northern source. It may, however, be fairly admitted that the Anglo-Saxon slanga (circumactio), and toislanga (dubietas) (not noticed by Skeat), somewhat favours the association of slang with "double meaning" (Glos. Alf.). To conclude, it should be noticed that the common English word slang is allied to slang as abuse, or depreciatory language. Slinging off is much used among the lower orders with the significance of casting insinuations, making innuendoes.

In Notes and Queries we find the following:—"Henry T. Riley supposes this term to descend from the time when the vituperative Dutch General Slongenberg ruled over part of the English forces. In corroboration of the conjecture I may add that the sailors of our Royal Navy still use to designate a soldier under the name slang, 'het een slang,' meaning it is a red-coat, whilst the substantive itself may very well have been
employed as a nom de guerre for the Dutch general I have just mentioned, and afterwards applied to all soldiers indiscriminately" (J. H. Van Lennep). This, needless to say, is very far fetched.

Slangander (American), to slander in a silly manner. Slangoosing, women's tittle-tattle, backbiting, or gossip.

There are points on which we disagree, And I will state the facts, I don't go round slangandering My friends behind their backs. —The Breitmann Ballads.

—*Sporting Times.*

It is said that when Bath Montague, a famous light comedian, who had had the misfortune to lose his hair when a youth, presented himself to the elder Macready, manager of the Bristol Theatre, the latter was very much disappointed at the appearance of his new recruit. Montague, although a gentleman, had been a brother "faker" with Edmund Kean in Richardson's show, and amongst other bad habits had accustomed himself to the showman's slang. "When I get my slap on," said he, "you'll see that I shall be all there!"

"Good heavens! what does the man mean by slap?" inquired Macready, who was as great an autocrat as his famous son.

"Wait till night, Guv'nor, and you'll see!"

When at night an elegant, rosy-cheeked youth, with the limbs of Antinous and the head and front of Apollo, bounded on the stage for Mercutio, the manager was amazed.

"Good God!" he exclaimed, "can this be Montague?"

"No, Guv'nor," replied the airy youth, "I'm Mercutio. It's the fakements—the wig and the slap, that does it."

The word was very generally used in America when it was much less known in England. It is, however, of old Yorkshire origin.

I feel my head begin to swim,
I see a knock-kneed Seraphim,
I hear old Nick—I know it's him—
I'm drunk!

I cannot feel my feet at all,
I cannot see the nearest wall,
I cannot hear the missus call—
I'm boozed!

I feel that I have lost my purse,
I see my wife—that's much worse—
I hear the echo of my curse—
I'm slewed!

I cannot feel my way upstairs,
I cannot see to say my prayers,
I cannot hear my own choice swears—
I'm screwed!

I feel a thump upon my head,
I see a bedroom full of bed,
I hear the naughty word she said—
She's drunk!

**Sli de** (American), "oh, let it slide," or "let it rip," never mind. Though claimed as an Americanism it is a very old English phrase. Shakspere in the "Taming of the Shrew" has, "Let the world slide;" Chaucer in the "Clerke's Tale" uses, "Well-nigh let all other cures slide." To "let her rip" is of Western river origin. Steamboats when racing were liable to come to grief on sunken trees and quays, but in the mad excitement of a race no account was taken of these dangers— it was all happy-go-lucky—"let her rip," if it so chances, so long as we out-run the rival boat.

**Sling one's hook** (common), to begone.

But I haven't (sym :) haven't (sym :)
  I haven't for a long time now!
—Broadside Ballad.
Sling—Slogger.

Probably originally a sailor's expression, as "sling your bunk," and the phrase would explain itself as the intimation to let go one's hold of a boat by means of a boat-hook.

Sling, to (thieves), to throw away so as to get rid of and escape detection. Thus a stolen handkerchief or any ill-gotten gains are "sling" or thrown away when pursuit is close. Also to pass to a confederate.

—George R. Sims: Ballads of Babylon.

Then the magistrate rose in a roaring rage,
And said he, "You may think it fun
The feelings of slops to thus outrage;
Just see what you've been and done."
—Topical Times.

Slope (alleged American). Of this word Hotten says, "It means to decamp, to run, or rather to slip away. Some persons think it came originally from lope, to make off, and that the s probably became affixed as a portion of the preceding word, as let 'sloe, let us run. It is purely an Americanism, and is possibly but an emendation of our own word elope. Lope, leap, and elope are kindred." It is a pity to spoil so much ingenious guess-work, but slope is only American in being old New York, or Hollands Dutch. "Hy slope weg," he sneaked away, is given by Sewell (1754) as the perfect tense of suggen, to sneak or slink away, and weg-sluyping, an evasion or sneaking off. Lope, leap, and elope may be near kindred, but they are only fourth cousins to slope.

Sloper's Island (London), the artisan's village near Loughborough Junction was and is still so called from the frequency with which tenants "sloped" without paying their rent. This
was more especially the case at first, when the houses were let out as weekly tenements. The "village" was at one time surrounded by fields, hence its being called an "island"; now it is in the midst of a densely-populated neighbourhood.

Slop over, to (common). "To *slop over* one's talk" is to exhibit exaggerated effusiveness of manner and words—to draw the long-bow with caddish servility or effrontery. A very subtle expression, and used in a variety of meanings, all of them, however, with something or all of the foregoing in them.

Yes, to judge from the opening chapters, "When we were Boys" is an admirable essay in the art of *slopping over* ... The sentimental parent and the schoolboys who allude to their fathers as "pa" are bad enough, but the picture of the "unspoiled London ingrate," with her warbling voice, "luminous figure," and insufferable arch conversation, is calculated to make the angels weep.—*Globe*.

The expression is attributed to Artemus Ward.

Slops (thieves), chests or packages of tea. "He shook a slum of *slopes*," stole a chest of tea. (Popular), garments. Anglo-Saxon *slop*, a covering; Dutch *sloove*. Shakspeare uses this word with the meaning of breeches. Old English *slop*, gown or cassock.

—Scenes and Characters at College.

Also known as apple slum, a broken-up dish of meat, from its resemblance to slum or slump, broken, boggy earth, mud, dirt, which used metaphorically in a deprecatory sense seems to have given birth to some of the cant significations of slum, as slum fake, which see; slum, formerly a cant word for a muddy, dark alley; slummy, a servant-girl, &c.; to slum, to hide; slum, bad money, i.e., dirt, &c. Snake—Snap.

Snake in his boot, a (American).
One of the horrible symptoms of delirium tremens is the fancy that the sufferer is surrounded by snakes and reptiles, among other horrors.

For instance, alcohol, which produces the phenomena humorously designated by our American friends as snakes in one’s boots, on the other hand, if used medicinally, is death on snakes, or rather on snake poison.—Globe.

Snakes (society), “a caution to snakes,” something very singular.

Snakes in Virginy, as sure as there’s (American), equivalent to declaring the absolute certainty of anything. “As sure as death or taxes,” “As sure as I’m a sinner,” “As sure as green corn in July,” are synonymous.

Snakesman, little (thieves). “A boy thief, lithe and thin, and daring, such a one as house-breakers hire for the purpose of entering a small window at the rear of a dwelling-house” (Greenwood). Most probably a corruption of sneakman, which see.

Snake, to (London slang), to steal in a wary manner. A metaphor on supposed wariness of snakes. More probably a corruption of sneak, which see. (Billiards), to snake the show, to win the pool at billiards.

To give the snap away means to betray a plot, so as to lose the profits.

When Dowling heard of Joe’s stubbornness he knew there would be a raid. He removed his furniture, and when the “cops” came around they found nothing. Harrison blamed Dumphy for giving the snap away to Dowling, and determined to get even with the latter.—Chicago Tribune.

A soft snap, a profitable affair, an easy position, a good thing, anything worth having.

One night, during the engagement of a *snap* company at the Chestnut Street Theatre, a little boy came down the stairs from the gallery during the first act, and inquired for the manager. The manager was not in at the time, and the doorkeeper inquired why he wished to see him. "Because," returned the lad, "I want my money back." "Aren't you satisfied with the play?" was asked. "Oh, yes," he replied. "The play's good enough, but the fact is I'm afraid to stay up there all by myself."—*Chicago Tribune*.

**Snapped** (American), drunk; probably from *schnapps*, often pronounced *snaps*.

**Snapper** (American), an impudent tattler. *Snaps voeren*, to be full of impertinent talk; *snappen*, to chatter impudently. Snippish, snapish, and snobbish have much in common, and the Dutch *snappery*, idle, foolish gossip, is very suggestive of snobbery in a colloquial sense. Feeble as this etymology may be, it is worth as much as that which would derive snob from *sine obolo* and *sine nobilitate*, which as feats of philology may be ranked with Horne Tooke's extraction of Fo-hi from Noah. Also "the snapping turtle."

*Snapper* soup, pepperpot, tripe and oysters, chicken salad. Be pleased to have you call.—*Philadelphia Press*.

**Snapperhead** (American), an impertinent fellow, one who snaps or answers too quickly or impudently.

Wild...'looked upon borrowing to be as good a way of taking as any, and, as he called it, the genteelst kind of sneaking-budge.—*Fielding*: Jonathan Wild.

**Sneaks** (thieves), explained by quotation.

That way, and in less time than it takes a healthy pulse to beat thirty, we are in
the regions of gloom, and our footsteps
(or rather mine are—my guide wore a pair
of what, in criminal phraseology, are
known as sneaks, and are shoes with
canvas tops and indiarubber soles) are
trespassing on a stillness instantly sug-
gestive of death in the midst of life.—
Greenwood: In Strange Company.

**Sneaksman** or **sneak-thief**

**Snide** (common), bad, base, spuri-
ous, false; mean; as snide coin,

instructions.—Rev. A. Mursell: Shady
Pastorals.

But no matter how often they sold him,
He failed to perceive that their motives
were **snide**,
For he always believed what they told
him.

—Sporting Times.
Snide—Snipe.

"Say! you, look here, now!" he would explain to a native, "these 'ere men don't want none of your snide outfits, but just good bronchos, and a waggon, and strong harness."—F. Francis: Saddle and Moccasin.

In Dutch, snyder means to swindle, "as some inn-keepers do," meaning that they cut, or, as Americans would say, "chisel" or "gouge" strangers. "Men snydt de luyden lustig in die herberg," that tavern is a swindling shop. Snood, in Dutch, means base, sordid, villainous; German schnöde.

Snide-pitcher (thieves), one who gets a living by passing base coin. Such are looked down upon by thieves as of the lowest rank of the criminal fraternity.

D. is in glorious form with his wires, and is certain to keep it up next week at the above meetings, for which he knows of several snips.—Sporting Life.

(American), a small boy or girl, a small person. Generally in a contemptuous sense, as if the snip were conceited and ignorant. The writer supposed at first that this was derived from snip, a tailor's cutting; but he finds that in Bargoensch, or Dutch thieves' slang, the word means not only a young person, but also a heedless or foolish one. Shakspeare uses the word snipe with the meaning of fool, blockhead. In French bècasse (snipe) is a stupid girl.

Snipe (common), a long bill, or account. Evidently a play on a snipe's long bill. Also an attorney, possibly because of their "comptes d'apothicaire," or very long bills.

In place of sniping it from the old man's box.

Snippeny, snippy, sniptious, snippish (American), used in several ways; vain, conceited.

Also given to petty criticism, mincing and pert observation.

Snip, to go (common), to go shares. Literally to divide, as with scissors.

Snitch (old cant), nose.

Snitched (horse dealers), explained by quotation.

A horse dealer... was showing a farmer a horse that was snitched, that is, gauded. It was a fine-looking animal and made up for sale. It was jigged, digged, and figged.—Hindley: Life and Adventures of a Cheap Jack.

Allied to provincial English to snite, to blow the nose, or the cant term snitch for nose, the allusion being to the running from the nose. (Thieves), caught, arrested, i.e., tied up. To snitch is provincial English.

Snitcher, snitch (thieves), an informer, one who turns Queen's evidence, one who causes one to be "snitched," i.e., arrested, more probably from cant snitch, nose, a "nose" being a spy, informer.

Then your blowing will wax gallows haughty,
When she hears of your scaly mistake,
She'll surely turn snitch for the forty
That her Jack may be regular weight.
—Lord Byron: Don Juan.

"In Scotland," says Hotten, "snitchers signifies handcuffs."

Snob, to (tailors), to do work badly, or in a slovenly manner. Snob is a shoemaker or cobbler,
the phrase therefore exactly corresponds to the French savater, which means to do work badly.

**Snoddy** (popular), a soldier.

**Snooping, to snoop** (American), to pry into, to go about picking up bits of food. "I think it may be granted by everybody that of all petty presumers there are none like those who are habitually given to what New York Americans call snooping, a word derived from the Dutch snoepen, and meaning the going about and sticking one's nose into all kinds of places where it has no business to be."

**Snorter** (society), a man who excels in anything. From the snorting of a high-mettled horse. (Cricket), a snorter, "corker," "stringer," or "clinker," a very hard ball to play; one that puzzles the batsman. (Popular), the nose, a blow on the nose; a regular snorter, great hurry.

**Snort**, to (Australian), to be enraged at a thing, to refuse to do a thing. This is a metaphor taken from observing the horse. If a horse is afraid to do a thing—such as to swim a river, to go too near the edge of a precipice, to carry "game," or the like, he starts back and snorts, hence the expression. The French renâcler (to snort) is used metaphorically in like manner, and supports the explanation.
Snot—Snow-dropping.

Snot (thieves), a gentleman. (Popular), a term of opprobrium. Much used by schoolboys.

Snot-rag (popular), pocket-handkerchief.

Snotted (popular), being reprimanded, hauled over the coals. This corresponds to the French mouché, used in the same metaphorical sense.

Snottie (naval), a midshipman.

Snottinger (popular), a pocket-handkerchief.

Snot (prison), tobacco; a playful allusion to "pig-tail," roll of twisted tobacco. Prisoners will brave all risks to get it. The most elaborate and Machiavellian plots are always in progress in a convict prison to suborn officers, and to tempt them to become the intermediary between the caged bird and his friends outside. The officer who yields becomes "Mr. Wright" (which see), and the bearer of a clandestine letter or "stiff" (which see), his credentials; and armed with this he calls when off duty on the prisoner’s friends, who, if they are well-to-do, pay cash down as a bribe. The traitor warder buys tobacco at the market rate, charging the prisoner about £5 per pound, over and above the personal douceur he receives. The tobacco is smuggled into the prison in small quantities, and passed by means of "trafficking" (which see) from the wholesale possessor to purchasers in exchange for food. Tobacco has also a price current in prison in food, generally bread, but meat, cheese, potatoes are also passed. It is always used in chewing. The term is also used by itinerants with the meaning cigar.

Snow (thieves and tramps), linen hung out to dry on hedges or lines. The allusion is obvious.

Snowball (popular), a negro. In French, "boule de neige."

Snow-dropper or gatherer (thieves and tramps), a thief who steals linen hung out to dry.

Snow-dropping (thieves), explained by quotation.

"What do you mean by snow-dropping?" "Oh," said he, "that’s a poor game. It means lifting clothes off the bleaching line or hedges. Needy-mizzlers, mumpers, shallow blokes and flats may carry it on, but it’s too low and paltry for you."—Temple Bar: Six Years in the Prisons of England.

Also "going snowing."
Snowy (thieves), linen.

My pals used to send stiffs to the schoolmaster, saying that I was wanted at home; but instead of that we used to go and smug snowy that was hung out to dry.—Horsley: Jottings from Jail.

Snuff-box (popular), the nose.

There's a crack on your snuff-box.—C. Bede: Verdant Green.

Snuff it, to (popular), to die, like a candle snuffed out. In French slang "moucher sa chandelle" means the same.

Snuffler (common), a religious canter.

You know I never was a snuffer; but this sort of life makes one serious, if one has at all any reverence at all in one.—T. Hughes: Tom Brown at Oxford.

Snuff, to give (popular), to beat, thrash. Alluding to the pain caused by snuff thrown into the eyes of a person. French slang has the corresponding phrase, "foutre (donner) or coller du tabac," and the police expression, "passer au tabac," that is, ill-treat a prisoner so as to make him confess. Shakspeare uses the expression to take in snuff, to be angry, vexed, like a man snorting with anger.

Snuff, up to (general), knowing, expert, experienced in the ins and outs of life. Literally "up to scent," like a dog who can distinguish between the sexes of his own species by scent.

He knew well enough
The game we're after: zooks, he's up to snuff!—John Poole: Hamlet Travestie.

Queer start that 'ere, but he was one too many for you, warn't he? Up to snuff and a pinch or two over.—Dickens: Pickwick Papers.

I am pretty well up to newspaper snuff, as it is, sir.—Sporting Times.

To put up to snuff is to initiate into mysteries of any kind, and generally to instruct in, make expert.

He was some ten or eleven years my senior... but having travelled all my lifetime, was better up to snuff than an ordinary man would be at fifty.—Hindley: Life and Adventures of a Cheap Jack.

The thieves knew where to draw the line, and chucked the lot away in the garden, among the other weeds. They were up to snuff, but not to tobacco in this form.—Punch.

Snuffy (popular), tipsy.

Snuggeries (London), explained by quotation.

Generally at one end of the hall is a long strip of metal counter, behind which superbly-attired barmaids vend strong liquors. Besides these there are snuggeries, or small private apartments, to which bashful gentlemen desirous of sharing a bottle of wine with a recent acquaintance may retire.—Greenwood: Seven Curses of London.

Soaker (popular), a pelting downpour of rain.

That countryman was right when he prognosticated a soaker. The only individual I met on the road going my way was a timid-looking old gentleman in a phaeton, who was well protected from the
rain with a mackintosh, knee-wrap, and a gig umbrella.—f. Greenwood: *Tag, Rag, & Co.*

Also a confirmed tippler.

An old soaker was a pretty frequent attendant at the Bell, at Bromley.—Sporting Times.

Soak, to (American), turn, change gradually. This is old English.

Said Turpin, "It is time to go, I've a very fine plant, boys, I know; While Oliver soaks pale, We will rob the royal mail, Before the cock begins for to crow." —Broadside: Dick Turpin.

Hence to exchange, barter, pawn.

The two youths made a call and the watch was soaked with a pawnbroker, and $20 obtained on it.—Daily Inter-Ocean.

Soap (common), explained by quotation.

Flattery is the confectionery of the world. In polite society it goes by the name of soap, and in general is designated "soft sawder." — Diprose: Laugh and Learn.

(American), money. (Royal Military Academy), cheese.

Soap-and-bullion (nautical). A sailor's food is oftentimes of the poorest, not to say revolting description, and Jack has not been slow to signify his disgust thereat. The following are some of his choicest terms for such dainties:—"Lobscouse, dandy funk, dogsbody, sea-pie, choke-dog, twice laid, hishee-hashee, soap-and-bullion, dough Jehovahs, tommy, soft tack." —VOL. II.

A thin watery soup served out on some vessels.

I have known many a strong stomach, made food-proof by years of pork eaten with molasses, and biscuit alive with worms, to be utterly capsized by the mere smell of soap-and-bullion. Jack calls it soap-and-bullion, one onion to a gallon of water, and this fairly expresses the character of the nauseous compound.—Clark Russell: Sailor's Language.

Soap-crawler (popular), a syco-phant.

Stale, too, orful stale, my young josser
It’s wot all soap-crawlers say,
If a party as “go” and “high speerits”—percise wot you praise me for, hay?
If he “can laugh aloud,” as you say I can, better than much finer folk,
Will you ticket ’im “vulgar,” for doin’ it?
Oh, you go ’ome and eat coke!
—Punch.

Soapers (American thieves), men who practise the soap trick. "It is a simple conjuror’s trick, and it is not difficult to understand. A number of cakes of soap are wrapped each in a piece of paper, and mixed up together in a travelling-bag, suspended by a strap round the neck of the operator. A five-dollar bill is wrapped around one of the cakes, and enveloped in the paper, like the others. It is then thrown into the bag, after having been marked by the thumb-nail, and the crowd are invited to pick it out of the lot at the cost of one dollar. Of course, the cake containing the money is not thrown into the bag at all, but is palmed (substituted by sleight of hand) by the head of the firm, who
Soap—Sockdolager.

gives another cake, similarly marked. When the capper (con- federate) buys a cake, he draws a prize" (Confidence Crooks, Philadelphia Press).

Soap, to (common), to flatter.

And the tailor and robbemaker, between washings with the invisible soap, so visibly soaped our hero in what is understood to be the shop sense of the word.—C. Beile: Verdant Green.

(American), to bribe.

If a knock down were needed in a case, Griffin would perform it promptly and expertly. The bloods paid the fine, and soaped Griffin besides.—New York Herald.

Sober-water (common), a jocular appellation for soda-water.

Soc (printers), this is an abbreviation of the word "Society." To be a member of the Soc. (compositors'), hence not a "rat."

Society man (tailors), a member of the trade union.

Sock (Eton), edibles of various kinds privately imported.

The consumption of sock, too, in school was considerable, and on occasion very conspicuous.—Pascoe: Everyday Life in our Public Schools.

Hotten says the word is still used by the boys of Heriot's Hospital School at Edinburgh, and signifies a sweetmeat, being derived from the same source as "sugar," "suck." Swedish sock, sugar. (Popular), credit. (Common), to give one sock or socks, to thrash him. From provincial English to sock, to strike.

Sockdolager (American), a word inadequately explained by its imperfect resemblance to doxology. A sodolager, says Bartlett, is a conclusive argument, a "settler," and as that ends everything, and as the doxology is sung at the end of the religious service, ergo, they are the same. As it is very commonly applied to a settling blow—two out of three of Bartlett's illustrations of it refer to such—it probably owes its beginning to sock, to strike. In Dutch a zak-dadelyk (or daddyke-zaak) means "a plain case," admitting no further argument; but it is very doubtful whether this has anything to do with it. A zak-dualertje, a bag of dollars, would come much nearer than "doxology"—and as it is an effective settler to most disputes, a great deal might be said in its favour, but similarity of sound and even of meaning is not always conclusive. The most probable derivation is sock, a hard blow, and dole, to give. It is, however, possible that the origin of the much discussed word is the Iceland sauukdolgr, which Jonass in the glossary appended to the Latin version of Nails Saga, defines as meaning among other things dwelhum, a sudden attack, also a bad affair, evil, and another authority gives it as impetus. Saukdolgr is pronounced almost.
exactly like sockdolager. It probably came from the Swedes of Philadelphia, as it is an old word in America.

Sam caught him a tremendous blow, clean bang in the left eye, one that nearly knocked him off his pins. Every man in the room heard that sockdolager as plainly as he saw it.—Bird & Freedom.

Sock (public schools), football played according to the Association Rules.

Socket (popular), one who obtains money, "socket-money," by threats of exposure. In French chanteur.

Socket-money (old), prostitute's fee. Query any reference to putting the money in the socket of a candlestick? In France the fee is placed under the candlestick. Also money extorted by threats of exposure. Probably from soke, a payment made to the lord by his tenant for the privilege of being a sockman or freeholder. Anglo-Saxon soke, a toll.

Sock, sock down, to (American), to pay money down, to slap down money. A common expression in Philadelphia. To sock it into a man, to press hard on him, to beat or strike, thrash or larrup. Also applied metaphorically on the Stock Exchange.

If any fellow dares to sport with my Eliza Jane, I'll let him have it hot and short till death shall end his pain; and if I find in any way that she is in the swim, I'll take a fence rail ten feet long, and sock it into him.—American Jokes.

To sock into, for to beat, thrash, is a common expression in England.

Sock, to (Eton), to eat. Vide Sock.

We Eton fellows, great and small, "socked" prodigiously. By the way, I do not know whence that term sock, as applied to what boys at some schools call "grub," and others "tick," is derived? for I question the theory which makes it spring from "suck." I am rather disposed to accept the story that at the beginning of this century, one of the men, who sold fruit and tarts at the wall, got nicknamed "Socks," in consequence of his having discarded knee-breeches and stockings in favour of pants and short hose. The man's nickname might then have spread to his business and to his wares by a process familiar to etymologists, till "socking" came to mean the purchase of good things not from "Socks" only, but from any other vendor.—Brinsley Richards: Seven Years at Eton.

To sock a fellow, was to give him something to eat or drink, outside his regular meals. Sometimes a boy might say, 'My governor has socked me a book.'

... A boy has also been heard to ask another to sock him a construe of his lesson" (C. T. Buckland, "Eton, Fifty Years Ago").

( Winchester), to hit hard, especially at cricket. It also means to beat, or defeat in a game. Sock is a provincialism meaning to hit hard, but much used by slang-talking people.

And then he proceeded, in manner most spry,
In his muscular arms to enfold him,
And said, "Dub up, or else you'll get socked in the eye!"

—Sporting Times.
Sodom (Oxford), Wadham College. From a similarity of sound.

**Something short** (popular), spirits neat, short of water.

When he thought of his friends who d grown portly on port,  
Who never on ale appeared ailing;  
If only he might dare to take something short,  
Would the teetotal ghosts all start wailing?  
A pub! Yes, he will! He's hopped in like a bird—  
But the curtain shall fall on our brother;  
We'll only record that the last words we heard,  
Were, "Now, dear, let'sh 'ave jus' another!"  
—Judy.

Generally "summat short."

And as to the benjamin... he would keep it long enough, unless the owner stood a drop of summat short.—*J. Wight: Mornings at Bow Street.*

**Sonk, sonkey** (popular), a stupid fellow. From *sunket*, a foolish fellow. Norfolk dialect.

**Son of a gun** (popular). "An epithet conveying contempt in a slight degree, and originally applied to boys born afloat, when women were permitted to accompany their husbands to sea; one admiral declared he literally was thus cradled, under the breast of a gun-carriage" (Admiral Smyth).

You may fancy his rage, and his deep despair,  
When he saw himself thus befooled by one  
Whom, in anger wild, he profanely styled,  
"A stupid, old, snuff-coloured son of a gun!"  
—*Ingoldsby Legends.*

"Yesir. The spotted is called sore leg, and the plain 'sudden death.'"—Bird o' Freedom.

Sort (popular), that's my sort, that is my nature, character, that is my way of proceeding; that's your sort, this is the course for you to adopt. A good sort, or a good old sort, a good-natured person.

Sorts. Vide Out of Sorts.

Soundings (printers). Pressmen are said to be in soundings when they get near the bottom of their heap. In taking the last few sheets off the "horse" their knuckles would touch or rap against the wood, hence the term.

Soup (legal), the prosecutions which are given out to the junior bar in court by the clerk of the peace or arraign as the case may be. The custom is to give them out whether the prisoner pleads guilty or not, but in some places only pleas of "not guilty" are given out. They frequently form the first "brief" which a young barrister gets. (Printers), bad and sloppy ink is thus termed. (Burglars), melted plate; it is sometimes called white soup.

Sour—Spangle-shaker.

Arthur—"My best girl soured on me yesterday." George—"I don't wonder. I always said she was a little pickle."—Almanac.

Sour planters (coiners), rogues who pass off counterfeit coin.

Publicans, we were given to understand, are usually the unfortunate tradesmen fixed on as a mark, barmaids being easily thrown off their guard by the customer's innocent appearance and manner. But a safer plan, and one more admired by the sour planter herself, is to perambulate streets of tradesmen's shops with her companion, with a sharp look-out for spoony shopmen and hobble-de-hoys entrusted with the till.—J. Greenwood: Tag, Tag, & Co.

Sours (coiners), counterfeit coin. Roman coins and such old money are called onion-pennies, or onions (provincial), onions are also sours, and the connection between bad money and sours appears evident. The phrase "to plant the sours," i.e., to pass bad coin, strongly supports this explanation, further strengthened by the Italian cant term argume, literally onions, and French slang oignon, both meaning money, coin. Again, the term may owe its origin to the acids used in electro-plating. But that is mere conjecture. "Sometimes when coiners are hard pressed, if there is no other way of getting rid of the sours, they secretly swallow them. The shilling sour, in the opinion of 'smashers,' is the handiest, and pays better than the florin or half-crown, because when it comes to that value people examine it more closely. Shilling sours of a superior kind generally cost four shillings a dozen first hand."

And then he proceeded to inform me that the individual mentioned on the paper was a "smasher," or, in other words, a dealer in counterfeit coin or sours.—J. Greenwood: Tag, Tag, & Co.

To plant the sours, to pass base coin.

Southerly buster (Australian), a piercingly cold southerly wind.

The climate of Sydney, always a detestable one, is never the same for more than a few hours. I have often seen a day there open with a hot scorching wind, which lasts perhaps until one o'clock. Suddenly a fierce, cold wind, a southerly buster as it is called, sweeps up from the ice-fields of the Southern Sea, and blows perhaps for two days, perhaps only for a few hours.—Finch Hatton: Advance Australia.

Sow-belly (American rancheros), bacon.

Sow's baby (popular), a sixpence, hog being a shilling.

Spangle-shaker (theatrical), harlequin. Also "spangle-guts."
Spanish, or Spanish blunt. Hot-ten defines this as money, and suggests that it is a relic of buccaneering days. In America it is correctly limited to silver coin. It is a relic of the old word Spanish-boards, or dollars.

Indeed there's not one in the language that I know
Save its synonyms, Spanish blunt, stumpy, and rhino.
—Ingoldsby Legends.

Spare a rub (tailors) oblige me with some, or after you with it; possibly alluding to ironing.

Spark (American), a lover, a "beau." Flame is an old English word for a sweetheart; in America it is more peculiarly applied to a lady-love. "Where there is flame, there will be sparks," originated the application of the latter word to men. From this is derived "to spark it," and "to go a sparking."

When the dew is just a sprinkling,
And the stars begin their twinkling,
And the day dies into darkning,
That is just the time for sparkling.
—Broadside Ballad.

I was about eighteen years of age, when, for the first time, I took it into my head to go a sparking. One of my neighbours a few miles off had a pretty daughter that, I thought, would just suit me.—Youth's Companion.

A spark in England was formerly applied, like beau, rather to a gay and stylish fellow than a lover.

Our attention has been called to them and their doings by an indignant "Stall-holder," whose plaint we publish in another column. "Stall-holder" is exercised in spirit, and with reason, by the behaviour of certain sparks, or "bucks," or "bloods," or "Corinthians," or "Macaronis" (their name changes with the centuries, but their nature is eternally the same), who make too much noise in stage-boxes and stalls, together with their "female companions."
—Globe.

The Rev. A. Smythe Palmer, in his "Folk-Etymology," remarks: "Spark, as a name for a self-sufficient fop or conceited coxcomb, has probably no direct connection with the glittering particle of fire which we call a spark, any more than flunky has to do with German funke, a spark. Mr. Wedgwood connects the word with provincial English sprag, sprack, quick, brisk, as of a lively young man (compare sproie, vigour, sprightliness), and clearly further points out a connection with Icelandic spárkr, sprákti, lively, sprightly, also a dandy. See also Professor Skeat's notes to 'Piers Plowman,' p. 398."

Oft has it been my lot to mark
A proud, conceited, talking spark.
—J. Merrick: The Chameleon.

No "double entendres," which you sparks allow,
To make the ladies look—they know not how.
—Dryden: Love Triumphant.

According to Skeat, from same root with spark, a small particle of fire. Originally noisy. Icelandic spraka, to crackle.

Sparkle (thieves), a diamond. In French (not slang), brilliant.

I got her purse and found the ring. I saw it was a big sparkle. I noticed the size, and
Sparker. German (American), "a slumber." Sections (lubricants). The speed, or a given speed, is the speed at which the machine is running to perform a particular set of operations. Sections (lubricants) damned up.

Speckled eels (avocational)."
so that the phrase is a play on these two words, and corresponds to the French cant "jouer des trimoires," trime, road, being from the same root as "drum," which see. It has been suggested that this term is from provincial English speel, to climb.

**Spell for** (popular), to long for.

**Spellken, spielken, or spell (cant), a theatre.** Probably from the German spielen, to play, and ken, a place.

Who in a row like Tom could lead the van, Booze in the ken, or at the spellken hustle.

*—Byron: Don Juan.*

**Spell oats, to** (American). "He can't spell oats," said of an ignorant fellow. This originated in a practical joke about 1848.

One man would leave a grain of oats with another, who was in the joke, and then meeting another friend, would say, "Have you seen Jones? He has an oat for you." The victim, not understanding the sell, would go to Jones and ask for a note, the result being, of course, a treat.

When men couldn't spell oats, they were not given votes,
Their place was to work, not to worry,
And Brummagem Rads didn't pander to cads,
For office there wasn't such hurry.
The friends of rebellion were one in a million,
They injured no woman or child,
E'en traitors were Trojans, dreamt not of explosions,
And Parliament was not defiled.

*—Song: In the Good Old Times Long Ago (published by Francis Bros. & Day).*

**Sphere (football), the ball.**

English army slang *spin*, to reject from an examination; *spindle*, the third swarm of bees from a hive; *spinny*, thin, slender. To this some facetious person has probably added *indigo*, to give it a sufficiently blue tone.

Spink (Royal Military Academy), milk, specially condensed milk.

To go at full split, or to go as hard as one can split, means to go as hard as ever one can at full pace. Used by slangy Australians as well as in England.

Splodger (popular), a lout, awkward countryman.

Splodgy (common), coarse, referring to complexion, with pimples.

Splurge (American), a dashing, brilliant display. At Princeton University a student who recited a lesson badly was said to "fizzle," when he did it creditably he "rowled," but to show a perfect mastery of the subject was to splurge.

A new wrinkle at seaside resorts is the splurging of fair women on borrowed dresses. They only differ in degree from many other fair women who own their dresses, but whose fathers and husbands sometimes have to borrow the money to pay for them.—St. Paul Globe.

To cut a splurge is synonymous with "cut a dash."

Spoffskins (society), a lady of an accommodating disposition, who makes morganatic arrangements of a temporary character.

Spoffy (common), applied to a bustling busybody, a fussy "finick." From provincial English spoffle, to busy oneself overmuch about a matter of little consequence.

Spondulicks (American), a term for specie or money. It would appear to have some connection with Dutch spaunder, "chips," also slang for money, and there is also a word oolik, bad, wretched. The term probably originated in New York, in some confusion or perversion of these words. This word has become common among turfites.
Sponge—Spoof.

Sponge, throwing up the (common), to give up, submit, acknowledge one's defeat; from the custom in the prize-ring. The principal second keeps a sponge during the fight, wherewith to cleanse and refresh his principal's face between the rounds; thus his throwing up the sponge, as it were, because it has become useless, is taken to be indicative of his side giving up the struggle. This is an almost recognised phrase.

The party . . . told him that he must either return to France or throw up the sponge. General Boulanger refused to do either.—Daily Telegraph.

Spoof (turf), deception, swindle, sell. Properly a childish kind of game like "tiddlywinks."

Next day I put all my oof
On to Gold (sixteen to one),
And now I hear the cry of spoof,
The race is o'er, and he's not won.
—Bird o' Freedom.

Spoof has been defined by Sir P. Colquhoun as "an unintelligible shibboleth, invented to indicate an idiotic game—a sell. Exactly as 'the loud laugh proclaims the empty mind,' so, to be an adept in the spoof cult, indicates, as the first qualification for that dubious distinction, softening of the brain." This term owes its origin to the game of spoof, played on a draught-board with counters, which have to be whisked on the top of the adversary's own counters by means of a small stick. It has been suggested, however, that "spoof is from provincial English spoffle, to busy oneself overmuch about a matter of small consequence, to rage over a trifle, as a 'great cry and little wool,' i.e., a cheat or sell. Hence disappointment, deceit."

Love he used to think, I've said before, a riddle;
To-day he says the mot d'énigme is oof,
And that lovers play a very second fiddle
To markers at the noble game of spoof.
—Sporting Times.
'Tis oh! to be the people's "pug,"
Who is paid at halls to spar,
Who's a lovely, unscratched, scarless mug,
Who lives like a La-di-da!
Big battles he fights which are always drawn,
But draw much golden oof,
He boasts of his biceps and "Boston" brawn—
'Tis oh! for the game of spoof.
—Bird o' Freedom.

Also the confidence-trick swindle.
Also to play spoof.

The alligator and crocodile are just in the prime of life at too. There are parrots in the gardens who are seventy-five years old, and still cheerful, and the swan begins to think about putting away youthful follies at zoo. I hope the keeper who told me all this knows that it is wicked to play spoof on Sunday. I believed all he told me, and kept saying "Really" in such a sweetly innocent way, that he may have been tempted to put the pot on.—Referee.

Spoof, to (turf). Vide Spoof.

"T," said the Wicked Nobleman, having previously arranged to spoof the crowd with the word "taint."—Sporting Times. His railway carriage he will choose and pick,
Till he spots a likely lot,
To royally spoof at the three-card trick,
And to lift of a cosy "pot."
And he patters the while of mysterious tips
And dollars he cops for "stable" snips.
—Bird o' Freedom.

Spoon (common), courtship; spoons together, much in love with one another. Vide Spoon.

She and I, dontcher know, are great spoons.
—Punch.

(American), "to do business with a big spoon" is the same as "to cut a big swath" (Bartlett); that is to say, on a large scale. Also to help oneself fully, which is the origin of the German phrase, "Er isst mit grossen Löffel"—"He eats with a large spoon."

Spooney. There appear to be two separate or distinct words of this spelling, probably with different roots. A case of spoons, or of two persons who spoon on one another, is a term existing out of English, in Welsh, Arabic, and German (öffeln, to play the gallant, also eat with a spoon; löffel, gallantry, and spoon), without any reference to weak-mindedness or folly. It is usual in Wales, Norway, and Sweden, as in Algeria, to make a newly-married couple a present of two spoons both carved out of one piece of wood joined, or a kind of double, and the writer has in his possession specimens of several kinds. The idea in this seems to be that as spoons in a set match and fit together exactly, so should man and wife. A spooney, meaning a silly person, had originally no connection with love, though it became natural enough to associate silly fondness with affection. Vide To Spoon.

You don't mean to say you have been doing the spooney—what you call making love—have you?—C. Bets: Verdant Green.

The original meaning of spooney, foolish, possibly owes its origin to the phrase "not past the spoon," i.e., childish, that is, spoon-fed.

"Can't you see it ain't open yet, spooney!" demanded the irascible landlady.—J. Greenwood: Dick Temple.

Spoons (American), equivalent to money, means, or a fortune.

"She has the spoons" indicates an heiress.

Spoon, to (common), to court, make love, to woo. Sometimes with an idea of foolish fondness, which was the original meaning.

"You're not a bad-looking fellow. Spoon some woman, you'll soon be all right." Some short time passed on, when the two met again, the broker in fine feather.

"To spoon, borrowed probably from some of the provincial dialects, seems to be akin to Anglo-Saxon sponere (spanere), an allurer or persuader; sponung (spanung), persuasion, seduction; spenan (past participle sponen), to entice, or solicit; the primitive form of which was probably spanan, implied
by Teutonic *un-spunatalik*, inexorable. Thus the original meaning of *spoon* would be 'to be seductive or alluring’ in one’s looks and manner, to woo’” (A. Smythe Palmer).  

(Cricket), to strike the ball in such a way with a slack and almost horizontal bat that it rises up in the air.

They “pulled,” they *spooned*, they, in short, committed every fault of which the cricketer can be guilty.—*Daily Telegraph*.

**Spoops, or spoopsy** (American), a soft-brained fellow, or one whose manners are objectionable.

Seniors always try to be dignified. The term *spoopsy*, in its widest signification, applies admirably to them.—*Yale Tomahawk*.

*Spoopy* is from English provincial *poop*, a puppy. The ending *sy* is very often irregularly applied in America, as Jimsy for Jim.

**Sport** (popular), a man who gives himself up to sport, a betting man, turfite. Originally American.

Leastways I don’t mean that exackly; I like you too well; you’re my sort; But you ain’t took my measure kerrect, I’m a Tory, a patriot, a sport.

So wy should you round on me thusly? I call it a little mite mean.

If I took and turned Radical now; but oh! no, ‘Arry isn’t so green.

—*Punch*.

**Sporting door** (University), outer door of chamber. Also “*oak*.” *Vide To Sport*.

**Sport, to (common), to exhibit, wear, as “sport a new tile.”**

“To sport one’s oak,” to shut the door against visitors. *Vide Oak*.

Mr. Verdant Green had for the first time *sported* his oak. Under any circumstances it would have been a mere form, since his bashful politeness would have induced him to open it to any comer.—*C. Bede: Verdant Green*.

**Spot (common), to have a vacant spot, to be crazy; to be on the spot, or to be “all there,” to be thoroughly *au fait* of some business, occupation, or game. To be in form, or lucky, to be smart. An officer is said to be on the spot when he is thoroughly acquainted with his duties. “Off the spot” is the reverse. The metaphor is from a billiards phrase, on or off the spot stroke, the most paying stroke at billiards. To be on the spot, therefore, is to be doing the spot stroke skilfully or luckily.

**Spotted** (army), *spotted* mysteries. Potted preserved beef, which may contain unknown ingredients, or be made of bad meat.

But what do I care? Not a penworth of *spotted*; and when customers come in and ask for a fourpenny plate with plenty of gravy, I take the money—always look after the coin, you know.—*Broadside Ballad*.

(Army), *spotted* dog, sometimes applied to a currant pudding, but by soldiers used for a sausage or saveloy.

(Popular), *spotted* donkey, coarse plum-pudding, sold at cook-shops.

Spot, to (common), to see, notice, make a note of anything, pick out, identify.

But I preferred pecking and prowling, and spotting the mugs making love.—Punch.

The next tipster avows he will forfeit a large sum of money unless he spots the identical winners, "first and second." Of course, nothing can be more transparent than bombast of this sort; but here it is in black and white.—Greenwood; Seven Curses of London.

There are certain movements of individuals, as the extension of a hand, the methods of carrying a cane or a parasol, that mark the persons, so that, disguise themselves as they may, a trained detective would spot them anywhere, or under any circumstances. They are involuntary, and all the training in the world would not change them an iota.—Illustrated Bits.

Also to lay money down for gambling, setting it on the spots.

Spouter (popular), orator or preacher. Also a whaling term for a South Sea whale.

Spout, to (common), to pawn. Vide Pop.

He went out one Monday morning and spouted his watch to raise funds.—J. Wight: Mornings at Bow Street.

The dons are going to spout the college plate.—T. Hughes: Tom Brown at Oxford.

I hold it truth with him who says
That sometimes 'tis as well to spout
One's watch, and not to get it out
Till after lapse of many days.
—Bird o' Freedom.

To shout as a street vendor.

I was out with the missis and the make a spoutin' my wares.—Bird o' Freedom.

To spout also refers to noisy talking or oratory.

At its case, of an "uncle" of his, who'd a spout,
That horrid word spout no sooner came out
Than Winifred Pryce would turn her about,
And with scorn on her lip, and a hand on each hip,
Spout herself till her nose grew red at the tip.
—Ingoldsby Legends.

In the following quotation a play is made on the word.

A very interesting article on sponges has been written by one of our Consuls on the Syrian coast. It appears that these interesting, but lowly organised creatures, exist only by spouting, in fact they are the Grand Old Man of the sea.—Moonshine.

Spout, up the (common), in pawn. And his pockets, no doubt, being turned inside out,
That his mouchoir and gloves may be put up the spout.
—Ingoldsby Legends.

In America there is a poetical paraphrase of this term in very common use. It is "where the woodbine twineth," because in country houses there is generally a woodbine growing on the water-spout. It was invented by the notorious Fiske in reference to bonds hypothecated.
Up the spout is in allusion to the spout up which pawnbrokers send the articles ticketed. When redeemed, they return down the spout, i.e., from the store-room to the shop.

As for spoons, forks, and jewellery, they are not taken so readily to the smelting-pot, but to well-known places where there is a pipe (spout) which your lordships may have seen in a pawnbroker’s shop. —Shaftesbury, The Times.

There were three of these floors, and the spout from the shop penetrated to the topmost. On every floorway a sharp and active youth, whose business it was to discover and send “down the spout” the ransomed bundles.—Greenwood: In Strange Company.

and best who monopolise the favours of
the females. A stag party of deer con-

rule is reversed. Nineteen out of twenty

manly and intelligent men, in which there
are some who never had a bone fortune,

Vide STURIBEN.

Starve 'em, Rob 'em, and Cheat 'em, slang names for the contiguous or united towns of Stroud, Rochester, and Chatham. "So called," says Grosé, "by soldiers and sailors, and not without good reason."

Stash, to (common), to cease, stop, stay, leave off. As this word agrees in every particular as to meaning with the gypsy hatch, it is possibly an anagram of it, or a corruption of to stanch, which formerly had the limited meaning of to stop.

What to the heel do you stash at? I'll chive you.—Jon Bee: A Living Picture of London.

Stationery (theatrical), paper, or orders in a theatre.

Staving, rip-staving, rip-staver (American), to stave, i.e., to break into, as to stave a cask, is correct. From this comes to stave, to burst through, or press onward. "The world will stave right on," "Where are you staving to?" Hence staving, dash- ing on, proceeding brilliantly, doing well, as a staving business. "Ripping and staving along" may be heard sometimes. "Rip-snorter, rip-staver, a tearer, driver, dasher" (Bartlett). Vide Rip.

Stay (American). "To be stayed with is to be courted by a man" (Bartlett). To stay with a woman is to carry courtship to the extreme. (Common), to stay is said of a horse or man with powers of endurance.

M. Carnot . . . "has been unquestionably the most hard-worked citizen in this country; yet he has amazed his entourage by his staying powers.—Daily Telegraph.

Stayer (sporting), one not to be discouraged. An athlete or horse who has powers of endurance.

The distance was half-a-mile, and considerable interest was taken in the race, in which a fine contest was expected to ensue between the holder, H. C. S., and J. N., who has previously been known as a short-distance swimmer rather than a stayer.—Pastime.

Gonsalvez is stopped by his penalty, and is nearly certain to give way to Theophrastus, who is a rare old stayer.—Referee.

Stay out (Eton), meaning the reverse.

Sometimes Blazes had a lazy fit, and put himself on the sick list for a day. This was called stay out, for the reason that
one had to stay in.—Brinsley Richards: Seven Years at Eton.

Many things at Eton were called by misnomers, in the construction of which the *locus a non lucendo* principle came out very strong. Thus, when we stayed in, we said we were *staying out*; when "absence" was called, we had to be *present*; a third of a year was called a *half*, &c. &c.—Sketchy Memories of Eton.

Stay-tape (trade), a dry goods clerk or salesman.

Steak, a *two-eyed* (popular), a bloater, or "soger," or red herring.

Steamer (American), a tobacco-pipe.

Steaming (popular), a pudding steamed. In Manchester a potato-pie is called a steam-engine. The term is much used in the army.

Steel, prison slang for Coldbath Fields, from the Bastille. A name it earned rightly from its abominable management in the early part of the nineteenth century, and wrongly from the ignorant outcry which greeted the introduction of the separate (or silent and solitary) system of imprisonment.

"And the *Steel*—the place to which Mr. Eggshells alludes in connection with his retirement?"

"Coldbath Fields," responded Mr. Badger, promptly, "*quod*—*gaol*—prison—that's the *Steel*."—J. Greenwood: Dick Temple.

The term has been extended to any prison, lock-up.

He pitched into the policeman, was lugged off to the *steel*, had up before the magistrate, and got a month.—Thor Fredur: Sketches from Shady Places.

Steel-bar drivers (popular), journeymen tailors. Termed also "flingers."

Steel-pen (common). A *steel-pen* coat is a dress coat.

As regards the coat, the Emperor has sternly set his face against the "swallow-tail," "claw-hammer," or *steel-pen* garment which, for the last sixty years, has been mercilessly inflicted on civilised society all over the world.—Daily Telegraph.

Steep (American), extreme. "A *steep* price." *Steep* grade, a rather difficult undertaking. De Vere remarks that steep is not only used in its literal sense, but by a kind of bold hyperbole applied to things generally. Men speak of "a *steep* price for a farm," and complain of "a *steep* tax to be paid." The French have raide (steep), for anything difficult to perform, to believe, or to stomach.

At the election in Minnesota one hundred and ten Winnebago Indians, wearing their blankets, voted the Democratic ticket; but the agent thought this was rather steep, so he afterwards crossed that number from the list.—Chicago Tribune.

Steeple-house, Puritan for church.

Stems (popular), the legs.

Mr. Curtis slipped into his pockets nine silver knives, and some dessert spoons and forks, and then we regret to say he stepped it, but he did so like a gentleman.—Daily Telegraph.
The last dull rays of the rushlight were gleaming,
Poor Snip and his wife, just as usual, were tight:
That the landlord would seize they had long been a-dreaming,
So they made up their minds to just step it that night.
—Frederick Perry: Ballad.

Stepper (prison), the treadmill.

Stepping it (army), desertion.
When a soldier absents himself with no intention of returning, he is said to have stepped it by his comrades.

Stepping ken, a dance-house.
English, but now more used in America, where the dance-house is much commoner than in England. It is a dancing-hall frequented by sailors, and the lowest classes of men and women of all kinds. The shameless debauchery practised in these places is of the most outré description.

But now I’ve grown to man’s estate, for work I’ve never cared,
I’ve “prosed” my meals from off my pals,
offtimes I’ve badly fared;
Last night I had a single brown, a faggot thought I’d buy,
I dropped the stever down the sink, and then said with a sigh,
“I can’t get at it.”
—Catnach Press Broadside.

Stew (old), not wholly obsolete, for a brothel; a stew-holder, the keeper of a house of ill-fame. The name of stew originated from such establishments being generally held in conjunction with places where hot baths were kept, and where the men who frequented them, if afraid of infection, might resort to the hot bath and induce copious perspiration, by way of possible purification. A prostitute was often called a stew, in the seventeenth century.

Steward (American cadet), the doctor at West Point, United States Military Academy.
Stick (general and American), an inefficient person.

If you've got any sticks working in this office I want them discharged at once. I can't allow any but first-class men in this department.—Chicago Tribune.

An awkward and uninteresting actor is often called a stick. (Thieves), a crowbar. Burglars that "work with the stick" are looked down upon by those that "work with the 'screws.'"

Sticks (common), furniture.

To the individual whose average earnings are perhaps half-a-crown a day, furnished lodgings are of course out of the question, and so none will permit him to occupy a room in a private house, unless he has at least a few sticks by way of security for the payment of a week's rent.

—J. Greenwood: Tag, Rag, &c. Co.

To tide over till then is a work of some difficulty, but the sticks and the "wardrobe" of the family have paid the rent up to now.—George R. Sims: How the Poor Live.

A poor woman owed 11s. 3d. for rent. A broker distrained on her goods. They were sold at auction for £2, 1s. 9d., the expenses amounting to £2, 4s. Among other items 10s. had been charged for advertising her miserable sticks.—Daily Telegraph.

(Printers), another slang term for bad or hard printing rollers. (Racing), hurdles.

"That lad," said he to the sergeant, when the lad had gone out, "that lad’s apprentice to a customer of mine. I suppose he’s cut his stick."—The Cool Cradle.

Stick, to stick, to be stuck. This word, in the sense of to cheat, to be taken in, or as signifying loss, as English, but like many slang terms it has been very much extended and developed in the United States. Thus any and every kind of miscalculation, or error, or mistake, involves or results in being stuck, or in a stick. A man left with a certain number of unsaleable articles is stuck to that amount, and so on. There is a story of a country fellow, who, having gone into an auction, was told after it was over that he must pay for an immense quantity of goods which he had purchased. "Why, I didn’t buy no goods," he replied. "Yes, you did," replied the auctioneer. "Every time I winked to you, you nodded again, and that was a bid." "’Twan’t no bid," cried the countryman. "You kep a winkin’ at me, as much as to say, ‘Yes, you see how I’m goin’ to stick somebody this time,’ and I nodded back, meanin’ ‘I’m darned if you don’t, mister.’" (Popular and thieves), to stick up, to deceive, cheat, disappoint.

Now don’t stick me up (disappoint); meet me at six to-night.—Horsey: Jottings from Jail.

(Australian), to rob, to entrap, to take violent possession of. To stick up literally signifies to stop. "Stop," in the days of highwaymen in England, had a similarly disagreeable connotation. Australians talk of a bank being stuck up, i.e., robbed, of being stuck up by bush-rangers, &c.

Why, they stuck up Wilson’s Station there, and murdered the man and woman in the kitchen; they then planted inside the house, and waited until Wilson came home at night with his stockman. Then they rushed out, and knocked old Wilson on the head, and drove a spear through the man’s side.—A. C. Grant: Bush Life in Queensland.

A man talks of being stuck up when he does not see how to score at billiards, when he is puzzled for an answer, in fact, when he cannot get on in any matter.

Sticky-fingered (popular), thievish or covetous. The metaphor is obvious. In French cant poiser (to make sticky, clam), signifies to steal; poisseur or poisse, a thief.

"You’re as sticky-fingered as a Scotchman."

"Why a Scotchman in particular?"
"Because he keeps the Sabbath, and everything else he can lay hands on."

A dialogue heard after the joke came out in Punch.

Stiff (general), paper of any kind, so called from its stiffness; a promissory note, used in con-
trast with "hard," which signifies cash, or hard money. To do a "bit of stiff" is to accept or endorse a bill.

(American turf), explained by quotation.

"What do they mean by a stiff in the race?"
"That means generally a horse that on public form should win the race, and that either the jockey, trainer, or horse has been 'fixed' so that he will not win. I have heard the term 'bookmaker's stiff' used, and it means about the same thing, and is played at the expense of the public and in the interest of the bookmakers."—St. Louis Republican.

(Popular and thieves), a letter, a secret or clandestine communication between a prisoner and his friends outside, or between one and another. It is written on a sheet torn out of a library book, or on whitey-brown, with a scrap of pencil picked up and cautiously secreted, or a piece provided by an officer in connivance.

"You've got a 'new chum' in your party?"
"Yes; he's got a fiver. He is a draper, from Leicester. He says you used to be his lawyer,"
"Ask him to write me particulars of his case."
"Oh, yes; I'll swag it in. I have a piece of 'cedar' which I'll lend him to write the stiff."—Evening News.

Stiff-fencer (streets), a street seller of notepaper. Vide STIFF.

The latter, seeing how sensitive the market is nowadays, and how inclined racing men are to follow what is done by layers who have the reputation of living out of stiff 'uns, kept his place in a way that can only be regarded as miraculous. —Referee.

There are two bookmakers in Melbourne nicknamed "the Undertakers," because of their fondness for laying against stiff 'uns, which, in this case, means horses that are certain not to run.

Stilting (thieves), synonymous with "high flying," explained by quotation.
“Don’t say another word,” said he: “am I anything in the police, indeed! You are a nice sort of chap to try your hand at stilting!” (first-class pocket-picking). “Why, what d’yer mean by it? How long have you been about?”—The Little Ragamuffins.

Stone broke or stoney (general), term in very common use among men in the fashionable world to express that they are in extreme financial difficulties and on the verge of bankruptcy, if not already bankrupts. The
Stone—Stop-lay.

term is perhaps derived from "stone-breaking," in that the solid mass of rock, broken up into small fragments, and only useful for mending roads with, is a decided come-down for a granite rock. Or it is an allusion to "rock" or "bed rock" dollar, last dollar. Originally American. The term is now in general use. The writer heard it from the lips of itinerants, &c.

At your mute call the people flock,
The banker for his pounds pawns stock;
The widow for the mite pawns flock;
The milkmaid sweet, she pawns a crock;
All stoney broke—with not a "rock;"
Ye three brass balls.
—Detroit Free Press.

We shall see scores of punters who went stoney over Manchester working away at Croydon this afternoon.—Evening News.

Stone-jug, the, originally Newgate Prison. Now any prison.

In a box of the stone-jug I was born.
—Ainsworth: Jerry Juniper’s Chant.

"The elders of the Kirk in Glasgow used of old to go out of church and make a sweep round for absentees and idlers, who on Monday were placed in the stocks or pillory, which being called (from the Latin jugum, a yoke), the jugs, the treatment was styled ‘clapping them in the jous,’ hence stone jous or jug. Parish jugs in Scotland consisted of an iron collar fastened by a chain and padlock to one of the entrance piers of the churchyard gate. This was the iron jug, and a prison in which the offender is confined bodily becomes, by an easy association of ideas, the stone-jug." "It is remarkable that the use of the phrase stone-jug for prison, finds a parallel in Greek. The Scholiast on the Iliad, on the word Keramos, gives the meaning, a prison, as a Cyprian usage" (Notes and Queries). Grose calls it a "stone doublet."

Stone-fence (common), brandy and ale. A variation of "breaky leg."

Stook (thieves), pocket-handkerchief. Probably Yiddish, from the German stuck, a piece. Stook-hauler, a pickpocket who steals pocket-handkerchiefs.

Stop-lay. Two or more well-dressed pickpockets promenade singly, until they select a person that will answer their purpose. One then inquires of him the direction to a place somewhat distant. On being told, he pretends not to understand his informant, who, becoming interested in his desire to be explicit, draws closer to the inquirer. At this instant one or both the others walk up, and in an instant the obliging man is relieved of a part of his property. This is called the stop-lay.
Stormen—Straight.

Stormen (society), a hot member of society, a man who is extremely proficient at anything, a lady who is fast and peculiar in ways and language; the origin of the word is a storm which bears down everything before it.

"To stow comes from old English stowen, to restrain; akin to stay, stop, stand. Compare Shetland stow! hush! silence!" (A. Smythe Palmer).

Straddle, spread (American), a Stock Exchange term for "options." This term is also used in England.

The well-understood operation of put and call is in danger of being henceforth known as straddle or spread.—St. James's Gazette.

Straddle, to (American). When a candidate for office, "or any other man," in America does not take sides distinctly with one party or the other, he is said to be "on the fence," or to straddle it.

Their view of the message is that the President has convictions on the subject, but lacks the courage to give expression to them in a fighting way; so he straddled. —Chicago Tribune.

Straight (American). In the United States a straight drink means one of unmixed spirits, e.g., whisky straight, is the same as neat. But Mr. Hotten is quite wrong in saying that it is
peculiar to dram-drinkers. It is used in many strange ways. Thus, if cigars are labelled, "Ten cents apiece, straight," it means that no deduction will be made for buying a number of them. To vote the straight ticket at an election is to do so without scratching, that is to say, without taking off the name of any candidate and substituting another.

In molasses, mixtures are relatively cheaper than straight goods.—New York Price Current.

But refusing to take e'en a moment of rest,
He exceedingly rapidly fell,
By dint of disposing of glass after glass,
Into that Bacchanalian state,
Into which you will almost be certain to pass
If you go in for taking Scotch straight.
—Bird o' Freedom.

Straighten the screw, to (thieves),
to bribe the jailer.
I've knowed what it was to go starvin' on skilly and toke for a month, and then 'ave a cold mutton chop, as was sent in by a pal as 'ad straightened the screw, shoved in through my trap.—Sporting Times.

Straight griffin, the (popular),
"the straight tip," or hint.
The Old Temple Bar was to London a cuss,
But I think the new griffin's a jolly sight worse,
Our sage city-fathers grandmothers appear To raise such a griffin, at which people jeer,
Now here's the straight griffin—it won't long be here.
—Ballad: Oh lor, oh lor, oh dear.

In explanation of this verse it may be said that Old Temple Bar was removed because it was considered ugly by all who regard everything ugly which is not brand-new, but chiefly because it was in the way. A monument, representing a griffin, was raised on its site, to commemorate it—which monument is quite as much in the way as "the Bar" ever was, and, in the opinion of everybody, except perhaps its manufacturer, twice as ugly.

Straight racket, on the (thieves),
leading an honest life.
Plenty of cases might be cited where wrong 'uns who were wanted went to a chief of police, demanded truce on promise of amendment, and most scrupulously observed the conditions of the treaty. "Will you leave me alone if I take on the straight racket?" is a question often answered in the affirmative.—Referee.

Straight tip (racing), straight is probably only a slang form of "right." Latin and Greek have each a word meaning both straight and correct. Straight tip originally meant correct information as to what horse would win a race, but is used slangily for "good advice" or "correct information about anything."

He was a real good fellow, and would give them the straight tip.—A. C. Grant: Bush Life in Australia.

Strain your taters, to (common),
to urinate. The play is on kidney potatoes. Also "to scatter."

Strap (popular), credit at a public-house or other place where drink is retailed. The word is
common among small dealers, but has not yet extended to the classes immediately above them.

I was once told by a brassfounder that out of thirty-six men in the factory where he was employed no fewer than thirty-two were on the books of a public-house to which the men regularly resorted, as there they could get strap, i.e., credit.—Daily Telegraph.

I've tried to get fried fish on strap.
But found it was no use.
For when I said she was a duck,
She said I was a goose.
—T. W. Barrett: Blow Me up an Apple-Tree.

*Strap* is a Yorkshire term. The idea is probably that of a man in debt, metaphorically bound by a *strap* or tightening his belt as if hungry. The French use the term *serré* for needy. (American), hard *strapped*, in great trouble, much distressed for money. *Vide* Black-Strap.

*Strawer* (public schools), straw hat.

*Strawing* (streets), "selling" straws in the streets for a penny and "giving" the purchaser a paper (indecent or political), or a gold ring; neither of which, the patterer states, he is allowed by Act of Parliament to sell" (Hotten).

*Straw, in the*, to describe a woman in childhood. "Halliwell and Wright give the expression as an archaism, but without instances of its use. It is not found in the older phraseological dictionary. Hot-

ten derives it from the uses of the farmyard, Webster from the supposed practice of making beds of straw. The more probable derivation is that given from the practice of laying down straw before a house in which a lady is confined. I believed that the expression was only applied to persons of condition. I am reminded of a characteristic witticism uttered by a celebrated judge, many years ago, in connection with this practice. He was on circuit, and going in state with the high sheriff to the courthouse, the street in front and round the court was found covered with straw. Some curiosity was expressed by the sheriff to know why this was done. The learned judge said he supposed it was on account of the gaol delivery" (G. B. B., Notes and Queries).

*Streaked, streaky*. Bartlett gives this as American: "To feel *streaked*, is to feel confused, alarmed;" Hotten as English slang for irritated or ill-tempered, and derives it from its being "said of a short-tempered man who has his good or bad times in *streaks*." The Dutch say, "Daar loopt met hem een *streek* door," i.e., a *streak* runs through him, which Sewell translates as, "He has a weak place in his head."

*Streaks, to make* (American), to decamp; also "make tracks,"

---

One of them called out, “We may get a stretch (twelve months) for it,” and another replied, “No, we can’t, for loitering.” One then called out, “We may get a drag (three months), after the remand.”—Daily Telegraph.

The cutting a pocket, or picking a purse, is called striking.—Greene: Art of Coney-catching.

Strike a light (popular), to open an account of the minor sort, generally applied to ale-house scores. This is said to have originated with printers.

To increase the unfounded enmity against the boy-miner, and give it such basis as envy would rate enough, he found a vein, struck it rich, as the saying goes. —H. L. Williams: Buffalo Bill.

Strike me blind (nautical), rice.

Strike me lucky! (popular), an exclamation used when concluding a bargain; from the old custom of striking hands and leaving a luck or earnest coin in that of the seller, formerly
termed God’s penny. In France, when letting apartments or a house, it is customary to give the concierge a silver or gold coin as *denier à Dieu.*

**Strike oil, to,** to come upon, discover oil. Hence to be very lucky, to hit upon a fortune. A metaphor borrowed from an American phrase.

Dr. Stanford has undoubtedly **struck oil** with this novel adaptation of our national melodies.—*London Figaro.*

**Strikers (American),** persons who in politics and elections simply aim at personal profit.

My dear boy, you do not understand these matters yet. The mugwumps do not form a party or nominate a ticket. They sit in judgment on the other fellows. They are not political *strikers.* They are political kickers. They want no offices for themselves, but they demand the best services for the State.—*Boston Herald.*

**Stringer (cricket),** a very hard ball to play, one that puzzles the batsman. Possibly alluding to a ball that comes in direct on the *stringed* handle of the bat, consequently one hard to play.

**String,** to *(printers),* to mislead, or put one on the wrong scent; to hoax a person would be to *string* him, *i.e.,* to lead him. (Provincial), to get in a *string,* to deceive. (Billiards), players *string* at the commencement of the game for choice of balls and option of breaking, by playing both together from the two corner spots in the D. They play to hit the top cushion, and rebound back into baulk. The winner is he who gets his ball nearest to the bottom cushion when the balls have come to a rest. To *string* is therefore to play up and down the table, literally to put on a line (as to *string* beads). A common expression in America is “to get in a *string,*” applied to any kind of fortunate series. The French have the slang term “se faire enfiler” (literally to get strung or stringed), meaning to have an unlucky series at cards, hence to lose much money.

**Strippers (gambling cheats),** explained by quotation.

—*Ainsworth: Rookwood.*

Stump-spouter (Canadian), an itinerant "orator."

My mush is lelled to sturiben,
To sturiben, to sturidon,
My mush is lelled to sturiben,
To the tan where mandy jins.

Perhaps I'd better buy land, waiting for a rise and a sucker, buy horses with defects, sellin' 'em for sound, buy shares of railroad stock, or mines, anything to beat some one else and get the better of them.—*Bird o' Freedom.*

From sucker, a fish which is a synonym for stupidity, or from sucking, young, new to.

A person who ingratiates himself into the favour of the landlord of a large hotel, praises or puffs the establishment in the newspapers and makes himself agreeable to the guests, does odd jobs for his patron, and lives rent-free and board-free at his expense. The same sort of person was once called a sponger in England, and a sorner in Scotland, though both were confined to private practitioners, and unknown to hotel-keepers.

Sam . . . you're a nigger, but thar's more real white man under your black skin than could be found in an acre of such varmints as that sucker.—*Americans at Home.*

intelligible language, a watch and seals.

pair of black eyes. (American).
Whiskers or moustachios, as being a pair or a match, are

from suite as a series, a suit at cards, a suite of rooms, a suit of cards, suite being frequently pronounced suit.

Super (theatrical), supers, or supernumeraries. In the dictionaries a supernumerary is described as "a person or thing beyond the number stated, or beyond what is necessary." If this description be accurate, then the word supernumerary is utterly inappropriate to describe the humble but valuable auxiliary popularly known by the name of super. The super is as essential to the business of the historical, the melodramatic, or the operatic theatre as the actor or the vocalist. The super is the valiant soldier, the faithful follower, the grotesque retainer of the pantomime. He it is who seizes the hero, and loads him with chains, and dragst him to the deepest dungeon beneath the castle moat; or presently leads him to storm the castle, to cut off the giant's head, or the dragon's tail, and anon quaffs his health from a gorgeous empty goblet of papier mâché at what time he comes crowned with triumphant laurels to rescue the lady of his
love, to marry her, and to live happy ever after. He it is who carries the "wood of Birnam" on his shoulders to "high Dun-sinian Hill," who patiently bears "the blows and buffets of outrageous fortune" at the hands of that rascal Joseph Rum-buster, the clown. The super's work begins with the rehearsal, and ends with the performance, and he keeps the wolf from the door (though God knows how he does it!) at eighteenpence or half-a-crown a night. Amongst the super's you will find the idle, the dissolute, and the drunken; but amongst them you shall also find the modest, the gentle, the industrious—the broken gentleman, the disband ed soldier, the disappointed author, the ruined tradesman, bearing their fallen fortunes with equanimity. Most of these poor fellows are unpretentious, uncomplaining; and very few are unwilling, or unintelligent. Upon all important occasions, by special permission, detachments from Household troops, the Grenadiers, the Coldstreams, and the Guards officiate as supers. During the run of Henry V., at the Queen's Theatre, the actor who played the king had the honour of having amongst his body-guard four stalwart six-footers for his squires, gallant gentlemen who, although reduced to the ranks from adverse circumstances, had all held commissions in Her Majesty's service, and fought in famous battles.

He is only an amateur supe, who goes on in the "angry populace" scenes. — Greenroom Jokes.

At the Philadelphia Academy of Music, at the close of the performance, the supers and ballet-girls demanded their wages, but they were not forthcoming.—Boston Journal.

(Thieves), watch.

You must know where to dispose of a super.—Temple Bar.

(Thieves and popular), super and slang, watch and chain. Also used by itinerants, strollers, &c. &c. (Australian up-country), the superintendent of a station or run. Colonial slang is addicted to abbreviations—e.g., prof. for professor, comp. for compositor; and so uses super, not in its ordinary sense of supernumerary at a theatre, but in the sense of superintendent of a sheep or cattle station.

Curly Johnson, the super, despised him, and never neglected a chance,

To annoy and degrade the poor wretch who replied with not even a glance.

—New South Wales Paper.

Super master (theatrical), the superintendent of the supers at a theatre.

Supers (medical), explained by quotation.

Dr. Oliver Birnie's consulting-room was generally pretty full in the morning, and always with paying patients. He had long since passed the super stage of the profession. Lest any intelligent reader should be unacquainted with this phase of medical practice, let me explain that it is the custom when young doctors are anxious to work up a reputation for being
fashionable for them to engage a few supers, that is, to give advice gratis to a few selected persons, on condition that they come once or twice a week and help to make a crowd in the waiting-room.—G. Sims: Rogues and Vagabonds.

Super-screwing (thieves), stealing watches.

Supouch (old cant), a landlady.

Supplejacks (up-country Australian), creepers, lianas. The derivation is obviously from the toughness and pliancy of these lianas, which in Victoria are rare, but are commoner in the warmer parts of Australia and New Zealand.

    Supplejacks, cyclopean,  
    Binding huge tree to tree, with strength of mesh.
    No apic elephant could tear apart;  
    While up the bank, in their spring glory fresh,
    The blue lobelia with yellow heart,  
    And waratah with flame-hued royal crown
    Proclaim the beauties round Australia's own.

Swadder, swaddler (old cant), a pedlar.

Swaddler. In America this term is specially applied to men who are paid by pickpockets to preach in public places and collect a crowd in which they may ply their craft. In England any street-preacher. In America men who pick a quarrel with a man and at the same time beat and rob him. Originally a contemptuous term for Methodists used by Roman Catholics. "It happened that Cennick, preaching on Christmas Day, took for his text these words from St. Luke's Gospel, 'And this shall be a sign unto you; ye shall find the babe wrapped in swaddling-clothes, lying in a manger.' A Catholic who was present, and to whom the language of Scripture was a novelty, thought this so ridiculous
Swaddler—Swagman.

that he called the preacher a swaddler in derision (Sonthey, "Life of Wesley"). In old cant a swaddler was a pedlar. Hotten gives the definition "a Roman Catholic who pretends conversion."

Swaddy (popular), an opprobrious name for a soldier; in old cant swad, swadkin. Swad is a Lancashire term, thought to be from pea-swad, used by old writers for a silly fellow, a country bumpkin.

Did sweare that he would kill and slay,  
I, marie, would he doe,  
If any swad besides himselfe faire madam owle did wove.  

Again, it is possible that it owes its origin to the cant term swadder, a pedlar, alluding to the soldiers tramping about with a knapsack like a pedlar's pack, or to the provincial swad, a sword.

Swag (old cant), a shop. (Costers), a large collection of miscellaneous goods. Hence swag-shop (also termed a swag), swag-barrow. (Thieves), booty, plunder. Swag-shop, a receiver's place, also swag-chovey.

The dark allusion, or bolder brag  
Of the dexterous dodge, and the lots of swag.  
—Hood: Tale of a Trumpet.

"We must do it to-night, Foss," said the elder, soon after dusk. "The swag's all in jewels, and a grab'll collar the lot."—G. R. Sims: Rogues and Vagabonds.

A mess of sausages may apprise a remanded dog-stealer, "it is all right; the animal is dead, and his body effectually disposed of;" "toad in the hole" may convey to a suspected burglar the glad tidings that the hidden swag has not at present been discovered.—J. Greenwood: Undercurrents of London Life.

Speak to the tattler, bag the swag,  
And finely hunt the dummy.  
—C. Hindley: Life and Times of James Catnach.

Swag is provincial for a quantity or lot, a portion of property. Scottish swag or swack, from old German sweig, a flock. The Australian swagman, i.e., travelling artisan or journeyman, "humps his swag," i.e., carries his tools and luggage in a bundle on his back.

I feel in the race of life of late,  
I've been handicapped badly by careless fate,  
Who has put on my back a swag.  
—Keighley Goodchild: Through the Fence.

Also a small valise.

I would advise anybody to take as little as possible in the way of articles of toilet, I mean brushes, combs, &c., as if, later on, he wishes to travel on horseback, he will find how little can be squeezed into a swag.—Cornhill Magazine: With a Cockatoo.

Swagman (Australian), a tramp, a travelling artisan. Swag, bundle. The bond-fide travelling artisan is properly the swagman, but the word is often used as equivalent to a sun-downer, i.e., a tramp. In old cant swignon, a tramp, a mendicant bearing a wallet, a pedlar.
Swag-chovey bloke (thieves), a marine-store dealer who buys stolen goods.

Swaggering Bob (theatrical), an impudent buffoon.

'Tis the miserable art
Of the vile buffoon, who to please the pit,
Provokes its laughter, but lets down his part,
Winks at his audience while he slaps his fob,
And turns Charles Surface into Swaggering Bob!
—Lord Lytton (the present): Glenaveril.

Swagsman (thieves), an accomplice who takes charge of the plunder.

Swag, to (thieves), originally to carry off as plunder, but extended to carrying off anything.

And at the word each man, his face glowing with excitement and exercise, took his turn at the swankey pail.—Newfoundland Fisheries.

Swatchel (Punch show), Punch. Also the show. Swatchel box
Swatchel—Sweating.

the show itself; 

Swatchel cove, the showman. Swatchel is provincial for "to beat with a switch." Hence probably the nickname given to Mr. Punch, whose principal occupation is plying his stick.

Sweat-box, the cell where prisoners are confined on arrest previous to being brought up for examination before the magistrate.

Sweater (common), explained by quotation.

At the outset Mr. — is careful to distinguish between a contractor and a sweater. Both are contractors, but the sweater is a contractor and something more. Both exact from the workmen under them a certain amount of work for a definite wage, but there the likeness ends; for whilst the contractor pays an ordinary wage for an ordinary day's work, the sweater "exacts from men employed by him and working under his immediate superintendence the performance of an excessive amount of work in return for an unreasonably low remuneration."—Evening News.

The great sweater is the public; and as long as the public continues to encourage, or rather to compel, the "unscrupulous employer" to use the over-stocked labour market as he is using it now, so long will the existing evils endure.—Daily Telegraph.

(Boating), a thick woollen jersey originally used in boating. (Stock Exchange), a broker who cuts down commissions. A broker who works for such small commissions as to prevent other brokers getting the business, whilst hardly being profitable to himself (Atkin, "House Scraps").

Sweat gallery (Winchester College), the juniors who had to do some "sweat" or fagging. Each prefect had a water-carrier, who brought him cold water on Sunday; a clothes-brusher, who had to brush his clothes; a valet to bring him his books, and warm water in winter.

Sweating (thieves), a primitive way of scraping gold off coins by shaking them in a bag. Another mode explained by quotation.
Sweating—Swell.

By far the most scientific form of smashing is that which is called sweating—the modern equivalent of the ruder art of "clipping," so fully described in Macaulay's History. Here the galvanic battery is brought into requisition, the metal being dissolved equally from all the surfaces of the coin operated upon, and that, too, without impairing the sharpness of "image or superscription." Sufficient metal for the sweater's purpose being removed, the coin is polished afresh.—*Thor Fredur: Sketches from Shady Places.*

(Schools), working. (Common), extracting money from a person, employing workpeople at starvation wages.

In Bavaria, it appears from the reports of the German factory inspectors, nearly sixty per cent. of the working classes work from ten to eleven hours a day, and over forty-nine per cent. work from eleven and a quarter to sixteen hours daily. It is the immigrants from countries like this who have made sweating possible.—*Evening News.*

There were the swell and the snob.

—*Punch.*

*Swell . . . seems to have the greatest amount of vitality; but it is unquestionably moribund.*—*Globe.*

This word threatens to be superseded by its more modern synonym of masher and dude. Both swell and masher have had many predecessors, some of which still linger in popular parlance, such as beau, dandy, brick, macaroni, Bond Street lounger, Mohawk, Corinthian, and bloke. *Swell* survives as an adjective in the sense of showy, brilliant, pretentious, as a swell carriage, a swell house, a swell waistcoat, a swell dress, a swell turn-out, a swell watch-chain, and many others.
Bullingdon Club is the most aristocratic and the swell'est in Oxford.—Truth.

*Swell* is evidently from the act of being puffed up with pride. French slang *se gonfler*, to feel proud of some achievement, congratulate oneself. It is the exact equivalent in meaning of the Italian *gonfiome*, synonymous with *zerbinotto* and *damerino*. It is also used of any one who is proficient in anything, who is high up or excels in his profession. Our distinguished admiral who bombarded Alexandria has the nickname of "swell of the ocean."

There was a very large attendance of *swells*, including such magnates of the world of sports as the Dukes of Beaufort and Portland, &c.—*Sporting Times*.

A *swell* at Eton is thus defined by T. R. Oliphant, author of "Eton College":—"It is very hard to define exactly what is meant by a *swell* at Eton; but it usually implies a boy who, brought into notice either by athletic prowess or scholarship, or high standing in the school, by this means becomes acquainted with the leading members of the school, and is found on acquaintance to develop considerable social qualities, which make him hand and glove with all the Eton magnates."

*Swell block* (American University), a coxcomb and dandy; also those who assume and pretend overmuch.

*Swell head* (American), a vain, arrogant man, one who gives himself airs. Also a man who is drunk, spirits in excess giving the feeling as if the head were heavy and swollen.

*Swell-mob* (common), well-dressed, genteel sharpers and swindlers taken collectively.

He is renowned for his acquaintance with the *swell-mob*.—*Charles Dickens*.

*Swell mobsman* (common), one of the *swell-mob* (which see).

*Swell* (Winchester College), services on Sunday, saints' days, &c., when college men used to wear surplices.

*Swell, to* (Winchester College), to make a *swell* or mess; to bathe, wash, &c.

*Swelter, to do a* (popular), to perspire.

Athletics ain't 'ardly my form, and a cut-away coat and tight bags
Are the species of togs for yours truly, and lick your loose flannels to rags,
So I let them as liked do a *swelther*.
—*Punch*.

To *swelther* is an old English word used by Shakspeare.

*Swift* (printers), a fast and expeditions setter of type; quoted by Savage's Dictionary, 1841.

*Swill, to* (Shrewsbury), to take a shower-bath.

*Swim* (common), to be in the *swim*, to be in the popular current...
either in opinion, speculation, or fashion, on the move with the rest. To be one of an association, an affair.

"Look here," said the indignant gentleman in the brown pot hat, "why wasn’t I in this swim?"

"What swim?" asked his Criterion friends.

"Why, this ’ere fight?"

—Sporting Times.

One's particular pursuits.

But hus, Charlie, hus? I likes horder, and likeways I’m partial to law, Wen it means keeping my swim all clear, and a muzzling my henemy’s jaw. Wy, nothink could be nicer, then, don’tcher see, dear old pal;

But supposing that game interferes with my larks, or my lush, or my gal?

—Punch.

(Angling), the section of water one selects to fish in. (Thieves), a good swim, a good run of luck, a long time without police interference.

Swimmer (old cant), a guardship on the river. A thief who, to avoid conviction, consented to be sent on board ship to serve the king, was said to have been swimmered.

Swimming market (Stock Exchange), in other words, when the market is firm and buyers feel no hesitancy in operating; the reverse of a “sick market.”

Swim, to (thieves), to make a man swim for it, is to cheat him out of his share.

Swindle. This word is used in sporting circles to describe a speculation, or any dealing in which there is an element of chance. When a proposition is made to toss for a drink by spinning a coin, the phrase is generally “let’s have a swindle.”

Judge Pigott summed up in a case. “As to the second plea that swindle had not a libellous meaning, this was in a great measure carried out by the plaintiff himself, who had advertised that he was getting up a swindle. In sporting circles they certainly did deal with an extraordinary vocabulary, and apparently did not use this word swindle in Dr. Johnson’s sense.”

In another case, Davey v. Walmsley, the following bit of evidence was tendered.

Mr. Hawkins—“Is the word swindle commonly applied to things like ‘specs.’”

Witness (Mr. Paul Walmsley, Editor, Racing Investigator)—“Certainly! I never heard them called by any other name. It is a regular byword with us as a racing phrase. Lotteries are announced and commonly known as swindles.”

Swinger (Charterhouse), a box on the ears.

Swing-tail (old cant), a pig.

Swing, to (common), to be hanged.

Whether it be direct infringing
An oath if I shed waive his swinging.
—Butler: Hudibras.

If I’m caught, I shall swing; that’s certain.—Sketches by Bos.
Swipe—Swizzle.

327

**Swipe** (popular), at cricket a hard hit with full swing of the bat. Also a blow. Provincial English *swipe*, a blow.

"You might drag me to —— if you liked, if you'd on'y let me get one fair swipe at him," growled Mr. Perks, savagely.—*The Little Raggamuffins*.

**Swipes** (common), the cheapest kind of beer-tap droppings.

We smoked our pipes,
With no such swipes,
When we were blithe and bold.

—*Punch*.

At schools, beer good or bad is invariably termed swipes. Also tea or weak tea.

Tea! swipes! After all, miss, it's your way, and no doubt you don't know no better.—*Golden Butterfly*.

A *swipe*, properly an implement for drawing water for a brewery, hence probably *swipes*, for weak beer.

**Swipe, to** (American), to appropriate. Frequently said of actors or exhibitors who take the "gags" or "games" of others, and pass them off for their own.

You can't copyright a gag, you know, and as soon as we get off anything good the other fellows *swipe* it and it's all over everywhere before we have time to get clear round.—*Philadelphia Press*.

**Swipey** (popular), intoxicated.

From "swipes."

**Swishing** (Eton), explained by quotation.

Flogging, or, as it is called at Eton, *swishing*, is to be abolished at that aristocratic seminary.—*Illustrated London News*.

Swished, flogged.

**Swiss admiral** (naval), a person who personates a naval dignitary at a watering-place. The French have the derisive term *amiral suisse* for a naval officer who has never navigated, who is employed on *terra firma*, or for some suspicious individual who pretends to have held a high rank in army or navy.

**Switch in, to** (American), to bring in expeditiously, to introduce with promptness, and execute with despatch. "Now's your time, boys; switch in and let them have it!"

... Men were sent to cut out the Chicago, but being denied admittance to the cellar under the pavement went to work and broke through one of the manholes from the street, and were busily engaged *switching in* their own service when the Chicago Company's men appeared on the scene.—*Chicago Tribune*.

**Swivel eye** (common), squinting eye.

Young Arthur Orkintrooler, him with the *swivel eye* and the pink wart on his blushing brow.—*Sporting Times*.

**Swizzle** (common), drink.

Humph! you've turned a teetotaller now, I suppose,
And should I sing "hey! ho! and a bottle of rum,"
You'd not join in the song—or the *swizzle*?

—*Punch*. 
Also *swiz*.

No, percessions, dear boy, ain't my fad,  
But political picnics with fireworks, and  
plenty of *swiz*, ain't 'arf bad.  
—*Punch.*

To *swizzle* is provincial for to  
drink, and *swizzle* is ale and beer  
mixed. (West Indian and Aus-  
tralia.) Mr. Finch-Hatton thus  
graphically describes a drink  
which is said to make a man  
wish he had a throat a mile  
long and a palate at every inch  
of it:—

“Never having heard of a  
*swizzle*, which is a drink peculiar  
to Mackay, I believe, I watched  
his proceeding with interest.  
First of all he put two inches  
of Jamaica run into the bottom  
of a tumbler, into which he  
shook a few drops of Angostura  
bitters from a bottle with a  
small hole in the cork. Next  
he added a small teaspoonful of  
brown sugar, and a squeeze of  
a lemon, and filled the tumbler  
two-thirds full of water. He  
them took a small stick with  
three prongs growing the re-  
verse way up at the end, and  
whirled it round in the tumbler  
between his hands, with a dexter-  
tity only to be acquired by  
constant practice, till the de-  
coction was foaming to the top  
of the glass. Handing it to  
me quickly with directions to  
‘drink it while fizzing,’ he  
watched it going down, with  
one eye shut, and an expression  
of sympathetic interest on his  
face. ‘How’s that for high?’  
he asked, as I set down the  
glass with a sigh of satisfac-  
tion.” In America *swizzle* is a  
mixture of rum, molasses, and  
water, and the Australian drink  
described above is nothing but  
the old American rum cock-tail.

**Swizzy, swizzle** (nautical), grog.

The drink to be discovered in Dibdin’s  
songs would make a sea large enough for  
several combined fleets of that age to have  
floated on. The sailor had nothing to do  
but to sing in all weathers, beat the French,  
and drink the *swizzy.* —*W. Clark Russell.*

**Swop** (popular), to get the *swop*,  
to be dismissed from one’s  
employment. Especially used  
among linendrapers’ assistants.

**Swot** (University and public  
schools), explained by quota-  
tion.

So much for work or *swot*, as the Har-  
rovian, in common with other boys, some-  
what inelegantly terms the more important  
part of instruction he receives at school.  
—*Pascoe: Everyday Life in our Public  
Schools.*

A *swot*, one who works hard.  
At the Royal Military Academy  
*swail* or *swot* applies specially to  
mathematics. (Shrewsbury), in  
a *swot*, in a rage.

**Sycher** (popular), a contemptible  
person.

**Sydney-sider** (Australian), a conv-  
ict. There never were any  
convicts sent to Victoria after  
its separation from New South  
Wales, while Sydney was origi-  
ally a convict settlement. It  
was therefore natural to talk  
of a convict as being on the  
*Sydney.*
Tab—Tail-buzzer.

Tab, the (popular), the Tabernacle of Mr. Spurgeon.

Tabby party (common), a party consisting entirely of women. Tabby is a colloquialism for an old maid or gossip.

Tabs (tailors), the ears.

Tack or sheet (nautical), a man’s saying that he will not start tack or sheet, implies resolution.

Tack or tackle (public schools), food; sometimes applied to drink. Vide Hard Tack. Hard tack is properly a large kind of hard crackers much used for food on board ship.

Tackle (old cant), a kept mistress. (Thieves), a watch chain. Red tackle, a gold chain.

One day I went to Croydon and touched for a red toy and red tackle, with a large locket.—Horsley: Jottings from Jail.

(Nautical), clothes.

Tacky (printers), according to printers’ vocabulary, a roller is in good condition when it is tacky, that is, a little sticky to the touch of the finger.

Tad (American), originally provincial English. In English, tad is an excrement (Wright). Hence in the United States, and perhaps in England, it was commonly applied contemptu-

ously to the frequenters of brothels. It is now more widely extended. Bartlett gives “little tads, small boys; provincial tadde, a toad, hence applied to any small person. The French have crapaud for a little boy; les crapauds, the children; old tads, grey-bearded men.”

Tag (theatrical), explained by quotation.

And the tag is the end of the play—the last lines spoken, in rhyme or otherwise—just as this sentence is the end of this article.—Globe.

Also the end or catch word of an actor’s cue. Tags, a species of improvised jokes (called by French actors “cascades”), allied to “tack,” Danish tak, a supplement, appendix.

Tail (common), to have one’s tail down, to be discouraged; to have one’s tail out, to be angry; to get one’s tail up, to pluck up spirits.

Tail-block (nautical), a watch. Properly a rope-stropped block, having an end of rope attached to it as a tail by which it may be fastened to any object.

Tail-buzzer (thieves), a pickpocket who devotes his attention to the pockets in the tails of a coat.
Tailed, **vide Long-tailed One.**
A curious coincidence occurs in French cant. *Tailbin* is an accommodation bill, from old word *talle,* tail; and *tailbin d'allèque,* a bank note, *d'allèque* in this instance signifying superior, genuine.

**Tailing** (up-country Australian), herding.

Mustering now proceeded with steady vigour, and Desmard was allowed to gain experience in *tailing* those already brought in, along with two old and experienced hands, who were much amused with their companion's eccentricities, and who never tired of relating his peculiar sayings.—*A. C. Grant.*

**Tail-piece in the steel** (thieves), explained by quotation.

Their conversation, though not the most elegant, was least of all concerning the wretched trade they followed; indeed, the subject was never mentioned at all, except in melancholy allusion to Peter or Jerry, who had been recently "copped," and was expected to pass a *tail-piece in the steel* (three months in prison).—*J. Greenwood: Seven Curses of London.*

**Tail-pulling** (publishers), a method of publication explained by quotation.

It came out in evidence yesterday, in the case of Mackay v. M'Lean, that the publication of the literary productions of private individuals, who like to contemplate their own handiwork in print, is technically known among those who do it as *tail-pulling.* That seems an odd name to give it, because no animal we are acquainted with likes having its tail pulled; unless it is on the principle of the little girl who "wagged the dog's tail to give it pleasure."—*Globe.*

**Tai-pai** (pidgin), a large ticket, a great chop, first, slangily "boss."

Dey lock um up in littee house thlee day till allo done.
An' den Wang-ti come out tai-pai, first-chop, an' Numpa One.

**Tai-pan, typan** (pidgin), literally "great series," *i.e.,* the first of a series, a leader, a head-man, or "boss."

My typan must make fun of me,
When all his crowd can see—
Ah I well, perhaps they do not care
For a little clerk like me.

—*China Punch.*

**Tai-pay** (pidgin), great-beer, *i.e.,* porter (Canton).

**Take** (printers), a synonym used by compositors to signify the position of copy that falls to their share. A "fat" *take* is considered a good one.

**Take a figure** (printers). This is an appeal to the ballot instead of "jeffing," or "throwing" with the nine quadrats. To settle shares of good or bad work, or other matter, a man would select a number of figures, according to the number of men concerned, shake them up in his apron, and each individual would *take a figure,* the highest, or *vice versa,* as agreed on, having the choice.

**Take a rise.** *Vide RISE.*

**Take beef, to** (thieves and popular), to run away. *Vide BEEF.*

**Take down, to** (thieves and popular), to get the best of one, to deceive, humbug.
Well, Governor, I think there is some credit due to me for taking you down. Any fool can do an ordinary swindle, but it is not anyone who would attempt to take down the Governor of a convict prison.—Evening News.

Take it in snuff. This old slang phrase, which dates from a time long anterior to the supposed introduction of the tobacco plant into Europe by Sir Walter Raleigh, occurs in plays of the Elizabethan and Shakspearian era. It does not appear to have originated in the habit of snuff-taking, nor would the appositeness or appropriateness of the phrase have been palpably apparent if it had done so. Snuff, in its primary acceptation, means a movement of the nostrils, expressive either of annoyance or displeasure at a disagreeable smell, and by metaphorical extension a sign of scorn or anger at any person or thing that is offensive to either the moral or physical sense. It is curious to note how often the consonants "sn" are found as the initial sound of words that express anything disagreeable, and that are manifested by the action of the nose. Among others, sneeze, snore, sneer, snort, snarl, snigger, &c., all more or less suggestive of an unpleasant meaning.

Take it out of him (popular), thrash him well.

Take it out, to (popular), to obtain value for expenditure, labour, &c.

Take my hat (American). In the United States, when any man narrates a story which is so incredible or extravagant that the auditor must confess that he cannot outdo it, the latter often exclaims, "Take my hat!" In a pamphlet entitled "Three Thousand Miles in a Railway Car," the author tells us that in a jovial party of men they had a small hat which was made from a champagne cork, and that when one of them told the last best story the hat was given to him, to be retained until another told a better, when it was handed over to the latter. "Saw my leg off" was an equivalent or synonym for the same phrase. When the story was remarkably good it was usual to add "close."

Taken on (turf), another term for welshed.

The old man has been taken on to the extent of a fiver.—Bird o' Freedom.

Take one's hook. Vide Hook.

She asked him to come in the house,
Then begged that he would stay
And take some tea along with her,
And on the Indian drum play.
She told me I could take my hook,
And leave the place at once;
I was no good—a chump of wood,
In fact, a perfect dunce.

—Song.

Takes the gloss off (tailors), it takes away the profit, or materially detracts from its value.
Take the biscuit, to, a variation of "take the cake." Vide CAKE and BUN.

I think you will admit this fairly takes the biscuit for a detective story.—Sporting Times.

Take the cake, to. Vide CAKE.

Take the diploma (American), to take the prize, take the cake; to be pre-eminent.

Take the field, to (turf), to stake one's money against the favourite, thus backing all the rest against a single horse.

Take the rag off the bush, to (American), precision and excellence in action or thought. An illustration drawn from the wild life of the Far West, when at improvised shooting competitions the hunters and trappers would hang a rag on a bush as a target, and few of them would miss lifting it.

Take the starch out, to (American), to take the starch out of a man is to extinguish his conceit, nerve, or pluck. It is widely applied to weakening, refuting, or deterioration of any kind.

The forthcoming Women's Bible will take more of the starch out of St. Paul, so to speak, in one edition, than the combined assaults of infidels have done in 1800 years.—Chicago Tribune.

Take up a collection (American). This is often heard humorously applied to any one who in an emergency, not being able to do any good, nevertheless suggests something which has some shade or colour of a relation to the subject. Also to a man who avails himself of the least excuse to raise money. It is said that when some men were in a boat in a storm on Lake Superior, and expected every minute to go down, as none of them knew a prayer or a hymn, they did the next best thing they could as "a religious exercise," and took up a collection. The President's sole recommendation with reference to the Civil-Service question, is that the salaries of the Civil Service Commission be increased. We suspect Mr. Cleveland of being the man who, in a sinking boat where some religious services were suggested, enthusiastically declared himself in favour of taking up a collection. —Philadelphia Press.

Take up one's connections, to (American University), to leave college.

Taking the nap (theatrical), making pretence to be struck, by slapping the hands together unseen by audience, à la clown and pantaloon. Vide KNAP, To.

Taking the stage (theatrical), assuming a commanding position in the centre of the stage, or crossing from the right hand side to the left, or vice versâ. The movement with which a well-graced tragedian, in a burst of passionate emotion, dashes from one side of the stage to the other, or down to the footlights and up again. An almost exploded artifice, and one which
Taking—Tame.

requires an artist of great skill to accomplish with precision.

Taking up one's bed (tailors), leaving the shop for good.

Talent, the (racing). The ring is, in racing phraseology, the talent. Common in Australia.

And sinks from view for ever, while the talent
Declare they never saw a sight so gallant.
—New South Wales Paper.

Talk a donkey's hind leg off, to (American), to talk to no purpose.

They may talk a donkey's hind leg off, and I wouldn't send a single line to the New York papers to tell them what was said nor what they wore.—The Golden Butterly.

Talking through one's neck (Australian), talking foolishly. A young lady, who had been impressing the dangers of football upon her small brother with more ardour than discretion, wound up with, "If you were my son I wouldn't let you go to a boarding-school at all without I had you safe home every night," which was met with a contemptuous "Oh, you're talking through your neck."

Talk, to (stable), said of a horse that roars. (American), tall talk, explained by quotation.

The word cheek, as synonymous with conceit or impudence, is, notwithstanding its relative antiquity, still largely parodied by the lovers of argot; but were it not for the obliging correspondent of—if we mistake not—the Daily Telegraph,
tall talk, a Transatlantic phrase of apparently similar import and of undoubted originality, might never have been naturalised among us.—Belgravia.

The expression is now common in England. In quotation tall refers to an incredible story.

The new Enoch Arden story which has turned up at East Greenwich is certainly tall. It reminds one instinctively of the American tree so high that it took two men to look to the top, one beginning where the other left off, and forty men to believe the tale.—Daily Telegraph.

(Pedestrian), the term is applied to a great rate of speed.

Tally (popular), to live tally is to live as man and wife though not married. Hence a tally wife, "femme de la main gauche."

Talosk (tinker), weather.

Tambour (Punch and Judy), the drum. French.

Tame cats (society). Thus defined by the Saturday Review:—"There is a class of men, who are not at all young by any means, who in society are termed tame cats; these men present rather a ludicrous spectacle for their foolishness. They are by no means vicious, but they are by no means manly. They continue to attend all entertainments till they are well on in the sere and yellow leaf; they have no occupations; they are neither men of letters nor of arts; they are not political; and, last of all, they are in no way sportsmen, neither shoot-
ing, hunting, driving, nor fishing. The *raison d'etre* of their existence seems hard to define; their daily occupation is wandering round from house to house, and exchanging gossip and scandal with old ladies and young alike. They have the *entrée* to many houses where they are welcome at all times, and are not looked upon as eligible husbands for the daughters of the house; they are made use of to fill up vacancies at dinner, theatre parties, &c., and, above all, they are essentially good-natured.”

**Tame cheater** (thieves), a false player.

**Tan** (gypsy), a tent, a place, a resting-place. A word of very general application. To *tan* to encamp or rest. “Kek *tan* to hatch”—“No place to rest.” “Chiv a *tan* apré”—“Pitch a tent.” “Kánná bóro bávol se, huller the *tan* parí the wáver rikk pâli the bor”—“When there is a great wind, move the tent to the other side behind the hedge.” *(Tana, Hindu.)*—*Gypsy Saying.*

**Tangle-footed, tangle-legged** (American), drunk. *Tangle-foot* (from *tangle-footed*), bad whisky or spirits. Derived from the idea that a man when intoxicated has a tendency to entwine or *tangle* his feet together, or to get them locked in every obstacle in the way.

“Drink a pint of *tangle-foot,*
You'll catch your boot
In every root.”

**Tāni** (gypsy), small, young; *tanirāni*, young lady; *tanopen*, childhood, youth.

**Tanner**, a sixpence. Hotten says of it, “Perhaps gypsy *tauno* (*tāno*), little, or Latin *tener*, slender.” It is more likely to have been derived directly by the ancestors of the gypsies from the Indian silver coin *tanga* or *tana*, which has been rated from fivepence (Malcolm, 1815), to sevenpence-halfpenny, which is its present value in Turkestan (Anglo-Indian Glossary). This would make its average value sixpence. The obvious derivation is the Sanskrit *tanika*, a weight of silver equal to four moshas, a stamped coin. The word has been in use over a vast extent of territory. The threepenny piece (*ruppeny bitto*) is the only coin which is specially called little in gypsy, and it is most unlikely that a sixpence would be called a particularly small coin while fourpenny, threepenny, and even twopenny silver coins were in circulation.

Old Alec don't like to win with favour-"ites. I shall 'ave my *tanner* on Timothy. —*Sporting Times.*

**Tanning** (common), a beating.

**Tan, to** (common), to beat or thrash. Exists in several English dialects, with variations,
such as tan base, tan baste, tanced, but is used slangly. French slang, tanner le cuir. Exists in gypsy as tanner, from tanava, I beat. Hindu tan, abuse.

Tanyok (tinker), halfpenny. (Query tâni, little, Romany, and nyok, a head?)

Tap (tailors), getting the tap of the job, getting the upper hand.

Oh! those jovial days are ne'er forgot!
But the tape lags—
When I be's dead, you'll drink one pot
To poor old Bags!
—Lytton: Paul Clifford.

(Sporting), a small telegraphic machine kept at clubs, public offices, and some of the public houses where sporting goes on.

And Ascot week! ye little gods
And fishes; ay, a deluge
Might swamp us as we took the odds
From ring-men in their hell huge.
Then wise in time at home we'll stay;
The tape shall see us punting,
From Ascot tempests far away,
The oof bird we'll be hunting.
—Topical Times.

Gambling will be all the go
By-and-by;
Tapes you'll find in every show
By-and-by.
—Atkin: House Scraps.

(American), explained by quotation.

His white tie was not of lawn, but of that most approved Bond Street pattern known as tape.—American Magazine.

Tape-worm (Stock Exchange), a nasty name for a man who walks about the House collecting prices of different stock to telegraph on the tape.

Tapper (old cant), bailiff, tipstaff. In provincial English it means an innkeeper.

Tapping the admiral, secretly boring a hole through a spirit cask and sucking the contents out through a quill or straw. An admiral died aboard ship some distance from England. He had wished to be buried at home, and to preserve his body the officers placed it in a cask filled with spirits, and securely nailed the head of the cask down. During the voyage home an Irishman of the marines was continually drunk, and it was a great mystery to see where he got his liquor from. For some drunken breach of discipline he was ordered to be flogged, but he was promised forgiveness if he would tell who had supplied him with drink. Upon that he confessed that he had been "so hard up for a drink, that bedad he'd tapped the admiral," i.e., made a hole in the cask and sucked out through a tobacco pipe the spirit in which the admiral's body was preserved.

Taps (American). "To be on one's taps is to be on one's feet, literally on one's soles; on the move, or ready to move. A metaphor preserved from the shoemaker" (Bartlett). To tap is provincial English for to sole shoes.
(American cadet), a bugle-call.

*Taps* had sounded (at 10 P.M., after which no one is permitted to cross the sentinel's posts without the countersign).
—*The West Point Scrap Book.*

**Tap the claret, to** (pugilistic), to give a blow on the nose which draws blood.

He was thoroughly conversant with the sporting slang of *Tintinnabulums Life* when he told Verdant that his claret had been repeatedly tapped.—*C. Bede: Verdant Green.*

**Tap the wire, to** (American), to obtain surreptitious possession of the electric telegraph wire and extract the information with which it is charged. General Morgan, the Confederate officer, once when *tapping the wire* was in ignorance of the name of the station in the hand of the Federals, and to obtain the information he adopted the following ruse. He telegraphed, "A gentleman in the office bets me two cigars you cannot spell the name of your station." Answer, "Take the bet. Lebanon Junction—is this not right; how did he think I would spell it?" General Morgan replied, "He gives it up; he thought you would put two b's in Lebanon." Answer, "He is a green one." *Vide Telegraph, Milking A.*

**Tap, to** (thieves), to break into a house.

The most difficult part of all is to dress so as to escape a description which the police have of your usual appearance. Often they will redress themselves under a tree, in a field or a barn in the vicinity of the house they are about to *tap*, but as a rule they dress as becomes a poor specimen of the middle class.—*Tit-Bits.*

**Tap tub,** the *Morning Advertiser,* so called by vulgar people from the fact that this daily newspaper is the principal organ of the London brewers and publicans (Hotten).

**Taradiddles** (society), falsehoods, travellers' tales or yarns.

**Tar brush** (nautical), any one of mixed blood is said to have had a touch of the *tar brush.*

**Tare, tear** (American), a frolic, spree, riot, bender, batter, or rampage.

I'm on a rare (rear),
I'm on a *tare;*
On a high old circumbendibas,
Such as will be
A sight to see,
When the boys pull into the rendyvoos.
—*American Newspaper.*

**Tarryin** (tinker), rope.

**Tart** (common), a young lady, an actress of smart personal appearance and fine manners. There seems some doubt as to whether the term is an aspersion on the lady's character or not, as may be seen from a case of an actress who brought an action against the *Sporting Times* for calling her a *tart,* which created much amusement at the time.
The word tart also designates a mistress or girl with whom one has had only casual intimacy, or even a wife. Also any girl or woman. Formerly one's mistress was termed "my jam," or "my little bit of jam." The term is apparently from a simile between a sweet jam tart and a girl (compare "cherry-pie" for a girl), but it has been suggested that it originated in the song "Good-by, sweetheart." Tart was originally schoolboys' slang, probably abbreviated from tartar in this instance.

I remember, I remember, though Time's progress is so fleet, How I doated on my juvenile sweethearts, And I remember that I thought them so superlatively sweet, That I spoke of them admiringly as tarts.

But now! Well, times have altered, and I'm not prepared to say If a girl's "a tart" or not—so here I'll pause, For it's probable that if I called a girl "a tart" to-day, She would summons me next week to show just cause!

—Sporting Times.

Tear up, a (criminal), explained by quotation.

Going a day or two back into the casual ward of my union, I found a policeman standing waiting in the day room. Guessing that he had come to remove a casual to the police court, "What is it this time? Anything serious?" I asked. "Oh no, sir; only a tear up," was the reply. This, of course, was so far satisfactory; but as it is possible that among the readers of the St. James's Gazette there may be some who are unacquainted with the accepted method of obtaining a fresh outfit among the casual poor, it may be worth while to explain a little further. But first let us visit the unfortunate creature that the constable has come for.

In a small room, some seven feet by four, the furniture of which consisted of a bed and a wooden stool fit is usual to call these rooms "cells," and it must be confessed that "cell" is more accurately descriptive of the facts than "room" or "cubicle," which has also been suggested as the proper term), we found a broken-down, dejected-looking man of about forty. He was dressed in a brown cloth coat that had seen better days, a pair of almost new corduroy trousers, and boots which, though not new, were stout and serviceable. At
his feet, in a heap on the floor, lay some filthy rags of cloth and cotton, the remnants of what had recently been his garments; on the top of them the sole and a fragment of the upper part of one of his boots. The heap was the result of the tear up.—St. James's Gazette.

Tell Chapman to crow! (American). About fifty years ago, it was made the subject of a political revelation or scandal that an eminent Democratic politician (we think it was John Van Buren) had written to an associate bidding him “tell Chapman (an editor), to crow,” i.e., to make a bluster and brag in his newspaper. This caused a great deal of laughter, and from that time “Crow, Chapman, crow!” became a byword. From this originated the custom of announcing political victories by putting pictures of crowing cocks at the head of the column. Once an editor, named John Du Solle, in Philadelphia, announced a Democratic victory, only unfortunately “a little too previously,” as it appeared a few hours after that the Democrats had lost the battle of the ballot. More unfortunately still, Colonel Du Solle had ordered the “rooster” crowing to be put at the head of the “grand victory and overwhelming defeat,” but in the haste of “making up,” the typo put it in upside down, so that the cock of triumph appeared like that described by Washington Irving as sprawling ignominiously on his back. From that time, perhaps, even here and there to the present day, a defeat is announced by reversing the gallant bird.

There's no knowing what an ox may do (American). This, which was once a popular expression, may still be heard occasionally in New England.

"There was once a Yankee in Montreal who was about to race horses with an Englishman for a thousand dollars a side. Two days before the run was to come off, the Yankee learned that his horse had not a ghost of a chance to win. While walking about town, he saw an immense prize ox adorned with ribbons, preceded by a band of music. This gave him an idea. He went to the Englishman, and proposed a preliminary examination of both their 'beasts. The Englishman assented, and said, 'Well, show your horse.'" " 'Horse!' said the Yankee. 'I ain't got no horse. Why, Squire, don't you know—my critter's an ox. Didn't you see him goin' about town this afternoon?'

"The Englishman was bewildered. He had seen the ox, and believed the Yankee. 'The race is off!' he exclaimed. 'I'll run my animal against any horse, but there's no knowing what a d—d ox may do!'"

There you ain't (popular), this expression expresses a failure. It is the converse of "There you are" (q.v.).

I saw a lady, I rose my cadie,
I went like this, and then I did a wink,
I said you're tasty, very tasty,
Then proposed adjourning for a drink.
But she was stuck up, and turned her nose up,

And if the girl's the proper sort, and you do just what you ought,
Why, there you are, there you are, there you are.
—Music Hall Ballad (Francis & Day).

Thimble. This, in canting, generally means a watch. The gypsies, however, apply it to both watch and purse; and this confusion of terms is also to be found occasionally among thieves in America. It is probable that the Romany word meaning purse is by far the oldest, since in Hindi zambil is a purse or wallet. Gypsy is popularly supposed to be a mélange of many languages; but in the Anglo-Romany about forty-nine words out of fifty are not merely Hindustani, but to a very great extent indeed Hindi - Persian, approximating often much more closely to an old form than modern Hindu itself. This was the opinion of the late Professor E. H. Palmer.
Thimble-rigger (common), a sharper who practises the thimble-rig, a cheating game, played thus: A pea is placed on a table, and the man rapidly covers it successively with three or four thimbles, which are then laid on the table. Three cheers and a tiger (American). In the United States, after three cheers are given, it is usual to add a howl, called “the tiger,” in order to intensify the applause. Bartlett gives a very meaningless account of doubtful authenticity as to the origin of this phrase, saying that a man once cried to the Boston Light Infantry, “Oh, you tigers,” and that they began to growl. The true origin seems to be as follows: Once the famous wit and politician, S. S. Prentiss, being on a stumping tour, came to a town where there was a small menagerie on exhibition. This he hired for a day and threw it open to all comers, availing himself of the occasion to make a political speech. The orator, holding a ten-foot pole, stood on the tiger’s cage, in the roof of which there was a hole, and
Three—Throttle.

whenever the multitude applauded one of his “points” with three cheers, Mr. Prentiss poked the tiger, who uttered a harsh roar. From this three cheers and a tiger spread over the country. The writer had this anecdote from a relative of Mr. Prentiss, and can vouch for its authenticity.

"Three cheers and a tiger" are the inseparable demonstrations of approbation on all festive and joyous occasions in New York.—Boston Evening Post.

It has been suggested that tibby, or a thick skull, is discoverable in *tibbad*, thickness, a blockhead, explained in Shaw's Gaelic Dictionary published more than half a century ago. More probably from *tab*, *tib*, end piece. To "drop on the tibby" is to startle or alarm any one, to take him unawares.

And so just like my watch, by Jove,

— G. W. Hunt: *The Custom of the Country*.

In the seventeenth century a ticket was a tradesman's bill or written acknowledgment of a debt or score, and hence the phrase on ticket, on trust, on account, on credit, on tick, signified the same. In French slang the equivalent is "avoir l'ardoise," alluding to the slate on which accounts are recorded at wine shops.

Your courtier is mad to take silks and velvets
On ticket for his mistress.

And seven long years I have to stay,
For meeting a bloke in our alley,
And taking his ticker away.

— Inscribed on a Prison Wall.

As it is, we're doing proper, and nicking our ten or a dozen tickets in the course of a single afternoon.—Funny Folks.

(American University), one who does not know what he is talking about.

Ticket (common and American), that's the ticket, that is the proper thing, exactly what is required. In this sense ticket is the equivalent of the French etiquette, of which the original meaning is label, notice posted up, hence arrangement, ceremonial.

Quite the real ticket if the dons as wholesales the blacklead would make it up to sell in ha'porths and penn'orths.—Mayhew: London Labour and the London Poor.

"'Deed, that ain't the ticket, Miss Mary Jane," I says, "by no manner of means." —Mark Twain: Huckleberry Finn.

"What's the ticket?" what is the programme? what is to be done? In French "quelle est la marche du bœuf gras?" alluding to the pageant and procession of the prize ox in the streets of Paris (now a thing of the past). (American), "what's the ticket on it?" what is the price of it? what will be the result. (Theatrical), ticket night, a night on which the friends of the supers at a theatre are allowed to buy tickets, on the understanding that it is some advantage to the supers, who have a percentage on the receipts. (Australian), to go on a ticket, to be in favour of, to adopt the policy of. Probably adopted from the United States. It signifies to make a thing one's policy. Thus Mr. Gladstone would be said to be "going on the Home Rule ticket."

Tickler (common), a small short poker used to save the ornamental fire-irons. A regular tickler, a poser. (Popular), a whip.

I don't recollect whether Mrs. Joe Gargery's tickler, which was the terror of Pip's life, was minutely described in "Great Expectations."—Greenwood: In Strange Company.

(American), explained by quotation.

The drummer never travels without a tickler, which is not, as the name might seem to imply, a sportive term for a bowie-knife, but a small pocket ledger, in which are carefully noted all the debts incurred by the parties with whom the drummer does business; and which consequently enables him to refresh, or tickle, the memory of firms who are a little behind-hand with their payments.—Daily Telegraph.

Tickler, titler (gypsy and probably provincial also), a butterfly. Hindu tild, a butterfly.

**Tiddlywink** (provincial), a leaving shop, where money is lent on goods without a pawnbroker's license.

**Tied up** (popular), given over, finished.

**Tied up prigging** (thieves), given over thieving.

**Tiffin** (Anglo-Indian and pidgin), luncheon, at least in English households. Also to *tiff*, to take luncheon. As there is no plausible or possible derivation of the word from any Eastern tongue, the authors of the Anglo-Indian Glossary believe it to be a local survival of our old English colloquial or slang term. Grose (1785) defines *tiffing* as eating or drinking out of meal time, or, as Americans would say, "drinking in between drinks." To take a little *tiff* is an old-fashioned term for such a mere bit and sup (especially the sup) in the United States (*tiff*, old English for a draught of liquor. Also *tift*, common in America), where it has certainly no Anglo-Indian connection. It is probably an old derivation from the same root with "tip" and "tipple." To *tiff* or take luncheon is correct. To *tiffin* is generally used by lady-novelists who have not been in India, and it is denounced as "bad grammar, according to Anglo-Indian use," in the Anglo-Indian Glossary. The Anglo-Indian word *tiffin*, according to G. A. Sala, is in common use in hotel advertisements in South Africa.

Lawn-tennis, picnics, and flirtation fill up the time of the poor expatriated wives and daughters from *tiffin* to afternoon tea.—*Daily Telegraph*.

**Tiger** (workmen). The navvies call streaky bacon by this name. *Vide Three Cheers and a Tiger*.

And I rest so at large
On my pallet to-night
(With my head to its foot),

That you frown as you look at me,
Thinking me tight.

—Funny Folks.

He's had his day, and had his night,
And now when he did get tight,
He used to go it proper right,
Did grandfather!

In about half-an-hour they were as thick as thieves again, and the tighter they got, the lovinger they got.—Mark Twain: Huckleberry Finn.

This corresponds to the French slang word "rond," drunk, i.e., distended by drink. Mr. George Augustus Sala tells an amusing story of Macready in connection with this word. To enable the reader to understand the point of the anecdote, it is essential to state that in America there is a harmless bird called a peep, which, in consequence of being pubblind, flies in a groggy and erratic manner, continually striking its wings against the branches of trees. Hence it is popularly known as the boozie bird.

While playing in Philadelphia, Macready was much distressed by the actor who played Horatio being very drunk. Coming off the stage, the star encountered the manager, to whom he pointed out the peccant player.

"Do you see that beast, sir?" inquired the enraged tragedian, pointing to the drunken Horatio.

"I do, sir," replied the manager; "and I guess he's tight as a peep."

"Oh, indeed!" growled Mac. "I was not aware that that was the gentleman's name; but it's my private opinion, sir, that Mr. Titus Peep is as drunk as a lord!"

(Popular), "blow me tight!" an exclamation. A variation of "jigger me tight!" which originally was probably obscene.

"Good people, he disowns me—he's a false, deceitful churl! And if that's not right—well, blow me tight!" She was a vulgar girl!—Sporting Times.

Tightener (general), a meal, or a hearty meal.

To one of our early kings, killed a big Frenchman:
A feat which his Majesty deigning to smile on,
Allowed him henceforth to stand with his tile on.

—Ingoldsby Legends.

Tried to get to the bottom of the three-card trick, but fellow was too deep a card.
Got my new tile flattened by a fellow taking me for a welsher.—Moonshine.

The comparison of the head to a house or habitation is obviously appropriate and familiar. Thus the metaphor of a tile, as the covering of the house or head, is not incongruous. The hat, or tile, as used in this sense, is erroneously supposed to be a corruption of pantile, or sugar-loaf, because hats shaped like a sugar-loaf were sometimes worn. By a similar metaphor the hat, and sometimes the hair, was called the "thatch," and less commonly the "slate." The similarity in idea of many expressions of the slang of different nations, is exemplified in this as in other instances. Thus in French argot, ardoise, a slate, stands for hat or cap, as well as tile, and in Spanish cant tejado, or techo, is literally a tile-roof. Dr. Brewer thinks tile is from Saxon tigel, to cover, to which is due the English provincial teg, an article of head-dress.

Tile-frisking (thieves), stealing hats from halls.

"What's the programme?" said the Dude to the Baby Hippo, last Saturday afternoon.
"Going on a circular tour."

Tile loose (common), to have a tile loose, to be slightly deranged. Also a "tile off" or slate loose."

—Sporting Times.

(Pidgin), thin, i.e., light, not heavy, short weight. Probably the origin of the American phrase "too thin," i.e., shallow, wanting in reason. "That excuse is too thin." "You talk mey t'at one catty ginger—t'at too tin he allo samey play, pidgin—you want chee cheatey my, no can do.""—Dickens: Oliver Twist.

Tindal (Anglo-Indian), a native petty-officer of lascars, or the overseer of a gang of labourers.

Tinge (tailors), special percentage allowed to drapers' assistants when old or damaged stock is sold.

Tin-horn lot, a (American, Western), a term used to express contempt, implying that the one "contempted" is a small-minded, mean fellow. In London "tin-pot."

There wasn't none of this small-minded scraping and shaving, and adding up and keeping tally. Them as got it paid, and them as hadn't it didn't, and that's there was to it; and if anybody said anything ugly about it, you just blew the top of his head off, and set up the drinks, and there was an end of him. As to these here Californians that's come out since then—they're a tin-horn lot compared, half Jew, half Chinaman, on'y fit to take their pleasure in a one-horse hearse.—F. Francis: Saddle and Moccasin.

(Naval), a contemptuous term for an ironclad.

Tip (general), a bribe or gratuity to servants or others, in reward for services or information furnished or expected. From tipe, to toss, as money was at one time commonly thrown to servants. The word is so extensively used as to be hardly slang.

Even instances have come to our notice of men in a good position in society being blackmailed when returning home late, and, under the threat of being run in as drunk and disorderly, giving the necessary tip rather than have to go to the police-station, and perhaps get their names brought prominently before the public.—Saturday Review.

We do not desire to suggest that a judicious tip from Miss — to Constable E —, when he first addressed himself to her, would have released her from the further effects of his zeal.—The World.

In the sporting world, tip has also the signification of private information, on the chances of a horse winning, supposed to be derived from some trustworthy source. Straight tip, direct information from the owner or trainer of a horse, and generally direct information or hint on any subject. From tip, a cue, in showman's slang.

I don't know how he knows about horses, but he does; he is generally right. He's a tout—makes it his living going round giving tips.—Pall Mall Gazette.

Why, I bought one of your ballads for her, and she tipt the wink upon me, with as much as to say, desire him not to go till he hears from me."

Even the sweet girl graduates smiled. — Sporting Times.

Toff (popular), a dandy, a swell, one who appears well. Also toffer, a well-dressed gay woman. Derived from the Yiddish or Hebrew toff, tov, tuv, literally good, and used in an extended sense which perfectly warrants its application to good or a fine appearance. Toff, good; toffer, better; toffest, best; jom toff, good day, a festival; toff peg, a good groschen; toff malluschim, fine clothes. A probable derivation is from to iff, to deck oneself out, or toft, a dressy individual. Töff, often applied to an over-dressed clerk or draper's assistant, who apes the swell. An old toff, an old beau.

A magistrate recently sentenced a woman, who made her hundredth appearance at the court, to fourteen days' hard labour. "You are an old toff," warbled the lady, "and if you sit there long enough, I'll certainly treat you. I am now going to eat some bread and onions I have in my pocket." "Saints preserve us!" groaned the magistrate. "Remove the lady with electric rapidity, gaoler, and get rid of those onions as quickly as possible," he continued. The gaoler obeyed orders, and as he re-entered the court, a powerful aroma floated round, and the worthy beak was heard to ejaculate "pah!" — Judy.

— Sporting Times.

Toffishness (popular), explained by quotation.

Taking the average, it may be set down at ten for each of the two hundred, or two thousand slices in all—thick slices, bear in mind: anything under an inch thick would be regarded with contempt by the bony young barrowman, and perhaps with an uncomfortable suspicion that you have designs to inveigle him into the detestable

—*Thor Fredur: Sketches from Shady Places.*

Shakspeare has *toged*, gowned.

Next slipt off his bottom clo'ing, And his ginger head toppper gay.
Then his other *toggery* stowing, Tol' lol, &c.,
All with the swag I sneak away.

—*Burrowes: Vidocq's Song.*

But in Edward the First's days, I very much fear,
Had a gay cavalier thought fit to appear In any such *toggery*—then 'twas term'd 'g'ear'—

He'd have met with a highly significant sneer,
Or a broad grin extending from ear unto ear,
On the features of every soul he came near;
There was no taking refuge too, then, as with us,
On a slip-sloppy day, in a cab or a 'bus.

—*Ingoldsby Legends.*

But take a pal's advice, and don't be over nice,
Though your suit of *toggery* ain't a very flash 'un;
You'd better far put up with the rig than tear it up,
And be measured for the latest "parish" fashion.

—*J. Greenwood: A Night in a Workhouse.*

I replied, with a scornful glance at poor Sam's wretched rags. "I shouldn't like to get the soot over my clothes wot I wears of Sundays, so I tell yer. I'm going to have another suit to follow my trade in."

—*The Little Ragamuffins.*

My friend could play the fiddle and declaim, and I can dance, whistle, and sing with anybody; so, having obtained my pension, we bought an old violin and suitable *togs,* and started to do a bit of nigger minstrel business in the country, where such things are nearly unknown.—*Thor Fredur: Sketches from Shady Places.*

*Togs* was used for garments in the time of Henry VIII. From the Anglo-Saxon *tygan,* or else from the same root with the Latin *toga,* a covering; like *tugurium,* hut or roof. Indo-Germanic *teg,* to cover; hence *tego,* *tejere.* German *dach,* a roof. "Thatch," and the Greek *στέγη,* a roof, are of the same family. This word seems to be the same as the old term *tugs,* same meaning, as in under *tug,* a petticoat. *Tug* clothes, working clothes.

Also possibly from the Anglo-Saxon *teog,* material, stuff, and *tege,* a binding, tying (*ligatura,* *rexus*). *Tygan* (Boswell), to tie together. Togged out reminds
us of *teohjan*, from the same root, signifying to adorn, trick out, *exornare* (Beowulf, 5871). Latin *toga*.

**Toheno, tohereno** (costermongers), pronounced *tocheno* or *tochereno*, very nice; literally a transposition of "hot one."

It is derived from the rule of the sawpits; the top man has to work harder and is more responsible for the job than the man who stands below. This term is of many special applications. (Sporting), a renowned horse, that excels others in speed and endurance.

There will be at least a dozen runners—more, probably, should the favourite develop more fibre in the blood—and far more interest attaches to the race than in years past, when there has usually been a top-sawyer in the field.—Bird of Freedom.

(Thieves), an expert thief, one who has gained distinction among his fellows by his achievements.

Wasn't he always a top-sawyer among you all? Is there one of you that could touch him, or come near him on any scent? —Dickens: Oliver Twist.

They planned their work and executed it without any assistance; not because they declined to associate with the old ones—as the candidate for platform employment hastened to add, with undisguised contempt for the whole race of paltry pretenders—but because they were unacquainted with any of the school, being themselves green hands and novices, who were ambitious "to be top-sawyers when as yet they were fit for nothing but to pick up chips."—J. Greenwood: A Converted Burglar.

(Common), a rich person.

"I'll marry a top-sawyer," he used to say, whenever his uncle broached the question of his settlement in life. "Why, bless ye, it's the same tackle and the same fly that takes the big fish and the little one."—Whit-Melville: M. or N.

When the perfumed mane of the Persian lion flowed over his high coat-collar, and in conjunction with an exuberant pointed beard, imparted a formidable ferocity to his strongly-marked lineaments, his contemporary, the London top-sawyer, went about clean-shaven, save for a mutton-chop whisker or so, and with hair sedulously curled but symmetrically trimmed.—Daily Telegraph.

(Costers), the largest and best fruit placed at the top of a basket. (Tailors), a collar. Also applied to the fore part of a garment.

Top shuffling (gambling cheats), explained by quotation.

He will make up the hand he wants out of the discs, or else hold out the necessary cards until he gets enough, and it is his deal. Then he drops it on the top of the pack, and performs a very neat little piece of work known as top-shuffling, which consists in shuffling the lower half of the pack over the upper half without disturbing it. When this is over the hand he wants is still on top. The cut, of course, buries it, but by a very simple movement he gets the cards back in their original condition. This is called "shifting the cut," and can be done with one hand or two. Nothing then remains but to go
ahead and deal. Dexterity in over-shuffling and shifting the cut are the two things that modern gamblers cultivate in all their leisure hours, and with these accomplishments, and coolness and nerve, little else is required.—Star.

They never know keen hunger,
Or hear wild drunken strife.

I think I’ve shown, dear friends,
Drink leads to sin, while Temperance
To every comfort tends.

The Toper and the Tote.
And see which has most happiness,
And which the better coat.
—Broadside Ballad: The Toper and the Tote.

Tote, to (American), to carry or bear. Peculiar formerly to the South. Bartlett says that it has been "absurdly enough derived from the Latin tolle," and thinks it is of African origin. Take off yer coat and roll up yer sleeve,
Jordan am a hard road to trabble, I believe."

T'other-sider (Australian popular, but growing obsolete), a convict. Cf. "Sydney-sider," "Van Demonian," &c. **Twelver** (thieves), a shilling.

**Twicer** (printers), a man that professes to work both at case and press or machine, is generally termed a *twicer*. Country hands coming to town are often looked on as such, for in their native places, owing to a limited number of hands and amount of work, they are expected to turn their hands to either. The Cockney printer as a rule follows but one branch.
Twig, in prime (popular), in first-rate condition, in high spirits. Twig is provincial for brisk, active.

Twig, to (popular), a Lincolnshire term, to understand, but commonly used in slang with the further meaning of perceive, see, notice, observe. From the Irish tuigim, I understand, discern. Whitley Stokes compares Irish tuigim, old Irish tuceu, with old Latin tongère, Gothic thagkjan, Icelandic thekkja, English think (Irish Glossaries).

"They're a twiggin' of you, sir," whispered Mr. Weller.—Dickens: Pickwick Papers.

A landsman said, "I twig the chap—he's been upon the mill."—Ingoldsby Legends.

I see you twig.—Punch.

The giant kept dropping in, usually followed by a crowd of ragamuffins, whilst the gamin shouted in French the equivalent of "Twig his legs, Bill?" for he was dreadfully in-kneed.—Moonshine.

Henceforth we'll speak with common throat.

For common party ends combine.

Here, put this primrose in your coat;

That orchid I will place in mine.

Henceforth in concert we will jig,

To Solly's piping—eh, my boy?

We can't afford to tiff, you twig,

If we'd the Gladstonites annoy!

—Funny Folks.

Also possibly from the Anglo-Saxon twig-spruce, geminata loqula, ambiguus (Ettmüller, Lex. Ang. Sax.), an ambiguous, double-meaning speech. Hence tweogan, to doubt. "Ne magic thäs nätveogan," I cannot doubt this, i.e., I twig. Vide Hop the Twig.

Twilight (schools), toilet.

It was no use doing the downy again, so it was just as well to make one's twilight and go to chapel.—C. Bede: Verdant Green.

Twine, to (prison), explained by following extract from Temple Bar:—"Suppose you start in the morning with a good sovereign and a snyde half-sovereign in your pocket. You go into some place or other and ask for change of the sovereign; or you order some beer, and give the sovereign in payment. It is likely you will get half-a-sovereign and silver back in change. Then is the time to twine. You change your mind after you have rung your snyde half-quid with the good one, and, throwing down the snyde-half, say you prefer silver. The landlord or landlady, or whoever it is, will pick up the snyde-half, thinking, of course, it is the same one they have given you."

From to twine, to twist or complicate.

Twinkler (thieves), a light. The burglar is said to hold three things in abhorrence when found in a house he intends to rob—a twinkler, a tinkler, and a tattler, alias a light, a bell on the shutter, and a barking dog.

Twins (American), a now almost obsolete New England term, meaning "dinner and tea at
one meal. The custom of having twins in the short days of winter was formerly very common" (Bartlett). In England such a meal is called by commercial travellers "Box Harry" (Hotten), a term used in Lincolnshire to mean economy of any kind after extravagance. Probably from the idea of beating or robbing "old Harry," or the devil, who dances in an empty pocket.

Twirlers (thieves), sharpers with a round-about at fairs.

Twirls (burglars), skeleton keys. He was very lucky at making twirls, and used to supply them all with tools.—Horsley: Jottings from Jail.

Twist (common), a good appetite, alluding probably to the twisting or gnawing sensation in a hungry man's stomach—to the pangs of hunger, which is exactly rendered by the French slang phrase "avoir une crampe an pyloue." It is curious to note also the term "tortiller," to eat, literally to twist, coil. Formerly "tordre." "Il ne fait que tordre et avaler," said of a glutton. Oliver Twist was apparently so called by Dickens on account of his "hero's" propensity to ask for "more."

"An egg," cried Shakebacon, who has a twist. "Bosh!"

"Well," replied Gubb, "I once hunted all day after breakfasting on two-thirds of one, and never felt a pang till night time." Shaky looked incredulous.—Bird o' Freedom.

(Low), brandy and gin mixed.

A few weeks ago said my groom to my housemaid, "Wouldn't you like what I

Two fours (army), the 44th Regiment of Foot.

Two-nick (printers), a vulgar allusion to infants of the female sex.

Two-penny (popular), the tongue.

"Two-penny red rag."

Why, you're going into Newgate Street, the Lord Mayor bawls, But John said "Tuck your two-penny in— I'm going around St. Paul's."—A Ballad: The Lord Mayor's Coachman.

Two-penny damn, probably analogous to "not worth a curse," "a tinker's curse." The Duke of Wellington is alleged to have said that he did not care a two-penny damn what became of the ashes of Napoleon Buonaparte; and a correspondent of Notes and Queries, Series iii., 326, anxious to redeem the Iron Duke's memory from the charge of profligacy; thinks that it was a cants reminiscence of his Indian service—a dam being a coin and weight which had become depreciated in value to about two-pence; hence a two-penny damn would naturally pass into ordinary speech. This, however, is very problematical.

We don't—we quote, mind you, our contemporary—we don't care a two-penny damn for the argument about Probate.—Star.

Two-penny hop (thieves), a cheap dance.

The girl is invited to "raffles," and treated to two-penny hops and half-pints of beer.—Mayhew: London Labour and the London Poor.

Two-penny rope (popular), explained by quotation.

"And pray, Sam, what is the two-penny rope?" inquired Mr. Pickwick.

"The two-penny rope, sir," replied Mr. Weller, "is just a cheap lodgin'—house where the beds is twopence a night!"

"What do they call a bed a rope for?" said Mr. Pickwick.

"Well, the advantage o' the plan's obvious. At six o'clock every mornin', they lets go the ropes at one end, and down falls all the lodgers. Consequence is that, being thoroughly waked, they get up very quickly, and walk away."—Dickens: Pickwick Papers.

The French, have "coucher à la corde," to sleep in such lodging-houses.

Two-pipe scatter-gun (Canadian), a double-bore rifle.

"Oh, durn your rifles!" said an old settler to me. "Give me a two-pipe scatter-gun and a spike-tailed smell-damp and I'm fixed." And this gentleman's neatly expressed opinion seems to be pretty generally received.—Phillips: Wolley: Trottings of a Tenderfoot.

Two pun' ten (trade), an expression used by assistants to one another in shops when a suspected customer enters. The phrase refers to "two eyes upon ten fingers," shortened as above.

Two sevens (army), the 77th Regiment. Also "Pot-hooks."

Two-thirty. Vide FULL DRIVE.
**Two to one shop,** the pawnbroker's; in allusion, says Grose, to the three blue balls, the sign of that trade; or, perhaps, from its being *two to one* that the goods pledged there are ever redeemed. The balls are not now of necessity blue, as they appear to have been in Grose's time. The slang of the present day for this convenient banker of the poor, is "my uncle" (in France it is "my aunt," *ma tante*), and the act of pledging is to "spout" or to "pop."

**Two twos** (army), the 22nd Regiment of Foot, formerly known as the "Red Knights," from being once served out with complete suits of scarlet.

**Tyburn** (old), *Tyburn* blossom, a young thief. To preach at *Tyburn* cross, to be hung, alluding to the penitential speeches made on such occasions.

**Tyke,** a dog. This is old English, from Icelandic *tik*, a bitch, but only used now by slang-talking classes. Shakspeare uses the word (*Henry V.*).

There sat auld Nick, in shape o' beast;  
A towsie *tyke*, black, grim, and large,  
To give them music was his charge.  
—Burns: *Tam o' Shanter*.

When I got there I found it so hot, because there had been so many *tykes* poisoned, that there was a reeler at almost every double, and bills posted up about it.—*Horsey: Jottings from Jail*.

Also a countryman, clodhopper.

**Tyker,** a man who takes charge of dogs.

"Put some in your pocket, you'll want 'em on the course," observes my guide. And I sigh for the capacious pockets of the gamekeeper or the "kick" of the *tyker*, yet manage to stow a dozen or so about my person.—*Bird o' Freedom*.

**Tyler, Adam.** Vide ADAM TILER, to which may be added: this probably has no reference to a man's name, *adam* being short for *adamed*, married, united; hence in confederacy. A "mason and tyler" were swindlers in close association, the first being also called "masoner" (which see), a Yorkshire term for a bricklayer.

**Type-lifter** (printers), a term generally applied to fast composers of type.

Tzing tzing (London), excellent, elegant, dashing, synonymous with “slap up,” “chic,” but seldom heard now.

UGLIES (theatrical), delirium tremens.

Ullages, a nautical term, meaning the remainder in a cask, which has leaked; hence the wine of all sorts left in the bottom of glasses at a public dinner. Hotten suggests Latin ullus, any, but it is more probably from the French coulage.

Ultramarine (London), “blue,” that is, more or less indecent.

Woe to the cracker of a “risky” wheeze; pity the dancer of an ultramarine step, for the order of the boot is kept ready behind the bar for these offenders.—Sporting Times.

Ultray (Punch show), very; ultray cativa, very bad.

“How are you getting on?” I might say to another Punch-man. “Ultray cativa,” he’d say.—Mayhew.

Uncle (common), pawnbroker.

“Dine in your frock, my good friend, and welcome, if your dress-coat is in the country.” “It is at present at an uncle’s.”—Thackeray: The Newcomes.

We find him making constant reference to an uncle, in respect of whom he would seem to have entertained great expectations, as he was in the habit of seeking to propitiate his favour by presents of plate, jewels, books, watches, and other valuable articles.—Dickens: Martin Chuzzlewit.

Woe! woe! to that jock,
My watch is in soak,
More aid from my uncle
I vainly invoke.
I'm a wave on the sea of misfortune,
And—what’s frequent with breakers—
I'm broke!
—Turf, Field, and Farm.

It has been suggested that uncle is from uncas, a hook (French au clou, in pawn), but it is evidently derived from a jocular allusion to a fond
Uncle—Unload.

The French term the pawnbroker "ma femme" or "ma femme Dumont". (du mont-de-pléte). Also "mon oncle Du Prêt." "Oncle" is a very old word for a usurer, and also means a jailer, prisoners considering themselves as being in pawn.

Undergroinder (cricket). An undergroinder, a "daisy cutter," a "daisy trimmer," or "sneak," is a ball bowled all along the ground, without a proper pitch.

Upper Roger (Anglo-Indian), young king. "This happy example of Hobson-Jobson dialect

—Sporting Times.

Up to Dick (popular), a phrase which has become very popular of late years, having very extensive application to many circumstances. A man who is clever is up to Dick, as is one who is gifted with presence of mind. One who is well off, or rich, or generous, or wise in managing matters; also one who is quick and ready to please is quite the same. It also means to be well, satisfied, or jolly. There is a popular comic song in which all of these applications are made to the phrase. It is very evidently derived from the gypsy dikk or dikk, which is also common in ordinary slang, meaning to see, to perceive. "He is dressed up to Dick," i.e., so that it is worth while to see him, is an old popular phrase borrowed from the Romany.

When, lo! a dear relation died, Who left me lots of tin. I often think with gratitude About the dear old flick, Who left me cash to cut a dash, And set me up to Dick. Up to Dick, boys, up to Dick, At trifles never stick.
Be like me, a jolly brick,

**Up to sample** (common), equal
to anticipation, of sufficiently
good quality.

—Punch.

**Up to snuff.** Vide Snuff. Up
to snuff appears to be literally
"up to scent," and a metaphor
like "smell a rat," "up to trap,"
&c.; but it was perhaps first
popularised as meaning "stylish
enough to take snuff," when
snuff was still a luxury, and
afterwards applied to familiar-
ity with fashionable usages, &c.

**Up to the door** (popular), to the
last degree, as fine as possible.
Probably a variation of "up to
the knocker."

Yes, and we goes out respectable, I can
tell you. None of your half-and-half
turn-outs. I'm tagged up to the door,
a pair of respectable "round my owers;"
a two quid "I'm afloat," a silk "wipe"
tied round my "top-deck," and a "bruiser's
cady" on the top of the nob.—T. Browne:
Coster Joe; or, the Happy Trio.

**Up to the knocker.** Vide
Knocker. This term usually
occurs in the phrase "dressed
up to the knocker," i.e., very
elegantly dressed, which pro-
bably arose from the practice of
tying a glove to the knocker of a
house when a lady was in child-
bed, the idea of the height of
elegance being, in the popular
mind, inseparable from the
wearing of gloves, specially kid
gloves. Hence, up to the knocker,
supremely elegant, completely,
to the last degree, proficient.
"Up to the door" appears to be
a variation of this. "Kid," in its
meaning of "swell," and "kid-
dily," fashionably, in fine style,
skillfully, probably arose from a
like appreciation of the use of
kid gloves. Again, it is possible
that up to the knocker owes its
origin to the "knocker" or
breast-pin which was formerly
in fashion, and which was like
a knocker on a door.

I shall have 'em all on to-morrow—tidy
sort of weskit, cuffs, collar, and dicky—
all up to the knocker.—J. Greenwood:
Under the Blue Blanket.

**Up to the mark.** Vide Mark.

**Up to the ropes** (London), saga-
cious, knowing.

Vakeel (Anglo-Indian), a barrister.

Valley tan (American), a kind of whisky sold in the Mormon country is known as valley tan.

Valleys (pantomime, &c.), explained by quotation.

Cascades and valleys are trundling and gymnastic performances, such as tumbling across the stage on wheels and catching hold of hands and twirling round.—Mayhew: London Labour and the London Poor.

Vamos (American). The soldiers who returned from the war with Mexico brought with them several Spanish phrases, such as vamos, let us go, which they speedily changed to vamo, very properly described by Bartlett as "a curious grammatical perversion." With this came ranch, a farm; hence the popular saying, "Let us vamos the ranch."

Vamose, vamoose, to (common), to depart, run away. Vide VAMOS.

Vamp (thieves), a robbery. In for a vamp, convicted of stealing.

Vamper, a horse-dealer that "vamps" up, cobbles up a horse; that is, makes him appear sound by certain tricks and devices. Vide To VAMP.

By what process of diabolical conjuration it is contrived, it is, of course, impossible for me to say, but it is beyond dispute that in the hands of the experienced horse-vamper the most wretched used-up screw in existence may, for a brief hour or so, be made to exhibit an amount
of fire and spirit that if persisted in for a longer period would inevitably shake its ramshackle carcass all to pieces.—J. Greenwood: *Undercurrents of London Life.*

Also a thief.

**Vamping** (musical), a musical term, introduced from America.

"It means a plan of playing an accompaniment at sight, by simply knowing the key and the time to which the song is set. In the Western States men make a good living by teaching it in eight lessons, for which they charge ten dollars (£2)" *(Tit-Bits).*

The man at the shop had no guitar to sell, So I purchased a banjo, which did just as well;
The hour it was late, and the night it was damp,
But my mind was made up, and I started to vamp.

**Van-ts'ang-koon-sz** (pidgin), the Pacific Mail Steamship Company of Shanghai. An American who heard this name remarked that the Van Zang coons must be of the Knickerbocker Kuhn family to judge by their name.

**Vardo, wardo,** a waggon. According to Hotten this word is "old cant," according to fact it is old Romany, wardo being in some form or other found in all gypsy dialects. It is also applied to cards, and to a wheel, from the old gypsy vortin, a vessel.

"Awer bikdom dovo *wardo* léski Patserdo, te yív te vél kek pessur"—
"But I sold him that waggon on credit, and he will not pay (for it)."

Vaseline (Royal Military Academy), butter.

Vassavo, vessavo (gypsy), bad, naughty.

“Awer tu shan vassavo lubbeni

Vaulting-house (common), a house of ill fame. See “Ballads and Songs,” seventeenth century.

Velvet (thieves), the tongue; “especially,” says Hotten, “the tongue of a magsman.” This circumstance would support the derivation of magsman from to mag, to talk persuasively. (Common), men, especially racing men, who have succeeded in their speculations, are said “to stand on velvet.”

Ventilator (theatrical), a piece, or an actor who ventilates, i.e., empties the house. An amusing story is told of a certain tragedian, who was popularly known as the champion ventilator. While acting Othello in the Cork theatre, he became disgusted with the coldness and want of sympathy on the part of the audience. Being extremely short-sighted, the poor fellow could not distinguish whether the house was a good or a bad one, so he sent his dresser—a native of the Emerald Isle—into the pit to discover the state of the land. During his rendition of the crucial scene in the third act, his performance was of such a character that the few people who were in the pit began to struggle out. When the dresser came round at the end of the third act, his master opened fire with,

“Well, Larry, I think I had them in that act.”

“Faith, you may say that, sor.”

“Yes, I flatter myself I moved them in the farewell.”

“You did, sor; you moved them so, that, begorra, they’ve all moved out, and there’s nothing left but the binches to play to.”

That was the champion venti-

All the deuce-a-vile within.

—The English Rogue.

In old English “vill,” a village.

Vile child (Eton), explained by quotation.

Being called a vile child, the which I subsequently learnt was a very frequent term of mild reproach, and had no particular reference to the age of the individual to whom it was addressed. As a proof of this I may add that, being at Eton for the Winchester Match in 1883, I (moi-qui-vous-parle, height 6 feet 2 inches, and weight 14 stone 7 lbs.) was called a vile child for being on a committee to oppose a certain obnoxious Indian Bill! I wasn’t sorry when tea was over, although many most pleasant evenings did I afterwards spend in that room.—Polytechnic Magazine.

Village bustler (old cant), an active thief, that steals anything.

Village, the (London), a playful appellation for London.

Vim, from the Latin, claimed as American, but well known to English schoolboys,—strength, spirit, activity, pluck.

Vincent’s Law, the act of cheating at cards.
Vinegar on his oysters (American), applied to men not perfectly familiar with the minor refinements of highly civilised life.

Voker, a word found only in Hotten, who says that it is the gypsy to talk ("Can you voker Romany?"), and derives it from the Latin vocare. He was probably misled by a misprint or mis-writing of röker, räker, or räkker, being the true word. It is true that verâkava or verâkkerâra is found in continental gypsy dialects, but it is very doubtful whether it exists in England.

Vongar, wongur (gypsy), coals. Also hangars and angars (Sanskrit angara), money; angaren-gro, a tinker or smith. "It came out in the course of an examination at the Guildhall that receivers of stolen goods are in the habit of carrying small pieces of coal about with them. When they see a thief who seems to be rather shy, they will walk up to him, take out a purse, and innocently show him a bit of coal. It has been suggested that this proceeding is analogous to taking salt together among the Arabs as a sign of good faith and mutual hospitality. In several languages "glowing coals" is a slang synonym for money, e.g., French braise.

Voucher (old cant), a rogue who passed base coin.

The first was a Coiner, that stampt in a mould;
The second a Voucher, to put off his gold.
—The Twenty Craftsmen.

Vowel mauler (common), one who pronounces his words incorrectly.

Vowel, to (common), to vowel a debt is to acknowledge with an I.O.U.

Vulgus (Winchester College), explained by quotation.

The mention of a vulgus requires some explanation. Every inferior, i.e., non-prefect in the school was required every night to produce a copy of verses of from two to six lines on a given theme—four or six lines for the upper classes, two for the lowest.
This was independent of a weekly verse task of greater length, and was called a vulgus, I suppose, because everybody—the vulgus—had to do it.—T. A. Trollope: What I Remember.

**Vum** (American), a form of swearing. "'I vom!' for 'I vow!' is a euphemistic form of oath often heard in New England" (Bartlett). As the writer has heard "I vom!" innumerable times in his boyhood, he always understood it to be much more strongly expressive than "I vow." It is worth observing that, in Anglo-Saxon, vomm or vamm (peccatum, crimen, horror), and vom, full of evil, formed a malediction or curse, e.g., vome, malediction (Caedmon).

**Waddle** out of the alley. Vide Duck.

Dear Peter from my threshold went
One morning in the body,
He "dropped" me, to oblige a gent,
A gent with spear and waddy.
—H. Kendall: Peter the Piccaninny.

Waddy is also slang for any kind of stick. A young colonial will speak in joke of his walking-stick as his waddy.

Thanks, generous colonial,
Thou art very, very kind;
Now pick a thickish waddy up
And plug my wound behind.
—J. B. Stephens: The Headless Trooper.

There was an Englishman in Canton who kept a cow, with a maid to milk it, and a dog to guard it. One morning there was no milk, and the gentleman scolded his comprador or steward, who in great agitation burst into poetry and said:—

T'at cow hab die-lo,
T'at dog hab wylo,
T'at woman catchee chilo—
How can hab milk?
—The Cow and the Comprador.

Waistcoat, fœtid, a term current in 1859 for a low, flaunting, vulgar pattern.

Wake up the wrong passenger, to (popular), a phrase of American origin, and derived from railroad terminology. On long distance journeys, when travelers sometimes spend several days and nights on board a car, it occasionally happens that the attendant, not being sure of the identity of a passenger, wakes up the wrong man. The expression therefore indicates uncertainty as to identity, always meaning to catch a Tartar.

Or, at least, understand—for mere unmeaning talk her
Parch'd lips babbled now, such as "Hookey," and Walker!
She expired, with her last breath expressing a doubt
If "his mother were fully aware he was out."

—Ingoldsby Legends.

The remark which was made, after perusing the book by that eminent botanist, my friend Professor Hookey, was Walker!
—Punch.

(Popular), walker, a postman.
It was reported recently that the Prince of Wales, on calling to see Lord Tennyson at Freshwater, was denied admittance by the small page who answered the bell until he had given his name. When the Prince gave his name accordingly, the same little boy, disbelieving him, "took a sight" (q.v.), and crying "Walker!" shut the door against the royal visitor. The story is possibly apocryphal, but may serve to illustrate the meaning of the vulgarism.

Hotten gives the explanation, "An ordeal for drunkenness used on board ship, to see if the suspected person can walk on a chalk line without overstepping it on either side" (the device in the army is putting a man suspected of drunkenness through his facings); another explanation of the phrase is "a person who has run up a score or chalk at a public-house or shop, walking off without paying for it."

And if you want fresh liquor, you must pay,
For chalks too often walk themselves away.
—Albert Smith: Alhambra.

Walk over (society), when any one wins or succeeds very easily it is called a walk over. It is borrowed from racing language. When a horse walks over the course, not having any opponents in the race.

Besides his monetary advantage and personal gifts, he could sing well and talk admirably, and he was considered sure to "walkover the course."—H. L. Williams: Buffalo Bill.

The latest batch we have received are from W. Hazelberg, of Berlin and London Wall, who evidently does not intend that the English manufacturers shall have a walk over.—Sporting Times.

The police, on their part, caused it to be understood that until he was really wanted on a specific charge, a thief should in no case be interfered with, nor any measures be taken to put the public on their guard against him.—J. Greenwood: Tag, Rag, & Co.
The landlady's certain to peach
When she finds not a thing do I own.
The Bobby's come into the lane,
And somebody's wanted, I see,

But haven't found out that it's me.
—Bird o' Freedom.

Wapping. Vide To WAP.

Wap, to (old cant), futuere. Wappen is provincial English.

Ward-heeler (American), the ward-heeler is a power in American politics. He raises the money by which city elections are carried, and when some "prominent politician" is sent to prison, the ward-heeler represents to the magistrate or judge the inexpediency of weakening "the party" by withdrawing an "influential" partisan from his sphere of activity. Chiefly applied to men who solicit money, generally without authority from candidates, for electioneering purposes.

Then live on prayer,
Peace, sherbet, love, and tea.

He—"Who? Do you mean the Portuguese governor in his war-paint?"—Rider Haggard: Dawn.
Wash (printers). When a printer "slings the hatchet," that is, exaggerates or tells a falsehood, his companions proceed to wash him in a somewhat emphatic and noisy manner, by banging or knocking on their cases. This is another and older expression for "whack," which see. An apprentice coming out of his time would receive a "washing" or "jerry." See Hansard's "Typographia," 1825.

Wash one's ivories, to (society), to drink. In French slang "se rincer la dent."

Wash-outs (American), ragged, stony sides of hills.

Where scraggy-looking latitudinous wash-outs are awaiting a chance to commit a murder, or to make the unwary cycler who should venture to "coast," think he had wheeled over the tail of an earthquake. — T. Stevens: Around the World on a Bicycle.

Wash, to (common), in the sense of to do, to serve.

The conversation, as a rule, ended in Charley's giving them an order too. Of course this little "caper" would only wash once.—Hindley: Life and Adventures of a Cheap Jack.

Watcher (special meaning), explained by quotation.
Watchmaker—Waysgoose.

So I do, but not alone. Dress lodgers are never allowed to do that, sir. I haven’t been one long, but long enough to find that out. There’s always a watch. Sometimes it’s a woman—an old woman, who isn’t fit for anything else—but in general it’s a man. He watches you always, walking behind you, or on the opposite side of the way. He never loses sight of you, never fear.—Greenwood: Seven Curses of London.

Watchmaker (thieves), a thief who steals watches.

Wayzgoose (printers). Essentially a printer’s term for the annual dinner or “beanfeast.” Derived from the old English word ways or stubble, when the dinners were usually held at the season of the wheat-stubble, the head dish at these entertainments being a wayz-goose or stubble-goose. Bailey gives wayz-goose, a stubble-goose, and ways, a bundle of straw. Old
Wayzgoose—Weed.

English *waste*, a wisp. These festive occasions are usually celebrated earlier in the year now—generally July.

The master-printer gives them a *waygoose*, that is, he makes them a good feast.

—Moxon: Mechanick Exercises.

After the *waygoose*: a moment immense! Gargantuan the feasting has been.

—Bird o' Freedom.

**Weak** (popular), tea is so called in the low coffee-shops.

**Weaver**, query *wheecer*, a broken-winded horse, a "roarer." The definition given to the writer by a stable-keeper was, "a horse that over-gorges himself," probably the cause for the effect, as over-feeding, in the case of horses, often produces thick wind.

T' horse was a *weaver*, if iver one was, as any could ha' told as had come within a mile of him.—Mrs. Gaskell: Sylvia's Lovers.

Again, it is possible that *weaver* refers to a horse that rolls from side to side when trotting, one that rocks. *Vide To Weave*, and *Wobbler*.

**Weave, to** (American), to work along from one side to the other, as a shuttle flies right and left in a loom. A drunken man "*weaves along*.”

**Wedge-feeder**, a silver spoon; *wedge-hunter*, one who purloins plate from unguarded kitchens. Spelled *wage* in some old cant vocabularies, which perhaps gives a clue to the origin as meaning pay.

**Weed** (common), a cigar.

A cigar is figuratively styled a *weed*, an innovation applicable enough to the anomalous compounds of nastiness retailed at the Derby, the Boat Race, and other public gatherings, but an evident misnomer as regards the fragrant samples issuing from Mr. Benson's emporium.—Belgravia.

So you see, Mr. S., that the modest request on which you so coolly insist, Would probably to the establishment tend of a kind of gigantic free list, On which would be found every law-maker's name, and which in its limitless scope Would ensure him free shaving, free papers, free *weeds*, free candles, and pickles and soap.

—London Figaro.
Weenie (telegraph), the inspector is coming, used in the same sense as "cave."

Wejee, a chimney-pot; often applied to any clever invention, or to anything elegant, as "that's a regular wejee" (Hotten).

Welsher (common), a race-course swindler who makes bets, takes the money if he wins, and absconds if he loses.

Does the reader know what is a welsher, the creature against whose malpractices the sporting public are so emphatically warned? Probably he does not. It is still more unlikely that he ever witnessed a welsher hurt; and as I there have the advantage of him, it may not be out of place here to enlighten him on both points. A welsher is a person who contracts a sporting debt without a reasonable prospect of paying it. There is no legal remedy against such a defaulter.—Greenwood: Seven Curses of London.

The word has no connection with the natives of Wales, who are quite as honest as other people. Welsch in German argot signifies a foreigner, and roth-welsch or red-welsh, is the name applied to the canting language which thieves use among themselves. It is supposed with probability that the name was given to the brown or red-skinned gypsies or foreigners, who first swarmed into continental Europe from Central Asia. An account of roth-welsch appears as a supplement to the Dictionnaire d'Argot Français, by Francesque Michel. The word welsher, as used originally in England and borrowed from the Germans, meant nothing more than an outsider, a foreigner, one who did not conform to the established laws of honest betting, and thus shared the double odium of being a stranger as well as a rogue. Wälscher is used in German slang in a discreditable sense, being derived from wälsh, Italian, or one of Latin race, and it is extremely probable that it came into English slang through the German Jews.

Westphalia (London), the behind, alluding to Westphalia hams.

Wet (common), a drink.

Many are the schemes, contrivances, and devices of some of the old topers to obtain a wet or reviver, first thing in the morning, especially with some of those thoroughly saturated worthies who have had rather "more than 'nuff" the night previous.—Brunlees Patterson: Life in the Ranks.

The gas-glare—the horse-play—
The fume and the fret—
Have ceased, with the fever
That asked for a wet—
With the Jubilee fever
Demanding a wet.

—Punny Folks.

Oh, come,
We have no Wilfrid Lawson in Sicily yet;
All my Cyclops would strike. Yes! I'm game for a wet.

—Punch.

A wet night, a night of hard drinking.

As he knew he should have a wet night, it was agreed that he might gallop back again in time for church on Sunday morning.—Thackeray: Vanity Fair.
Wet-bob (Eton), explained by quotation.

It was the ambition of most boys to be a wet-bob, and to be "in the boats." The school was divided between wet-bobs and dry-bobs, the former taking their pleasure on the river, and the latter in the cricket-field.—C. T. Buckland: Eton Fifty Years Ago.

Wetherall, general in command (army), a term used when inclement weather prevents a parade. The health of the troops, from economic and prudential reasons, is always closely watched, and medical officers are always ready to interpose even when the commanding officer does not of his own motion yield before cold and wet.

Wet quaker, a man who pretends to be religious, and is a dram-drinker on the sly (Hotten). In America a wet quaker is a quaker who is limp or loose as regards observing the rules of the sect—one who is worldly-minded, not "dry" in religion.

Would you buy any naked truth, or light in a dark lanthorn? Look in the wet quaker's walk.—T. Brown's Works.

Socinians, and Presbyterians, Quakers, and wet quakers, and merry ones.—Ward: England's Reformation.

Wet, to (common), to have a drink. The same idea occurs in French slang: "se mouiller."

Greatly as I stared to see him, my surprise I cannot forget.

When he paid me all he owed me, and invited me to wet.

—Funny Folks.

Also wet one's whistle or throttle.

"Well, as we have nothing to eat," said old Brooke,
"I move that each man wet his throttle; My hand I can place in a snug little nook, And fork out the housekeeper's bottle."

—H. J. Whymark: The Bachelor's Dinner.

(Navy), wetting a commission, giving an entertainment to shipmates on receiving promotion. Among French soldiers "arrosser ses galons" is treating one's comrades on being promoted to the rank of non-commissioned officer. Some of the synonyms for "to drink" are "to have a gargle, a wet, a dram, a quencher, something damp," "to moisten one's chaff," "to sluice one's gob," "to lush," "to liquor up," and the American phrases "to smile," "to see a man," &c.

Whack (general), a share. Scotch sweg or swack.

This gay young bachelor had taken his share (what he called his whack) of pleasure.—Thackeray: Shabby-Genteel Story.

He complains of the food, and that he doesn't get his whack.—Moonshine.

So when we got there, there was some reelers there what knew me, and my pals said, "You had better get away from us; if we touch you will take your whack just the same."—Horsey: Jottings from Jail.

To go whacks, to share.

"You agreed that we should go whacks in everything," I pleaded, appealing to his sense of justice, since I could not succeed in touching his generosity.—Greenwood: The Little Ragamuffins.

(Printers), whack! a very common and decided expression of
doubt or query to a companion's assertion. Generally a polite way of giving the lie direct.

**Whacker** (common), anything very large, identical with "whopper."

Used in the phrases mule-whacker, bull-whacker, bush-whacker.

"How kind of them," says he, "to gi'e me 'em,
Since they're at such a whacking premium."

—Atkin: *House Scraps.*

**Whack,** to (general and American), to share.

As far as he was able to speak, it was the "new hands" who went in for revolvers, and not the old ones, who worked in "co. and on the sound, old-fashioned principle of "sharing the danger and whacking the swag."—J. Greenwood: *A Converted Burglar.*

To whack up on the square, to share fairly.

He was trying to beat them out of their share of the swag. He ought to have whacked up on the square.—*Wall Street News.*

Whack up, share or hand up.

Clap a stopper on your gab and whack up, or I'll let 'er speak!—*Detroit Free Press.*

**Whacky** (tailors), one who does anything ridiculous.

**Whale** (Cheltenham College). Codfish, sardines, are called *whales* at the Royal Military Academy. (Common), anchovies on toast. "Very like a whale!" very much like a cock and bull story. From Shakespeare, *Hamlet.*

**Whale away,** to (American), to preach, talk, or lecture away continuously or vehemently. Probably from provincial English to *whale* (wale), to beat soundly, as of an orator's animated gestures, or by association from the common saying, "Going ahead like a whale." The association of greatness and strength with a *whale* led in the New England seaport towns to many comparisons and origins of this kind. Thus a powerful and large man was called "a regular whale," and "a whaler," while anything large and overwhelming was "whaling."

**Whaler** (American), anything of great or unusual size. Provincial English *whaler,* one that beats, a big strong fellow.

**Whang-doodle** (American). This eccentric word first appeared in one of the many "Hard-Shell Baptist" sermons which were so common in 1856. "Where the whang-doodle mourneth for her first-born." It refers to some
mystical or mythical creature. It was subsequently applied to political subjects, such as the Free Trade, Lecompton Democracy, &c.

**Whare (New Zealand), a hut.** The word is used by the settlers in New Zealand, and is a native term.

**What's the ticket on it? Vide Ticket**

**Wheeler (cycling),** a cyclist.

**Wheel of life, the (prison), the tread-wheel. Vide Everlasting Staircase.**

**Wheels (cycling),** a bicycle or tricycle.

**Wheeze (common),** a comic gag, a funny bit of "business," a joke. Possibly from wheeze, a puff.

Alas! at times on nights like these
Poor is the plot and weak the wheeze,
And the only pleasure one extracts
Is 'tween the acts—yes, 'tween the acts.

"Swell vernacular"? Swells don't invent it; they nick it from hus, and no kid. Did a swell ever start a new wheeze? Would it 'ave any run if he did? Let the ink-slingers trot out their kibosh, and jest see 'ow flabby it falls. Bet it won't raise a grin at the bar, bet it won't git a 'and at the 'Alls.

—to crack a wheeze, explained by quotation.

To crack a wheeze is to originate something smart, or to say something at the right moment, whether original or borrowed.—*Globe.*

**Wheeze, to (thieves),** to say, inform, as of one speaking under one's breath, in husky tones. The synonyms for inform are "to squeal, to scream, to blow, to whiddle."

And drill well for a win.

—*English Rogue.*

Also a falsehood.

Even ministers they have been kenn'd,
In holy rapture,
A rousin' whid at times to vend,
And nail 't w' Scriptur.

—*Burns: Death and Dr. Hornbook.*

In the first edition of Burns the word whid did not appear, but instead of it—

"Great lies and nonsense baith to vend."

"This was ungrammatical, as Burns himself recognised it to be, and amended the line by the more emphatic form in which it now appears" (Dr. C. Mackay, "A Dictionary of Lowland Scotch"). Burns also uses the word with the mean-
ing of frisking about, gambols. “Hence,” says Drennan, “it is obvious how whid applied to statements could come to mean a lie.” The transition to “word” is easy, and the origin of whid might be thus traced; gambols (akin to said, as in the line “an arrow whidderan,” i.e., scolding), hence a lie, hence a word. It is now-a-days used with the signification of word, falsehood, joke.

The whids we used to crack over them. —Hindley: Life of a Cheap Jack.

Whiddle, to. To Hotten’s definition, to enter into a parley, or hesitate with many words, must be added, to divulge; “he whiddles the whole scrap,” he tells the whole secret. Whiddler, an informer, who betrays the secrets of the gang. Vide Whid.

Whip (parliamentary), a contraction of whiper-in, a member of the House of Commons whose duty is to collect his party and bring them to divisions.

Dickens, in “Sketches by Boz,” tells us how “Sir Somebody Something, when he was whiper-in for the Government, brought four men out of their beds to vote in the majority, three of whom died on their way home again.” —Cornhill Magazine.

They curse the nation that declines to believe their lies or to be influenced by their cant, they curse their whofs, they curse their leaders, and they curse their fate. —Truth.

Also a notice requesting attendance at a division.

A four-line whip has been issued by the Government in opposition to the second reading of Lord Dunraven’s Bill for the reform of the House of Lords.—Standard.

(Printers), quick setter of type. (Army), after the usual allowance of wine is drunk at mess, those who wish for more put a shilling each in a glass handed round to procure a further supply (Hotten).

Whip-jack (old cant), a vagabond who begged for alms as a distressed soldier. Also freshwater sailor. Swaddlers, Irish toys, whip-jacks.—Oath of the Canting Crew.

Whipper-snapper (popular), a youth, stripling, or youngster of precocious tendencies.

Whipping: Vide Whip.

Whip-round (common), a subscription for a man in distress, or for a drink.

Whipster (thieves), a sly, cunning fellow.

Whip-sticks (Stock Exchange), Dunaberg and Witepsk Railway Shares.

Whip the cat, to (old cant), has reference to mechanics idling
their time, "derived from the practice of bricklayers' men, who, when repairing the pantiles, sneak into the adjacent gutters, pretending to be in pursuit of and whipping the tom cats and their murr rows" (Jon Bee). It is worthy of remark that the French use the phrase "il n'y a pas de quoi fouetter un chat," referring to a trivial offence; hence "j'ai d'autres chats à fouetter," I cannot waste my time on matters of such little importance. But the true derivation is from idling the time away at "whipping the cat," i.e., playing tip-cat. To *whip the cat* is modern working-men's slang for shirking work and enjoying oneself on a Monday. (Carpenters), one who does private work by the day. (Tailors), working at the houses of the people for whom the garments are being made. This custom is now almost obsolete, owing to the cheapness of ready-made garments. It is very prevalent in France in the case of semp-stresses.

Whip the devil round the stump,
to (American), probably older English, also, to evade, equivocate, say one thing, and virtually do another. Very common in New England, particularly in Maine, where the devil is whipped around the temperance stump in innumerable ways. There are several English uses of the word *whip*, all implying something round-about, equivocal, or dishonest. Thus to *whip* is generally used to express anything dishonestly taken. It may be observed that there is an old negro camp-meeting hymn in which these lines occur—

Oh, *whip de débil roun' de stump,*
Prayer and gospel make him jump.

In this the reference is to justifiably and properly deceiving the devil himself. It is possible that this may be the original source of the expression.

**Whip, to** (popular and thieves),
to swindle.

It was I who got the money, and I swindled one of my confederates, pretending I got only a few shillings. This is a common practice amongst thieves, and is called in criminal parlance whipping. I have whipped many and have been whipped a few times myself.—*Joe Bragg: Confessions of a Thief.*

A naïve confession was made by a woman in the Thames Police-court to-day. The prisoner by way of defence said it all arose out of what happened a fortnight ago, when she and Scully robbed a sailor in Devonshire Street, and Scully was guilty of what is known in Billingsgate as whipping—that is, keeping part of the plunder.—*Pall Mall Gazette.*

**Whishter** (circus), the man with the whip, or the ring-master. The one who superintends the performances, who starts the horses, and acts as interlocutor with the clown.

Whist (Hibernian). "Hold your whist," i.e., hold your tongue, is an Irishism which has passed into English slang. In gypsy whistlers mean lips.

This plea, for "little games" like chess and cards,
The Speaker hath (not chess·tingly), dis-carded,
And so the Members whom St. Stephen’s guards
Are doomed, it seems, to pine all disregarded.
But though with chess they mayn’t the hours improve,
They still to "hold their whist" are not commanded;
Moreover, they’re still up to many a "move;"
And are not for a "nap" entirely stranded—
Besides, while bent on legislation’s aims,
In "rowing" they keep up their "little games."

—Fun.

Whistle, a very ancient slang word for the throat or gullet.
"To wet one’s whistle," is to take a dram, or a drink. More correctly "to whet one’s whistle," which phrase has its exact counterpart in the French slang expression "‘s’affîter le siflet."
The expression is found in Chaucer, who says of the Miller of Trumpington’s wife in his "Canterbury Tales":—
"So was hir joly whistal well y-wet."

Whistle and ride (tailors), work as well as talk.

Whistler (horse-dealers), a horse that breathes hard.

He therefore excited plenty of bidding when put up for sale afterwards, and although a whistler, is worth the 520 guineas at which he was knocked down.—The County Gentleman.

—Frisky Molly’s Song.
And when we come unto the *whit*,
For garnish they do cry;
We promise our lusty comrogues
They shall have it by and by.
Then ev'ry man with his mort in his hand,
Is forced to kiss and part;
And after is divorced away
To the nubbing-cheat in a cart.
—The Life and Death of the Dark-man's Budge.

Originally Newgate Prison.

There are three housebreakers that are lately come out of the *whit*.—Hitchin: A True Discovery.

Probably a form of *white*, as in Whitenshtide.

**White**, "as a slang term for blame or fault (Grose), as in the phrase 'You lay all the *white* off yourself,' or to *white*, to blame, is a corrupted form of the old English and Scottish *wite* or *wyte*, Anglo-Saxon *witan*, to know (something against one), to impute; O. H. German *wizan*. Cf. *twit*, from Anglo-Saxon *edwitan*, old English *wite*, a fine or punishment; Anglo-Saxon *wite*, Icelandic *viti*" (A. S. Palmer). To *white*, to blame.

"You lean all the *white* off your sell," i.e., you remove all the blame from yourself.—Ray: North Country Words.

Alake! that e'er my Muse had reason,
To weep her countrymen with treason.
—Burns: Poems.

**White-boy**, a term of endearment in the seventeenth century for a favourite child or young man.

I am his *white-boy* and will not be gull'd.—Ford: 'Tis Pity, &c.

The name was assumed in Ireland early in the present century, during the agrarian outbreaks, prior to the days of Daniel O'Connell, Smith O'Brien, Mr. C. Stuart Parnell, and the dynamiters. (American), disinterested, whole-souled.

A good fellow is Rayner, as *white* a man as I ever knew.—The Golden Butterfly.

**Whitechapel** (common), anything mean or paltry. (Billiards), to do *whitechapel*, to pot your opponent. (Cards), *whitechapel* play. At whist playing off all the winning cards without skill or plan. It used to be called bungay play in Norfolk. (Popular), *whitechapel* is a term used in tossing when "two out of three wins." *Whitechapel* fortune, a clean gown and pair of pattens. *Whitechapel* brougham, a costermonger's donkey-barrow.

**White choker** (common), a white tie.

Not only were *white chokers* seen in every part of the house, including the topmost gallery, but ladies in low dresses were content to brave the draughts of the pit.—Daily Telegraph.

A parson, from the white tie. On the resignation of his benefice by a divine still in the prime of life, he said at a farewell meeting that he had no intention of giving up the white tie. This a local journal printed as the white *tie*. 
**White**

White eye (American), maize whisky, so called all over the United States.

White-horsed in (tailors), having procured a place by influence.

White jenny (popular), a silver Geneva watch, or any silver watch of foreign manufacture. Called by thieves a “white clock,” or “white 'un.”

White man’s hansom woman (West Indian), a black mistress.

White Mary (blackfellows’ lingo). The Australian blackfellows who come in contact with “stations” of the white men have a regular slang of their own. White Mary is their generic name for all female cooks, just as it is always “Mary, the maid of the inn,” in England.

Blucher, as usual, had marched into the room on the morning in question, coolly ignoring the remonstrances of the irritated woman, when, her passion getting the better of her, she made a rush at him with the poker, which perhaps she had heated on purpose, and touched him on the bare leg—for, like all his race, when not on horseback, he doffed his trousers and boots, and wore nothing but a Crimean shirt. The pain of the wound was as nothing to the indignity. With a bound he rushed into the “Cawbawn Humpy,” his eyes flashing with insulted pride, exclaiming, “Missus Fitzgell, White Mary cook, 'un me,” pointing to his leg.—A. C. Grant.

White mice (pidgin), Chinese babes of the poorest class. When blind they are called blind mice. It is very generally believed in China, and often said by Chinese who know better, that European missionaries buy white mice in order to make medicines or charms for sorcery out of their eyes.

White-poodle, a woolly, shaggy kind of cloth.

Peter wore a white-poodle upper Benjamin of his own make.—J. Wight: Mornings at Bow Street.

White prop (thieves), a diamond pin. Also “sparkle prop.”

White, smooth (popular), a shilling.

With him half-crowns were half-bulls, and shillings smooth whites.—Living Pictures of London.

White stuff (street, strollers, &c.), silver. Also “white wedge.”

White tape (popular), gin. Also “white satin.” These terms for spirits, white tape, “red tape,” “lace,” &c., most probably originated in the practices of some of the “driz fencers,” or sellers of cheap lace, who carried about their persons “jigger stuffs,” or spirit made at an illicit still. “They sold it, I’ve heard them say, to ladies that liked a drop on the sly. One old lady used to give three shillings for three yards of ‘driz,’ and it was well enough understood, without no words, that a pint of brandy was part of them three yards” (Mayhew).

Jack Randall, then impatient, rose,
And said Tom’s speech was just as fine

By that genteeler name "white wine."
—Randall: Diary.

White trash (American), used by
negroes to a white man as a
term of opprobrium.

White 'un (popular and thieves),
a silver watch, a shilling.

Then her eyes fell on the present, and she
felt a most unpleasant
Sort of shock, which made her rave, and
swear, and sob.
And her heart began to sicken, for, alas!
it was no "thick 'un,"
'Twas a white 'un—or, in other words,
a bob?
—Sporting Times.

Whitewashed and fenced in
(American). This is a very
common phrase applied sarcastically
not only to towns whose in-
habitants are vain of the beauty
or other merits of their "place,"
but even to people themselves.
It implies a sense of exclusive-
ness, pride, and hauteur, which
is of all things most detestable
to the Western American. Thus
Bostonians, from their noted
conviction of the superiority of
"the Hub" as regards culture,
are often asked if it is not yet
fenced in. To explain the fol-
lowing illustration taken from
the Pittsburg (Pennsylvania)
Dispatch, it must be under-
stood that the dwellers in the
"Birmingham" of that state
are supposed to be extremely
ambitious.

"A few days since a verdant Oleander
was searching through the city for a pur-
chaser for a raft of lumber which he had
tied up near Saw Mill Run. On the wharf
he learned, much to his gratification, that
the Burgess wished to buy a very large
quantity of lumber. But when he had
found that official he was informed that
he was certainly mistaken, the Burgess
wanted no lumber. 'Why,' replied the
Oleander, 'a man in Pittsburg told me
that you wanted all that could be had to
fence in the town.' And he left, not
understanding why there was a roar of
laughter from all present."

White wine (old slang), gin. In
"A Picture of the Fancy," the
old slang names for gin are
thus amusingly grouped to-
gether. "The squeamish fair
one, who takes it on the sly,
merely to cure the vapours,
politely names it to her friends
as white wine. The swell chaffs
it as blue ruin, to elevate his
notions. The laundress loves
dearly a dram of Ould Tom,
from its strength to comfort
her inside. The drag fiddler
can toss off a quartern of max
without making a wry mug.
The costermonger illumines his
ideas with a flash of lightning.
The hoarse Cyprian owes her
existence to copious draughts
of jackey. The link-boy and
mudlark, in joining their brows
together, are for some stark
naked. And the out-and-outers,
by the addition of bitters to it,
in order to sharpen up a dis-
sipated and damaged victual-
ing office, cannot take anything
but fullers' earth."

Whittled (American), drunk.

Unquestionably Americans may evince
a disposition to whistle without first getting
whittled.—Cowboys and Colonels.

Also used in England.
Whole—Whyos.

Whole boiling. Vide BOILING.

Whole-footed, whole-hearted, and whole-souled are now cant, though once possessing a legitimate meaning. Says the Philadelphia Age, "Any devising man who invites a crowd to 'drinks all round' is instantly praised as a whole-footed man, and the calculating man who gives a piece of land for a church, with a view to the enhanced value of the adjoining lots which he retains, appears in the newspapers as a noble, whole-souled gentleman, whose liberality will earn him the thanks of his countrymen and the gratitude of coming generations."

Whole kit and biling (American), all, all the company.

Go 'long now, the whole kit and biling of ye, and don't come nigh me again till I've got back my peace of mind.—Mark Twain: Adventures of Huckleberry Finn.

Whole team, and a little dog under the waggon (American).

This synonym, for completeness in every detail, is equalled by "a six-storey house—and a lightning rod." Vide TEAM.

Whoop it up (American), to keep up an excitement, such as hurrahing, gambling, or drinking.

Midnight is called the whiching time of night, because at that hour it is sometimes difficult to determine which to do, go home or whoop it up larger.—Life.

Whopper (colloquial and vulgar), anything large, applied especially to a monstrous lie. Whop, to beat; hence a whopper, one that beats anything. Originally "whapper."

When once you've passed the door—"Was you ever here before?"

Is the question that the cove on duty asks you;

But you've got your answer pat, and you won't be such a flat

As to let a little crammer flabbergast you. Check it proper—tell a whopper.

—J. Greenwood: A Night in a Workhouse.

Whop-straw (popular and thieves), a countryman.

Who's your hatter? Formerly a street catchword.

I shall not be surprised if the arrangement in black—this decorative tile which you describe—does not revive the now almost forgotten slang question, the sport of a bygone day, "Who's your hatter?"

—Punch.

Whyos (American), a name for a large gang or class of the lowest villains and vilest desperadoes in New York.

The young men against the walls in the street were Whyos—that is to say, members of the most desperate gang of thugs and thieves in town—and Baxters, which is the name of the band from which the Whyos are recruited, a mob of boys, between fourteen and seventeen, too young to have the nerve needed to be a Whyo.

... They were Whyos, also—pickpockets dressed to mingle in the crowds at the best up-town hotels and at the races and on the avenues, so as to drain fatter pockets than ever stray into Park Street, unless they bring them there after a night's work. They did not look like villains. ... Bezie Garity was a typical Whyo girl. She was almost worshipped by the gang, she was so strong and coarse
and violent and depraved. . . . When she felt amiable she gave exhibitions of what she called her "nerve." At such time she planted herself squarely on her feet and challenged the strongest Wyke to hit her in the face with all his might.—Philadelphia Press.

Wide (thieves), well-informed, clever, short for wide-awake.

It was while I was with him that I got in company with some of the widest people in London.—Horsley: Jottings from Jail.

The bookies had been wide, and the plunger homeward hied, O'erladen he with champagne cup and sorrow.

—Sporting Times.

Cabby has none—cabbies are far too wide,
So, after lots of hunting, and much bobbery,
I pay two shillings for a half-mile ride:
I call it robbery.

—Punch.

Wide-awake (common), a broad-brimmed felt or stuff hat. "So called," says Hotten, "because it never had a nap, and never wants one." This word is so universally used as to be almost recognised.

Widdle, to (thieves). "Oliver don't widdle," the moon does not shine. Literally, does not inform upon us. Vide WHIDDLE.

Widow, the gallows. In French slang "la veuve," now the guillotine, was formerly the gallows. "Epouser la veuve." Widow and "veuve" originally were terms to designate the rope or halter, in allusion to a metaphorical marriage knot, or wedlock with a widow of many husbands.

However, the Rev. A. S. Palmer thinks that widon, as a slang term for the gallows, is no doubt the same as Scotch widdle, a halter made of a flexible branch of withes, but this is very doubtful indeed.

(American), a grass widow, a wife a long time separated from her husband, or who has been deserted.

Wife (prison, old), a fetter fixed to the leg.

Wife in water-colours (society), a wife "de la main gauche." The French talk of an unmarried couple living as man and wife as "un collage à la d'trempe," which is a very close rendering of the English phrase.

Wigster (theatrical), a wiggy actor—an actor whose theory of art is bounded by the idea of making his head a wig block.

Wig, to (pigeon-fanciers), to post a scout on the route of flight in a pigeon race with a hen pigeon, to attract the opponent's bird and retard his progress.
Wild (old cant), the country, a village. Wild is frequently used by old authors for the “weald” (old English woeld, wald, open country) of Kent, as if it meant a wild or uncultivated region, a wilderness (Palmer). I was borne in the wyld of Kent.

—Lyly: Euphues.

Wild-cat villages (American), places with odd names. The following are all in existence:—

Wild-cat villages—continued.

Wildreds (popular), teetotallers.

Fill the bumper, crack the joke, We’re not Wildreds.

—Punch.

This has reference to Sir Wilfred Lawson, M.P., the great teetotal champion.

William (common), a jocose term for a bill.

Willow (cricket), a bat; from the material.

Wilt, to (London), to run away.

Win, wyn (old cant), a penny. Suggested to be connected with Welsh gwyn, white, i.e., the silver penny. Some thirty years ago in France pennies were termed “blancs” or “rouges,” according to their more or less dark hue.

If we niggle or mill but a poor boozing-ken, Or nip a poor bung with one single win, Or dup but the gigger of a country-cove’s ken, Straight we’re to the cuffin queer forced to bing.

—T. Decker: The Beggar’s Curse.

Wind-jammer (popular), a player on a wind instrument.
Wind-jammer—Wipe.

Wine, a (University), a wine-party. A wine consists of dessert, wine (usually only port, sherry, and claret, but at very big wines champagne), and tea and coffee later on. Wines are generally confined to men of the same college. It is unusual to ask out-college men to a wine without asking them to dinner also.

Wing (prison), a small piece of tobacco.

A piece as large as a horse-bean, called a “chew,” is regarded as the equivalent for a twelve-ounce loaf and a meat ration, and even a morsel—a mere taste that can only be laid on the tongue and sucked like a small sweetmeat (it is called a wing, and is not larger or of more substance than a man’s little finger-nail), is “good” for a six-ounce loaf.—J. Greenwood: Jail Birds at Large.

Also a “wing of snout,” “wing of stuff.”

I had a screw who would sling a wing of stuff, and so long as I had a bit of tobacco and did not hear a woman’s jawing, I was merry comfortable.—Evening News.

Cold, callous man!—he scorns to yield,
Or aught relax his felon gripe,
But answers, “I’m Inspector Field!
And this here warmint’s prigg’d your wipe.”

—Ingoldsby Legends.

To see him splitting away at that pace
. . . and me with the wipe in my pocket
crying out arter him.—Dickens: Oliver Twist.

“As a matter of fact, I had my handkerchief in my pocket all the time, and I have it still,” he said, producing a bloodstained wipe, with which he had sopped up the blood from his face on Bloody Sunday.—Pall Mall Gazette.

Also a blow, as a wipe on the kisser, across the chops, &c.

Wipe out, to (American), signifying to extinguish, is taken from the Pawnee Indian language. It
means to defeat, to destroy. Imported from America. “To wipe one’s eye,” to shoot game which a person has missed, as if correcting defective vision by wiping watery eyes. Hence to obtain an advantage by superior skill.

She had what is called a bow-gun when she was six years old, a rifle when she was nine, and from that time she has gone on shooting turkeys, red-heads, wild cats, cotton-tails, and pigeons, “wiping the eyes” of the boys along the Pacific Coast, and making her name celebrated, until Colonel Cody secured her for his show.—Bailey’s Monthly Magazine.

Wire (popular), a telegram.
The boots’ brother knowed him in Birmingham, and ’as got the tip direct from the stable. He is going to send us a wire from the course.—Bird o’ Freedom.

(And Harvard University), a trick or dodge. A pickpocket.

His fingers were very long, and no lady’s could have been more taper. A burglar told me that with such a hand he ought to have made his fortune. He was worth £20 a week, he said, as a wire, that is, a picker of ladies’ pockets.—Mayhew: London Labour and the London Poor.

Wolfer (common), a man with a large appetite, or a hard drinker.

And a great, sad silence fell upon the crowd; for then, and not till then, did they realise what unwarrantable liberties they had been taking with their internal organisations, and everybody wished that they had been born an elephant or a megadosaurus, or something with a similar capacity for the storage of liquors, until confidence was restored by the reassuring remark of an adjacent whisky wolfer—“But it stretches, gentlemen, it stretches!”—Bird o’ Freedom.

Wolf, to (common), originally to ingurgitate ravenously, but now with extended meaning of simply to eat.

And then it transpires that Skipper Hammett is chewing bacca, and that Shifter has wolfed all the brandy. This is a cold world.—Sporting Times.

It was generally considered that Cus-tance, who was on Comforter in the City and Suburban of 1860, was wolfed by Wells on Lord Nelson, who made a dead heat of it, Comforter winning the decider. —Bird o' Freedom.

To wolf is said to be of American origin. The derivation is obvious.

Wood (clerical), the pulpit.

Wood-and-water Joey (Australian), a hanger about hotels.

Wood-butcher (tradesmen), workmen who have not thoroughly learned their business as carpenters or joiners.

Counting carpenters and wood-butchers together, it is estimated that about 20,000 men make their living in London as carpenters and joiners. Of these nearly 5000 are of the wood-butcher, or inexpert workmen class, and therefore do not belong to the trade societies.—New York Herald.

Wooden fit (popular), a swoon.

Wooden spoon, the last man in the mathematical tripos at Cambridge is generally referred to as the wooden spoon of his year; a common wooden spoon is often actually presented to him by the undergraduates in the gallery of the Senate House. When two or more "last" men are bracketed together, the group is termed the spoon bracket.

Winning perhaps eventually the wooden spoon, or worse, being utterly ploughed.—Morning Advertiser.

Spanish undergraduates wear a wooden spoon in their hats when in full costume, perhaps an allusion to the intellectual food provided by Alma Mater, but more probably from a custom of poor students in the Middle Ages, who often, like the old French poet Villon, associated with vagabonds, such as are depicted by Teniers with a spoon stuck in their hats. In France the practice still exists among tramps or other low class of people. This would tend to show that the university custom has been handed down from the Middle Ages. In the sixteenth century the "Chevaliers de la Cuiller" were an association formed by noblemen of Vaud who had boasted of eating up their enemies the Genevese, but to this of course is not due the origin of the ornamental spoon.

Wooden wedge (Cambridge University), the last name in the classical honours list at Cam-
Wood—Wool.

bridge. From the name of a wrangler named Wedgewood, who was the last on the list of the first classical tripos in 1824.

Wool (popular), hair. "Keep your wool on," don't get angry, literally an intimation not to tear one's hair; or, more probably, to keep one's wig on. Compare "Dash my wig!" expressive of disappointment or angry excitement, which must have originated in the frequency of persons dashing their wigs in anger to the ground when it was the fashion to cover the shaven pate with that ornament, an act far more convenient than tearing the hair. (Pugilistic), pluck, courage. "Woolled 'un," or a rare "wool-topped 'un," a man of great courage. Said to be in allusion to coloured heroes of the prize-ring.

Wool-bird (popular and thieves), a sheep or lamb. French thieves call a sheep laine.

Wool-hole (popular), a very old synonym for the workhouse. Perhaps more used by printers than any other class of workpeople. Savage, 1841, quotes this term.

Wool is up, times are good; wool is down, times are bad (used by up-country slangy Australians). Wool being the staple of Australia, it is easy to see how a phrase, which at first was applicable only to the fortunes of the wool-growers, gradually passed into a metaphor.

Bother! how can I go steady, I'm worth thousands—wool is up.

—I Garnet Walsh.

I go where wool has gone—down, ever down.

eyes," is very old, and to be found in the Hildebrandslied.

As soon as I showed my money, he put his hands on me, and said he was a special officer in plain clothes. Low trick—wasn’t it. Yiu (Punch and Judy), a street. Query French "ru"?

Yob, boy. An example of back slang largely used by costermongers, which simply consists in spelling (more or less accurately) words backwards. Thus, "Hi, yob, kool that enif elrig with the nael ekom. Sap her a top o'reeb or a tib of occabot," is  "Hi, boy, look at that fine girl with the lean moko (donkey). Pass her a pot of beer and a bit of tobacco." The art or merit of this form of slang consists in the rapidity, often most remarkable, with which words can be reversed. Thus Mayhew, wishing to test the skill of a professor of the art with a word not in common use in the market, asked a coster friend what was the back slang for hippopotamus. At once he answered "sumatopoppy." Back slang largely mingles with the older and more legitimate argot or thieves' slang.

Yob-gab (costers and thieves), boys' talk. This is a jargon used by costermongers, thieves, and tramps to enable them to talk about their doings without being understood by the uninitiated. It is seldom if ever seen written or printed. The "language" is simple enough, and when the key is known there is no difficulty in talking oneself, or in understanding the talk of others. The simplest form of yob-gab is the spelling of words letter by letter, with the addition of a consonant after each vowel, and a vowel after each consonant. Thus legs is li-et-gi-si; but as any vowel or consonant may be used, the same word may be expressed in several different forms; thus la-el-go-su, le-em-gu-so, lo-es-ga-se, lu-es-ga-so. Man is represented by mu-al-nu, mi-at-ni, mo-ad-no, and so forth, through numberless variations, which make the jargon more puzzling to any one who hears it spoken, the same word being varied at the will of the speaker. The jargon is easily learned, and amongst costers and their children it was, a quarter of a century ago, quite common, and teachers in the Ragged Schools in Kent Street, and the Mint in Southwark, and the district visitors got quite familiar with it, through hearing it in use by both parents and children.

Yokuff (thieves), a kind of back slang, or anagram, for coffer, that is, a box, chest.

Another friendship severed.—Bird o' Freedom.

(American), this slang phrase has actually given a name to a settlement in the north-west.

Vide Wild-Cat Villages.

You bet your buttons! (American), said of a man who will play at a gambling-table so long as he has money.

"You bet your buttons!" murmured Squito proudly, "Sam'll stay with 'em as long as he's got a check."—F. Francis: Saddle and Moccasin.

You can find me whenever you do; and you'll find me heeled, too, you bet your sweet life.—F. Francis: Saddle and Moccasin.

You fasten on (common), synonymous of "you go on."

You'll do! (American), uttered with a strong accent on the you'll. A strong approval, a declaration that the one addressed can take care of himself or hold his own, a note of admiration. In a police report in a Michigan newspaper, a vagrant brought before the mayor, being asked what caused the wound on his nose, replied, "I fell down and stepped on it." Being required to pay a fine, he produced a bank-bill, which he assured the magistrate was the last fragment of an immense fortune left to him by a fond and devoted uncle. He was, in short, so prompt with his replies, and showed such "a healthy indifference" to his adversity, that the magistrate dismissed him, exclaiming in admiration "You'll do!" "I'll do" is also commonly heard when a man is confident of his ability to succeed in anything, or to take care of himself.

And like a rat without a tail,
I'll do, and I'll do, and I'll do.
—Mackbeth.

Your uncle (American), an equivalent for "I."

But as for myself I am sorry to say That I really don't know what it means. There is only one phrase I can safely employ, When a widow invites me to tea, I wink my left eye and I simply reply, You've fixed it up nicely for me. —Robert Johnson: Ballad.

Zoyara (American), an effeminate young man, a lady-gentleman, a "Molly." In 1860-61 there was a young fellow whose name "on the slangs" was Zoyara, a circus-rider, who affected the dress and airs of a girl so well that it was the town-question in New York for some time as to what the sex of the "phenomenon" really was. Of course every circus in the United States had for some time after a Zoyara.

The London Globe having inquired why the stage names of female acrobats and circus-riders so generally begin with Z, a correspondent (C. G. Leland) remarked that they are, as in Zazel, Zaniel, Zoes, derived from Hebrew or Yiddish words meaning devil or goblin.
